MAYOR UPHOLDS CITY HOSPITAL

NATIONAL HOTEL TRAGEDY WAS PROPERLY HANDLED.

First Reports Gave No Intimation of Emergency Character of Case, and Police Ambulance Was Most Available Vehicle—Grand Army Visitors Will Be Well Looked After.

In referring to the charge made in certain quarters that the management of the National hotel was in any way negligent or derelict in its attention to the call from the National hotel in connection with the Higgins-Elliott tragedy, Mayor Jones, after carefully investigating all the facts in the case, said today that there is absolutely no ground for criticism, when the action of the hotel people in reporting the case to the hospital is considered.

There was no intimation in their first call that the case was an emergency one or even of a serious nature, but as soon as Dr. Buckman, who answered the second call, was assured of the emergency character of the case, he ordered the woman brought to the hospital at once, and as the police ambulance was more quickly available than that attached to the hospital, he suggested its use.

So far as any neglect of emergency cases during the coming Grand Army encampment is concerned, the mayor, as well as the board of charities and corrections, give positive assurance that no apprehension need be felt.

SHAW CALLS IN GOVERNMENT LOAN

No Shortage of Money Is to Follow, as New Depositories Are Named.

Washington, July 14.—Secretary Shaw of the treasury department, on his return today from New York, sent out telegrams to a considerable number of national banks throughout the country designating the government depositories and informing them that the government bonds to secure such deposits as may be made with them must be placed in the hands of the government by the close of business next Wednesday, July 18.

Coincidentally with the designation of these new depositories, the secretary has called the attention of the banks to various financial institutions with state and municipal bonds as security, indicating his intention to have the government depositories at the state and municipal bonds up as security. In order, however, not too seriously to contract the amount of money in the banks, Secretary Shaw will deposit with the new depositories in the neighborhood of \$7,000,000 of the \$10,000,000 now called in, and secured by state and municipal bonds. The \$1,000,000 call in has to be paid by July 20, the date of sale of the new Panama bonds.

As announced by the secretary, the treasury will accept of deposit with banks at least one-third of the amount realized from the sale of the Panama issue of \$30,000,000, and the probability is that quite a part of the amount realized from the sale of the Panama issue, and perhaps a little more, will be left with the banks, at least until after crop-moving time.

Miller, Baltimore; A. C. McCrimmon, Toronto; George C. Truett, Detroit. Recording Secretary—H. W. Reed, Rock Island, Ill. Treasurer—H. B. Osgood, Chicago, Ill. HOW DO YOU JUDGE

The merits of a great singer? By the effect the song has on you. If you are entranced, thrilled, delighted, your criticism is favorable. In the same way do you judge the tone of a piano. Everyone who hears the rich, full, majestic tones of the new Mohlin Piano can't help but admire it, and be thrilled and delighted by its wondrous power and beauty. Cash or \$10 monthly.

GRAND ARMY FILLS WITH COIN

PEOPLE PAY PLEDGES MOST CHEERFULLY.

There Is Still Room for Dollars, and Every Cent Can Be Put to Good Use in Caring for Visitors—Details of Entertainment Are Well Along.

Generous Minneapolis is pouring its tribute to the veterans of the civil war into the coffers of the finance committee of the Grand Army encampment. The first call for contributions and pledges that were made some time ago is out and Minneapolis is responding nobly. The response is hearty and there has not a dollar's worth of money less than a month away and it has been found necessary to call in the pledges to meet the expense of preparation for the coming encampment.

The generosity of Minneapolis has been subject to other calls beside the encampment, but the fund, it is believed, will be ample for all needs. Not all who were able to do so returned the pledges to the committee, but the "never-give-up" policy of the committee is still in force, and diligent interests that have failed to reply will receive an urgent demand from the committee.

City Council Helps.

The fund was given a substantial boost last night by the city council, which voted \$5,500 to the entertainment fund. In addition, a number of prominent wealthy men who have not been called on are to be interviewed in person, and it is believed that the response from this source will be a great one to the men themselves and to the city.

Horses Are Wanted.

The lot driven to a crying need for a single horse, the executive committee is crying. "Horse our kingdom for horses." Saddle horses are wanted and must be secured. The executive committee will contract for all available saddle horses and equipment and will submit them to those desiring them. Large posts and departments are writing for horses and placing orders for from five to ten horses. Men who own saddle horses that they will rent for the week, but more especially for the parade, may notify the committee headquarters, 533 Andrus building.

