FOOS GAS ENGINE CO. 310 Third Ave. S. MINNEAPOLIS, MINN.

Railroads

ALPHABET IS GROWING

ALBERT LEA AND CREAM WILL BE CONNECTED BY STEEL BY JUNE 20.

Special to The Journal. Mankato, Minn., May 28.—Work on the Duluth, St. Cloud, Glencoe & Mankato railway is being pushed, and it is expected that the portion from Albert Lea to Cream will be completed by June 20, and that the line will be built to Mankato by Oct. 31.

The action of the township of McPherson in voting \$12,000 of bonds practically unanimous last week, to aid in the construction of the road, means that from Cream it will go north to St. Clair. Decoria farmers have raised \$1,100 of all McPherson in paying off the bonds.

Contractor George H. Homan of Sank Center has fifty men and teams at work. His section is from Plum Valley to Cream, and he has instructions to rush the work as fast as possible. There is little doubt but that the road will be pushed on to St. Cloud another year. Crews of surveyors are still at work on the proposed line. The portion of the line that was graded last year is to be widened.

NEW STATION PROMISED

Northern Pacific Buys Land in St. Cloud for Betterments.

Special to The Journal. St. Cloud, Minn., May 28.—The Northern Pacific road has just bought fourteen acres of property adjacent to its station in St. Cloud, to build a modern \$50,000 station. The surrounding grounds will be landscaped and beautified. The streetcar line is to be extended to the new station. Work will begin on the improvement immediately.

The company will make extensive betterments to its property, not only in this city, but along the entire route to the west from this city. Engineers have been over the ground this spring surveying for the double track system which is among the contemplated betterments.

TROLLEYS FOR VILLAGE.

St. Louis Man Would Build Electric Lines in Minnesota.

Mankato, Minn., May 28.—Isaac A. Smith, a civil engineer of St. Louis, is investigating the feasibility of constructing electric railway lines from village to village in southern Minnesota, to connect larger cities. He indicated the possibility of a line being built from Mankato to Easton or Delevan, Minnesota Lake, Plum Valley, Wilton, Waseca, Palmer, Blooming Grove, Morristown and Warsaw to Faribault. He also thought well of a plan to run a line from Mankato to Waseca.

Stay Is Granted.

Special to The Journal. New York, May 28.—The United States circuit court of appeals, in the case of the Delaware, Lackawanna & Western railroad against Westcott, has granted a stay of judgment until the final disposition by the supreme court of the application of the railroad company for a writ to review the judgment. At the Lackawanna office it was stated that the application was made at once, and that the writ was not deemed proper to make any answer to criticisms of the motives of the officers contained in Judge Wallace's opinion. The stay of judgment of the company had been taken upon the advice of counsel, and that Westcott had no lawful or just claim against the company.

Underwood Is Busy.

F. D. Underwood, president of the Erie, and former general manager of the Soo line in Minneapolis, stands second in the directory of directors in the United States. He is director in seventy-two companies. W. H. Newman, president of the New York Central, has a record of 106. Mr. Underwood is a native of Depew, who drops back to third place.

Transfer Annual.

The annual meeting of the Minnesota Transfer Realty company will be held June 13 at St. Paul. New directors will be elected.

RAILROAD NOTES.

The Canadian Northern railway has ordered rolling stock which will cost \$2,975,000, including forty-four engine stock, with the exception of about \$275,000 worth, is being made in Canada. Railroad business continues to hold the center of interest in the iron and steel trade. Buying and practically all the authorities are agreed that there are now on the books orders for at least 1,000,000 tons of steel for 1907 delivery. The Lake Superior Development company has been formed by mining men prominent in the metallic and geological business of Wisconsin. Exploratory operations in the lead and zinc districts of southwestern Wisconsin. Green capital, working thru the Frisco system and the Rock Island, will be invested in a coal-mining region comprising the Frisco system near Salem, Ill., with the Rock Island at Peoria, and creating a short haul from the Rock Island to the Rock Island.

HAY'S BOOKS AS GIFT.

