BREAD IS NOW \$1 A LOAF IN FRISCO. HAVE YOU DONE ANYTHING TO HELP?

MINNEAPOLIS RISES TO AID OF STRICKEN

Thousands Pouring In for the Relief of the Stricken People of San Francisco.

All Minnesota to Join in the Work of Giving to the Sufferers of California.

STATE AND CITY SPRING TO RELIEF OF STRICKEN

All Minnesota is to be canvassed at once for the relief of suffering San Francisco.
All Minneapolis is pressing forward to help the stricken people of California.
Fifty thousand dollars is in sight as a relief fund; \$37,000 had been contributed at noon today.
A trainload of flour will be started for San Francisco tonight.
Big benefits are being arranged by the theater people and the Roosevelt club.
Spontaneous contributions are pouring in, and in some instances whole districts in Minneapolis have taken the initiative in raising money.
The lumbermen of Minneapolis have contributed thousands; the associated banks have done likewise; the Chamber of Commerce people are not behind them.
The Produce Exchange men did not wait for the city to act; they raised \$550 in 24 hours and sent it westward.
Almost everybody is in the work—**ARE YOU?**

Fully \$50,000 appears to be in sight as the Minneapolis contribution to the California relief fund.
E. W. Decker, treasurer of the committee, at the meeting of the executive committee at noon in the mayor's office, said that the lists now in his hands aggregated about \$37,000.
These figures do not include anything but pledges, and make no estimate of the benefit at the Metropolitan theater, the Roosevelt club benefit, the school children's contributions, the collections in the churches, nor the sums raised by the fraternal organizations. They do not even include the offer of the employees of the C. A. Smith Lumber company to donate a day's pay, which will amount to about \$1,500.

Minneapolis Flour for Frisco.

The executive committee, on motion of William Henry Ematis, voted to purchase twenty additional carloads of flour, to be forwarded without delay, making the total flour contribution thirty-five carloads.
Minneapolis flour is wanted in the stricken districts of California. Today the Red Cross society from Washington notified Chairman W. C. Edgar of the executive committee that the tender of flour would be most acceptable. Ten cars will leave tonight, five more will be forwarded Monday and a steady stream of daily shipments will follow until the situation is relieved.
At a meeting of the executive committee this noon the purchase of twenty cars more was authorized and will be forwarded as needed.

To the Red Cross.

All shipments will be made to Dr. E. T. Devine, Red Cross agent at San Francisco, care of General Funston, as the Red Cross is working with and under the direction of the war department. The flour will be shipped today will contain 3,500 barrels of flour in 49-pound sacks, more than enough to make a million loaves of bread.
The flour will be shipped from the Pillsbury-Washburn and Washburn-Crosby mills to Omaha over the Milwaukee and Omaha roads. From Omaha it will be handled by the Union Pacific. All shipments are being handled free of freight charges. The Northwestern Consolidated Milling company will forward five cars to Omaha over the St. Louis road. The remainder of the flour will be sent out as soon as Messrs. W. L. Martin and F. G. Atkinson can make the arrangements.

Money Pouring In.

Everything is moving to the utmost satisfaction of the members of the committee. W. J. Dean reported that the implement dealers had subscribed \$1,398. W. F. Brooks announced that the lumber and allied industries would contribute from \$7,000 to \$10,000. The report was received with applause. Thomas Voegell reported that the retail dealers' list had been increased by \$500.
Chairman W. C. Edgar announced that after telegraphing in several directions he had been requested by U. L. McGee of the national Red Cross society at Washington to consign all relief supplies to Edward T. Devine, care of General Funston, San Francisco. This was satisfactory, and now the committee has some one with which it can deal directly.

Chute to Represent City.