TONKA CRAFT PARADE

BIG LAKE A SCENE OF BEAUTY AS THE POWER VESSELS, SPECIALLY ILLUMINATED, TOUZE.

Headed by the entire fleet of Twin City Rapid Transit Company, appropriately decorated and illuminated for the occasion, Minnetonka water craft, large and small, paraded the lake last night in honor of the oarsmen from the city of Tonka. The parade was the Minnesota-Winnipeg association. Starting at the Tonka Bay hotel, the launches, yachts and larger steamers moved along the shore, lighting to the hotel at the close of the cruise.

Included among the boats which formed the parade were craft from every part of Lake Minnetonka and the line of boats extending to the craft display ever seen at the lake. During the progress of the parade a band on one of the larger steamers played a program of musical selections. The parade was the idea of A. W. Warnock, general passenger agent of the Twin City Rapid Transit company, and, as the company's boats are fitted with electric lighting facilities, the thirteen steamers made a fine show of their searchlights playing on the water and the wooded shores.

PAPERMAKERS COMING

Twin City Dealers Will Take Care of Visitors.

The semi-annual convention of the National Paper Trade association will be held in Minneapolis July 26 and 27. The business sessions will be held morning, so as to leave the afternoon free for entertainment of the delegates. Headquarters will be at the Hotel Nicollet.

Many of the delegates from the east will make the trip to Minneapolis by the steamer Northwest, leaving Buffalo at 9 p. m. July 21, and Detroit at 3:30 p. m. July 22.

FALL FROM SCAFFOLD

St. Paul Laborers Are Badly Injured at Orpheum Theater.

Two men, A. Bernier, 164 Aurora avenue, and L. Dushesne, fell thirty feet from a scaffold at the new Orpheum theater building at 2nd and Broadway, yesterday, and were seriously injured. The men were fixing a east-iron sign on the west side of the building, and were standing on a swinging ladder scaffold. By the slipping of the ropes along a rung, the ladder was tipped, and at the same time one of the ropes broke.

The fall resulted in a broken leg and serious internal injuries for Dushesne, and three broken ribs and bad bruises for Bernier. Both men were hurried to the city hospital for the accident. Bernier, 42 years of age and has a family. Dushesne is 20 years old and single.

COUNCIL GRINDS HOT IRON

ODDS AND ENDS OF BUSINESS GIVEN ATTENTION.

New Election Districts Created in Eighth and Thirteenth Wards, G. A. E. Fund Out to \$5,500, Crematory Bids Rejected, Bijou Theater Owners Give a Permission to Construct Conduit.

Four new election districts were created by the city council at its meeting last evening, and two wards will be redivided in consequence. An ordinance presented by Alderman Platt B. Walker increases the number of election districts in the eighth ward from thirteen to fifteen, and an ordinance by Alderman John H. Van Nest increases the number in the thirteenth from three to five. A few other changes may be made before the primary election.

G. A. E. Fund Reduced.

The veto by Mayor D. P. ones of the resolution appropriating \$7,000 for the use of the G. A. E. encampment committee was sustained. On a resolution by Alderman Platt B. Walker, the amount was cut to \$5,500, so that there will be no overdraft in the committee fund.

The request of D. C. Bell, president of the Northwestern Bible and missionary training school, the council gave instructions to the fire department to station the necessary pieces of apparatus at the state fair grounds from July 22 to Aug. 5, when a summer school and Chautauqua will be conducted.

Bids Thought Too High.

Three bids for the construction of the garbage crematory were received, but all were rejected as too high. The lowest bid was \$11,000, but the board of health estimates that the work can be done for \$6,000.

Alderman E. C. Chaffield stood against the amendment to the liquor ordinance providing that no saloon shall be allowed to exist within 400 feet of a schoolhouse. This has been construed by the district court to mean in a direct line, and the amendment was cut in two and that he would not make any other reduction on his own responsibility.

An ordinance granting permission to the L. A. D. to lay a conduit for the transmission of heat from the Bijou theater to neighboring buildings was passed. Alderman Holmes gave notice of the introduction of an ordinance granting permission to the Minneapolis Heating & Transmission company to construct tunnels and conduits.

