

TRAGEDY'S MARK ON PERKINS REPLIES TO CUMMINS' REPLY

The She Denies It, Great Change Has Come Over Former Actress.

Journal Special Service. New York, July 4.—"Please say that I am not breaking down under this terrible strain, and please, please do not further the impression that I am fading away. I am not going to give way. I will not, I must not. I have strength to bear this trouble and it hurts me very much to read in the papers that I am wasting away beneath the strain which has been placed upon me."

They were the eyes of Mrs. Evelyn Nesbit Thaw, which, in spite of her pathetic protest of being able to stand the strain, were darkened by circles which told too plainly the struggle this beautiful girl is having to fight the battle of self-control. She was speaking to Alice Roho.

Wings Are Drooping. To people who have known of Evelyn Nesbit Thaw, the beautiful model and actress who married Millionaire Harry Thaw while he was in the enjoyment of his wealth, the picture of the gay butterfly must be changed. The little which was her morning is still the beautiful butterfly, but its wings were drooping, and from the brown eyes there looked forth a spirit of womanliness and patience that could only come through sincere feeling and sorrow.

Mother to Testify. The attorneys for Thaw have mapped out the line of defense that will be followed in the trial for the murder of Stanford White.

In order to establish that Thaw is a victim of brooding, rather than emotional insanity, the testimony of his relatives, including his mother, will be employed and the whole story of the young man's mental condition since he first became incensed at White, will be told by relatives and friends.

Cranks Write to Thaw. Judge Olcott, who spent an hour with the prisoner in his cell, took away with him a nearly 100 letters received in Thaw's daily mail.

Several today contain threats, saying that unless money is given the writer, he will tell stories unfavorable to Thaw. Others are begging letters, and still others offer for a consideration to reveal information concerning Stanford White's private life.

There was one, for instance, that took up forty pages of close writing and contained this sentence: "I can tell many a story of Stanford White, stories that would stir the world if they are made public."

It was learned also that the prisoner's lawyers have received several letters from men offering their services as members of the jury which is to try Thaw. They are all cranks, presumably.

Why Thaw Hated White. Harry Thaw's intense hatred of Stanford White—the underlying motive as yet unrevealed, which impelled him to track and bound the architect with a charge of defamatory libel—has been explained by an affidavit which Assistant District Attorney Garvan hopes to get possession of.

It is common report in the district attorney's office that the first severance of Thaw's relations with Evelyn Nesbit came—months before their subsequent reconciliation and marriage—an action at law was projected against the young Pittsburg millionaire. In pursuance of this planned lawsuit, it is said Evelyn Nesbit made an affidavit in the office of a Broadway lawyer of vast experience in cases of this sort.

The substance of this affidavit and its results, it is further reported, Harry Thaw later believed were suggested and dictated by Stanford White. This project of legal action, which is reported, was nearly two years ago and that it was not further than the preliminary affidavit of the plaintiff, it is said, was because of a large monetary settlement which had been made against his wife for divorce, the closing testimony of the defense eclipsed them.

Mr. Madine, the coachman whom Hartje had named as co-represent in his case, was on the stand the greater part of the day. He testified that Hartje had offered him \$2,500 if he would kill a certain man against whom he had a grudge and also swore Hartje offered him \$5,000 if he would testify for him that he had seen Gross McCann, a life-long acquaintance of Mrs. Hartje and Mrs. Hartje entering a certain house, but Madine refused to engage in that business although Hartje had named him.

On her direct examination Mrs. Hartje denied that she had ever been in contact with Madine and added to the answer, pointing to her husband: "Nor with any other man and well does he know it."

Woe in Sight for THE TOMATO 'CORNER' Journal Special Service. New York, July 4.—It turns out that the Guaranty Loan company of this city has loaned a limited amount of money to a syndicate which has been trying to "corner" the canned tomato market, but which appears to be threatened with a snag because of the near approach of the new tomato crop. It was reported today that the loan of the trust company amounted to \$75,000, against which collateral was 25,000 cases of tomatoes, and that no more had been sent to the syndicate to take up the loan this week, or the collateral would be closed out.

An official of the trust company today said that a loan existed, but that this company was amply secured.

