FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

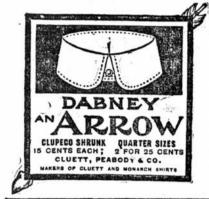

agents are to be found in forest planes and roots.

Nearly forty years ago, Dr. R.V. Pierce, now consulting physician to the Invalids Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering all-

efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering allments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more specdily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper. h on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery." Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

LIBRARIANS INVITED TO VISIT MINNEAPOLIS

Narragansett Pier, R. I., July 7.—With the termination of the sixth general session yesterday, the twenty-sixth annual meeting of the American Library association, which has been in session here for eight days, came to an end. Letters were received from Winona Lake, Ind., Minneapolis, Ottawa and Saratoga Springs, N. Y., inviting the association to meet in those places in 1907. The executive council will make a selection later.

Another important subject brought before the meeting was the passage of a resolution establishing permanent headquarters for the association, a sufficient fund having been previously secured for this purpose. The headquarters probably will be in New York. C. W. Andrews of Chicago was elected president at the closing session.

RICH MEN SHOULDS SERVE THE STATE

Woman's Federation Tells Us What to Do with Our Millionaires.

Denver, July 7.—Mrs. Sarah Platt Decker, president of the National Federation of Women's clubs, thrills the hearts of successful business men whom Osler would retire or chloroform. Her proposition is that when they reach the age of 40, wealthy men should be made to fill offices of public trust without pay. In an interview today she said:

without pay. In an interview today she said:

''All you men of success who have achieved fortune or even a good, independent income, should cease your money-making labors.

'But do not cease all labor. You are the communities' ablest citizens. There is a work the highest, best and noblest which needs you. Give your efforts to the ennoblement of mankind, to the betterment of the community in which you live. Become the governors of the state, not for pay, success of party or to guard the interests of corporations, but to do all the civic good which your office enables you to do. Become the mayors, the councilmen, the supervisors, the responsible officials of your cities. Miss Nettie Spencer of the University

Miss Nettie Spencer of the University of Chicago, a prominent member of the American Women's club of Berlin, is organizing among the members of the American colony a movement to present the crown prince's heir a souvenir especially commemorative of the fact that he was born on Independence day. Such an act would, she believed, insure for future American colonies in Germany the kindly interest of the present crown prince when he becomes kaiser and that of the new-born prince when he in turn is called to the throne.

Wireless telegraph operators on the Baltic informed the kaiser twice within an hour on Wedenesday of the arrival of a grandson. Until inquiries had been made at Potsdam the kaiser was under the impression that he was the grand-

New Bedford, Mass., July 7.—Georgia H. Nye, who was married to William H. Her hiding place was discovered seventy-five years later.

WAGNER NIGHT AT HARRIET

Conductor Emil Oberhoffer added an extra measure to the enjoyment given those who heard the second of the Wagnerian programs by the Oberhoffer Orchestral band at Lake Harriet last night. In addition to the announced Wagnerian numbers of the first part, he gave as an extra number early in the second part the overture from "Tannhauser," played in excellent style except for the preponderance of the cornets and trumpreponderance of the cornets and trumpets, which is so frequently noticeable since Mr. Oberhoffer introduced the idea of putting the wood wind section at the rear of the bandstand. This was the one fault noticed during an evening of exceptionally well interpreted Wagnerian numbers, including a grand selection from "Tannhauser," during which even listeners least accustomed which even listeners least accustomed to Wagner found themselves enthralled with the "Pilgrims' Chorus" and the "Song to the Evening Star." The march of the Knights of the Holy Grail, from "Parsifal," also appealed to them, and the three dances from Henry VIII, together with Offenbach's "Orpheus in the Nether World," completed a program which it was almost a fault to miss. It has so happened that upon each of the two Wagner nights there has been some strong counter attraction which has interfered with the large attendance which usually greets Wagner programs at Harriet. This is greatly to be regretted, as Mr. Oberhoffer and his musicians are undoubtedly at their best when in Wagnerian selections. This evening closes the second lections. This evening closes the sec-ond successful week of the band's engagement.