Washington, May 28.—Mrs. John Hay, wife of the late secretary of state, has presented to the department of politics and diplomacy of the George Washington university a large and valuable collection of books from the library of her late husband.

DAYTON'S—Seventh and Nicollet—DAYTON'S

Made in New York

THE best dressed men of New York have their sack coats shaped at the waist and of moderate length; they will not wear side or back vents.

Their trousers have less of the peg top effect than was the vogue last season.

Alfred Benjamin & Co., whose tailor shops are a block from Broadway, a minute's walk from Fifth Avenue, faithfully adhere to every innovation in style.

When you buy clothes made by Alfred Benjamin & Co., you know they conform to the prevailing New York fashion.

Why keep the "don't need things" and worry about the "can't get things"? A Journal want ad negotiates a trade. There is an art in writing a Journal want ad for a servant. Many servants are already employed but are looking for better positions. State the advantages of the position you offer when you advertise.

ELEVATOR WILL BE A TOTAL WRECK

Defective Concrete Work in Mammoth Building at Fort William Causes Loss.

Special to The Journal.

Fort William, Ont., May 28.—The foundation of the mammoth steel elevator owned by the Ogilvie Mill company gave way last night and the great building is threatened with total destruction. It contains 350,000 bushels of grain. A millwright who was at work in the basement was suddenly startled by loud, cracking noises and, hurriedly making his way out, escaped just as the foundation collapsed. The giant structure slid toward the river, thirty feet from its original position, and is tilted at an angle of twenty-three degrees.

The estimated loss is \$250,000. The building itself, which is valued at \$350,000, is not yet a total loss. Some 350,

000 bushels of grain is in store and it is estimated that not more than 40 per cent can be saved.

The accident has been attributed to many causes, but it is believed that the concrete work was defective. Competent engineers who have examined the ruins share in this opinion. The building had a capacity of 500,000 bushels and was constructed by the McDonald Engineering company of Chicago, and was completed Jan. 1, 1904.

The transferring of grain from the building is a difficult undertaking, as the elevator is likely to topple over. The new mill adjoining the elevator has apparently suffered no damage.

A Wise Man.

The man who deals directly with the manufacturer displays wisdom, for he not only safeguards his purse, but the quality of goods purchased as well. Be wise, cut out the wholesaler and retail profits and get a quart of pure Hayner Private Stock Rye direct from the distillery. Price only 80 cents per quart delivered at your home. Satisfaction guaranteed or money back. Twin City phone 9455. The Hayner Distilling Co., 35 Fourth street S.

You can't be too particular about the quality of the whiskey that is kept on your medicine shelf. If it is Pickwick Rye, rest assured it is the best.

SCHOONER SINKS; ONE LIFE IS LOST

Cleveland, May 28.—Buffeted by the fierce storm that swept Lake Erie early today, the schooner Mabel Wilson sprang a leak and sank just outside the Cleveland breakwater. One sailor, whose name has not yet been learned, was drowned. Seven other members of the crew were rescued after a hard fight, three of them being taken off by the tug Lutz and four by the life-saving crew.

The Mabel Wilson arrived off the harbor shortly before daylight and, in response to her signals, the tug Lutz went out and tried to bring her inside the harbor. Because of heavy sea the tug was unable to handle the vessel, and the schooner was anchored in the hope that she might ride the storm, but the waves soon engulfed her. Captain Gotham and Mate Gunnison of the schooner were badly hurt while being taken from the sinking vessel. They were taken to the marine hospital. The Mabel Wilson was loaded with ore from Escanaba. She was of 2,500 tons burden and was owned in Detroit.

LET HARTMAN "FEATHER YOUR NEST."

The Kind of Goods That Make Friends for the House

OUR CONSTANT AIM is to make each transaction so satisfactory that every purchaser will become a regular customer. We try to make each article advertised even better than the advertisement says it is. We try to put into each article sold such value that the purchaser, after using the goods, will be better satisfied than at the time of purchasing. This policy is bringing the people of Minneapolis to Hartman's in ever increasing numbers and making every day a busy day for us.
