Five horses were cremated at midnight last night in a barn at 478 Sibley street, St. Paul, horses said to be belonging to Hugo Martin. The fire is believed to have been of incendiary origin. Mr. Martin places his loss at \$700. A man was leaving the rear of the barn shortly before the fire occurred. His description has been given to the police.

vacant.

Have you a vacant room? If so it is a "find" to rent it. Place an "ad" in The Journal's Furnished Room Column on the Want Page, and you will secure a desirable tenant. You don't have to leave your home to place an ad in The Journal. If you have a phone, just call up Main 9, either line, and give your ad, it will be inserted without any extra charge. Rates are just the same as when you bring it to The Journal counters. Only one cent a word; no "ad" less than 20 cents.

ERROR BENEFITS SOLDIER

Fort Snelling Prisoner's Sentence Reduced Onehalf by Colonel Sweet.

Colonel Owen J. Sweet, reviewing authority for the department of Dakota, has approved of a number of sentences of court-martialed at Fort Snelling and Fort Missoula with one exception. The exception is in the case of Private George H. McNabb of company K, Fort Snelling, who was sentenced to dishonorable discharge, forfeiture of all pay and allowances and six months' hard labor. Colonel Sweet finds some fault with the record in the case, and, therefore, reduces the sentence to three months' hard labor, to be executed at Fort Snelling.

Fun for the Asking.

MILK MEN SLOW

Only Small Number Have Taken Out New Licenses.

Milk dealers in Minneapolis are slow in taking out licenses, which date from May 1, and in a few days the state dairy and food department will begin making arrests of those who are delinquent. Last year 1,500 licenses were issued, and to date only 300 have been issued. Under the new code all saloons and restaurants serving milk must also pay \$1 for a milk license. This will greatly increase the number.

Cool, luxurious comfort always at hand if you have a "Tutor" chair Hammock. The New England Furniture & Carpet Co. sell them.

DEAD MAN IDENTIFIED

Man Killed by Street Car Was Patrick Griffin of St. Paul.

Mrs. Anne Turner of South St. Paul has identified the body of the man killed on the street car tracks under the conduct of Washington avenue S. Monday as that of Patrick Griffin, late of St. Paul, but had two children living with another aunt, Mrs. O'Brien, on George street, the Washington avenue bridge, and had come to visit them Sunday. While walking about the city Monday morning he met with the accident which killed him. He was 25 years old, and was a widower. He worked as a laborer in St. Paul.

FILTER QUESTION UP TO THE COUNCIL

LOWRY OFFER OF FREE SITE MUST BE SETTLED.

Proposition of Issuing \$1,000,000 in Bonds to Construct Filtration Plant May be Resubmitted to Voters—Matters Held in Abeyance Since Fall of 1904.

Minneapolis will have another opportunity to accept Thomas Lowry's offer to present the city with fifty acres of land at Columbia Heights as a site for a filtration plant for the city water supply. In order to place the matter before the people, Alderman Charles B. Holmes, at the meeting of the council committee city waterworks, moved that the committee recommend that the council submit to a vote of the people the question of issuing bonds to the amount of \$1,000,000 for the construction of a modern filtration plant. The motion was passed and will be offered at the council meeting Friday evening.

Mr. Holmes also presented a copy of a motion recommending the passage of a resolution appropriating \$50,000 out of the waterworks fund for starting work on the filtration plant.

History of Project.

Two years ago the city passed thru a serious epidemic of typhoid fever which aroused the people to action. As the result of a series of mass meetings it was decided to ask the city council to appoint an expert commission to study the available sources of a water supply for Minneapolis, and to submit a report with recommendations.

The council appointed Allan Hazen of New York an expert of national fame. F. W. Capron, former city engineer, and Andrew Rinker, city engineer. After careful investigations, extending over a period of several months, the committee submitted a report recommending that the city rely on the Mississippi river for its water supply and that a sand filtration plant be established in conjunction with a water tower to purify the water. The extreme cost of the plant was estimated at \$1,250,000.

Land Is Donated.

