## FRISCO FROWNS ON SIGHTSEERS

DESOLATE CITY WANTS ONLY LABORERS.

St. Louis Road Cancels Special Passenger Rate to Golden Gate Because Business Is Not Wanted—North Coast Cities Expected to Be Drawing Cards This Summer.

The St. Louis road has called off its special passenger rates to San Francisco for this week. The city declines to receive outsiders except laboring men, and the peculiar situation is presented that the railroads are hustling as many persons away from the coast as they can carry, taking them for nothing if they have no money. This is being done at a time when specially seductive rates are usually offered to induce the public to travel westward. The result is expected to be this summer that roads reaching north coast points will have all the tourist business they can carry, especially so if the several conventions slated for the summer are diverted to Portland, as is now expected. This will make the business thru Minneapolis heavy. As far east as Denver laboring men are offered free fare to San Francisco. They are needed in building up the new city. This demand has not reached as far east as Minneapolis, but if the necessary supply of hands is not secured before the west labor market is satisfied it is likely that transportation will be offered half way across the continent, or from Minneapolis to San Francisco.

Whether morbid curiosity of the American people will stimulate travel to San Francisco later is only a matter of conjecture, but as soon as the scare over the frequent earthquakes has passed it is expected that the tide will turn to the fated city again, and that it will become a great sight-seeing point until the work of reconstruction has destroyed the interest.

## GREAT NORTHERN BEGINS WORK

Grand Forks Will Get \$300,000 Worth of Improvements.  
Grand Forks, N. D., April 30.—Plans have been received here for a new passenger station at Devils Lake, to be constructed early this year by the Great Northern. The building will be of brick, one story high, 20x40 feet in size. It will be supplied with concrete platforms, a new departure in depot building in this section of the country.

Libby & Nelson, Minneapolis, began work here today on a new brick freight depot for the Great Northern. This structure is the first active work started on improvements that will aggregate at least \$300,000 which are planned for Grand Forks this season, including a 70-foot extension to the stone passenger station, a larger roundhouse, oil house, machine shop, coal tipples, and the rebuilding of the railroad yards at a point west of the city. A double track will be laid and between the city and Grand Forks junction, a distance of three miles, and the line to Neche will start from a point near the university instead of thru the north end of the city.

## NEW BANKS ORGANIZE

Capitalists Beat Railroads in North Dakota Towns.

Grand Forks, N. D., April 30.—There will be three towns on the Great Northern extension from Aneta to Devils Lake. The town nearest to Aneta will be McVie, the next town Tolna, and the town on the extension nearest to Devils Lake will be Creel. F. H. Wellcome, Minneapolis; D. W. Tallman, Willmar; N. B. Felton, Grand Forks; E. Olsgard, Lakota; H. C. Teland, Potosi; and J. McDonald, Lakota, have organized state banks for each of these towns, and work will begin at once on the construction of brick bank buildings. The banks will be in operation before the railroad is completed.

## ANNOUNCES NEW BOAT

Scandinavian-American Line Acquires the Steamer "C. F. Tietgen."

The Scandinavian-American line announces that it has added to its fleet the 8,500-ton twin-screw steamer "C. F. Tietgen," which is fitted up with all modern improvements. The boat will sail from New York May 17 and June 28, making close connections with North Cape and Fjord steamers. The last-named date has been fixed with special reference to the convenience of professors and teachers. On both trips the "Tietgen" will stop at Copenhagen, at which point passengers may stay over for a brief time and also make connections for Hamburg and Berlin.

Full details will be supplied by the agents of the line, the A. E. Johnson company, 100 Washington avenue S.

## REAL ESTATE GOES UP

South Dakota Towns Feel Effect of Railway Extension.

Special to the Journal.  
Bonesteel, S. D., April 30.—The North-Western railway right-of-way agent has secured the right-of-way for the building of the railroad west of the Tripp county line, thirty miles from Bonesteel. Lots in the town of Herriek, Burke and Gregory have taken a jump skyward, owing to the fact that the company has assured them that it will build to the town. This, with the assurance that Tripp county, will undoubtedly be soon opened for settlement means an era of prosperity for Bonesteel and Gregory county. Thousands of acres of wheat and oats have already been sown on the reservation lands.

At Mount Clemens Springs. The present season at Mount Clemens Mineral Springs is the most successful in the history of this world-famous health and pleasure resort. The phenomenal cures which are affected by the mineral waters there seem almost miraculous.

# In May White Goods Hold Sway

MAY IS THE MONTH of preparation for June brides and June graduates; the month in which women plan their wardrobes for the summer. Months ago we were told that this was to be a "lingerie season"—that white would be in pronounced favor. We profited by the intimation, bought lavishly in white fabrics and white garments. Now we bring you the results—an embodiment in white of the best attainments of leading manufacturers of Europe and America.

To emphasize the occasion we offer some of the most desirable white things in the store at special low prices.

## May's Showing of White Fabrics

is remarkable in extent and replete with opportunities to purchase materials for new waists, gowns, lingerie and summer suits at low prices. We contracted for large quantities of dainty white fabrics months ago, specifying delivery in time for May selling. Had we not placed our orders far in advance we could not quote the prices we do.
