TRAITOROUS NEGRO LEADS A REBELLION

Cuban Who Distinguished Self in War for Independence Now Rebel.

Havana, Aug. 20.—An insurrection broke last night in Havana province when General Quinten Bandera, the negro who distinguished himself in the war for independence, left Arroyo Arenas, twelve miles west of Havana, with a force estimated at over twenty men, which it is believed was largely augmented today by a band armed with guns and ammunition which set out from Havana.

At Slay Palma. Havana, Aug. 20.—Half a dozen highly prominent leaders of the liberal party have been taken into custody on the charge of conspiracy against the government and plotting to assassinate President Palma.

John Gualberto Gomez of Havana, one of the most influential of the liberal leaders, was arrested at Santiago. Gomez has been campaigning lately through Santiago province against the government.

The Havana arrests were made by the city police on charges preferred by the chief of the government secret service. General Enrique Loynaz del Castillo managed to make other escapees. The details of this alleged conspiracy are not yet clear. The officials assert that they have sufficient evidence to secure convictions.

It is reported here that the rebels in the provinces of Pinar del Rio have received considerable reinforcements in the remote districts. The rebels are said to be well armed and probably well supplied with ammunition. Troops are being held in readiness to be transported to Pinar del Rio.

Prisoners Deny Guilt. The five prisoners denied all knowledge of why they had been arrested. General Rodriguez, commander of the rural guard, at the conclusion of a conference with President Palma, said: "I regret to hear that our troops were obliged to fight rebels again today. None of the rural guards have been wounded as far as we know. We are not aware that the other side suffered. They were scattered and fled. There were two encounters. One took place at Punta Oorda and the other at San Juan de Martinez."

Asked whether he did not believe the rebel bands were receiving numerous reinforcements, General Rodriguez merely shrugged his shoulders.

Plotter Fallieres' Death. Journal Special Service. Marseilles, Aug. 20.—The police have arrested an Italian anarchist named Cyrillo Francesco, on suspicion of being in a plot to assassinate President Fallieres on his approaching visit to the Marseilles exposition. When Francesco's lodgings were searched the police found 340 grams of fulminate, 500 lead screws and bomb accessories, all of which had been brought from Italy.

The arrest was the result of the receipt of an anonymous letter denouncing the plot which had wide ramifications and is believed to be connected with the arrest of the Italian in the Franco-Spanish frontier at the time of the attempt on the lives of the king and queen of Spain at Madrid. This Italian was released by the French police for want of evidence, but was expelled from the country.

PRASE BY VETERAN

COLONEL WILLIAM A. JONES OF GRANT POST, NEW YORK, WHO LAUDA MINNEAPOLIS.

Colonel William A. Jones, a member of U. S. Grant post, New York city, in which he gave an interesting outline of the plans Santiago was making for the entertainment of Secretary Root, who had arranged for a considerable stay at the Root visit, and who he regarded as one of the most important places in his southern itinerary. Santiago also seemed to be impressed with the importance of the Root visit, for according to the Hicks letter, it had arranged for elaborate decorations of the city, for flags and bunting by day and electric lights and fireworks by night, in addition to the usual official side of the city had prepared a very pleasing program of welcome and entertainment. Obviously, much, if not all, of this must now be abandoned, so far as is known, however, it is still the intention of the Washington government to have Secretary Root stop at Santiago.

Disaster is Widespread. Destruction of Several Cities May Mean Death List of 20,000.

Galveston, Aug. 20.—The latest cablegrams tell a terrible story of the work of the earthquake in Chile and the first reports pale into insignificance. Towns and villages to the number of at least ten are known to have been literally wiped off the map, and the loss of life will run up to perhaps twenty thousand or more.

Three places, with a total population of 12,000 are today reported in ruins and it is believed that the total population here is 20,000. Los Andes was the largest, with over seven thousand souls; Melipilla was swallowed by the earth; it had a population of nearly four thousand. Blue Bay, with nearly two thousand, is included in the list of totally destroyed towns. Several other small settlements were ruined, either by the quakes or fire.