MIZNER HURRIES TO BEDSIDE OF WIFE Chicago, July 4.—Mrs. Charles Yerkes Mizner is reported to be in a critical condition, and her young husband, Wilson Mizner, is hurrying to her bedside as fast as a transcontinental train can carry him from San Francisco.

Mrs. Mizner's condition is the result of an operation for appendicitis performed a few days ago.

RUSSAINS SEIZE BALTIC ISLANDS

Assurances Given that Seizure Is Only to Prevent Smuggling of Arms.

St. Petersburg, July 4.—The occupation by Russia of the Aland islands, between Finland and Sweden, the Associated Press is officially informed, is one of the measures taken to prevent the smuggling of arms and ammunition thru Finland into Russia, and there is no intention of violating the treaty of Paris of 1856 by rebuilding the fortifications at Sveaborg, destroyed by the British fleet during the Crimean war. The military force sent to the islands consists of a few hundred marines and infantry, who are living in tents.

Troops Directed Massacre. A point strongly brought out in the parliamentary report on the massacre of Jews at Bialystok is that there was no religious hatred of the Jews among the peaceful Russian population. The commission cited on every hand that after the rioting was started it was directed by the police and supported by the troops, who fired only at Jews and Jewish houses.

Sherometeff, the police officer who fled from Bialystok to Vilna after the rioting, has been summoned to St. Petersburg by Interior Minister Stolypin.

A meeting of the cabinet, called by Premier Goremykin after his return from his visit to Emperor Nicholas at Pechorin, began at 10:30 o'clock last night and continued until late into the night.

Little doubt is felt that the meeting was connected with the change in the ministry, the individual ministers declining to admit that they had been in any way connected with the cabinet.

Hints dropped by constitutional democratic leaders indicate that overtures for their participation in a ministry at mixed cabinet under the leadership of former Minister of Agriculture Yermoloff. This, however, is regarded as utterly impossible, the unvarying answer up to the present time being that nothing but a parliamentary responsible ministry under a constitutional democratic premier will suffice; but the Associated Press has strong grounds for believing that constitutional democrats, in spite of their protestations, will participate in a ministry under Ivan Shipoff, former minister of finance, if the latter can be induced to accept the premiership.

M. Yermoloff is quoted as saying yesterday that he already had been invited by the emperor to form a cabinet and that it was possible that he or former Minister of Commerce Sviatopolk-Mirski might be the next premier if the emperor is altogether probable, declines to make a full surrender to the constitutional democratic pretensions.

Riot at Tsarkoo-Selo. An incipient riot is reported to have occurred among the cuirassiers of the Tsarkoo-Selo because they had been ordered to march to the newspaper. Officers of the guard who were questioned on the subject declared that the severity of the measures taken to prevent the spread of the revolutionary propaganda among the troops is arousing such intense resentment among the men that the lives of the officers themselves are endangered. They speak most pessimistically of the spread of disloyalty in the army.

League of Rebels. All doubt of the existence of an organized league of rebels, which is inspiring mutinies and uprisings in the army, has been set at rest by the discovery of the seal and documents of the league during the search of soldiers attached to staff headquarters at Vilna and detailed to various regiments of the third corps. War Minister Rudiger has ordered strict investigation to be made of all detachments of troops in order to determine the extent of the revolutionary propaganda and the best methods of countering it.

Rojevsky on Trial. Cronstadt, Russia, July 4.—The trial by courtmartial of Vice Admiral Rojevsky and the officers of the torpedo boat destroyer Bedovi, for surrendering to the enemy under the battle of the Sea of Japan, began here today. Several Japanese seamen and two surgeons have been summoned as witnesses. They are expected to furnish evidence regarding the conditions of the boat at the time of surrender. The penalty of conviction is death.

"Reds" Seize Dynamite. Kostronnax, European Russia, July 4.—A number of armed revolutionists yesterday took possession of a steamer boat which was transporting ammunition and carried off the explosives, including 350 pounds of dynamite.

Terrorists Arrested. Moscow, July 4.—A band of terrorists, consisting of thirty-five young men with a full equipment of bombs and revolvers, has been captured by the police here.

