

Everything Worth While in Sport is Gathered Here

Famous Flandreau Indian Team Will Not Play Football in 1906

THE FLANDREAU, S. D., INDIAN SCHOOL WILL NOT PUT A FOOTBALL TEAM INTO THE FIELD ANOTHER YEAR, BUT WILL DEVOTE ATTENTION TO BASEBALL.

MAJOR MILLER IS TO SAIL ALOFT

Victim of Fitzsimmons Press Agent Will Leave the Earth.

Journal Special Service.
New York, March 7.—Saturday's prize competition between Aeronauts Stevens and Levee at Pittsfield, Mass., is to be followed by a flight between this city and Franklin, Pa., by Major Miller of Franklin, Pa., for a \$20,000 wager.
Major Miller, who has recently become enthusiastic over ballooning, is very wealthy, owns several famous racing autos and recently was the victim of a press-agent's scheme that rehabilitated Fitzsimmons as a football favorite after his defeat in San Francisco.
The major is having the balloon and airship built by Stevens at the latter's balloon and airship works. It is to be of immense size and will carry a forty-horsepower gasoline engine. The major is boasting of his airship and remarking on how Franklin folks would stare when he came sailing down upon the new ball grounds in his new craft, whereupon a listener remarked: "But you'll be a million miles away from New York to this burg."
"You're right," said the major quickly. "Here's my paper for \$10,000. Take it around to the bank and get it certified." The certified checks of the letters were given to the stakeholder.
Major Miller was one of the first men to join the Aero club of America. At Franklin he is having constructed a new house, the house of his life, and is building a house of 145 feet long by 45 wide and 45 high. It will be built upon a turntable such as locomotives are reversed on, that will permit the swinging of the aeroplane to take advantage of the wind coming from any direction and he is busy in launching the airships. Besides, Major Miller is to have constructed a big gas generating plant.

ADAMS EVER READY WITH A RESTRICTION

Journal Special Service.
Madison, Wis., March 7.—To allow summer baseball for college players is a measure that Wisconsin will endeavor to have adopted at the next meeting of the representatives of the conference colleges. Athletic Director Adams will support the movement as the result of the determination of the faculty to purify athletics.
It is claimed that the restriction of summer ball furnishes more ground for deception than any other factor in athletics. Practically all the members of the team play ball in vacation, and the athletic authorities either have to play blind man bluff to this fact or abolish the team.
Professor Adams holds the opinion that summer ball should be allowed, provided the players do not sign with organized leagues. The players' standpoint the movement is popular. They claim that vacation ball is the means of sending many of them thru college, and they should not be barred on this account. They disagree with Professor Adams in restricting summer playing to unorganized league teams.

CALUMETS BEAT ASHMORES

Athletes Take Basketball Game by 43 to 19 Score.
The Calumet Athletics beat the Ashmores comparatively easy in a basketball engagement last night, defeating the latter by the score of 43 to 19. Sawyer and Swanson did the work for the Calumets, with Higgins and Allen doing up the features for the Ashmores. The lineup and summary:
Calumets—right forward, Higgins; left forward, Swanson; center, Sawyer; right guard, Manning; left guard, Gamble; point guard, Manning.
Ashmores—right forward, Sawyer; left forward, Gamble; center, Manning; right guard, Higgins; left guard, Manning; point guard, Manning.
The Calumet Athletics have not been defeated this season, and challenge any intermediate team in the twin cities. Address Edward Gamble, 615 Fifth street N.

LYNDALES GOING TO ST. PAUL

Fast Minneapolis Basketball Quint to Meet Y. M. C. A.
The fast Lyndale basketball club, second in the Minneapolis City League, will play the Y. M. C. A. team in St. Paul this evening. The Lyndales were defeated in this city last week by the Lyndales, and tonight it will be a case of trying to repeat the stunt vs. an endeavor to repeat the victory. The lineup will be as follows:
Lyndales—right forward, Y. M. C. A.; left forward, Y. M. C. A.; center, Y. M. C. A.; right guard, Y. M. C. A.; left guard, Y. M. C. A.; point guard, Y. M. C. A.

SHOOTERS ARE ACTIVE

Case Lake Club Prepares for Season's Gun Work.
Case Lake, Minn., March 7.—The Case Lake Gun club has already begun to plan for the coming season, and it is the intention of the members of the club to make 1906 the best in the history of the organization. A new trap has been ordered, and will be in place when the weather warms sufficiently to prevent cramp in the fingers, there will be a shoot. It is more than likely that the club will give a grand shoot during the week that the Bremen's tournament will be held here—June 20-23. There has been some talk to that effect.
Should the shoot be decided upon, it will be arranged on a very extensive scale, and it is expected that crack shots from all over the country will participate. There are several members of the local club who are crack shots, which fact they have demonstrated at the tournaments held in Duluth and other parts of the state during the past two years.

