PARISH GIVES PLAY

Holy Rosary Arranges Vandeville for Cathedral Fund.

The Holy Rosary parish will give a vaudeville show in the parish hall on Eighteenth avenue S, between Twenty-fourth and Twenty-fifth streets, tonight for the benefit of the pro-cathedral fund and incidentally for the benefit of the pro-cathedral contest, Miss Blanche W. Scallen.

The best of local talent has been secured for a vaudeville show and a glance at the program will dispel any doubt as to its excellence. It includes a vocal solo, "A Japanese Love Song," Thomas, Miss Helen M. Grennan, fancy dance by Myrtle Morrison and a reading from "The Hunchback," by Knowles, in which Miss Etta Farnsworth takes the part of Helen, and Rodman Oshtier that of Modus. After a selection by the program committee, Miss Rosetta V. Monahan and Helen M. Grennan, Messrs. W. H. Dale and B. H. Ferguson, W. J. Nolan will take the platform with a bunch of new songs as the program announces. Miss Anna Donald will give a fancy dance and a reading, "While the Table Waited," and comic songs by James Crockett will precede the vaudeville act, by Hageman, in which will appear Miss Blanche Scallen, J. Earle Lawler, Raymond B. Donald, Richard F. Osborne, Albert H. Scallen, James M. Quilty and Raymond A. Scallen.

REPORT SHORTAGE OF 2,000,000 FEET

CRUISERS LOCATE BIG DISCREPANCY IN TIMBER SETTLEMENT

Rescale of Three Sections as Reported to Timber Board Today Means \$18,000 to the State—Lumber Company Already Being Sued on Account of Same Tracts.

Reports were filed with the state timber board today, showing a shortage of 2,000,000 feet in the original scale of three sections in Itasca county, cut by the Backus-Brooks Lumber company. As a result of the rescale, which was accepted by the board, the suit of the state against this company, now pending, will be amended to ask for a larger amount.

These three sections were the ones cut after expiration of the permits, and on which the old timber board made a settlement at the permit price with 8 per cent interest. The authorities now hold that this settlement was void and that the lumber company must pay for the timber at trespass rates. A bill to legalize the old settlement was offered in the legislature last winter, but was defeated. The company offered to settle for double damages and to deposit the difference between the original payment and the double damages in escrow, subject to ratification by the legislature. They would not pay the money into the state treasury because there was no way of recovering it if the settlement was repudiated by the legislature. So the attorney general brought suit, and the case is still pending, awaiting the supreme court's decision on the trespass law in the Shevlin-Carpenter case.

What Rescale Disclosed.

Reports reached the timber board that some of the timber on these three sections was not paid for by the surveyor general. A rescale was made which showed quite a discrepancy, so another rescale was ordered in legal city hall today. The sections are Fitzgerald, cruisers in the state land department, with O. V. Stephens and A. H. Long, deputy surveyor generals in the Duluth district, made this rescale, and agreed to report made today. It shows as follows:

Section 16-62-23, original settlement, 2,317,570 feet; final rescale, 4,039,120 feet; excess, 1,721,550 feet. Section 36-62-23, original, 1,001,680 feet; rescale, 1,023,620; excess, 21,940 feet. Section 36-62-23, original, 1,853,640 feet; rescale, 2,164,850 feet; excess, 311,210 feet. The total excess is 2,054,600 feet. The permit price was \$4 a thousand, and figuring double damages for trespass, the rescale means an addition of \$16,000 to the amount paid by the state in the action now pending.

ST. PAUL MAN AND BOY ARE VICTIMS OF RIVER

Two were drowned in the Mississippi at St. Paul yesterday. William J. Flaherty, 11 years old, 209 State street, was drowned at the foot of Kentucky street early in the morning. Some boys were playing ball near by. One of the batters knocked a ball into the river. Flaherty at once doffed his clothing and jumped into the river after the ball. He was unable to swim. Suddenly he was heard to give a cry. He threw up his hands and sank, not appearing again. Several boys went into the water, but it did not till some time after, when grappling hooks had been used, that the body was recovered.