Sartov, Russia, July 4.—Kozloff, who attempted to assassinate Interior Minister Stolypin, Aug. 4, 1905, while the latter was on the steamer Saratov, has been acquitted.

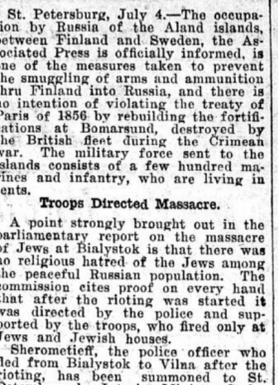

Annual Half-Price Sale. Thursday and Friday, Suits, Coats, Costumes, Dresses and Waists. Pearce's, 403-405 Nicollet.

WOE IN SIGHT FOR THE TOMATO 'CORNER' Continued From First Page. at Merriam Park celebrated in the afternoon, beginning with a parade at 1 o'clock. Everybody gathered at Terrace park, where there were games and other festivities. Several eagle honors were attended to by Congressman C. Stevens, the orator of the occasion. Music was furnished by the Minnesota State band.

At Wayzata, Minnetonka Beach, Mound, Tonka Bay and the other settlements about Minnetonka there was great activity. Neighborhood and settlement celebrations, full of interest for young and old were held. At Bass lake the political campaign was noisily opened with music, speeches and firecrackers. Candidates galore were present, each backed by a bunch of henchmen ready to root and mix for the good of their candidate. At Fort Snelling the regular routine work of the post was suspended today with the exception of the necessary guard duty. The Seventh battalion of field artillery fired the Independence Day salute required by the army regulations. All the soldiers were given leave of absence for the day.

RAIDERS DISMANTLE BIG GAMBLING DENS

Sheriffs Swoop Down on "Tom" Taggart's American Monte Carlo.

THOMAS TAGGART, Democratic "boss," whose famous American Monte Carlo has been raided.

Journal Special Service. Paoli, Ind., July 4.—America's Monte Carlo, the French Lick Springs hotel, the sumptuous gambling resort owned and operated by Thomas Taggart, chairman of the democratic national committee, in which women as well as gentlemen are said to have been permitted to play for high stakes, has been raided by Sheriff Maris of Orange county, while Deputy Sheriff Jones led another raiding force on West Baden hotel, another elaborate gambling den, of which Taggart is the owner.

When the officers, armed with search warrants, swooped down upon the "health resorts" many women in fashionable attire were at play, while children were courting the goddess of chance at the slot machines. One guest jumped thru a second-story window, but was captured by the deputy sheriffs who surrounded the buildings.

While the raids were in progress, the state of Indiana, thru the attorney general, and on instructions from Governor Hanft, filed quo warranto proceedings in the Orange circuit court against the French Lick Spring Hotel company, and the West Baden Hotel company, asking that their charters as corporations be revoked, that they be enjoined from permitting gambling on their property, that receivers be appointed and that administration of the assets be made among the defendants and their creditors.

The suits and the raids are the result of a long-standing campaign of the whites, attacking the gambling houses run by the chairman of the democratic national campaign whose influence in the past has always been sufficiently strong to keep at a distance the officers of the law.

Salvador Backs Guatemala 'Rebs' All Relations Between the Two Peoples at an End—Cabrera in Terror. Mexico City, July 4.—Duncan Bankhart, consul general of Salvador in this city, says that all relations between Salvador and Guatemala have ceased. He says the cabinet of Salvador is in favor of the Guatemalan revolution. The military attaché of Salvador at Guatemala City not long ago, it is stated, was insulted and put out of President Cabrera's house and that the timely intervention of the Mexican consul would have been thrown into jail. For this reason the Salvadorean government severed relations with the Guatemalan government.

Bankhart says that even in Guatemala City President Cabrera does not dare to go into the streets, being in mortal fear of his life. His food is sent to him by a messenger who is secretly locked to prevent its being poisoned. Cabrera is so afraid of assassination that he does not sleep two consecutive nights in the same room.

The people of Guatemala are in sympathy with the revolutionists. Another informant says that Cabrera has become so morbid in his suspicion as to have imprisoned the wives of leading citizens. The wife of General Barillas is still hiding in the mountains with a few faithful servants.

