

A DIMPLE MAKER.

Find a child with dimples and chubby arms and legs and you find a healthy child. Find one with drawn face and poor, thin body and you see one that needs Scott's Emulsion. Your doctor will no doubt tell you the child is fat-starved—its food is not nourishing it.

Nothing helps these thin, pale children like Scott's Emulsion. It contains the very element of fat they need. It supplies them with a perfect and quickly digested nourishment. Scott's Emulsion brings dimples and rounded limbs.

SCOTT & BOWNE, 409 Pearl Street, New York.

Railroads

LAND AGENTS COMPLAIN

OBJECTION IS MADE THAT HOME-SEEKERS' EXCURSIONS COME TOO THICK AND COST TOO MUCH.

Journal Special Service. Chicago, April 4.—Home-seekers' tickets to the west and southwest at a rate less than one fare plus \$2, the first and third Tuesdays of each month, instead of a semi-monthly sale on the old basis, may be the proposition with which the Chicago lines will meet the competition of the Minneapolis-Northwest lines. At least that was the tentative proposition before the meeting of executive officials yesterday when adjournment was taken until next Monday.

The proposal to have weekly home-seekers' excursions to all sections of the country met with some opposition from land agents, who declare that they would be unable to make the trips into the newer sections and return in time for the next excursion. Several of these sent their protests to passenger traffic officials and asked for lower rates instead of more frequent sales. The question was taken under advisement and will be fully threshed out at the meeting next Monday.

While the Great Western, Wisconsin Central and Burlington roads have given notice of their intention to sell weekly excursion tickets to the northwest, the Rock Island-Frisco lines have agreed to wait until after the meeting before making the rates effective to the southwest. Passenger Traffic Manager John Hagan gave notice at the meeting that he would submit another proposition of lower rates on the semi-monthly plan instead of the weekly sale in the near future. He would not say what rate he would quote, but it is believed that it will either be one fare or 75 per cent of one fare for the round trip.

TRAINS ARE CROWDED

Home-seekers' Excursions Fill Outgoing Cars to the Limit.

The colonist and home-seeker westward move was on again this morning. As a result of a combination of good weather and the low railroad rates, the trains which passed thru Minneapolis yesterday and today were loaded with home-seekers bound for the west and northwest. The rush was even greater last night, and today the peak of the load was reached when the home-seekers from points beyond Minneapolis arrived to transfer to the northern lines.

The one-way second-class colonist rates which went into effect Feb. 15 will go out Saturday. The sale of home-seekers' tickets will continue weekly until fall.

Extra equipment was attached to all trains yesterday and today for the benefit of home-seekers. The Great Northern Oriental limited yesterday had five extra coaches, all well filled with passengers, and the afternoon train went out in two sections. The Soo line took out its train in three sections today, and last night the Northern Pacific train left in three sections. G. E. McNeill, city passenger agent, expects the season to beat all previous records.

Announcement has not been made by the Chicago lines which put in tourist sleepers between Chicago and Minneapolis, on account of the Burlington-Great Northern thru service, whether they will discontinue the cars Saturday, with the close of the colonist rate period, or not. The latter service they believe that will continue until further notice is given.

JOE'S LUCK

Drew a Prize in Matrimonial Lottery.

"Before we were married my husband was a coffee drinker and subject to severe attacks of sick headache, which interfered with his duties as a young man of large family," writes a young Mass. matron. "I had made up my mind that coffee was at least partly to blame, and that I could cure him after marriage by the use of Postum Food Coffee. "When I told my younger sister about it, she laughed and said, 'Just wait and see! After you are married you'll find that Joe will have his coffee anyway.' "I proceeded gradually, first eliminating by degrees the pastry and sweets from the daily menu, and as his meals were always daintily served and appetizing he began to have faith in his wife's ability as a cook. "Meantime his headaches became less frequent, but did not cease altogether. When the time was ripe and I proposed to use Postum Food Coffee he consented upon the promise that he should have the old kind of coffee at his Sunday breakfast. He grew fond of the new food drink, however, and noted that after drinking the old coffee on Sundays he suffered from unsteady nerves and a dull heavy feeling that he never had on the days when he drank Postum. The result was that at last he saw that I would rather have the Postum Food Coffee Sunday morning, too, if you don't mind, my dear. The old kind makes me feel like a fool all day. You may imagine how ready I was to fall in with this suggestion. The old kind of coffee has been banished from our table for more than 2 years now; Joe's headaches are only a memory and he always has steady nerves and a clear brain to meet the exacting demands of his business. On hot summer days he relishes a glass of clear, cold Postum with a squeeze of lemon, and at noon making it especially refreshing. "In the winter I make up a pot of Postum Coffee in the evening, boiling it 15 minutes, and let it set on the back of the range till morning, when it is heated and ready to serve in a few minutes." Name given by Postum Co., Battle Creek, Mich. There's a reason.

City News

CITY IS CLASSED WITH TOPNOTCHERS

NEW YORK MAN GIVES MINNEAPOLIS HIGH PRAISE.