HER DEATH SUDDEN

St. Paul Woman Dies While Attending Aid Society Meeting. Mrs. Mary Groff, 65 East Fillmore avenue, St. Paul, dropped dead at 4 p.m. Sunday while attending a meeting of the Ladies' Aid society in a classroom of St. Matthew's parochial school. She had risen from her seat to walk to the secretary's desk to pay her dues, when she dropped to the floor. A physician was summoned, but she was dead when he arrived. Death trouble was the cause. Mrs. Groff was 50 years of age and is survived by three sons and a daughter. She had been a resident of St. Paul for thirty-five years.

FRISCO POOR TO GET THAT FLOUR

VIGOROUS PROTEST HAS THE DESIRED EFFECT.

Red Cross Agent Assures Chairman Edgar of Earthquake Relief Committee That All Flour Donated Will Be Distributed as Planned, or Other Food Purchased.

Vigorous measures taken by William C. Edgar in behalf of the general relief committee and timely protest of Governor Johnson, have won the day for Minneapolis in the suit of the state against the Minneapolis flour to the San Francisco destitute. In reply to repeated telegraphic requests that Minneapolis flour be promptly directed to the relief committee, distributed to the poor of San Francisco, Dr. Devine, Red Cross agent, wires that there is no means of guaranteeing absolutely that all the identical flour shipped by Minneapolis is distributed, but he will guarantee that more than an equal quantity has been or will be distributed, including, literally, all Minneapolis consignments received since June 15. Moreover, the entire sum received from the sale of flour is set aside as a trust fund to purchase flour and other food supplies as needed.

Complies with Demand.

This assurance indicates that Dr. Devine is now doing all in his power to comply with the demands made by Mr. Edgar, as chairman of the Minneapolis committee. While holding that the flour from this city should have been immediately distributed to those for whom it was intended, and that it was sent, and that the Red Cross should not have assented to the proposal to sell it, yet Mr. Edgar realizes that Dr. Devine is now doing all that he can, under existing circumstances, properly to distribute the flour and so conform to the intention of the givers. He is gratified that the repeated and emphatic protests made against the sale of the flour to speculators has resulted in the rectification of the error, as far as possible, and that all the Minneapolis flour on hand will be distributed, with a quantity of flour also already given away more than equal to the amount sent by this city.

The setting aside of the proceeds of the sale, about \$125,000, as a trust fund for the purchase of flour and other supplies, while economically unsound, since flour worth \$5 a barrel was sold at \$3.60 and can probably not be purchased except at an advance over the selling price, is a commendable and laudable solution of the difficulty into which the San Francisco committee has got itself as it is now possible to secure and will give satisfaction, not only to Minneapolis, but to other large contributors of flour.

No Complaint by Millers.

Mr. Edgar desires it known that the millers of Minneapolis, who sold the flour to the committee at cost, have not made any complaint to him about the proposed sale of flour by General Greeley. Their interest in the matter is their right to protest against its ultimate disposition, if they had any desire to do so, ceased when they sold the flour to the committee, the sale being unconditional. The committee, in that relief fund, the local millers shared, with others who gave, the desire to have the flour distributed directly and free of charge. In fact, they have interposed no objection to the sale of the flour by the war department. The idea that they would object from commercial reasons is, of course, preposterous. Anyone at all familiar with trade conditions would understand that the sale as proposed would have no commercial significance whatever and could not possibly affect their markets in any way.

Course Is Indorsed.

Since the publication of his report to subscribers, Mr. Edgar has received a large number of letters from individuals and firms who contributed to the fund expressing the utmost satisfaction with his course and indorsing most emphatically whatever he should do in the proposed sale. He believes that the suit guaranteed by Dr. Devine, which means that, after all, the Minneapolis flour will be diverted from philanthropic into commercial channels, largely to the timely protest of Governor Johnson, who positively and promptly backed up the efforts made to prevent the delivery of the flour to others than those to whom it belongs.

STATE GETTING RICH

Settlements from Various Counties Swell Funds in Hand.