The policy of the revolutionists is to continue a guerrilla warfare.

LEAPS 12 STORIES TO DEATH IN AREAWAY Chicago, July 4.—An unidentified man yesterday committed suicide by jumping from the thirteenth floor of the Stewart building into an area way of the building.

A small sum of money, a watch and some railroad tickets were found on the body, but nothing to indicate who he was.

The man was about 42 to 45 years of age, and wore a full beard. The railroad tickets indicated that he had recently traveled much in Indian Territory.

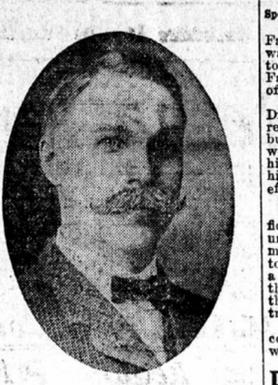

Krupp's Daughter TO MARRY BARON Essen, Prussia, July 4.—The engagement is announced of Barbara Krupp, the younger daughter of the late owner of the great iron works, Frederick Alfred Krupp, to Baron Tilo von Willebrand, son of the governor of Prussia Saxony, Frau von Barbara, altho by no means so rich as her sister Bertha, is presumably worth \$12,000,000.

YATES FILES FOR SENATE Springfield, Ill., July 4.—Former Governor Richard Yates has filed his declaration of candidacy for the United States senate under the new primary election law with the secretary of state. Other petitions filed are those of Judge J. B. Messick of East St. Louis for the republican nomination for state treasurer and Walter R. Kimsey of Duquoin county, superior of schools of Perry county, for the republican nomination for superintendent of public instruction.

NEW ORDER IN SOLDIERS' STRIKE. Special to The Journal. Milwaukee, Wis., July 4.—Circuit Judge William C. Conover today ordered the strikers to show cause on Friday why the order committing N. T. Crider for contempt for failing to appear under the order should not be revoked. Crider is one of the striking soldiers enjoined by the Vicer company.

GIRD FOR ANOTHER FIGHT WITH DIETZ

Summer Opera Bouffe on the Thormapple May Culminate in Grim Tragedy.

John Dietz, who has been in operation about six months. On the previous day they were at Pittsburg and today they started north to investigate plants in Philadelphia, New York and Albany. Then they will go to Boston to attend a meeting of the American Waterworks association.

All the members of the party were impressed with the merit of the sand filtration method used here and in Pittsburg. In the latter city, however, a new device for the mechanical cleaning of filter beds has been installed. Engineer Rinker said that to install this part of the plant would be a trifle more expensive than if it were left out, but the cost and cleanliness of operation would compensate for the additional expense.

Analysis of the water furnished the people of Washington shows that when it enters the sedimentation basin there are 60,000 typhoid bacteria in a cubic centimeter. After it leaves the filtration plant it contains only sixty of these disease breeders, thus eliminating 99.9 per cent of them. It costs about \$20 to \$25 per million gallons to operate the Washington plant, but Engineer Rinker estimates that the Minneapolis plant, which will cost \$1,250,000 for a daily supply of 40,000,000 gallons, can be operated at a cost of a trifle more than \$1 per million gallons, because there will be less pumping to do.

VINELESS SPUDS GET FRAUD ORDER W. B. Darst, "Potato Wizard," Barred from Use of the Mails. Washington, July 4.—"Vineless potatoes grow in bins above ground in sixty days, process guaranteed. Territory or individual growers' rights. Vineless Potato company, Pullman, Ill."

This little advertisement, inserted in a farm journal, has kept three departments of the government at work for the last three months. As a result of the combined efforts of the departments of agriculture, justice and post office, it has been decided that W. B. Darst of Chicago, the discoverer of this wonderful scheme to make every cellar and back yard a potato farm, was a faker and a fraud order has been issued against him. He can no longer use the mails.