ANOTHER DIRTY STORY FROM WEST

Tale of How Herrera Was Drugged in the McGovern Battle.

Bakersfield, Cal., March 7.—Frank Carrillo, the man who developed Aurelio Herrera and Jack Johnson, stated today that Herrera was drugged at the end of the second round while he was fighting Terry McGovern for the championship of the world in Mechanics' pavilion in San Francisco.
Carrillo says that George Green, a well-known San Francisco pugilist, who was Herrera's chief second on that occasion, gave the Mexican poisoned liquid on behalf of an eastern bookmaker, with whom Carrillo had wagered \$2,000 that Herrera would stay over six rounds.
Carrillo says McGovern and his manager, Sam Harris, had nothing to do with the foul work, and he will bet \$1,000 he can prove that Herrera was drugged.

GIRLS OF "U" TO MEET IN ANNUAL TOURNEY

Four co-ed basketball teams, representing many classes of the university, will meet tomorrow night in the armory in the red-letter athletic event of the season. Honors of the institution and the Weld trophy are at stake, and the intense rivalry presages hard-fought games. Each quint will be an ensemble of male and female members of its respective class. Each class has arranged for an abundance of its colors in the hall and the decorations this year will eclipse those of former seasons.
As has been the arrangement heretofore, two preliminary games will be played by the four teams, and the winners will be pitted and the five who take the final contest will be the season's champions, and holder of the Weld trophy. Should the centers be victorious, the cup will go into the permanent possession of that class, as it has taken two seasons' records.

MINNESOTA MAY JOIN IOWA RACING CIRCUIT

Albert Lea, Minn., March 7.—The movement for having a series of light harness races here this summer is progressing finely and the gates, and the intense rivalry presages hard-fought games. Each quint will be an ensemble of male and female members of its respective class. Each class has arranged for an abundance of its colors in the hall and the decorations this year will eclipse those of former seasons.
As has been the arrangement heretofore, two preliminary games will be played by the four teams, and the winners will be pitted and the five who take the final contest will be the season's champions, and holder of the Weld trophy. Should the centers be victorious, the cup will go into the permanent possession of that class, as it has taken two seasons' records.

HUMBOLDTS TO TRAIN

The Humboldt, athletic association, which won the 115-pound championship of football tennis, basketball and the officers are as follows: President, D. K. Stacy; vice president, Ed. G. Stark; secretary, Clint L. Luce; treasurer, Edward Olson; executive board, W. C. Mitchell, Oscar Subby, R. J. Tweedy.
The prospect of a new racing circuit of which Albert Lea will be a member is good, and a meeting will be held in Irons, Iowa, to consider the matter. There is trouble in the old town should have the fourth of July week, Marlon, Waterloo and Mason City demanding a race track, and it was given Waterloo, with the result that the other two cities desire to get out of the circuit.
The plan suggested is for the new circuit to start in at Marlon the week of July 4 and then accept Mason City, Albert Lea, Forest City, Garner or Britt, Downs, Webster City, Alta Vista, and the Iowa state fair at Des Moines, making a continuous circuit to the big meeting at Hamline the first week in September. D. K. Stacy was chosen to go to Garner to represent this city.

NORTH WINS PAST GAME

North, in one of the season's fastest rickshot games, last night defeated the Ashmores, freshmen, by the score of 1 to 0. The freshmen have protested the game on the ground that La Palma, a North high player, was ineligible.

EAST AND CENTRAL TO MEET

East high school and central high teams will meet tomorrow evening at the Casino rink to play off their postponed rickshot game.

MICHIGAN WILL STICK BY YOST

Interest Grows in the Football Hammerfest Called by President Angell.

Ann Arbor, Mich., March 7.—News of President Angell's call for another special conference on football came as a great surprise to Michigan students, especially in view of the controversy which has been pending after the session of the university senate on the proposed reform, that he was inclined to believe all points still in dispute could be settled by correspondence or in the regular session.
What President Angell's letter to Friday's conference will be, it is difficult to say, but it is thought that Professor Patterson again will be Michigan's representative.
"I would not be surprised if the special conference finds it cannot agree on the most radical of proposed reforms," said one athlete. "If all the colleges hold out for their special concessions with the tenacity with which Michigan will cling to the Yost clause it will be hard to secure an agreement."
That is the general view here. No fear is expressed that football will be suspended, though the news that reforms again has been agitated is taken as a cause for disquietude.