Tax settlements are now being rapidly paid into the state treasury by the various counties and the season of the year when the state's coffers are well filled is being hastened by the fact that counties have already paid in their state tax. The state treasurer reports the balance on hand in the various funds at the close of June's business to be as follows: Revenue fund, \$380,705.58; Soldiers' relief fund, 29,753.46; Agricultural college fund, 22,873.39; Permanent school fund, 70,865.22; General university fund, 236,810.61; Permanent university fund, 20,822.82; General university fund, 29,182.26; Internal improvement land fund, 47,321.03; Internal improvement land fund interest, 47,321.03; State institution fund, 1,506.97; State institutions fund interest, 13,988.83; Swamp land fund, 18,368.38; Swamp land fund interest, 8,528.68; Grain inspection fund, 68,278.02; Hay inspection fund, 1,068.78; Total, \$1,469,002.76.

Call on G. Rickel, City Ticket agent, 124 Nicollet avenue, for particulars.

G. A. R. FOLK WILL SEEK MINNETONKA

THOUSANDS WILL FIND LODGINGS IN LAKE HOTELS.

Many Rooms Already Engaged by People Who Want to Escape City Crowds at Night During Encampment Week—Private Homes at Disposal of G. A. R. Committee.

Lake Minnetonka hotels and boarding houses, many of them, changed much since last year. Whereas in years gone by the style demands great length and no vent, in opposition to two vents in the year, and princess and short-sleeved gowns a change over the fashions for women last year, the good old style of big noes and great blazes remains as the backbone of designs for decorated fireworks for 1905. The only noticeable difference is an addition to the list of novelties.

Young boys will still discharge the nine-inch dynamite crackers and the fresh bloods, with plenty of money and disregard for the feelings of others, will make the usual salute of twelve-inch gun cotton crackers, but the limb destroying cannon has seen its day and is tabooed by custom, as well as the cheap blank cartridge pistol, whose combination of copper cartridge and burnt powder produced lockjaw.

Noise Sticks Cheaper.

The cartridge case is going to be the style this year for the lazy celebrators. It will sell for 5 cents instead of 10 cents, and is made of malleable cast metal, and on the whole, will be a safer machine, with just as much noise capacity.

Amateurs have proved the winners in the small boys' affection for several years. They are generally small, but very satisfactory. A new one this year comes from Old Spain. It is the erupting volcano. The term is a misnomer so far as its size goes, but the effect when fired is something like that of Vesuvius. The volcano looks like a little black, innocent in appearance. When the small boy pulls the trigger on a stone sidewalk, however, it gets into action and the wise boy will drop it quick.

The tendency is to noise this year, or today celebration materials. The fireworks are so expensive that the Japanese are doing a big business, principally for patriotic citizens who have lots of money and want novelty.

Many Paper Novelties.

Paper novelties will be numerous this season. Paper bells, like those used for decoration at Christmas time, have been adapted in red, white and blue for the Fourth of July. Paper balls, paper rosettes and lunch sets are a late novelty in the three patriotic colors. The sets have doilies, napkins, and tablecloths, which are unmistakably for Independence day use. Paper bunting and other forms of decoration are to be had.

Prices Will be Lower This Year, notwithstanding the fact that the supply is short.

Auto, Running Fast, Turns Over 3 Times

South Bend, Ind., July 2.—Running thirty-five miles an hour, an automobile owned and driven by Postmaster E. A. Shaw of Mishawaka, Ind., turned over three times at Oscoda last evening, severely injuring Shaw and three other occupants of the car. J. A. Winn and Mr. and Mrs. S. W. Schuyler. It is said that the accident was caused by the failure of the steering gear to work a few minutes in the road.

Will Go Far to Wed Man She Has Not Seen

Mahanoy City, Pa., July 2.—Despite the protest of her family, Miss Rhoda Emily Crosby, the pretty and accomplished daughter of Thomas Crosby of this city, will leave here on July 10 for Lodi, Cal., to become the bride of a man whom she has never seen. Her father, Mr. Wm. Crosby, a member of the First Methodist Episcopal church, sings in the choir and is a teacher of a Sunday school class, became engaged thru a matrimonial agency. She exchanged photographs with Mr. Willis, who has sent her a railway ticket and enough money to pay her expenses on the trip.

