The Russian Situation.

Two significant events happened yesterday in the Russian revolution. The one was the address of the members of the dissolved duma, the other the reception accorded the Russian delegates to the Interparliamentary union in London.

The Nebraska republican state convention has this problem to meet: Shall the railroads or shall the republicans name the ticket? There is a month yet to think it over.

The School Saloon Ordinance.

The liquor ordinance contains a provision that licenses shall not be issued to persons who intend to carry on the business of a saloon within 400 feet of any public school or within 200 feet of any park or parkway.

What the Douma Done into Committee of the House?

The czar has exercised his rights under the laws framed by himself. He has dissolved the parliament and he has called another. But it is suggestive of evasion of the issue on the czar's part to put the meeting of the new duma seven months hence.

The School of Engineering.

Professor F. S. Jones, dean of the school of engineering in the state university, had a chance to get more money by taking the presidency of the University of South Dakota, but he declined because of his interest in the department of which he has been the efficient head for several years.

AMUSEMENTS

Unique-Polite Vaudeville. Royally received by the patrons of the house who have been anxiously waiting for their return engagement, the Bell Trio, who left at the Unique for a week, fully justify the applause which greets them.

Railroads

TRAVEL WILL BE CHEAP

ROADS CENTERING IN MINNEAPOLIS ANNOUNCE MERCHANTS' FALL EXCURSIONS—ALL LINES REPRESENTED.

The merchants' fall excursions will begin shortly and the local jobbers and manufacturers, under whose auspices the meetings are given in St. Paul as well as in Minneapolis, are lining up their stocks to display to the best advantage. In addition to the special rates given by the railroads to accredited merchants, the low rates for the fall excursion season will give the merchants an unusual opportunity to get into the cities of cheap tickets.

WILL BUILD TO SPOKANE

Portland and Seattle Road.

New York, July 24.—James J. Hill is reported as saying that it is likely that the Portland and Seattle road will be extended to Spokane. We cannot say definitely, but there are surveys in the field and if we can get a low grade over the northern lake trip, this road will be the best new road that was ever built in the United States.

Pierre, S. WHAT OTHER PEOPLE THINK

The Lumber Tariff. To the Editor of The Journal. The "Glogging" tariff question argued by Mr. Kelly of Flandreau would say, that by our present high tariff we shut Canadian lumber out of our markets and pay the trust high prices. Our supply is exhausted then the other fellow has an open road across our border and will ask what he sees fit for his lumber, and we will have to pay. But Harry L. Webb is not a fool, and after they have filled their pockets with lumber growing in the states? It will be an easy matter to go over the line and start in on the other side. They are no fools, they are very clear and lay their plans accordingly.

JOE STILL KEEPS HERO'S BODY.
