In and Out Billiards Mark the Tournay at Chicago.

Chicago, May 11.—Slosson now holds the high run for the billiard tournament so far—142, while in his game last night when Slosson, despite this big run Slosson lost the game, having scored but 423 points when Slosson ran his 500 points.

HOME RUN HITS CAUGHT IN POCKET

DR. KOHLER DRIVES PAST NICOLLET BASEBALL PARK.

Over the Fence Comes a Ball, Unseen by the Auto Driver, and Crawls into His coat as a Refuge from Fielders and Boys—But Doctor Is Innocent.

Dr. C. H. Kohler has in his possession a baseball which he would not sell for love nor money. It was not given him, nor did he take it. It traveled into his pocket, and thereby gives an interesting little narrative of the queer things pertaining to the national game.

Tuesday afternoon Dr. Kohler was driving his automobile up Nicollet avenue. Suddenly he felt a bump on his right side. Inside the inclosure the man of healing could hear the populace yelling like a tribe of Indians at a beef issue.

The spirit of the physician warned at the thought of the great hit and he drew out his hand from his pocket for a handkerchief to wave at James. He drew out—not a handkerchief but a new baseball with a deep dent in one side of it.

He caught Hart's long fly in his pocket while speeding up Nicollet avenue in his automobile. It is the record catch of a home run in baseball history—but the umpire did not see it.

AUTOPSY SHOWS THAT CHILD WAS STRANGLER

An autopsy held today on the body of the baby found yesterday by children in Northern Minneapolis shows conclusively that the child was strangled. The police are making a determined effort to find the parents of the child and to fix the responsibility for its death.

CHANGE THE DATE

The convention of the Minnesota Drainage League at Wadena will be held June 26. The date has been changed from June 6, because that conflicted with the time set for the republican county conventions. June 5, many wrote that they would be unable to attend the county conventions and get to the drainage meeting, so the change in date was necessary.

PURE WATER CRY IS HEARD AGAIN

IMPROVEMENT LEAGUE LIKELY TO REOPEN CAMPAIGN.

Health Officials Foresee More Dreadful Epidemic of Typhoid Than Any that Has Yet Visited City in the Growing Contamination of the River.

The Improvement league will probably resume its campaign for a filtration plant as an adjunct to the city water supply system as soon as the city cleaning movement is thoroughly organized and at work. It was the improvement league which took the initiative in the movement for pure water two years ago, and the members feel it their duty to continue the work.

Mass meetings called by the league two weeks ago were well attended, and such was public sentiment that a "pure water" commission, consisting of three recognized experts, was appointed by the city council to consider the entire subject. The league conducted an active propaganda and enrolled thousands of voters in the cause of pure water.

Much of the work of arousing the public to the constant menace to life and health, thru impure water must be done all over again, but the ladies say that they are prepared to go ahead as vigorously as before. The purification of the water supply is the most important question before the people.

TEACHERS ASK BOYS TO PROTECT THE BIRDS

At the request of Professor F. L. Washburn, state entomologist, Superintendent C. M. Jordan of the public schools has sent a circular to the principals of the schools urging them to use their influence with the boys to have them refrain from shooting and stoning birds. It is believed that a personal appeal to the boys by their teachers will have much weight and induce them to desist from the practice.

RAIDED FOR CHARITY.

Memphis, Tenn., May 11.—Montgomery park club, yesterday a card of seven cents. The regular spring meeting scheduled closed today. The regular meeting was held at the park; will be subscribed to the San Francisco relief fund. The feature was the second choice, won, but was disqualified because of a foul play in securing first money. Weather fine; track fast.

PILLSBURY LIBRARY CIRCULATION GROWS

The Pillsbury library continues to push forward. An average gain of 25 per cent in circulation since Jan. 1, and a gain of 27 per cent in April over the preceding April, the accession of as many classified books in the two current months as were received during the entire year of 1905, twice the amount of "C. D." fiction, and a vastly increased usefulness and service as a consequence—these are some of the bright features of the library year. And East Siders are more loyal in their support daily.

It is the purpose of the staff to keep the list always up to date and changes will be made as the need arises. In another department much progress has been made. The fiction has been shelf-listed on cards and it is hoped that the middle of the summer will see a complete shelf-list of the entire library. This is available for use by the public at all times. When the catalog proper will be begun. In the meantime all late fiction is being fully cataloged.
