## ONTARIO SWEEP BY HEAVY STORM

### Great Damage Is Done by Wind and Rain at Several Points.

Hamilton, Ont., June 9.—A terrific wind and rain storm swept over Ontario from one end of the southern peninsula to the other, demolishing buildings, uprooting trees and leaving the telegraph and telephone lines in a tangled mass of wires.

The storm struck this city at 4:35 yesterday afternoon, and for twenty minutes the wind tore thru the streets at the rate of eighty-five miles an hour. Immense oaks and maple trees were cut off at the base as cleanly as tho a saw had been used; buildings were demolished and electric wires of all kinds prostrated. The streetcar service was suspended for four hours. Forty buildings in course of construction and some that had been finished were blown down. Churches, factories and business blocks were badly damaged.

Reports from fruit farms in the valley east and west of Hamilton state the damage to fruit trees will reach many thousand dollars.

### Women in a Panic.

This was ladies' day at the race track and the grandstand was crowded with women when the storm broke. When the wind reached such a velocity that it threatened to wreck the stand a panic seized the crowd. The women screamed and huddled together and many of the men climbed over the fence into the field, where they lay flat on the ground in the drenching rain.

### Chatham Suffers Heavily.

Chatham, Ont., June 9.—Thousands of dollars damage was done by a terrific wind and rain storm which swept over this city at 1:30 o'clock yesterday. Houses and buildings all over the city were twisted out of plumb by the wind, chimneys were torn down, the streets blocked with felled trees and other debris, and general havoc was played. So far as known, however, no one was seriously injured.

### London, Too.

London, Ont., June 9.—The storm which prevailed in Ontario did a great deal of damage. In St. Thomas several buildings were damaged and telegraph and telephone lines were prostrated. A cyclone passed southerly across the western peninsula, the villages of Baden, West Lorne, Dutton, Sheddin, Iona and Singal being in the storm track. At all these places damage was done, but no lives were lost there.

### Storm Hits Steamer.

Lewiston, N. Y., June 9.—The steamer Niagara of the Niagara River Line, plying between Toronto and Lewiston, on Lake Ontario, was struck by the cyclone in midlake. The steamer's decks were swept clean by the wind and the heavy seas. The 150 passengers on board spent a bad half hour and were overjoyed when Captain Smith succeeded in bringing his boat into the river. They made up a purse of \$200 which they gave Captain Smith.

## FLOUR MILLERS TO MEET AT MILWAUKEE

Milwaukee, Wis., June 9.—Milwaukee is preparing to entertain the largest gathering of flour millers in the history of the country, the occasion being the annual convention of the Millers' National Federation, on June 20, 21 and 22.

An attendance of 1,500 is expected, including many ladies and a delegation of foreign visitors.

The program will include as speakers B. J. Rothwell, of Boston, on "The Arbitration Committee"; A. W. Howard, Minneapolis, on "Comparative Baking Tests"; Harry E. Hooker, Lansing, Mich., on "The Model Local Organization"; S. T. Ballard, Louisville, on "Cost and Accounting Methods in Flour Manufacture"; H. B. Sparks, Alton, Ill., on "Millers' Mutual Fire Insurance"; H. B. Baker, London, England, on "The Flour Trade in England"; and E. Spenshield, St. Louis, on "Common Sense Mill Management."

### READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of the stomach, "liver troubles," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colic and colic, but for lingering, or chronic cases it is especially efficacious in producing permanent cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. Dean King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for liver purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable.

Dr. R. V. Pierce, Buffalo, N. Y.

## WILLIAMS LIKELY TO QUIT POLITICS

### Democratic Leader in House Is Slated for Professorship in Virginia "U."

Washington, June 9.—John Sharp Williams, democratic leader of the house, may quit politics to accept a new chair of history and economics in the University of Virginia. The trustees recently created the chair, and considered Representative Towne of New York and Mr. Williams. Mr. Towne would not take it.

The professorship will pay \$4,000 a year and quarters at the university. This will be, however, but a small consideration to Mr. Williams, who is one of the wealthiest cotton planters of the south.

Mr. Williams is in direct line for election to the United States senate, but has said that he would be willing to terminate his political career for the professorship.