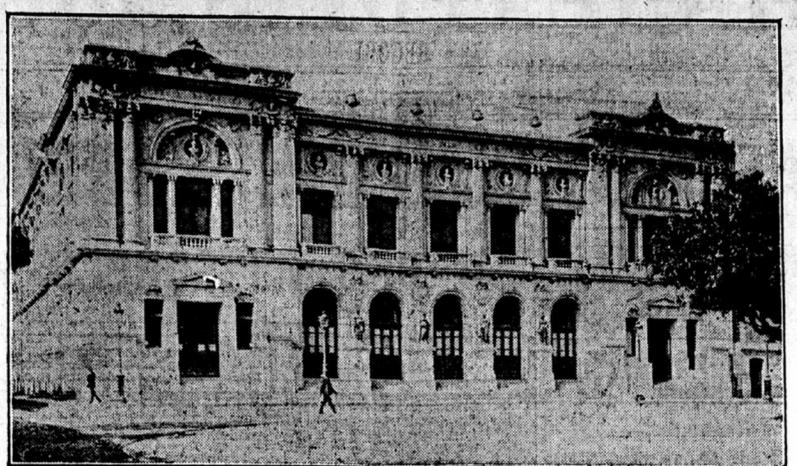

The fire at Valparaiso are still burning, but are nearly out of material. The entire business portion is a wreck and all but the old section of the city in the sandy ground is more or less damaged. It is believed that 600 dead bodies in the ruins, but the death list will probably be nearer two thousand and the injured about four thousand.

The popular attack on the city, but the inhabitants are moving to the plazas, where an effort is being made to provide temporary accommodations. There is actual suffering for food and medicine and the streets are covered with the bodies of the dead. The conditions are so extreme.

GIRLS OF GERMANY PREY OF MORMONS

Foe of White Slave Traffic Sees Grave Menace in Utah Sect.

New York, Aug. 20.—Mormonism is the great menace to the young women of Germany today, according to Miss Maria Lydia Winkler, author and representative of the national committee for the suppression of the white slave traffic in Germany. She has been sent to this country by the German emperor.

Her mission is not only to investigate Mormonism, but to dig up the secrets of the white slave traffic which, she says, is conducted by an organization of international proportions, backed by practically unlimited capital.

The name of the organization in France is the Knights of Love. President Roosevelt, Miss Winkler says, is interested in her cause. A number of persons have promised financial support.

Before leaving here for Utah today Miss Winkler said: "In Europe there are two great centers for the white slave traffic. Hungary supplies the station. France has become the central station for sending the unfortunate to America."

"There is in New York a hotel to which they are sent to work," continued Miss Winkler. "If they will not do the bidding of their masters they are sent to the laundry in Chicago, where they are given the hardest kind of work. If they still hold out, they are beaten into submission, or in some cases the men seek their consent with a view to possible complications with the law."

LEWIS MORRISON IS DEAD

Actor-Veteran Passes Away Suddenly After an Operation.

Taken ill suddenly last week, Mr. Morrison was informed by his physicians that an immediate operation was necessary to save his life.

Lewis Morrison was born of English parentage in Kingston, Jamaica, in 1845. He came to this country at an early age and enlisted on the union side in the Civil War.

The Polok was buying tickets at the merry-go-round when a crowd gathered, realizing 20 cents on a dollar's worth. Some small boys passed a pole check on him and he beat one of them.

Whitty was walking toward the crowd to see what the trouble was about when he was shot.

'KILL ME,' HE BEGS, 'DON'T TELL WIFE'

Pinned Under Wreckage, Man Feels It Shame to Spoil Woman's Vacation.

Johnstown, Pa., Aug. 20.—Plunging thru a blinding rainstorm at the rate of forty-five miles an hour, a fast freight train on the Pennsylvania railroad crashed into a work train at Sang for help, begging to be saved from juring seven others of the work train crew. Three of the latter will probably die.

The work train had stopped at Sang for help, begging to be saved from juring seven others of the work train crew. Three of the latter will probably die.

When the freight engine crashed into the work train it plowed its way thru the cars. All of the laborers and others who were on the train were hurled about, the overturned engines and the sound of escaping steam combined to make a most horrible sight.