St. Paul Company Knocks.

Permission was granted to the Minneapolis & St. Louis Railway company to lay a spur track across West Twenty-first street.

The St. Paul Merchants' Patrol & Electric Protective company asked for a franchise for conducting district telegraph service, including fire alarm, burglar alarm, electric sprinkling and watchman signal service. The request was referred to the special committee which is considering a similar application from the National District Telegraph company.

The plaintiff is the mother-in-law and she some time ago brought suit to have a deed to property on Sixth street and Third avenue S. annulled. The deed was given to John Wunder in consideration of about \$12,000, which is all the property was then considered worth. Mrs. Johnson now asserts that the deed was given for the defendant, John Wunder. The order was filed today in the office of the clerk of the district court.

DECLARE ASSESSOR POOR AT GUESSING

PROMINENT MEN SAY AS MUCH TO TAX BOARD.

Wealthy Minneapolisians Appear Before Equalizers with Figures to Prove that They Are Nowhere Near as Wealthy as Books Show—Protests Are Filed with Previous Klacks.

Messrs. E. W. Backus, J. W. Joyce, L. Christian, W. C. Edgar, F. E. Kenaston, B. F. Nelson, Arthur Knoblach and George R. and F. W. Lyman were among the distinguished people who accepted invitations to the board of equalizers' conversation today. It was a pleasant and cheerful affair, and the guests were accorded princely treatment, but few of them appeared to enjoy it.

L. Christian, whose invitation was marked \$50,000, tried to make a correction. He said that he had 285 shares of telephone stock with a par value of \$10 a share, 100 shares of gas stock and some minor stuff. Hence he was sure that Assessor Minor was laboring under a misapprehension.

Mr. Kenaston had his wealth figured up to \$31,750 and his obligations to \$22,750. He admitted owing bank stock to the value of \$18,800, but the banks were located in other states and the stock, he argued, was not assessable in this city.

The Lyman appeared by proxy and entered two written protests, but paved the way for an application to have their assessments for credits amounting to \$50,000 in each case reduced in a substantial way.

Mr. Edgar admitted that the Northwestern Miller was a pretty fair sort of an investment, but was inclined to protest when his household goods were increased in value from \$2,415 to \$4,015. He declared that he and his family were plainly and that their household effects would not exceed the first figure.

B. F. Nelson wanted the assessment on his old lumber mill, fourth avenue NE reduced from \$22,000 to \$5,000. The mill has been idle for two seasons, and he had been unable to obtain \$4,500 for the machinery. Mr. Minor explained that the assessment had been cut in two and that he would not make any other reduction on his own responsibility.

E. W. Backus, the lumberman and gold miner, had two klacks to make, one on an assessment of \$30,000 for credits and the other on an assessment of \$6,000 for household effects. The objections were filed away like the others and the various persons were informed that they would hear from the board later.

HARTJE CHARGED WITH CONSPIRACY

Pittsburg Millionaire Will Be Arraigned on Serious Charge This Afternoon.

Pittsburg, July 14.—More sensations are promised this afternoon in the celebrated Hartje divorce case, when Augustus Hartje, millionaire of Pittsburg, John L. Welshone, his friend, and Clifford Hooe, the negro coachman, are arraigned before Alderman Festus M. Robb under the charge of conspiracy to defraud Mrs. Hartje.

Assistant District Attorney John S. Robb will be present in the interest of the prosecution, and when seen today, Hartje admitted the conspiracy, but said he refused to divulge before the hearing.

It is probable the divorce case will not be resumed Monday, as the forty famous letters are still in the custody of Mr. Hartje's counsel, and Attorney Frederick Adams, who is the plaintiff's lawyer, says he will not be ready to proceed with the trial at that time unless he gets the letters.

Why is the Massachusetts Insurance Law the Best?

This question is often asked. Without going into minutiae, several salient points may be specified: A Massachusetts policy holder cannot waive his legal rights; any alleged waiver in the policy is void. The value of this provision is obvious.

A lapsed policy becomes automatically paid-up for the proper amount of a company from controlling it against the policy holders. The development of a company from controlling it against the policy holders. The development of a company from controlling it against the policy holders.