## MEEKER DAM BILL IS AGREED UPON

### Subcommittee Advises Commission to Investigate the Water Power Possibilities.

By W. W. Jernane. Washington, June 9.—The subcommittee in charge of Representative Stevens' bill providing for the appointment of a commission to investigate the water power possibilities at the locks and dams at Meeker island, have agreed upon a bill which will be reported to the full committee on rivers and harbors in a few days.

Several amendments have been incorporated in the bill, following the suggestions of the engineers, officers and Chairman Burton, of the rivers and harbors committee, under which the investigation will include an inquiry into the feasibility of the use of the power by private parties, they to sell the electricity generated to the federal government for lighting the government buildings in the twin cities and at Fort Snelling. Mr. Stevens does not anticipate any difficulty in passing the bill in the house and Senator Nelson will look after it in the senate.

The same subcommittee has Representative Bede's resolution relative to the operation of the reservoirs at the headwaters of the Mississippi river, but it is not probable that a report will be forthcoming on it for some time. The reason for the delay is one that largely matters of committee procedure involving the enactment into law of a general bill covering the construction of dams across navigable rivers. The house has passed this bill. Upon its enactment bills providing for dams will go to the rivers and harbors committee, instead of to the committee on interstate and foreign commerce, for the reason that all the dams are obstructions to navigable streams.

Bede resolution has a vital bearing on the operation of these dams and the maintenance of the power created by them. Unless a steady flow of water is maintained in the river the dams will be useless for power purposes. The subcommittee is therefore gathering information about the number of dams already constructed or authorized by congress along the river from the reservoirs to Minneapolis, and the possible effect on them, as well as on navigation between those points and even lower down the river. While sympathizing with the flood sufferers along the river, the subcommittee is of the opinion that the interests should be dealt with fairly in this matter, and it will therefore take its time in reporting the Bede resolution.

## MASHERS' JOBS MAY GO TO ATTENTIVE CRIPPLES

### MINNESOTAN BADLY HURT IN IOWA WRECK

Chicago, June 9.—Frivolous young men, who spend the most of their time flirting with fellow employees of the opposite sex, stand in need of a cure. Crippled, aged persons have been found to fill places in stores and factories satisfactorily, and the result of the test made by the Chicago bureau of charities is expected to open scores of places to persons who heretofore have been considered only as burdens on the community.

It was only a month ago that the bureau organized the department as an experiment, and in the thirty days 300 applications for employment have been received. Of this number, 102 have been provided with places in the bureau and it is decided to make the department a permanent one.

## SEVERAL CLAIMANTS FOR 5-YEAR-OLD WAIF

Booneville, Mo., June 9.—The chief of police of Booneville received the following message last night from W. W. McLaughlin, chief of the detective bureau, New York city:

"Press dispatches inform us that you have a 5-year-old boy named Mackinac, who having been put off the train at Booneville, Mo., his aunt here is expecting him. Put him on train and send to us. Wire us full particulars at once collected."

Agent Waltz repeated the message to Superintendent N. J. Finney in Sedalia, in whose possession the boy now is, and Mr. Finney wired back: "The boy will remain with me until his people or parents come here and prove he is their boy."

Another message, from Richard D. Baker, of Seattle, Wash., was received here, addressed to a newspaper, and is as follows:

"My boy was kidnapped two years ago. No one, who I described agrees with the boy left in your town. Answer."

Agent Waltz says the boy answers the description. Mr. Baker has been written by Superintendent Finney from Sedalia, and it is very probable that Mr. Baker will come to Sedalia immediately.

## STRANGE MURDER IN NEW YORK

### Woman of 40 Struck Down by Unknown Man at Her Own Door.

New York, June 9.—Mrs. Alice Kinnan, a widow 40 years old, who lives with her aged mother in an old-fashioned mansion in the Bronx, was murdered last night by an unknown man, and died later in Fordham hospital.

The only information which the police could obtain came from the mother, Mrs. Louise E. Stanton, widow of a Baptist minister, aged 80 years old. Mrs. Stanton said she was ready to go to bed the doorbell rang and her daughter went to the door. Without a word, or a moment's warning, she says, a man raised his arm and struck at her daughter with some instrument. She could hear the thud of the blow as the weapon crashed into the skull. Her daughter fell forward on her face. The man fled at once.