Law Partner of Former Governor Black Talks Entertainingly of Political Conditions in Empire State and City—Thinks Neither Platt Nor Depew Will Finish Senatorial Term.

Minneapolis is classed with Boston, Philadelphia and cities of "the second class," as he terms them, by Irving L. Ernst of New York city. He says the public and office buildings, so far as he observed, are like those across from New York meaning Brooklyn.

This compliment was one of several paid Minneapolis of late by visitors, inasmuch as Mr. Ernst places the city in its general characteristics, barring New York, of course. Mr. Ernst is an attorney, associated in partnership with the firm of which former Governor Frank Blair, who nominated Roosevelt for president, is a member. Mr. Ernst, who was in Minneapolis on business, was the guest of A. D. Thompson. He firmly believes that Mr. Black will be a United States senator, to succeed either Senator Platt or Depew. Altho the election of a senator does not come until 1909, Mr. Ernst does not believe that the state apportionment will be necessary to appoint successors to one or both senators. In any event, he believes that Mr. Black will go to Washington to represent New York.

Newspapers Oppose Senators. The newspapers of New York city, said Mr. Ernst, seem to be in a combine to demand the resignation of the two senators. Not a week passes that every one of them at some time does not demand the resignation of the two senators. Mr. Ernst believes that the same thing that killed John A. McCall will kill Depew.

Mr. Ernst does not concern himself much about Hearst's probable candidacy for governor of New York state. He says that if he is nominated, the democrats will elect the republican governor, as the republicans elected McCall, the democratic mayor of New York. Mr. Ernst is a democrat and speaks with conviction. District Attorney Jerome M. Ernst considers the most erratic man before the public in New York. He is in bad odor and professes to believe that he is either a much misunderstood man in his present attitude towards the duties of his office, or is not what the citizens hoped he would be.

FISH HATCHERY IS WELL UNDER WAY

Work of completing the second state fish hatchery at Glenwood is well under way, according to A. J. Johnson of that place, a guest today at the Rogers hotel. "All winter," said Mr. Johnson, "dozen to a score of men have been busy hauling rock to the hatchery. This rock is being used to wall off sections of the lake adjacent to the hatchery grounds, into natural hatching and breeding ponds. The lake for two miles along its edge in the vicinity of the hatchery has been cleared of weeds and made attractive for park purposes. The hatchery land is being leveled and a broad strip of a mile and a half long, extending into the town of Glenwood, is being built. This spring will see \$20,000 spent in improvements at the state's second hatchery. "Last summer as a starter, 500,000 trout fry were placed in the streams, which flow into the lake. This summer several million more will be added. The fry will remain in the streams till they get large, and a number of them will be taken for the hatchery. They even believe that with the removal of the waters of the lake. This will make Glenwood an ideal resort for all lovers of good fishing."

TAWNEY SCORED FOR ALCOHOL BILL VIEWS

"Farmers in my district are much worked up on the subject of industrial alcohol," today said State Senator Julius C. Tawney in Minneapolis. "If Jim Tawney were to run for governor, I don't believe he could get a half dozen votes in our district because he has the name of opposing the measure for the removal of the unjust tax that now exists on wood alcohol. "In the city here, wood alcohol is wanted for the operation of your automobiles, but in the country the farmers have more practical things in view. They want wood alcohol for fuel for their farm machinery. They even believe that with the removal of all tax, wood alcohol could be economically used for heating purposes in their homes instead of wood and coal. "The farmers are wide awake as to the advantages to be gained from free industrial alcohol, and they will have it in for those who oppose the removal of the tax."

LAYS HEAVY STEEL

North-Western Makes Extensive Improvements in Iowa. Clinton, Iowa, April 4.—The Chicago & North-Western railroad has begun the work of replacing the eighty-pound rails on thirty-five miles of track west of Stanwood, on the Iowa division, with ninety-pound steel. M. J. Deltgen, roadmaster of the Iowa division, with headquarters in this city, has the work of laying the steel, and he will employ several hundred men on the work. Twenty-five carloads of steel have reached Clinton, and the material is being distributed along the line by a special engine train. More steel will arrive daily.

Neill Bannon Promoted. Neill Bannon, chief clerk to the assistant general freight agent of the Omaha road, Minneapolis, has been appointed traveling freight agent from Eau Claire, Wis. W. W. Wilcox has been appointed local freight solicitor in Minneapolis to relieve A. S. Nash, appointed traveling agent at Tacoma.

Transfer to Be Improved. Improvements at the Minnesota Transfer involving the expenditure of \$200,000 have been authorized. These will include several miles of track and five new switch engines. The total trackage will reach seventy miles when the additions are completed.

CLINTON, IOWA.—Mrs. Mary Davis, aged 50, a well-known Clinton woman, sustained probable fatal injuries in a fall from the second story of her home.

The Value of Right Service

We direct our every energy in an effort to give to our patrons such attention as will result in complete satisfaction, realizing that although we provide sterling values, there is something more necessary to leaven the work of good store-keeping; that of courteous, obliging service.
