MOORHEAD GAINS RAILROAD SHOPS

NORTHERN PACIFIC PLANS EXTENSIVE TERMINAL YARDS.

Fargo Loose Division Headquarters, Roundhouse and Other Important Industries to Minnesota Town—Land Purchased for Switching Tracks and Contracts Let for Locomotive House and Water Supply.

Special to The Journal.

Moorhead, Minn., June 8.—The Northern Pacific railroad is removing its shops and division headquarters from Fargo and locating them in the eastern part of the city of Moorhead. For some time it has been known that the road was securing land in this vicinity with this end in view, but for various reasons no publicity was given to the plans. The land secured is just east of the city limits in four sections, and is about 800 feet wide thru parts of three sections on the south side of the present city of Moorhead. The same width thru another section on the north side of the right of way.

Yards Are Extensive.

The yards will be in two parts: one for east-bound trains will be south of the track, and one for west-bound trains will be on the north side. Each yard will have twelve to fifteen tracks one mile each in length. Between the two yards will be located the engine and car repair tracks, twelve to fifteen in number, and each about three-quarters of a mile long. In addition there will be two switching leads, one at each end of the yards, each a mile long, making in all approximately forty miles of trackage.

The contract for a forty-five-stall roundhouse has been let to Newman & Hoy of St. Paul. This roundhouse will be in the form of three-fourths of a circle with a diameter of 450 feet. There will also be located near this, the car repair shop, 200 feet long by 90 feet wide; a coal dock to serve three tracks, and two 100,000-gallon water tanks.

Fine Water Supply.

A. Guthrie & Co. have the contract for building a reservoir 600 feet wide by one mile long, running from the east end of the yards to the Buffalo river. This will be lower than the bed of the river, and will be fed by the river and by artesian wells. It will supply 500,000 gallons of soft water a day for the engines. Other improvements are being planned, but have not yet been announced.

The importance of this move to Moorhead can hardly be estimated. It thus becomes a freight terminal surely, and probably a passenger terminal.

SEEKING FREIGHT CLEARING HOUSE

EAST SIDE BUSINESS MEN AFTER NEW CONVENIENCE.

Conference at St. Anthony Commercial Club Decides to Work for Scheme Thru Which Shippers Might Save Time and Money and Furnish New Institution for the East Side.

Business men of the East Side are discussing the establishment of a freight clearing house in East Minneapolis, to stop the loss of time and money attendant upon the delivery of freight to railroad stations on the west side of the river. In many cases the loss of teaming nearly equals the cost of production. This is especially true on special shipments of small articles.

The matter has been discussed with little success because no one has been willing individually to take the initiative and start the campaign. But at last the matter has been brought to a head.

An informal meeting of East Side Minneapolis manufacturers yesterday afternoon at the St. Anthony Commercial club, the question was thoroughly discussed, and it was decided that action should be taken at once. Every man present expressed himself as strongly in favor of the new clearing house.

As a result the public affairs committee of the St. Anthony Commercial club will take the matter in hand at its next meeting June 15.—Members of the committee say a meeting of East Side manufacturers will be called at the rooms of the St. Anthony club to decide upon the location of the proposed freight clearing house and to take steps as a body to inform the several railroad lines in Minneapolis of their plans and wishes. The Omaha, Burlington, Wisconsin Central, Great Northern, Northern Pacific, Soo and Milwaukee systems have track facilities on the East Side and business men say it would not be difficult to establish a joint freight station and clearing house to meet the needs of the St. Anthony business men.

These roads have always been open to plans of improvement in the past and it was the feeling of the manufacturers present at yesterday's meeting that they would readily co-operate with the East Side business men in this new project. Secretary Burgan of the St. Anthony Commercial club expressed himself in favor of the idea, while President J. T. Elwell has repeatedly advocated the establishment of such a freight depot.