### Jealousy Suggested.

The police believe the reason for the murder of Mrs. Kinnan may have been jealousy. The jealousy or revenge may have been the motive which prompted the assault was suggested to the police by the discovery that a contractor named Clinchy died in Mrs. Kinnan's home while calling upon her two weeks ago, and also that Mrs. Kinnan had employed a lawyer to bring suit for divorce from her husband from whom she separated eight years ago. The police today were trying to find a man who is said to have been a frequent caller on Mrs. Kinnan during the last two months. It was said today that Clinchy had been a visitor at Mrs. Kinnan's home for five years against the wishes of his family.

## WITNESS DEFENDS CASSATT'S ROAD

### Says Pennsylvania System Has Discouraged Employee's Holding of Coal Stock.

Philadelphia, June 9.—At the close of yesterday's session the interstate commerce commission suspended its inquiry into the relations of railroads with coal companies. The hearing next Tuesday, when the investigation will be resumed in this city.

The most important feature of the session was the voluntary testimony of J. McLeelan of Blairsville, Pa. contradicting the testimony of previous witnesses who told the commission that it had been the policy of the Pennsylvania Road company to encourage its employees to hold stock in coal companies on the lines of the road. Mr. McLeelan said the impression had gone out that the practice was sanctioned by the company, and that he, former president of the company, now dead, and he desired to place on record Mr. Thomson's policy.

While he was in the employ of the railroad company, Mr. McLeelan said, he was offered stock by Captain Alfred Hicks. He consulted President Thomson as to the propriety of accepting it. Mr. Thomson advised him to refuse the stock, telling him that his honor and character were worth more than stock secured in that manner.

Robert Kelso Cassatt, son of President Cassatt, in a statement, by S. F. Potter, president of the Keystone Coal & Coke company, that the Keystone company had been favored in the distribution of cars. He also stated that the Keystone company was not a "Cassatt concern," as had been repeatedly stated.

## MYSTERIOUS LETTER MAY BE FROM MUEENTER

Fond du Lac, Wis., June 9.—Lewis E. Mason, uncle of Leona Muentzer, the woman who died under mysterious circumstances at Cambridge, Mass., in receipt of a letter which he believes is from Eric Muentzer, the woman's husband, who is wanted on a charge of murder. The letter is unsigned, and is dated at New Orleans.

It starts out with a description of a murder of a woman, the details of which might well have corresponded with the supposed Massachusetts crime.

Then criticizes the newspapers for giving so much notoriety to the case, and the last two pages are filled with pleadings with the dead woman's relatives to help in the investigation of the crime with which he has been accused.

## MIXED BLOODS WIN A FIGHT FOR RICH LANDS

Special to The Journal. Aitkin, Minn., June 9.—A decision of the interior department relative to the allotment of land to mixed bloods has been received here by Mrs. J. R. O'Malley in a telegram from Congressman Bede. The decision is favorable to her and her child and allows them to participate in the allotments of the White Earth reservation.

Four years ago the department gave a decision adverse to Mrs. O'Malley and child, on the ground of non-residence. Recently Mrs. O'Malley went to Washington, D. C., and secured the aid of Congressman Bede succeeded in having the case reopened.

The decision is said to be far-reaching, in that there are several hundred mixed bloods who will now be allowed to participate in the White Earth allot-

## A SAFE MEDICINE FOR WOMEN AND GIRLS IS HOSTETTER'S Stomach Bitters

The wonderful record of cures back of every bottle of the Bitters, ought to convince any woman that it is a perfectly safe and reliable remedy for her to take. It has been tested and tried for 53 years, which is a sure guarantee of its merit. It is especially adapted for strengthening weak systems, purifying the blood and inducing restful slumber. Then it also cures Cramps, Backache, Sick or Nervous Headache, Dizziness, Fainting Spells, Heartburn, Indigestion, Dyspepsia, and Costiveness.

Try it today. Here's proof:

MRS. H. CHAPMAN, Cincinnati, O., says: "I was bedfast a long time with stomach and kidney troubles, but your Bitters soon made me well again."

MRS. M. J. ODELL, Odell, W. Va., says: "I have used your Bitters for general weakness and loss of appetite with good results. I willingly recommend it to all such sufferers."
