

SUFFERED AGONIES FOR FOUR YEARS

Whole Foot Nothing But Proud Flesh—Tried Different Physicians and All Kinds of Ointments—Could Walk Only With Crutches—Ohio Man Says:

"CUTICURA REMEDIES THE BEST ON EARTH"

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to heal the wound with all kinds of ointment, until at last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day, after five years of suffering. The cost of Cuticura Ointment and Soap was only \$6; but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

TARIFF JUGGLING REPLACES REBATES

GREAT WESTERN PRESIDENT SHOWS HOW IT IS DONE.

Shippers Are Now Favored Thru Fearfully and Wonderfully Made Rate Sheets Made to Work Any Way Officials Deem Necessary—Buried Rules Beat New Railroad Law.

A. B. Stickney, president of the Great Western railroad, yesterday told the state railroad and warehouse commission how the railroads give concessions to big shippers and avoid the anti-rebate law.

"Instead of giving rebates," he said in response to an inquiry by James Manahan, attorney for the Minnesota Shippers' association, "the railroads now manipulate their tariff schedules. I have called the attention of the interstate commerce commission to the fact that the constant filing of new tariff sheets by the companies should not be allowed. The manipulation of tariff sheets by the railroads has taken the place of rebates."

Are the railroads giving rebates thru overcharges, forgetting to collect the full published tariff, or by the method of direct payment of a rebate?"

Fearful and Wonderful Tariff.

"No," replied Mr. Stickney, "I do not think that any of those methods are followed, but the tariff sheets are certainly manipulated, and unless the shipper is familiar with their intricacies he might not get as favorable a rate as some other shipper."

Mr. Stickney illustrated with the case of a Little Rock merchant who had been charged 70 cents on a certain shipment. The merchant complained. The general agent wrote that there was a tariff connected with the Little Rock schedule which stated that the Little Rock rate should not be higher than the St. Louis tariff, which was 50 cents. Later, another rule was dug up which said that in the Little Rock case the Memphis rule should govern, which made the rate 25 cents.

Mr. Stickney asked if it were not true that coal is frequently carried between Chicago and St. Paul at less than the published rate of 10 cents. Mr. Stickney replied that it was often carried for less by the manipulation of rules and schedules.

At the conclusion of Mr. Stickney's cross examination, the commission adjourned the hearing till Sept. 1, to permit of examination of the railroad companies' books. N. B. Hinckley, expert railroad accountant of the state commission, and Attorney James Manahan will make the investigation of the railroad records together.

Rate Clerks Must Hustle.

Mr. Stickney testified that in order to keep up with changes in tariffs at competitive points, it is necessary for the Great Western to issue an average of four new tariff sheets a day.

JOBBER ARE WRITTEN UP

COMMERCIAL BULLETIN ISSUES "FALL BUYERS' NUMBER," SHOWING MINNEAPOLIS AS A MARKET.

Previous efforts at an exposition of the advantages of Minneapolis as a supply center look feeble when compared with the summary presented in the voluminous issue of the Commercial Bulletin, styled "Fall Buyers' Number," and timed for circulation just in advance of the crop movement and the beginning of the country demand upon jobbers and manufacturers.

The compilers have made a showing that must stamp upon the mind of any reader the fact that Minneapolis is the center of the northwest jobbing trade and is forging ahead at a remarkable rate. Everything new in development, as the expansion of the Wyman-Parkette firm and the new warehouses erected for this house by T. B. Walker, the new Butler Brothers' building and the various other additions, enlargements or new departures in the jobbing trade are pictured. In this respect, as emphasizing the importance of the city as a supply center, the issue is a great advertisement for Minneapolis.

A portion of the issue has been set aside for the produce trade. The importance of this business, in which many firms of high standing are engaged, that runs into a great sum in annual totals, that maintains its own exchange and is power in the northwest, is not fully understood. The produce trade of Minneapolis is a valuable asset for the city.

The women come in for a share of attention incidental to the covering of the dry goods trade and its various branches. There is a wealth of illustration not for the eye of mere man. A feature of the publication is the series of special articles by men prominent in the trade, as one by W. L. Harris of the New England, entitled "Individualism vs. Collectivism," in which Mr. Harris traces the rise of the great enterprise, representing the concentration of capital or consolidation of smaller concerns. In this respect the country has not been overlooked and a number of the most interesting articles covering retail management and other features have been written by country merchants and traveling men in Minnesota, North and South Dakota.

On the whole, the issue is a credit to the publishers and will be a great benefit to the city as an advertisement of jobbing and manufacturing resources.

A WORD TO THE WISE

During the year 1905 THE STATE MUTUAL LIFE ASSURANCE FUND OF WORCESTER, MASS., paid in death claims \$1,258,775.00 matured endowments \$430,615.76. 286 policyholders died and 138 matured.

Now does the reader realize what this great sum meant to the families? and why the families which received it were thus fortunate?

Comfort, independence, the education and care of children and a happy old age. In nine cases out of ten the money was absolutely gain to the recipients and represented small yearly savings which have seeped away like water in the sand had they not been paid STATE MUTUAL.

Why These Families Received

Because the head of each family took his insurance in an absolutely reliable company—AND BECAUSE HE TOOK IT IN TIME. THE STATE MUTUAL operates under the unequalled Massachusetts insurance laws which has a splendid record of 61 years; AND IT HAS NEVER AGREED TO INSURE A MAN AT SOME FUTURE TIME.

If you need insurance send your age and address to a State agent, and do it now!
