PITCHER LIFTS 'LID' AT FORT SHERIDAN

Former Lieutenant Colonel at Fort Snelling Upsets Rules at New Post.

Journal Special Service.
Chicago, July 13.—An "open house" policy is to be pursued at Fort Sheridan while it remains under the command of Colonel W. B. Pitcher, who has recently come to the post to take the place of Colonel S. R. Whittall, retired. In the few days that he has had control of the reservation he has caused the removal of the many signs of warning to automobilists and pedestrians, has called off the sentries who formerly blocked access to the "loops" upon which the officers' quarters are located and has destroyed numerous barbed wire obstructions.
Colonel Pitcher, formerly lieutenant colonel of the Twenty-eighth infantry, was stationed at Fort Snelling, Minn., during the last three years. While there he was a member of a number of clubs, and was one of the most popular officers ever at the fort. At the north shore post he will follow the same idea that guided him there—that of "maintaining the regulations and making the best of everything."
"I want the people to understand," he said, "that they are dealing with a western man. This reservation will not be shut up, the entrance and exit gates will not be blocked, so long as I have jurisdiction over them. The United States army is the people's army, and the army reservation is the people's reservation. The more visitors we have the better I shall like it."
Colonel Pitcher has abolished the and will allow them to run freely so long as they observe a sane rate of five-mile speed limit on automobiles travel.

To Canada, northern New York, and New England points at greatly reduced rates via Michigan Central. "The Niagara Falls Route." For complete information call on or address Y. C. Russell, Northwestern Passenger Agent, 840 Robert Street, St. Paul, Minn. W. J. Lynch, Pass. Traffic Manager, Chicago.

EAST SIDE NEWS

NEW BUILDINGS FOR STATE UNIVERSITY

The board of control of the University of Minnesota has under construction two new buildings.
One is a large addition to the lighting plant of the institution and is being finished in red pressed brick. It will contain an extra storage battery that will add materially to the efficiency of the lighting system, and a gas generator of large proportions to supply the increased demand which will be made on the college mains by the new main building and the Alice Shevlin hall.
Work on this structure is rapidly progressing and the contractors guarantee its completion by the opening of the fall term.
Foundations have also been laid for a series of greenhouses for the use of the botanical department of the university on the site of the old Coliseum. With their completion the students will have much greater facilities for the study of living plants than heretofore, as many rare specimens will be grown the year around.
The new greenhouses are the result of the persistent efforts of former Professor McMillan for some years and are, in reality, the nucleus around which, in time, will be built a botanical garden of considerable dimensions.

CRAWFORD SUNSHINERS HOLD SOCIAL TODAY

The Crawford branch of the International Sunshine society held an ice cream social on the campus of the university this afternoon for the benefit of the summer-cottage fund. A goodly number of friends and members gathered from all parts of the city, and over the ice cream made plans for the further extension of the society and the enlargement of its summer camp next season.
It was decided to make arrangements for the reception to fellow Sunshiners from different parts of the coun-

try, who will visit the city at the time of the Grand Army encampment, and a committee, consisting of the club officers, was appointed to report on plans at the next monthly meeting.

The Crawford branch has been working in conjunction with the officers of the St. Anthony Commercial club for several weeks, giving help to the needy and taking care of the sick and afflicted. Work has been done on the west side of the river as well as in East Minneapolis, and the club members feel that never before in the history of the society has so much been accomplished.

Japanese lanterns have been hung between the trees on Pillsbury knoll for the continuance of the ice cream social this evening.

RICHARD CHUTE PARK IS MADE A BEAUTY SPOT

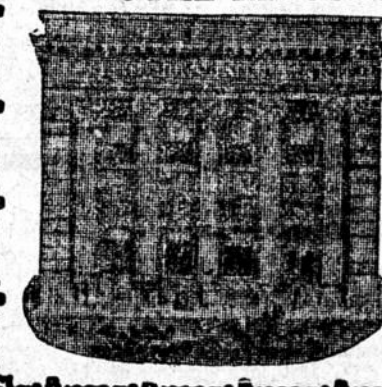

The Richard Chute park is one of the most attractive spots on the East Side. A large number of shade trees and shrubs have been planted and the wet weather has given them a firm hold. Besides these, flowers and foliage plants have been used with good advantage.

Between the walks the park board has laid out and placed easy benches for the use of the public. Vines give an attractive finish to the fence that extends around the enclosure and make the whole more cozy and cheerful.

Park Superintendent Wirth is responsible for the appearance of this newest of East Side parks. "I am much pleased with the work that has been done on the Richard Chute park," said Mr. Wirth yesterday. "It gives to this part of the city an appearance that it has never had. With the Pillsbury library on one side with its attractive grounds, and the East high school and exposition building on either hand the East Side has made a fine beginning for a local center. I hope that the near future will see the erection of a suitable branch postoffice on the remaining corner at University and First avenues SE, and that the next grade school will be built on the south corner of First avenue and Fourth street SE. The plan will mean much for the East Side."

St. Anthony Falls Bank

TOTAL RESOURCES \$1,500,000.00

Money Flies As If On Wings

The inherent habit of spending is the cause of a lot of wasted money—if you want to "get ahead"—if you want to save—the best way is to open an account, then help it grow with frequent deposits of as much as you can spare. We'll help it grow to the extent of three per cent interest.

We furnish the Home Deposit Savings Bank

GIPSY BAND LEAVES FOR PARTS UNKNOWN

A band of gipsy fortune tellers has caused no end of excitement among residents of South Minneapolis. The foreigners have been on University avenue, not far from the St. Paul line, and have been collecting toll from the superstitious and the unwary for nearly a fortnight. Their strange rites and ceremonies, together with their outlandish costume, have attracted no little attention and brought them much trade. Every afternoon and evening a steady stream of people has passed thru their tents. Yesterday afternoon, before the rain, considerable activity was noticed in the gipsy camp. Stakes were pulled, tents folded up, and the strangers left late last night.

Postoffice Clerks' Picnic.

Sunday, July 15, the St. Paul post-office clerks will hold their annual picnic at Lake Minnetonka. Special trains will leave Minneapolis via the Minneapolis & St. Louis railroad (Washington and Fourth avenue N) at 6:20 a.m., 8:45 a.m., 11 a.m., and 1:45 p.m. Returning, leave Tonka Bay, 4:50 p.m., 7 p.m., 8 p.m., 8:30 p.m. and 11 p.m.