Darst offered for \$25 to give a license to any individual to grow his vineless potatoes and for \$100 he would sell the rights of a "hull dum country." As a little side graft he sold a secret compound known as "potatine," for \$4.50 per bushel. The government department of agriculture department said this was a low grade of sulphate of potassium, worth about 23 cents. The plant experts of the department admitted that vineless potatoes could be grown, but they are small and only develop while the starch of the seed potato lasts.

According to Darst's circulars, a bin 10 feet wide, 5 feet high and 100 feet long would produce 300 to 350 bushels of potatoes in sixty days. The bin was to be filled with bedding, the secret of which Darst refused to give until he got \$25 from the prospective vineless potato raiser.

BOY SAVES THREE BUT LOSES HIS OWN LIFE Kokomo, Ind., July 4.—Frank Curless, 15 years old, saved the lives of three companions but lost his own here yesterday. His brother, Merrill, Curless and Palmer and Earl Dean were bathing when cramps seized Merrill and the Dean boys. By diving and using a plank Frank saved them. The boy then was attacked with cramps himself and was drowned.

FRENCH DEPUTIES OUST COUNT BONI Charges of Corruption and Bribery Upheld by Vote of 253 to 221. Paris, July 4.—By a vote of 253 to 221, the chamber of deputies yesterday annulled the election of Count Boni de Castellane to the chamber on the ground of corruption and bribery.

Count Boni, who vigorously denied the accusations against him, made a counter charge of similar nature against his opponent, and said that a press campaign had been started against him during his "painful family difficulties."

He added that he would have taken other means of replying to those attacks, but did not wish to bring himself into prominence at that time.

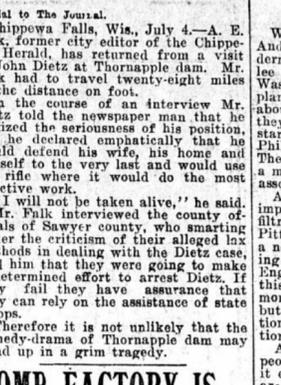

HAMBURG FIRE TWENTY ARE MISSING IN HAMBURG FIRE Hamburg, July 4.—Twenty persons are reported missing as a result of the fire which started in the Church of St. Michael here yesterday.

The fire watchman who lived in the steeple sounded the electric alarm, but his retreat was cut off by three workmen who were repairing the cock also perished, and thirty firemen were wounded, two of them dangerously.

Only the walls of the church are standing. The people of Hamburg deeply regret the loss of the church, which was one of the most prominent objects in the general view of the city. The roof, which was of copper, which long ago had turned green thru oxidation, was the largest in Hamburg without supporting pillars. All state religious functions were held in St. Michael's.

BOMB FACTORY IS RAIDED IN SEATTLE

German Police Furnish Evidence and Dangerous Plant Is Unearthed.

August Rosenberg, a German bricklayer, and found a plant equipped for making bombs and internal machines.

Seattle, Wash., July 4.—After an investigation begun at the instance of the German government, the local police yesterday raided a house formerly occupied by August Rosenberg, a German bricklayer, and found a plant equipped for making bombs and internal machines.

Rosenberg, who was known as a man of anarchistic tendencies, left Seattle for Hamburg, Germany, on May 1. At about that time the German government received a warning from Seattle that an attempt would be made to assassinate the German emperor. The German consul at Seattle subsequently received a cablegram from Hamburg instructing him to investigate.

The articles seized included more than 200 bottles of acids and explosives, crucibles, mortars, molds, a furnace and a large quantity of scrap iron.

ZULUS ATTACKING WHITES IN AFRICA Residents of Johannesburg Are Stabbed by Desperados—Fighting Near Natal. Johannesburg, Transvaal, July 4.—A series of native outbreaks culminated Monday night, when a band of desperadoes shouting the rebel Zulu chief Bambata's name and terrorizing the suburbs of Johannesburg attacked several whites, stabbing them with assegais and robbing them. The victims included Mr. Madison, an Australian minister, who, with some others, is in a precarious condition. The residents demand that a special protective force be recruited.

Durban, Natal, July 4.—Further fighting between the rebel natives and the British columns occurred yesterday. The latter came in contact with the enemy's vanguard, killing 350 men, but the main Zulu force, numbering 8,000, is still at large.