Mr. Lowry then made an offer to present the city with the land which was needed and on the advice of the pure water commission the city council selected fifty acres adjoining the reservoir on the west. It was decided that \$25,000 should be taken from the waterworks fund and that the proposition of issuing \$1,000,000 in bonds should be submitted to a vote of the people at the general election of 1904. The proposition failed to carry, largely on account of the construction of the law by which it is held that the voters who did not vote were counted as voting in the negative. Since then, nothing has been done about the matter.

Mr. Lowry has recently inquired of the authorities what the city intended to do with the land. He explained that his former offer was still open, but he wanted some definite assurance that the city intended to comply with the conditions of the gift. The land is growing in value rapidly and at the present time is worth about \$50,000.

WHITE BEAVER HAD TWIN CITY FRIENDS

Dr. D. Frank Powell, who died Monday on a train between Los Angeles and El Paso, was one of the untold characters of western history. For some time he had been a physician and surgeon at St. Paul. Previously he was a resident for many years in Wisconsin. He was popularly known as "White Beaver," which name he received as a medicine man of the Winnebago Indians. In early days Powell was a plainsman and scout of the Buffalo Bill class and he was as famous as Colonel William F. Cody, his business partner.

After White Beaver had been a resident of La Crosse for some time he crossed to the northward and, much to the surprise of the people, won out against the conservative representative of the opposite party who was elected mayor. He was well-known as a surgeon.

"Night Hawk" and "Handsome Will," two brothers of Colonel Powell, Dr. George and Dr. Charles, were respected citizens of La Crosse. Colonel Powell leaves a widow, who is a frequent guest of Minneapolis friends.

Fur storage free if repairs total \$10.

Insurance. Palace Clothing House.

FOURTEEN MILES OF WATERMAIN TO BE LAID

Supervisor J. H. McConnell of the waterworks department, in revising the figures for the work ordered up to date, finds that he will be required to lay 70,234 feet of watermain this year and set 189 fire hydrants and 182 gates. This will add 13 3/5 miles to the city's distributing system, which is a big season's work.

The mains are of the following sizes: 6-inch, 54,382 feet; 8-inch, 24,368 feet; 12-inch, 6,900 feet; 16-inch, 6,516 feet. Unless the lake strike is settled or broken in the near future, it will greatly delay the work of laying mains, as much of the pipe has been shipped by way of the lakes.

SPECIAL SALE AT THOMAS'

John W. Thomas & Co. are holding their first May special sale of muslin underwear and lace curtains this week, and judging from the large attendance at the sale it is proving of most unusual interest. The firm is offering its entire stock of lace curtains, including all kinds and qualities, from the moderate price Nottinghams to the handsome and dainty styles and designs, affording an opportunity for the furnishing and beautifying of the humble home or the luxurious palace of wealth.

The muslin underwear on sale includes the plain and substantial sort, such as gowns, skirts, drawers, chemises and corset covers, also the most dainty and beautiful hand-made French lingerie, this latter appealing to the most refined feminine fancy and over which the ladies linger with admiring gaze.

Today began their semi-annual silk sale, which sales are held in May and November of each year. Owing to the backward season, silks have moved slowly this spring, consequently large lines remain to be closed out at this sale. Some 7,000 yards are offered, all, including silks for all purposes, waists, fancy work, party and reception gowns—silks of a class which always appeals to the ladies especially when such excellent bargains are to be had.

COMPANY H WINS IN FLAG CONTEST

JOURNAL CADETS RALLY TO PARADE GROUND.

Young Soldiers, Half Thousand Strong, Step Lively to Inspiring Music and Show Regular Army Officers How Well They Can Drill—Efficiency Brings Hearty Applause.

TONIGHT'S DRILLS

Company C, First regiment, Third Ward Republican hall; Major Ray.
 Company I, Second regiment, Third Ward Republican hall; Major Wilson.

Company H, First regiment, which has been drilling at Holy Trinity church under Colonel Hawley, won the prize flag last night at the army camp in the competition of the companies of the Journal Cadet brigade.