200 WITNESSES CALLED FOR THE HARGIS TRIAL

Beattyville, Ky., July 2.—Everything is ready for the trial of James Hargis, B. Fulton French, Edward Callahan and others for the assassination of James Marcum in Jackson, Tenn., county, three years ago. More than two hundred witnesses are there and ready to testify.

BOTH K. C.'S ARE DRY

Lid on Tight on Both Sides of the River. Kansas City, July 2.—For the first time in their existence, perhaps, all saloons in both the Kansas Cities were closed tight yesterday. On the Missouri side it was the usual Sunday closing that has been carried out for months past by order of Governor Rusk. On the Kansas side, where the prohibition law has been openly violated for years, the closing was the result of Governor Hoeh's campaign to stop the sale of liquor not only on the Sabbath but every other day in the week. Since the Sunday closing law has been in effect on the Missouri side, thirty thousands have gone to the Kansas side for relief. Yesterday none was in sight. In Kansas, to emphasize his earnestness in the matter, Assistant Attorney General Trickett had padlocks placed on the door of all joints.

ANOTHER ICE PROBE

Grand Jury Will Investigate Alleged Trust in Indianapolis. Indianapolis, July 2.—A grand jury investigation into the workings of the alleged ice trust in this city will begin July 9. Fifty or more persons were named in the grand jury indictment and will be called as witnesses. Prosecutor C. P. Benedict will have charge of the case, which he will conduct along the same lines as the Toledo, Ohio, proceeding, which resulted in prison sentences for ice dealers.

BIG, RED CRACKER STILL THE FAVORITE

OLD TIME NOISE MAKER HOLDS ITS POPULARITY.

The Tendency This Year Is to Lower Prices for Celebration Material Despite the Fact That the Supply Is Said to Be Short—Novelties in Paper.

Styles in noise machines and fireworks for the Fourth have not changed much since last year. Whereas in years gone by the style demands great length and no vent, in opposition to two vents in the year, and princess and short-sleeved gowns a change over the fashions for women last year, the good old style of big noes and great blazes remains as the backbone of designs for decorated fireworks for 1905. WHEAT MARKET SHOWS UNUSUAL ACTIVITY.

Delivery Day, Beginning of New Month, and Good Crop News, Combine to Send Prices Down—Nip and Tuck Battle Looked For Among Speculators. The first burst of speculative activity of the season was felt today at the Chicago Board of Commerce, when the bears, taking advantage of favorable crop reports, smashed prices all around. Wheat had already declined on Friday and Saturday. The new week and the month of July opened together and bears signaled it by a third drive that sent Minneapolis September wheat down to 79 1/2 cents. Chicago had a big trading day, much selling, but the long wheat advanced by the beginning of the movement of the new winter wheat to market.

Locally It Was a Case of Good Crop Reports.

What is being said in South Dakota and southern Minnesota. Today was delivery day for the July option. The Minneapolis elevator companies delivered 1,000,000 bushels of wheat on contracts and will probably deliver more. Some of the buyers did not want to take over the wheat and fell in line, and their selling helped along the decline.

Hammer and Tongs.

From now on it will be nip and tuck between the bulls and bears on "change" and the reports from the wheat fields come in, much activity may be expected in the markets. Some of the best informed men at the chamber believe a big crop is assured for the year to harvest, but it is a long time yet to harvest, with possibilities great either way.

The stock market was also erratic and weak near the close today. Wall street is usually bullish when the grain markets are bearish and vice versa, but just at present both grain and stocks are falling, which is contrary to the general rule.

BOUNTY LAW IS GOOD

Helena, Mont., July 2.—The supreme court of Montana declared the state bounty law constitutional, thus denying the application of L. D. Terrett for a writ of habeas corpus.

SPENDS DAY IN CAMP

Company of St. Paul Shoots and Drills at Lakeview. LAKE CITY, MINN.—Company C of St. Paul, Capt. John J. O'Connell, arrived in Camp Lakeview Saturday evening and returned last evening. The company has been at St. Paul for the past week and the company has not had an opportunity to get its customary practice shooting.
