Rain Over the Holiday Strengthen

Foreign Markets Closed-Modern Miller Bearish on the Winter Wheat.

Season.

Minneapolis Chamber of Commerce, April 14 .-Minneapolis Chamber of Commerce, April 14.—
The bulls in corn and oats stood in for the greater benefit from the weather of yesterday and today, but wheat was affected as well, and altho the market did not spurt up as some expected it would after the rains it acted very strong. Thirty inches of snow near Bowdle, S. D., was one of the first reports in, and it at once suggested general snow and started talk of delay to farm work and late seeding. When full reports were received they showed a general storm over the entire grain country When full reports were received they showed a general storm over the entire grain country yesterday, and more rains this morning in Minnesota, Wisconsin and Iowa. The storm was moving eastward and when the later morning forecast was posted Minnesota was down for fair weather tomorrow except in the northeastern part, and fair weather and warmer tonight was the prediction for the Dakotas, Nebraska and Kansas. This took the edge off the market all around, for with good clear weather following the rains, the crop already seeded northwest and the growing winter wheat weather following the rains, the crop already seeded northwest and the growing winter wheat southwest, ought to come along in good shape, while farm work in localities not yet seeded will not probably be delayed long enough to set back the average of the work materially. The northwest report at 11 n.m. read as follows: Fergus Falls, cloudy, cooler: snow and sleet about all night. St. Cloud, rained and snowed all night; now light rain and high north wind; now 35 above. Hillsboro, clear, light northwest wind; 34 above: cool. Mayville, clear, fine snow and rain all day yesterday. Comstock, cloudy and cold, 33 above: rained and snowed till 10 p.m. yesterday. Grand Forks, rained until 5 p.m. yesterday, now clear with light east wind; fine. Fargo, rained and snowed nearly all day: very cloudy this morning. nearly all day: very cloudy this morning.

Minneapolis stocks increased 116,139 bu for the official week, which brings the total in today's report up to 18,354,600 bu, but for two days since making up the figures there is a decrease, estimated at 100,000 bu, and it may be that the official figures of today will mark top for the accumulation. At any rate, there is for the accumulation. At any rate, there is less likelihood of further material gains from now on, and stocks in Minneapolis are probably touching around the top notch today. Receipts here were 357 cars against 164, but today's figures were for a two-day movement. Chicago had 9 cars for two days against 60 and Duluth's single-day comparison was 82 against 5. Winnihad 9 cars for two days against 60 and Duluth's single-day comparison was 82 against 5. Winnipeg received 135 against 32, St. Louis received 74,000 bu against 30,000 and Kansas City 52,000 against 50,000. Primary receipts, 549,00 bu against 305,000. Clearances 98,000 bu.

The Modern Miller says: "Weather conditions have been favorable for winter wheat in the principal producing states. Advices since April 1 show the prospects to be excellent and the average condition much better than the April report of the government indicated. With seasonable weather from now on the report of May 1 should show a higher average condition than that of April 1."

Broomball estimates world's wheat shipments

Broomhall estimates world's wheat shipments at 8,800,000 bu for the week, of which Europe is expected to take 8,000,000. Actual shipments last week were 10,832,000 bu and a year ago were 9,280,000. There were no cables, the foreign mar-kets being closed. kets being closed.

W. S. Sunderland. Omaha. writes: "I had our Lincoln office telephone the state entomologist, who said that while last year we had all kinds of specimens and reports of fly there is not a single complaint so far this year, and nothing in the newspapers except that they say the largest crop ever raised in Nebraska."

THE FLOUR MARKET

DOMESTIC DEMAND FAIR, BUT LIMITED FOREIGN INQUIRY.

Trade was just fair, with limited foreign inquiry, and nearly everything sold entered for domestic account. Prices are unchanged, the recent advance of 10c for patents, no increase in grinding now seems likely and the mills will bably operate next week at a rate of about probably operate next week at a late of about 50,000 bris a day.
Shipments, 94,967 bris for two days.
First patents are quotable at \$4,10@4.20; second patents, \$3,50@4; first clears, \$3.50@3.60; second clears, \$2.45@2.55.

MINING AND CURB STOCKS

Special to The Journal.

Bostos, April 14.—The market for the coppers was good all around today. North Butte being the particular specialty. The trading in Butte was large and the advance rapid, the stock closing at the top, 90% @90%. Copper Bange was quietly bought. Butte Coalition is very active on the curb, with sales as high as 37. Oscola and Mohawk were both active at higher prices. Altogether it was the most active market for a long time in the coppers.

ARIZONA COPPERS.

The following article gives the developments on Pittsburg & Duluth in full. "A strike of rich ore has been made on the Pittsburg & Duluth property in Bisbee. The drift from the Cole shaft on the L. S. & P. runs into the P. & D. 1.800 feet below the surface on the latter property and a theory has been held by some people that it is too deep to get the richer ores. This depth is attained on the P. & D. on account of its ground being much higher than at the Cole shaft. Some time ago an upraise of 100 feet was made from the drift from the Cole shaft, and after this a drift was started from the upraise, and it is in this drift that the strike of ore running from 15 to 20 per cent was rish whisky."
