EXCHANGE GETS A LITTLE JOLT

Board of Trade Members Testify That They Agreed to Handle Its Business.

Special to The Journal.

Duluth, July 20.—The case of the state against the Duluth Board of Trade closed as far as the testimony is concerned yesterday afternoon. Mr. Severance wanted to argue at once, but Attorney General Young asked for delay. He said that it was necessary for the state to readjust its case somewhat for "we find that there are witnesses who tell one thing and testify to another." The arguments were put over to Aug. 17.

Two witnesses gave testimony in the afternoon that rather shattered the claim of the Farmers Exchange that it could get no one on the Duluth Board of Trade to transact its business, because a conspiracy existed to prevent it. J. N. McKindley testified that he is handling the business of the Minnesota Farmers Exchange at the present time. J. A. Todd testified that the exchange wrote and asked him to handle its business, and he replied that he would do so, but never heard anything from it afterward.

The remainder of the testimony was largely corroborative of the statements of members that no agreement or conspiracy exists, and that each member is free to do as he pleases about handling business.

Stipulations were finally made and agreed to by Attorney General Young that all the members of the board if called would corroborate this testimony. Copies of the rules of the Chicago Board of Trade, Minneapolis Chamber of Commerce and many of the leading exchanges thruout the country were also introduced.

DECLINES TO CONFER WITH 'TYPO' UNION

Typothetae Refuses to Open Negotiations for Settlement of Eight-Hour Strike.

Buffalo, N. Y., July 20.—The United Typothetae has flatly declined to confer with officials of the International Typographical union in regard to the strike inaugurated nearly a year ago for an eight-hour day and the closed shop. President Ellis of the Typothetae received a letter signed by James M. Lynch, president, and J. W. Hays, vice president, representing the executive council of the International Typographical union, stating that they were ready for a conference with a view to adjusting the differences that now exist. Failing to obtain a conference, the letter read, "the temper of the members of the Typographical union will demand a continuance of the present struggle."

Resolves Not to Confer. After this letter had been read to the convention of the Typothetae, the following resolution was unanimously adopted: "Resolved, That the Typothetae of America, in convention assembled, have nothing on which to confer with representatives of the International Typographical union, and that Mr. Lynch and Mr. Hays be so informed."

F. B. Hamblin of Kansas City outlined a plan for carrying insurance risks on printing plants on a mutual basis. A resolution was adopted instructing the insurance committee to investigate the plan. The convention approved the technical school work of the last year and commending the proposition to establish an eastern, a central and a western school in addition to those already in existence.

HULL RENOMINATED

Two Years More Assured Congressman from Des Moines District. Special to The Journal. Des Moines, Iowa, July 20.—Captain J. A. T. Hull was renominatee for congressman from the seventh district for the ninth time at the republican district convention at Perry, yesterday afternoon. Resolutions were adopted praising the record made by the late congress and endorsing the party platform of 1904.

CHINESE LABOR REGARDED NECESSARY ON ISTHMUS

Washington, July 20.—Chinese labor is to be used, after all, in building the Panama canal. The canal commission, at its latest meeting on the isthmus, considered the advisability of importing coolies from the far east. As a result, the matter has been referred to Attorney General Moody to determine whether such action is prohibited by the Chinese exclusion and contract labor laws. It is not believed either law applies to the canal zone. This step is one the authorities have been discussing for months, and it is to be taken now only as a last resort. American workmen will not accept employment as laborers in the canal zone; negroes of the West Indian islands have failed to render satisfactory service; natives of northern Spain, who have been induced to go to the zone, are twice as effective as negroes, but enough of them cannot be secured.

Made the Deaf Hear

A dispatch from Nashville, Tenn., says that that city is in the midst of an excitement over the work of Cooper and his new preparations, that is beyond anything that it has experienced in recent years. According to reports Cooper arrived in Nashville several weeks ago and began demonstrations with his medicines. In a short time he announced his intention to publicly demonstrate what they would do for deafness. Newspapers were printing stories daily of the wonderful results that were being accomplished for victims of Stomach trouble, Kidney trouble, Rheumatism and Catarrh, and interest was his height. In preparation, at the appointed time a great throng awaited the appearance of the young man at the drug store where he was making his headquarters. About three o'clock in the afternoon Cooper appeared on the scene and invited all those afflicted with deafness to step forward. Picking out an elderly gentleman carrying an ear trumpet, Cooper questioned him and elicited the information that the man had been unable to hear without the aid of the trumpet for several years. He then poured a peculiar preparation into the man's ears and rubbed them softly with his hands. After about three minutes he requested that some person in the audience ask the man a question. Several complied and from all appearances the man had no difficulty in understanding everything said to him in an ordinary conversational tone. A dozen or more of others were treated likewise with the same result. With one or two exceptions all declared that they could hear as well as they ever could. The newspapers have since been full of the reports of the work and Cooper seems to have become the talk of the town. The names of several prominent persons have appeared as having been greatly benefited by his medicines. Mr. S. C. Paine, a well-known bank clerk, living at 414 Ash street, being among those whose names were mentioned, was seen and asked about his experience with Cooper's preparations. "It is indeed true," he said, "that I have obtained remarkable results from the use of the medicines. I had been deaf in my left ear for some time and when I heard of the wonderful work that was being accomplished by the remedies, I made up my mind to give them a trial. Accordingly, I secured a small quantity and began the treatment as directed. I noticed a slight improvement almost immediately. A few days after, when using the telephone I absently put the receiver to my left ear and was surprised to find that I could hear distinctly. I improved steadily ever since and have experienced no further trouble."