William Y. Chute will proceed to the earthquake district to take charge of the Minneapolis contributions, which will be sent wherever most needed. He will see that they are delivered to Mr. Devine or if he finds that there is greater distress at Santa Rosa and other places he is empowered to send the supplies elsewhere than San Francisco.
W. L. Martin and F. G. Atkinson made their reports as indicated above and were complimented for their work. They said that it had been deemed inadvisable to try to send a special train of flour. The flour was loaded this morning, billed out this afternoon and will leave on the evening train.
The Murphy-Travis company, when called upon for prices on printing cloth placards for the cars, donated the work to the committee. It was reported by Mr. Hays that the same firm had vol-

unteered to do the printing work for the dramatic entertainment at the Metropolitan theater, and that it had also done the printing for the retail dealers' association without charge.
Dr. L. J. Cooke offered his services as director of an athletic entertainment which could be held at the baseball park of Northrop field. The offer was accepted contingent on the approval of Theodore Hays of the entertainment committee.
It was announced that the musicians' association, thru the Minneapolis Symphony orchestra, placed its services at the disposal of the committee. The Knights of Pythias band also tendered its services.
Hector Baxter, on behalf of Miss McEachern, a graduate nurse, placed her services at the disposal of the relief committee. The Red Cross society was telegraphed that she stood ready to proceed to California at a moment's notice.
B. F. Collins, president of the Produce Exchange, was added to the committee as the presentation of his organization.

It was decided to have printed a number of subscription cards for distribution among the different churches. The cards will be taken to the police stations and the day squad will deliver them to the churches tomorrow morning. It is the desire of the committee that every church in the city take up a subscription collection tomorrow.

Movement Is General.

The Minneapolis-California relief movement is now general. Individuals, societies, lodges, churches and business organizations are working on their own individual lines, are adding every hour to the grand total. With the offers of money are coming offers of other assistance. The Minneapolis & St. Louis, the Omaha, the Milwaukee, and the Rock Island railroads offer to handle all donations for sufferers free of charge when consigned to any authorized relief committee.

In the Churches.

In all of the churches tomorrow contributions will go to the relief fund. The following call to the churches is made by the executive committee and many pastors have already announced that they will make every effort to swell the fund to generous proportions.
"To the Churches of Minneapolis: At a meeting of the executive committee of the California Relief committee, held on Friday, April 20, it was voted that the clergymen of the city be requested to take up a special collection in their respective churches on Sunday morning, April 22, for the benefit of the sufferers from the great disaster on the Pacific coast and to report the results at the earliest possible moment to E. W. Decker, treasurer, at the Northwestern National bank. As the time is so short to notify each clergyman personally of this action this notice thru the daily newspapers, it is hoped, will be sufficient to call attention to this phase of the general movement. By order of the Executive Committee."

Thruout the State.

A special call to the Methodist Episcopal churches of Minnesota and the surrounding state has been issued by Bishop William F. McDowell to assist in the work. The funds may be either cities or forwarded to a general Methodist fund to be administered thru Bishop Hamilton of San Francisco.
Minneapolis Aerie No. 34, Order of Eagles, voted \$250 from its treasury last night to be turned into the fund. U. C. T. Council No. 63 is sending out a circular letter to all members today and

GRUESOME SEARCH FOR DEAD BEGINS

Over Hundred Corpses Found in One Lodginghouse—Dead Buried in Trenches.

San Francisco, April 21.—With the conflagration under control and relief measures progressing as satisfactorily as could be expected in such chaos, thoughts are now turning to the dead, buried in the ruins in several quarters of the city. Gruesome discoveries have been made already and each new building entered, especially in the lodging-house district, has its dead. In many cases scores of half-burned corpses, partly decomposed, are found in heaps and the discoverers of single bones or skulls of bodies, the other parts of which were incinerated, are frequent.

125 Perished Together.

From the ruins of a three-story lodging house at Fifth and Minna streets over seventy-five corpses have been taken. Fifty others are exposed. This building was one of the first to take fire on Fifth street. At least 100 persons were lost in the Cosmopolitan on Fourth street.

The only building standing between Mission, Howard, East and Stewart streets, is the San Pablo hotel, which is occupied and running.
The shot tower at First and Howard streets is gone. This landmark was built forty years ago. The Risdon iron works is partially destroyed.

Buried in Trenches.