The condition as described by members of the wrecking crew upon their arrival was appalling. Dead and dying were lying on the tracks, while some of the injured were hanging out of the windows of the cabin car, crying for help.

One man lay against the side of the track badly crushed and kept crying for his wife and baby. The crying for help and the sound of escaping steam and hot water, which enveloped some of the injured.

One of the victims, a one-legged man, was pinned under a timber from the wreck. He was terribly crushed. Calling one of the wreckers to him, he said: "For God's sake, kill me and put me out of my misery. Please don't tell my wife that I am here on my vacation, and it would be a shame for me to spoil things for her."

\$50,000 IN GOLD EAGLES IN A HIDDEN CACHE

Journal Special Service. Youngstown, Ohio, Aug. 20.—Somewhere along the 100 miles of railroad which connects Cripple Creek and Florence, Col., is cached a fortune of \$50,000 in gold eagles, and it may never be recovered.

The story is told by Mayor Baldwin of this city, who, in 1893, was a lawyer in Cripple Creek. He says that six masked men held up an express train in the night and divided it in six equal parts, one to each man.

Two of the robbers, one named Marks, hid the money, agreeing to meet at Cripple Creek in 1897 to dig up the money and divide it in six equal parts, one to each man.

By the terms reached John Alexander Dowie will, for the remainder of his life, remain the "first apostle" of the Christian Catholic church, while the temporal affairs of the community will be in the hands of Voliva and his supporters.

It was agreed that Dowie should drop all attempts to dispute the ruling of the federal court in the recent case between himself and Voliva for the possession of the assets of Zion.

In return for this Voliva and his friends promised that so soon as the office of general overseer is vested in Voliva, the latter will proclaim his faith in the teachings of Dowie and acknowledge his supremacy in all matters pertaining to the church.

DELUGE FLOODS JOHNSTOWN, PA.

Cloudburst Causes Thousands of Dollars Damage in Pennsylvania.

Pittsburg, Aug. 20.—Reports received from points in Allegheny and neighboring counties indicate that great damage has been done by a storm that passed over western Pennsylvania late yesterday and last night. Telegraph and telephone communication is interrupted at many points and a full text of the damage has been impossible to ascertain.

Railroads suffered from washouts and many delays resulted. Part of Suter-ville is reported to be under water, some places fifteen feet deep. No lives are reported lost.

From all points crop damage appears to be heavy. At Kittanning several buildings were struck by lightning and destroyed, five bridges were washed away and Garret's run, a small stream, rose twenty feet in fifteen minutes.

At Scottdale street car traffic was entirely suspended and the residents were forced to seek refuge on the second floors.

Thru the Sewickley valley, near Greensburg, the storm swept away a number of bridges, mines were flooded and three dwellings were destroyed by lightning, with an aggregate loss of about \$15,000. Part of the Sewickley branch of the Pennsylvania is also reported washed away.

An unprecedented rainstorm at Johnstown, Pa., resembled a cloud burst, flooded Moxham, a fashionable residence section, and caused thousands of dollars' damage. Street car traffic was suspended for two hours.

Many of the streets were two to three feet deep with water, and the Conemaugh river and Stony creek are rising rapidly.

The business section of the city is some distance from the flooded portion and is safe.

OFFICIALLY DEAD, ASKS PENSION FOR "WIDOW"

New York, Aug. 20.—It is indisputable that John Brady of Corona, L. I., is a contradiction in terms.

In 1861 Brady enlisted in the union army. In 1864 the Bank of Japan was established in another regiment and went back to the theater of war. While he was away his former commander filed the records of his company. Brady's name went on the list of killed in action.

As one who had suffered disabilities in his country's service, Brady applied to Washington for a pension. His application produced the reply that, as he was officially dead, he could not get the money. He let it go at that.

Now he believes he has found a way around. At his behest and procurement, his wife is about to present an application for a widow's pension on the ground and in the conviction that the singular case of John Brady is up to the government somehow. Brady avers that "something will come out of it."

It is supposed that McElhenny, at last becoming convinced he would be taken, has escaped and is now well outside the county.

BRYAN FEARS TANT ON ILLINOIS PRAISE

Nebraskan Says He Doesn't Want Indorsement if Sullivan Stays.