FRESHMAN LAW TEAM TO BE STRONG

If being first in the field counts for anything, the law department of the university will have the fastest baseball team at the institution. The freshmen law team has been notified to report for practice at once, and more than fifty candidates for the various positions will appear for the tryout. Joseph J. Sullivan, manager of the team at East high last year, and has a wide acquaintance among the various managers of the city high schools. O'Grady was manager of the team at East high last year, and has a wide acquaintance among the various managers of the city high schools. O'Grady was manager of the team at East high last year, and has a wide acquaintance among the various managers of the city high schools.

BADGER ATHLETES QUIT; BRUSH JOINS ABSENT

Madison, Wis., March 7.—The exodus of crack athletes from the University of Wisconsin, continues. The latest to announce his decision to quit college is Platt Brush, captain of the baseball team and for three years one of the leading players on the badger nine. He has been in charge of the candidates for the team, but has found it uphill work and gives it up.
The reason for his departure is the preponderant importance of football shall go, and with it will go the financial support of all the leading branches of sport, for football has been the mainstay of all, being the only money-making game here. Last year the receipts of the athletic association were \$48,000, nearly all from football, and with the assurance that football would be practically discarded the athletic authorities acted upon the necessity of eliminating the expenses of coaches, trainers and supplies for the other sports.
This left the baseball team with no teacher other than Captain Brush, and players left college or refused to appear for practice, and the new material was not good enough to present any prospects of a creditable team. It is said that Captain Brush will turn professional and join some regularly organized club.

ST. ANTHONY MEN WIN

Take Ricochet Victory from Highland Park Team.
By the score of 1 to 0 the St. Anthony ricochet team last night defeated the Highland Park team. The game was highly exciting from start to finish.

DOPE OF THE DAY

PITCHER GUS DORNER, the Columbus recruit, is probably the best-looking youngster that has broken into the big league via the Red route for a number of years. Dorner stands six feet tall and is well built. He is not of the chunky-looking order, but looks to have the goods with him in the fielding line.
"TOMMY RYAN has agreed to fight me at 125 pounds for the middleweight championship, and I think the contest will take place at San Francisco next Fourth of July," said Jack O'Brien, who is in Philadelphia today. O'Brien also says that he may meet Sam Berger in Princeton in April.

FRED GILBERT, champion wing shot of the world, is so badly crippled with rheumatism that it is doubtful if he goes to the traps again in many months. The attack has been long continued.

JACK DOYLE, the veteran first baseman, has been selected by the Cantonian brothers, Mike and Joe, to manage the Des Moines club in the Western league this year. Joe Cantonian will be busy managing the Milwaukee American association club again, and Mike, who handled the Des Moines club last year with last season's part of his authority at least to Doyle as player-manager. Jack was with the Toledo club part of last season.

OLD-TIME FANS will learn with much regret that Pete Lehman, the famous basketballer who did such good and consistent work behind the bat for Milwaukee and later for the Oakland club during the final years of his active campaign, is dying from pneumonia at the Ocean Park sanatorium in Southern California.

PITCHER PITTINGER of the Phillies is coaching the Carlisle Indians team.
The Pittsburg club has sold infielder Otto Knabe to the Toledo club.

BILLY HAMILTON is of the opinion that Boston should not let outfielder Fred Clay get away.
PITCHER DONOVAN of the Detroiters thinks that the hitting will be lighter than ever the coming season.

THE Chicago club has shored up all hope that Sebring will play with them this season.
BROOKLYN'S good pitcher, "Doc" Scanlon, recently fractured an arm by a fall in a hard-ball game.

IT IS said that St. Louis will release Shorty McBride, who was secured from Pittsburg in the brain trade.

FRANK FARRELL of the New York Highlanders has had no trouble signing his old men, but the minor leaguers whom he drafted have kept him awake nights by their demands.

BEN MUCKENFISCH has resigned the secretaryship of the St. Louis club after a connection of thirteen years.

OUTFIELDER LEMLEY of Brooklyn has an offer to manage the Colorado Springs club, and would like to accept it.

MCGRAW is said to have offered "Father Bill" Marshall \$2,000 to play for the St. Louis Browns, but afterward withdrew the offer.

IT WAS not true, as reported, that Boston had given Jesse Burkett his release. Boston's claim on him will not be waived.