It is still difficult to estimate the number of dead, as bodies are scattered all over the city. They are burying them in trenches and putting fifteen bodies in a ditch.
The following is a partial list of the identified dead who have been buried by the authorities:
HARRY CHESEBRO,
N. ROSENFELD, 937 1/2 Folsome street.
E. NOURMANN, 489 Pacific street.
ANTONE WEBSTER, 14 Williams street.
JOHN DAY, 235 Geary street.
J. M. VAZ, 290 Sherman street.
H. MYRAKE, 423 Stevenson street.
A mother and 2-year-old baby, at 163 Turk street.

KING, male, 929 Mission.
Beside these, sixteen unidentified persons were buried under the supervision of Dr. Gamble, two of them being Italians found in the building of the Western Fish company. A number of others have been buried whose names cannot at present be learned.

SULTAN OF TURKEY IS REPORTED DYING

New York, April 21.—A cablegram received here from London states that the sultan of Turkey is critically ill and his death possible at any hour.

SHOCKS IN ITALY WRECK BUILDINGS

Earth Trembles Thirteen Times, Causing Damage and Panic.

Rome, April 21.—(1:45 p.m.)—Thirteen earth shocks were felt in succession this morning in the province of Siena, Tuscany. Several buildings were damaged, including the city hall at Poggibonsi, nineteen miles south of Florence. The inhabitants of Poggibonsi were panic-stricken.
It is not yet known whether Siena was damaged.

35 THIEVES SHOT DOWN BY GUARDS

Strictest Measures Taken to Guard Treasure Buried in Frisco Ruins.

San Francisco, April 21.—It is reported that thirty-five men, caught digging in the ruins, have been killed by the soldiers who guard the buried treasures faithfully. Only one warning is sounded when a prowler is discovered. If he does not surrender at the first challenge a rifle shot ends his attempt to gain thru the misfortune of others.
Fourteen thieves were killed in one night by the soldiers guarding the United States mint.
Policeman Joseph M. Meyers was bayoneted and killed by a national guardsman over a dispute as to authority.
Another policeman, returning to his home, found a man prowling therein. The intruder refused to leave and the two came together. The policeman shot and killed his assailant.
"Many have deplored the large number killed by guards, but it is pointed out that only the strictest measures can avert a general looting of the burned district in which are the vaults of the bank and jewelry and other valuable merchandise."

ELEVEN LIVE IN DEBRIS 3 DAYS

San Francisco, April 21.—Eleven persons were taken from the debris of the postoffice today, all alive. They had been for three days without food or water. All the mail was saved.

VALIANT FIGHTERS CUT OFF FLAMES AT FERRY

PRESIDENT ASKS \$1,500,000 MORE

Congress Will Make Additional Frisco Appropriation as Re- sult of Message.

Washington, April 21.—President Roosevelt today sent to congress a message, accompanying documents and papers from the war department, recommending the appropriation immediately of an additional \$1,500,000 for the relief of sufferers by the calamity at San Francisco.

The president today conferred with Secretary Taft, with Senator Allison, chairman of the senate committee on appropriations, and with other senators and representatives about the need of further aid for the residents of the stricken city and a decision was reached that congress should be requested to appropriate the additional \$1,500,000.
Assurances were given by the members of congress that the appropriation would be made.