Peoria, Ill., Aug. 20.—William J. Bryan, according to his friend, Judge Owen P. Thompson of Jacksonville, desires no instructed delegates from Illinois in the next democratic convention unless National Committeeman Roger C. Sullivan is repudiated by tomorrow's state convention.

Judge Thompson made the announcement immediately upon his arrival in the city that he had received such a message from Mr. Bryan. When asked today for a copy of the dispatch, Judge Thompson said: "I cannot give out a copy of the message, as it contains other matter which should not be published. I can, however, quote verbatim all that contains relative to the instructions by the convention. This is 'oppose instructions unless Sullivan repudiated.'"

"What is Mr. Bryan going to do about it if Sullivan is upheld by the convention and instructions are given for Bryan despite his protest?" "They will never do such a thing as that," replied Judge Thompson.

"Do you suppose that Mr. Bryan will attempt to compliment Mr. Bryan with instructions, when he has been informed by Mr. Bryan that it is not in his power to compliment him? I don't believe it."

"Now then," continued Judge Thompson. "Coming down to politics practical in the extreme. When Bryan is elected where will these fellows stand who poked their instructions in his face, after he had in effect declared that he would regard them as an insult? There may be pie to eat when Bryan is in. Who knows what the fellows who showed instructions on him get any of these pies? No, sir, no pie. The followers of Mr. Sullivan are strong on paper and they will not stand out long when they see they are going to starve."

Mr. Sullivan merely laughed when asked what the convention will do about endorsing Bryan. "We will not oppose any instructions in favor of Bryan. We have never thought of doing so. If delegates come to the convention instructed for Bryan they will have to vote that way I guess."

WAR DECLARATION IN POPE'S LETTER

Encyclical's Ultimatum May Create Grave Crisis, Says M. Clemenceau.

Carlsbad, Aug. 20.—M. Clemenceau, the French minister of the interior, is not endorsing Bryan. "We will not oppose any instructions in favor of Bryan. We have never thought of doing so. If delegates come to the convention instructed for Bryan they will have to vote that way I guess."

"It is a declaration of war and will create a new political situation that will perhaps cause all other questions to pass into the background for some time to come, for if the Holy See thinks that the encyclical will be interpreted by the French government as an invitation to negotiate it is making a very great mistake."

"The pope declares that not only does he reject the cultuelle, but refuses even to take advantage of the existing laws regulating public associations. This creates an entirely new state of things and may have very grave consequences for the exercise of religion in France. If no measures are taken and if the churches find themselves without proprietors in December next, they will have to be closed."

"But my personal sentiment is, and I have never concealed it, that there is no necessity for the churches to be 'cultuelle.' If there are no association cultuelles a way must be found to conciliate the law with the exercise of religion."

JAPAN SEEKS \$40,000,000 FOR MANCHU ENTERPRISES

Journal Special Service. Tokyo, Aug. 20.—M. Takahashi, vice governor of the Bank of Japan, is about to start for England and the United States for the purpose of negotiating a government loan of \$40,000,000 for Manchurian enterprises. If circumstances are favorable, he also will negotiate for the replacing of old loans by new ones at a lower rate of interest.

CLARKS AND SCHWABS CHALLENGE THE "400"

Journal Special Service. New York, Aug. 20.—This winter will see the greatest social war New York has ever known. The whole complexion of the Fifth avenue banquet tables may be changed and Newport next session may have an influx of new inhabitants.

The real battle is between Senator Wm. Clark and Charles Schwab and their wives on the one hand and a large part of the four hundred on the other. And arrayed behind Clark and Schwab are dozens of others of whom the world has heard. Many years have been smarting under the suave insolence of the set that is satisfied to get along without them.

Clark and Schwab, unless accepted by the inner circle of the four hundred with their wives, intend to line up another exclusive set.

McQUAID'S Seventh and Hennepin

We were completely snowed under with business Saturday. Orders came in bigger and better than we had ever dreamed of. Our hopes were more than realized and our only regret is that we were not in shape to handle the big rush of business in a more satisfactory manner. We regret that we were compelled to do part of our delivering on Sunday and we wish to thank those whose deliveries were not prompt for their kind indulgence.
