## RUSSIAN ASSASSIN KILLS WRONG MAN

His Purpose Was to Kill Trepoff, but He Shot General Kozlov.

St. Petersburg, July 16.—The assassination of General Kozlov, of the headquarters staff, in the park at Peterhof, on Saturday, was beyond question the result of a mistake. The murderer believed he was killing General Trepoff. The tragedy occurred at 9:20 in the evening, in the presence of several thousand people, who were listening to the music in the English park below the grand chateau, adjoining the park of Alexander palace, where the imperial family and General Trepoff reside. A young man dressed in the clothes of a workman, seeing General Kozlov, who resembles General Trepoff, gazed long and earnestly at the general's face, and then took the photograph from his pocket to compare it with Kozlov's features, as if to make sure of his identity. The man then drew a pistol and fired four shots point blank at Kozlov, who fell mortally wounded and died on the spot. The assassin was arrested. He refused to give his name, although he openly avowed that he was a member of the social revolutionary organization and the police have not yet been able to find out his name.

General Kozlov was not involved in politics. He married a granddaughter of the famous field marshal Count Alexander Suvoroff. The different groups in parliament are systematically sending members into the country, campaigning in favor of the prestige of parliament, from the very beginning by tacit understanding no roll calls have been taken at the sessions of the lower house in order that should reaction again get the upper hand the government will have no record of the votes with which to prosecute members.

## DUSS BAND WONDERLAND

NOTED EASTERN MUSICAL ORGANIZATION GIVES CONCERT IN THE WEEK'S PROGRAM.

HERBERT (HERT) BROWN, Cornet Soloist and Bandmaster, Duss Band.

Minneapolis is to have the opportunity of hearing a number of the noted eastern bands this summer, but it is doubtful if any will give more genuine pleasure than the Duss band, now playing at Wonderland. The conductor, J. S. Duss, is a musician of considerable attainments, and there can be no question of his sincerity and his love for his art, the one may not always agree with his interpretations. He has a body of fine musicians in every section, and from the standpoint of personal musicianship of the members, harmony, correct balance and blending of tone, the Duss band takes rank as one of the finest in the country.

The band is largely made up from his orchestra, and Mr. Duss seems to have shown special attention to the reed section, giving it greater prominence, and thus securing effects that are nearer orchestral than are usually obtained from a band.

The brasses, too, are exceptionally fine and the quality is full, rich and sonorous, and Duss gave his brass section fine opportunities last evening to show the magnificent work it can do. Besides the famous sextet from "Lucia," which brought out the six best musicians, several encores were given by the sextet of artists.

The cornet solo by Bert Brown and the euphonium solo by P. C. Furano were thoroughly enjoyed, for both have fine control of their difficult instruments and are artists of high standing.

Mr. Duss was particularly happy in his arrangement of his program, including a wide variety of selections that must have pleased music lovers of all degrees.

One of the best numbers of the evening concert was the "Ride of the Valkyries" from Wagner's famous opera, "Die Walkure," which was given with a dash and vim that made it very realistic.

The intermezzo from Delbe's "Naila" was a charming number. Mr. Duss was exceedingly generous with his encores and gave with fine swing and rhythmic marches that are so popular with the American public, including two of his own compositions, which were encored doubly.

The program for tonight: PART I. Overture, "Stradella".....Plotow Moreau, "Serenade d'Amour".....Von Blom "Frolic".....Duss Suite, air varie.....Mohr New arrangement with solo variations for alto, saxophone, trumpet, clarinet, cornet, and cornet, alto, saxophone and cornet and contrabass, two flutes and reeds and basses, played in America by this band only. PART II. Wedding music from "Lover's".....Wagner "Colombina" (Tempo a la Menuetto).....Lambert Two southern sketches.....Lambert (a) "Pensacola Pickaninny".....Gertel (b) "A Peach's Dream".....Myddleton Receipts from "Carman".....Lambert "Friede" (New song).....Lambert "Syruples, the smugglers, etc."....."Les Volci," Act IV.

Seeing is believing. Watch Setts skin cream heal chaps, cuts, cracks or sores. 25c.

## TROOPS FOR THE PEOPLE

St. Petersburg, July 16.—At a meeting yesterday at Gatchina, thirty miles from St. Petersburg, attended by three of the guard regiments, an officer addressed the men on the soldiers' union which is being organized. He said that the lower house in order that it is being organized to guard the constitution and established constitutional institutions, and to prepare the army to come over to the people.

The soldiers received the speech with much applause, and showed eagerness to join the union, which already is very strong in southern and southwestern Russia, Siberia, the Caucasus and Turkestan. Today's meeting was the first toward organization in this locality.

Battle for a Church. Siedlce, Russian Poland, July 16.—The Mariavite Catholic strife has again been resumed owing to the action of the court in returning to its owners the Catholic church recently captured by the Mariavites in the village of Gremokov.

After the return of this church to the Catholics it was again attacked and recaptured by the Mariavites. The conflict was less deadly than brutal. The wounded were most horribly maltreated, being hacked with hatchets and axes, strips of their flesh being torn out, teeth and ears missing and eyes gouged out.

The fighting lasted until a detachment of dragoons arrived. Two persons were killed and forty wounded.

## Railroads CONSTRUCTION IS RAPID

### NEW MINNEAPOLIS & ST. LOUIS ROAD WILL BE OPERATED TO ABERDEEN BY OCT. 1.

Special to The Journal. Aberdeen, S. D., July 16.—Chief Engineer H. G. Kelley, who is in charge of construction of buildings and stations on the next extension of the Minneapolis & St. Louis and H. Estep, engineer in charge of the automobile tour of the survey. They made stops at different points along the eighty-seven miles and closely examined the progress being made.

Mr. Kelley is well pleased with the rapidity with which the work is being pushed and stated that the road will begin laying steel on Aug. 1. He estimates that more than two miles a day will be laid and that the road will be in operation into Aberdeen by the latter part of September.

Consultations have been held with Aberdeen contractors regarding the stations which the road intends to build in each town thru which the line passes. The first stations to be built will be at Aberdeen, Bradley, Conde, Melleto and Northville, as material cars have sent there over other roads. Stations in other towns not on other lines will be built as soon as material can be hauled to them over the new line.

It is intended to build the Aberdeen station on the west side of Main street between Eleventh and Twelfth avenues and the roundhouse just east of the Milwaukee tracks. Both structures will be of brick and will be models in the line of railroad architecture.

All bridges are completed from Watertown to the James river and the Jim river bridge is being rapidly pushed to completion.