2,000 HOMELESS IN PHILIPPINE TOWNS

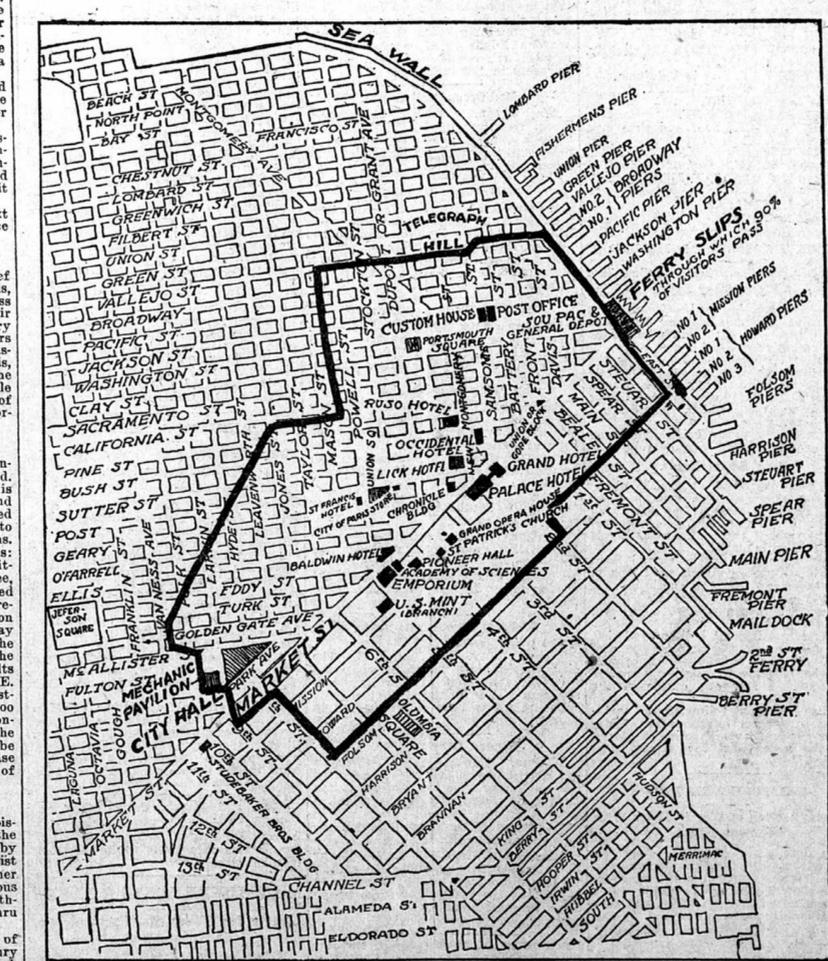

Fire Wipes Out Villages in Rizal Province and Also in Cebu.

Manila, April 21.—Fire has swept the town of Marikina, in Rizal province. Many thousands of persons are homeless and starving and 2,000 dwellings are in ruins.
The government is rushing assistance to the sufferers.
Fire also destroyed Pasig, near the town of Cebu. Two hundred dwellings were burned and many persons are homeless.

RUSSELL SAGE GIVES \$5,000

New York, April 21.—Russell Sage today contributed \$5,000 to the San Francisco fund.

THE BURNED DISTRICT OF SAN FRANCISCO

While the black line encloses the area which was completely burned over, it does not include all the Nob Hill district, where many homes of the rich were destroyed. Nob Hill is traversed by Van Ness avenue from north to south and its principal residence district lies between Golden Gate avenue and Sacramento street, both shown on the map.

Place of Egress Saved and Thousands Leave Stricken City by the Water Route.

Energies Now Bent to Avert Other Scourges--Easterners All Safe-- Autos Do Great Work.

JACOBS NOT KILLED.

Washington, April 21.—Fears that Assistant United States Treasurer Jacobs had met death in the San Francisco disaster were relieved today by the receipt of a message from the official.

KILLED WHILE ON HONEYMOON.

Indianapolis, April 21.—Mr. and Mrs. Charles Rouse have received word that their son Edward and his bride, formerly Miss Mary Elizabeth Smith of Arizona, were killed in the earthquake by falling debris in the Hotel Delmonde, Monterey, Cal.

500 REFUGEES AT OGDEN.

Ogden, Utah, April 21.—A special train carrying 500 refugees from San Francisco reached Ogden at 1 p.m. The local relief committee has impressed an eating house at the depot, where the people will be fed.
Members of the Metropolitan Opera company, who arrived this morning, presented a grotesque appearance. They showed the effects of roughing it and could not be distinguished in dress from the other refugees on the train.

CADETS RECKLESS WITH GUNS.