It was the first assembling of the companies, and circumstances considered favorable showed the result. There are 462 cadets in line, 295 of whom were in uniform. The first regiment made the best showing, with nine companies in line, while the second regiment had but three regular companies and two provisional companies, made up of boys who belonged to several different companies.

Boys Feel Strange.

As might be expected, there was more or less confusion and delay in both assembling and carrying out of the drill. It was the first appearance on the campus for most of the boys. They have been drilling in halls during the last two months, and marching in the streets during the last few days. It can be truthfully said that none did his very best. Another such a competition will show an improvement that will be marked, and the opportunity will be presented before long.

Next Saturday afternoon there will be a battalion drill, for practice in battalion maneuvers for the G. A. R. parade on Commercial way, which all the companies are to be invited to participate, and, weather permitting, such drills will probably be held Saturday afternoon during the week.

The cadets began to assemble at the campus at 7 o'clock, coming from all directions, fairly whooping with exuberance. A sign indicated where each company was to assemble, and soon the campus was dotted with groups of tanned, boyish figures.

The Journal Newsboys' band played a number of lively airs and a large number of spectators gathered around them being ladies, so it was evident that the mothers and sisters of the boys are not lacking in interest in the brigade.

Competitive Work.

The competition began at 7:30 and lasted until nearly 9 o'clock. Each company was given the same movement. Fall in, company formation, salute, the facings, steps, squads right and left and squads right and left about. Captain John H. Parker and Captain John C. Johnson, stationed at Fort Snelling, and Lieutenant Colonel P. Schouten, of the University Cadet regiment, officiated as judges. Proficiency in drill, neatness in dress, number of men in line, two; appearance, two; total, ten points. Their markings were as follows:

First regiment: Co. H, 343; Co. C, 320; Co. F, 317; Co. B, 316; Co. E, 303; Co. I, 289; Co. D, 281; Co. G, 274; Co. A, 242. Second regiment: Co. E, 309; Co. B, 287; Co. D, 270; provisional company, 266; Co. composed of I and H, 217.

As the markings show, Company H, First regiment, won by an easy margin. Every man but one was in uniform, and the lesson exacted by the flag was the highest rating for both uniforms and appearance. In drill it was tied, however, by Companies C, F and B.

Flag Is Saluted.

After the percentages had been figured out, the flag was brought forward and saluted by the trumpeters, and then its presentation was made to Company H by the Rev. C. E. Haupt, chaplain of the United States, the greatest of all nations, he said.

There was hearty cheering for the flag and Company H, the band played a patriotic air and the competition was over.

Only those who have watched the progress of the cadets can appreciate how much has been accomplished in a short time. Following the announcement that the flag was to be carried, a national organization a cadet regiment the first drills were begun a week later and the second regiment was not organized until March 18. Results, too, have been received up to date and this has somewhat retarded progress. The companies have drilled 11 halls by themselves, and last night was the first time they were brought together, even to see each other.

Warm Praise for Boys.

Spectators last night were liberal in applauding several of the companies. Major Bibb of Company B, First regiment, especially caught the fancy of the crowd by his soldier-like carriage and coolness.

The army officers were enthusiastic over the drilling of the boys.

"The work The Journal has undertaken," said Captain Parker, "should be copied in every town and city in the country. It is the best possible exercise—it gives a discipline that can not otherwise be enforced which will help morally and mentally, and besides, it inculcates patriotism and pride in the flag. The hardest part of the work is over now, and you will find that the boys will improve with surprising rapidity now. They have got the habit of doing things they know that is required of them, and their enthusiasm will grow. By the time of the Grand Army reunion in August the militia and regulars will have to look out for their laurels, for I predict the Journal brigade to be the hit of the parade."

It is now proposed to inaugurate battalion drills next Saturday afternoon. Drills in the manual of arms with model guns will begin June 1.

Importance of Purity.