ACCORDING to a dispatch from New Haven, Billy Leach, who remained out of the game last season, is considering joining Cleveland again.

FRANK GOUGH, who during the retirement of Tom Jenkins is considered champion wrester of the country, and Ole Donahoe, a wrestler of unknown ability, will meet in St. Louis on March 20. Donahoe has shown some form in private exhibitions. Donahoe is praised by so good a wrestler as George Baptiste. He is a stout fellow, weighing over 300 pounds, and should do well.

THE WASHINGTON CLUB is making a final effort before the training season opens to get Hillbrand into the game. If he does not show up in a Washington uniform it will not be through any lack of trying on the club's part. A very hard contract has already been offered him, but in an effort to clinch matters Stahl has just left Chicago for Washington, and Hillbrand is expected to follow him there. Stahl will take with him a contract signed by Hillbrand.

ROY BRASHEAR, Dan Keavin, Larry Quinn and Sator Sullivan of the Louisville baseball club are expected to arrive in that city this week. The players are not ordered to report until March 20. Pitcher Ed Kenna and "Red" McLeod are the only colonials in Louisville at present, but Myers and Clubb live near there, and they are at baseball headquarters in the Louisville Trust company's building nearly every day.

ED GRILLO expects to have discipline on his Toledo team this year, if nothing else. He already has announced that a "steady" man will be banded with both Camnitz and Minahan, and their habits will be closely watched all season. Grillo himself expects to be the companion of Camnitz on the road.

ONE OF THE reasons why Cliff Curtis was so anxious to join Columbus was to get to pitch for Jack Ryan. This veteran has the warm support of all twirlers, and big Ben Swaine twirlers feels that a year with Ryan would do him as much good as it did Berger.
THERE WILL BE a change in the uniforms of the New York Americans this season. Griffling has decided to go back to the old dark blue suits which the highlanders wore when they were based out by Boston for the championship season. He also has gray suits for a change while on the road. The blue uniforms will have gray trimmings. Many clubs will wear white stockings, as the colored hoody has been the cause of many sore feet.
THE VERY latest news from the heavyweight division is that the fighting game is that Jack Munroe has started serious training up in Nova Scotia and intends making a sudden descent upon Jack O'Brien, Jack Burns and Jack Johnson. What's the matter with making it a jackpot?

CHRISTIE MATTHEWSON says that his kid brother, Harry, who will be a giant during the coming season, is as good a pitcher as "Matty" himself. In that case the giants will be in the same unfortunate position as one James J. Jeffries at the end of the coming season, and won't be able to do anything strong enough

New Spring Styles Now Shown in All Departments

Elegant High-Grade Spring Overcoats, Raincoats and Topcoats.

Dressy garments that show earmarks of quality, individuality and newness. Variety great enough to please and sizes for all proportions.

- PRINCELY SURTOUT Overcoats in oxford, graceful fitting, serge lined, hand tailored, made by the most skilled producers \$25

AN EXCELLENT ASSORTMENT of New Golf Caps, in solid and fancy colors of wool and worsted materials. Usual \$1 sort 50c

to give them a fight. One Matty backed the Athletics to a beautiful brown last summer. Two would leave nothing but a frazzled up cinder in the baseball pot.
FRED RUSSELL might as well join Jack Munroe and tip-toe quietly to the extreme back row and sit quietly down. His years of training and preparation counted for naught recently when a really clever man was opposed to him in the person of Jack Root, and Russell and his adherents were made to realize that mere bulk and muscle are not all that constitutes a successful pugilist. Root did as he liked with Russell whenever the latter would quit clenching long enough to let daylight in between them. The clinch habit was all that saved the big fellow from taking the count, but his tactics availed him nothing at that.

JANITOR GETS PROCEEDS
The Drummond, Jr., basketball team will play the Intermediates of St. Paul Y. M. C. A. for the 17-year-old championship of the twin cities at Drummond hall, Fifteenth avenue NE and Second street, Saturday evening. Each team has won a contest from the other, and a fast game is assured. The proceeds go to the janitor.

ST. OLAF'S BEAT MACALESTER.
St. Olaf's Macalester college basketball team was defeated by the score of 55 to 16.

S.S.S. PURELY VEGETABLE.

sluggish organs to better action, tones up the stomach and digestion, restores nervous energy and builds up the entire health. S. S. S. cures Rheumatism, whether acute or chronic, and the cure is thorough and lasting. Book on Rheumatism and any medical advice desired without charge.