CRAWFORD SUNSHINE SOCIETY IS ACTIVE

The Crawford Sunshine society has been more active this spring than ever before. Not only have poor and sick on the East Side been tenderly cared for, but the organization has extended its field to other sections of the city and has become recognized as one of the prominent benevolent institutions of Minneapolis.

Mrs. William H. Kirk of 329 Fourth street, St. Paul, and Mrs. Crawford, who have done wonders in this work, and have put the club upon a firm financial foundation. Frequent meetings are held and new plans formulated each month.

In order that the society may do more for the community, the Sunshine people have secured the co-operation of the St. Anthony Commercial club, so they may assist the larger organization in its campaign for a better East Side. In future all benevolent work that comes before the men's club will be referred to the Crawford society.

The new Sunshine cottages at Forest Lake, Minn., have been completed and are being furnished as fast as donations come in. Friends of the society on the East Side have responded to the call for old furniture and kitchen articles, but there is much yet to be done.

The next monthly meeting will be held at the home of Mrs. Blackburn, 419 Eighth avenue SE, on Monday afternoon at 2:30.

ST. ANTHONY CLUB IS TO HOLD A SMOKER

The members of the St. Anthony Commercial club will not be idle this summer. Secretary Burgan, with H. L. Patthey and J. T. Elwell are arranging for a club smoker to be held in the next ten days in the rooms of the organization.

This has been under consideration for some time, and will be made one of the most enthusiastic gatherings of the year. An elaborate program of toasts and addresses has been framed and will be announced soon. These gatherings give the men of East Minneapolis the best opportunities for becoming acquainted with each other, and at the same time make pleasant social occasions.

The officers of the Commercial club are also planning a club picnic to be held in the second week of July. Minnetonka or some other Minnesota lake, conveniently located, will be chosen as the place for the outing.

Those who were present at last year's picnic are enthusiastic over the plan. The party will leave on a special train early on a Saturday morning and will remain over Sunday at the temporary club camp. Tents will be provided and every necessity and convenience will be at hand.

A large number of East Side business men say they will take the trip, and the outing will undoubtedly be one of the most enthusiastic gatherings of the year.

Miss Fredell entertained a score of friends at her home on Marshall street NE Saturday afternoon for a dozen friends.

Summer Exodus Takes Many From East Side

The summer exodus commenced this week in earnest. Scores of university students returned to their homes throughout the northwest and others left with surveying parties or on vacation trips. Soon the campus will be deserted, except for some belated stragglers who remain to pursue work in the summer school.

Family after family has moved to Minnetonka for the season to enjoy the cool lake breezes during the prolonged holiday. Church and shopkeeper feel the change.

During the summer months the East Side is one of the most pleasant residence districts of the city. Well provided with old shade trees and fine stretches of lawns, it is cool when other sections are sweltering and uncomfortable. Its several parks afford opportunity for rest and quiet and are well filled throughout the day, while its gardens and boulevards add to the pleasures of walking.

Fishing and Camping Rates to Madison Lake, Waterville and Elyan, Minn., via Chicago Great Western Railway.

For parties of ten or more one fare and one-third for the round trip, good for ten days. Tickets on sale daily until Sept. 30. For further information apply to R. H. Heard, General Agent, corner Nicollet avenue and Fifth street, Minneapolis.

EAST SIDE JIM KEY BANDS TO HOLD PICNIC

The Jim Key Bands of Mercy of the East Side grade schools have prospered more than could have been hoped for. Principals report that the youngsters have taken hold of the work with enthusiasm and are anxious that the organizations continue their activity to some extent thruout the summer months.

Accordingly, picnics and lake parties are being planned by the teachers and will be held at stated intervals thru the vacation. These outings will be announced in The Journal in time for the young people to make all preparations.

The Kitchen Store.

Among the newer retail stores on Central avenue the Kitchen Store is conspicuous. Its window displays are attractive and its household utensils up-to-date. Handy kitchen articles are here in abundance and are sold at prices below those of the West Side establishments.

It is little wonder then that the Kitchen Store has become popular among the housewives of St. Anthony.