One cannot be too careful in the selection of a stimulant. Purity should always be the first consideration. All getting more whiskey is absolutely avoided by buying from the Hayner Distilling Co., 36 Fourth street S. You also save the wholesale and retail dealers' profits. Order today—right now—a trial quart of Hayner Private Stock Rye. Price only 80 cents delivered at your door. Twin City phone, 9455. Remember, your money back if not satisfied.

FISH BOARD WILL ACT

PROPOSES ACTION AGAINST TOWER LUMBER COMPANY FOR INTERFERING WITH COMMISSION'S WORK.

The state game and fish commission will probably bring action against the Tower Lumber company, charging contempt of court, and also a civil suit for damages. The matter has been placed in the hands of W. B. Douglas, former supreme court justice and present attorney for the commission, with this end in view.

The commission took the same view of the matter as S. F. Fullerton, its executive agent, that the lumber company's men showed an utter disregard for the courts and the commission, and that the time had come to teach them a lesson. Mr. Fullerton says the driving of logs in the river at Tower prevented the employees of the commission from collecting 200,000,000 pike eggs. He reported to the commission that 30,000 pike eggs were secured at Duluth and 12,000,000 at Brainerd. About six million trout fry will be sent out from the St. Paul hatchery this spring, if the commission is not interfered with. The commission considered the loss of fish fry from Minnetonka, which is caused by the overflowing of outlet dams. This is to be overcome by placing 18-inch screens above the dam work.

CATTLE SALE ATTRACTS PROMINENT BREEDERS

The twenty-seventh annual sale of Scotch northern cattle from Brownhead herd, the property of H. F. Brown, took place yesterday afternoon at the sale stables at Lyndale avenue and Thirty-second street S. A large number of cattle fanciers from a distance were present, and the bidding was spirited. Mr. Brown in his catalog said that he did not expect big prices, so if the sale was not marked by fancy figures, it was entirely satisfactory to Mr. Brown. Colonel F. M. Woods and Colonel George Bellows, both well-known live stock auctioneers, officiated on the block.

Between fifty and sixty head, mostly females, were cataloged, and thirty-nine were sold. The total of the sale was \$1,140, an average of \$286 a head. Thirty-six females averaged a trifle under \$300 a head, and three bulls averaged \$143 a head.

J. H. Garrett of Mountain Home, Idaho, was the heaviest buyer, taking twelve head at an average of \$285. Elvira's Rose, 21st, an imported cow 6 years old, headed Mr. Garrett's herd at \$600. He paid \$500 for imported Violet 4th and calf.

Colonel Frank G. Lowden of Oregon, Ill., well remembered as one of the strongest candidates for governor of Illinois before the republican state convention, bought two cows, imported Winsome Maid at \$725 and imported Eudora (Charrell), nearly 9 years old, which was the highest price paid at the sale. W. I. Wood of Williamsport, Ohio, paid \$600 for the imported Darnley Duchess 6th, nearly 9 years old, and \$405 for Spic of Brownhead 9th, a cow 7 1/2 years old.

T. H. Canfield of Lake Park, Minn., bought four head, paying \$405 for Mint Drop 9th, a cow not yet 4 years old. E. Morton of Blooming Prairie bought three head, paying \$200 for the bull Scottish Royal 25th 65.

Other purchasers were George Allen, Lexington, Neb.; D. Tietzen, Bellevue, Iowa; A. Crystal, Marshall, Minn.; Frank Harding, Waukesha, Wis.; S. Fletcher, Mattoon, N. D.; Dr. W. H. Earles, Milwaukee; Howard Cattle company, San Francisco; Judge D. B. Searles, St. Cloud.

Among those present were former Senator W. A. Harris of Kansas and A. H. Sanders of the Breckers' Gazette, who addressed the stockmen present as did also Colonel Lowden.

BIDS ARE TOO HIGH

State Board of Control Must Modify Plans for Varsity Greenhouse.

For a second time the state board of control has been obliged to reject all bids for the new greenhouse at the state university. The appropriation is \$10,000. The bids have gone to nearly twice this figure. It is evident that the desires of the university officials will have to be modified before the building can be erected with the money available.