San Francisco, April 21.—Chief of Police Dinan has determined to recommend to General Funston and the other military authorities the withdrawal of the University of California cadets and other military guards and companies who have not exercised the proper discretion in handling loaded weapons and in their work of performing their duty.
It was stated this morning that a number of men were shot on the water front last night for refusing to help fight the fire, but this report has not been verified.

Two men were shot in Golden Gate park last night for insulting women refugees.

San Francisco, April 21.—(8:30 a.m.)—The fire on the water front north of the ferry is now under control. It has burned as far south as the Lombard-street depot where it was checked and is now smoldering. The ferry station and some of the docks in that vicinity at this writing are safe.
The rule of martial law this morning is not nearly so rigid and in many districts has been withdrawn and only sufficient guards left to prevent any possibility of theft or looting.
With the fire danger lessened all energies now will be bent to relieve the threatening famine and pestilence. Disease has broken out in several camps and the strictest methods will be necessary to avert spread of this newest scourge.

Ferry Boats Running.

The ferry boats are running on schedule time. There is an immense crowd around the depot here and committees from all towns across the bay are urging people to leave Frisco and go with them to their homes, but the authorities won't let them take any baggage with them.
It looks like an immense second-hand store here. The people have dragged everything down here from pianos to bird cages and their goods are all piled up around the depot for a long distance. The fire is still burning fiercely up north, but the wind has gone down, making it less dangerous.

Big Section Saved.

On the north beach the fire did not reach that part of the water front lying west of the foot of Powell street. The fire on the water front is the only one now burning.
The entire western addition of the city, lying west of Van Ness avenue, which escaped the sweep of flame yesterday, is absolutely safe. No fires are left in the houses standing, owing to the chimneys.

Fort Mason Saved.

In other directions the fire is now completely under control.
Mayor Schmitz and General Funston have established headquarters at Fort Mason, which was saved by some desperate work on the part of the soldiers aided by a body of sailors from the

EASTERN TOURISTS ARE SAFE

Press of Messages Probably Explains Absence of Tidings from Many —The Telegraph Wires Overloaded.

San Francisco, April 21.—Eastern people need have little solicitude for their friends who were here as tourists at the time of the earthquake. It may safely be asserted that few, if any, such persons have been killed or injured. The casualties, with few exceptions, were confined to the occupants of cheap lodging houses.
As an inevitable result of the catastrophe people are scattered far and wide and the destruction of telegraph facilities renders it impossible to find them, or to communicate with them.
A great many strangers do not know where the temporary offices of the telegraph companies are located and these offices have necessarily shifted from time to time.
Even if the offices could be reached the facilities for sending messages have been so crippled that the companies, altho working incessantly, are unable to give much relief. There are thousands of telegrams at the offices of both companies awaiting transmission.

ORDER COMES OUT OF CHAOS

With Martial Law in Force, Hungry Are Fed and Dangers Lessened, but the Suffering Is Still Acute.

San Francisco, April 21.—For the first time in its history San Francisco has had its taste of martial law. When darkness fell upon the desolated city every inhabitant of the houses that were left standing groped about their homes in darkness early in the evening, the survivors of the terrible calamity cooking their suppers on fires built in front of their houses, the wind fanned many of the fires into nasty blazes and for a time it looked as if many new fires would be started. But police orders were issued that all fires must be put out and with a score of assistants and soldiers the building of fires in front of houses was summarily suppressed.
In none of the homes left standing were lights allowed to be burned. In places where persons lit their lights contrary to the orders of the police and the militia, citizens formed and forced the occupants to extinguish them. The only exception was in the case of hospitals.
Soldiers patrolled the streets and no citizen was allowed to pass from one block to the other except by written permission of the chief of police.

Warns Against Pestilence.

Mayor Schmitz has issued the following proclamation, which citizens are instructed to obey:
"Do not be afraid of famine. There will be abundance of food supplied. Do not allow any garbage to remain on the premises, bury it and cover immediately. Pestilence can only be avoided by complying with these regulations."
"You are particularly requested not to enter any business house or dwelling except your own, as you may be mistaken for one of the looters and shot on sight, as the orders are not to

Continued on 2d Page, 5th Column.
