and that Dr. Koch had access to the latter. The typewriter has remained in the possession of Clerk of Court Thorne until this time, together with the other evidence in the case, the bloodstained handke-chief, the hammer, blue bottle, etc. Brown county bought the typewriter in order to have control of it at the trials, and it evidently now has found use for it.

It is not expected that the other grim relics of these famous trials will ever be called for, but the clerk of court will retain them until he receives an order of the court directing their disposition. In case the prosecution of any one else should ever be undertaken, they would be essential evidence, and so probably will be retained.

Movement Cannot Be Interrupted Unless Labor Troubles Develop with the Opening of May-Duluth Alone May Spend Five Million Dollars for New Buildings.

Special to The Journal. Duluth, Minn., April 5.—A building boom of large proportions will be seen in the northeast-ern corner of the state of Minnesota this summer. Duluth already gives signs of running close to the \$5,000,000 mark for the year.

Not only this, but the range towns will all put from \$50,000 to \$100,000 in new buildings, put from \$50,000 to \$100,000 in new buildings, and some of the larger towns may run higher than that. It will fall to Duluth to supply many of the contractors, much of the material and nearly all of the mechanics for the range building, and it promises to be about all Duluth can care for. There is much fear among builders that there may be considerable embarrassment to find men before the year is out.

There is one chance that the work may fall considerably below what there is now reason to expect. May 1 always brings labor troubles.

such as to cause many who contemplate building to put off their projects. Already there are evidences that some demands will be made that will not be received very pleasantly. The larger part of the building in Duluth will be of residences. There are some jobbing houses to go up and some office buildings to be added to, also an Elks' clubhouse of seven stories, box140 feet, a Young Men's Christian association house 100x140 feet and probably five or six stories, and other large blocks to be built. The demand for homes is very sharp and the supply not at all equal to the call for them. Every year for the past six has seen many houses and flats built, but no impression ap-parently has been made on the supply. This year finds it even more difficult than ever to

ITS RIVAL SCORES IN THE COUNTY OFFICIALS OF ASYLUM.

Judge Watts Rules that the Board Must Act Upon the Petition for Removal-This Is Taken to Mean that the Issue Will in Time Come to a Vote.

Special to The Journal. Plummer, Minn., April 5.—A bombshell was exploded in the Red Lake Falls camp in the Red Lake county seat fight late yesterday afternoon when Judge Watts, in district court, decided that the county board must proceed to act on the original petition for the removal of the county seat.

on the original printion for the removal of the county seat.

The question decided by Judge Watts originally came up in the form of a writ of mandamus secured last summer to make the county board act on the petition or show cause. The matter was hung up in one way and another, until the present term of the district court.

The old county board had a majority in favor of Red Lake Falls, consequently no action, was taken by the board, but last winter one member resigned and left the country and a new man was chosen who is a staunch supporter of Thief River Falls. The mandamus hearing came up-in district court, a week ago and the Red Lake Falls attorners moved to have it stricken from Falls attorneys moved to have it stricken from the calendar on the ground that the question had been appealed to the supreme court. The court ruled that the matter was not appealable, and then time was asked in which to secure and and then time was asked in which to secure and submit proofs that the new commissioner was not a regularly qualified member of the board. In this they failed, and the ruling of Judge Watts means that the county commissioners must meet in the near future and act upon

the petition.

The friends of Thief River Falls are jubilant, as the present complexion of the county board means that their action on the petition will be to fix a date for an election. From now on the county-seat fight will be on in earnest, and, unless the mood of the people has changed greatly in the past few months, the chances are largely in favor of Thief River Falls winning
