ASPHALT COMPANY IS ALMOST THRU

REPAVING WILL BE FINISHED BY FRIDAY EVENING.

After Odd Jobs of Patching Are Completed City Streets Will Be in Fine Condition—Building Operations Retard Work in Few Sections, Otherwise Paving Is New.

With anything like favorable conditions the Barber Asphalt company will finish its contract for repaving the asphalt streets by Friday evening. Third street was completed yesterday and the crews then tackled the last bit of straight work remaining, a stretch on Fifth street, from First to Fourth avenues S. The First National bank contractor removed the last of the obstructions yesterday and the crews can now work thru to First avenue without hindrance.

Building operations will compel the company to skip small sections on Fifth street. In front of the new addition to the Northwestern Telephone exchange a strip forty feet wide will be jumped. At the Yerxa corner there is a hundred-foot stretch which must be left until later as the building work prevents paving at present.

When the company has done all that it is permitted to do on Fifth street the crews will start patching. Fourth avenue will not be repaved and the old holes, as well as the asphalt torn up in order to permit the laying of electric wire conduits, will be patched.

There are various places left by the street railway company on Washington and First avenue N and Hennepin. Another spot was left at Fifth street and First avenue N to accommodate the conduit layers.

Finally, there remains the relaying of the new asphalt torn up by the street railway company to permit the laying of cables. There are a number of such places. It may be possible to complete all this patching, but if it is, the margin will be small. At the worst there will be only a few small spots unpared.

On the whole the city engineer's department is satisfied with the summer's work. Never in the history of the city have the downtown streets been in as good condition as today.

Miles of Good Streets.

The repaving of Nicollet avenue with asphalt from Washington to Eleventh street and with concrete from block from Washington to the union station, with the extension of the paving on Central avenue makes a continuous drive from Grant street and Nicollet avenue to Central and Twenty-ninth avenues N, a distance of several miles.

GUESTS AT WONDERLAND

Employees of the Glass Block Enjoy Their Annual Outing.

The Donaldson Glass Block store had the annual outing for its employees and their families last evening at Wonderland. A lunch was served in the tearooms at the store shortly after 4 p.m., and then, to the number of over 1,200, they went to the park in special electric cars.

They were all provided with round-trip tickets for various attractions. There was a special display of fireworks in their honor. Hamilton, the aeronaut, gave a fine exhibition of steering the K. Nabonshue airship in all directions at various altitudes, and Arnaldo's trained leopards and panthers gave an interesting performance. Dancing was indulged in by many. The night was perfect, and altogether the occasion was a pleasant success.

A feature that occasioned a great deal of sport was a program of races and games, the prizes for which were awarded by L. S. Donaldson, who acted as judge.

DICKINSON, N. D.—Fourteen of twenty horses held as suspects for the murder of Brakeman Oscar Carr have been turned loose. Complete news were given on the subject by George Miller, George Buchanan and Alex Bala.