ARCHER'S Remarkable Bargains In All Departments. Suits—Every garment in the store will be marked down for Thursday and Friday. Space will not permit us to go into details, but you can make your selection and get your discount when you call.

STUDYING FILTER PLANTS IN EAST

Minneapolis Officials See Filtration Systems in Operation and Get Pointers.

MR. D. A. GEDHART.

Washington, July 4.—City Engineer Andrew Rinker, Registrar Gray and Aldermen Holmes, Schoonmaker, Satterlee and McLaskey spent yesterday in Washington inspecting the filtration plant which has been in operation about six months. On the previous day they were at Pittsburg and today they started north to investigate plants in Philadelphia, New York and Albany. Then they will go to Boston to attend a meeting of the American Waterworks association.

All the members of the party were impressed with the merit of the sand filtration method used here and in Pittsburg. In the latter city, however, a new device for the mechanical cleaning of filter beds has been installed. Engineer Rinker said that to install this part of the plant would be a trifle more expensive than if it were left out, but the cost and cleanliness of operation would compensate for the additional expense.

Analysis of the water furnished the people of Washington shows that when it enters the sedimentation basin there are 60,000 typhoid bacteria in a cubic centimeter. After it leaves the filtration plant it contains only sixty of these disease breeders, thus eliminating 99.9 per cent of them. It costs about \$20 to \$25 per million gallons to operate the Washington plant, but Engineer Rinker estimates that the Minneapolis plant, which will cost \$1,250,000 for a daily supply of 40,000,000 gallons, can be operated at a cost of a trifle more than \$1 per million gallons, because there will be less pumping to do.

VINELESS SPUDS GET FRAUD ORDER W. B. Darst, "Potato Wizard," Barred from Use of the Mails. Washington, July 4.—"Vineless potatoes grow in bins above ground in sixty days, process guaranteed. Territory or individual growers' rights. Vineless Potato company, Pullman, Ill."

BUSINESS WORRY SLEEPLESS NIGHTS

MR. DAVID A. GEBARDT, 573 6th Ave., Brooklyn, N. Y., writes: "Owing to the strain and worry of business, my nerves got in bad shape and I suffered from insomnia. The torture of sleepless nights became almost unbearable. I tried many so-called nerve tonics without result and I was well-nigh disheartened.

"Hearing so much said in praise of Feruna, I decided to give it a trial, which was a fortunate decision for me. I could feel the benefit from the first dose. Before I had completed my first bottle, I could sleep soundly at night. Six bottles made me surprised and gratified at the marked improvement in my condition, and, what is more, I have remained well ever since."

Feruna is not a sedative or a narcotic. How, then, does it bring sleep to the sleepless? Simply by putting the digestive organs in good shape. Sleeplessness is either due to weak digestion or deranged digestion.

Grandfather's Cure for Constipation GREAT medicine,—the Sawbuck. Two hours a day sawing wood will keep anyone's Bowels regular.

No need of pills, Cathartics, Castor Oil, nor "Physic," if you'll only work the Sawbuck regularly.

Exercise is Nature's Cure for Constipation and,—a Ten-Mile walk will do, if you haven't got a wood-pile.

But, if you will take your Exercise in an Easy Chair, there's only one way to do that, because,—there's only one kind of Artificial Exercise for the Bowels and its name is "CASGARETS."

Casgarets are the only means to exercise the Bowel Muscles without work. They don't Purge, Grip, nor "upset your Stomach," because they don't act like "Physic."

They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice, as Salts, Castor Oil, Calomel, Jalap, or Aperient Waters always do.

No—Casgarets strengthen and stimulate the Bowel Muscles, that line the Food passages, and that tighten up when food touches them, thus driving the food to its finish.

A Cascaret acts on your Bowel Muscles as if you had just sawed a cord of wood, or walked ten miles. Casgarets move the Food Naturally, digesting it without waste of tomorrow's Gastric Juice.

The thin, flat, Ten-Cent Box is made to fit your Vest-pocket, or "My Lady's" Purse. Druggists—10 Cents a Box. Carry it constantly with you and take a Cascaret whenever you suspect you need one. Be very careful to get the genuine made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."
