The Early Decline on the Good Weather and Lower Liverpool Cables.

Later Clearances of 832,000 Bushels and New Export Sales Rally It.

Gossip About Valentine and His Relation to the Armour Firm.

Minneapolis Chamber of Commerce, Oct. 8.—
Wheat went lower again this morning in the first hour, but not materially lower, and it was quick to react. December sold to 73½ (78½ c and then turned back to 73½ c, and May sold to 77% c, coming back again to 78c. Good weather prompted the selling out of small holdings here, and in Chicago the Pringle firm sold rather freely, presumably Rankin's long wheat. The cables were easier, and Liverpool weak and % @ ¾ d lower at the close. Broomhall received the figures for the one day omitted from the Russian table of Monday, and the shipments from that country were raised from from the Russian table of Monday, and the ship-ments from that country were raised from 1,000,000 bu to 2,220,000. This made total world's shipments 11,400,000 bu. The report of the sale of fifty loads of No. 2 hard winter wheat in New York for export firmed up prices, and Chicago at the same time said the export prospects were not very favorable, and neither Winnipeg or Duluth sent anything encouraging. The northwest movement still showed a total in receipts under last year, but the difference was not so great. Minneapolis, with 409 cars in receipts under last year, but the dimerence was not so great. Minneapolls, with 409 cars against 681, showed a difference of 272 cars, but Duluth, with 388 against 218, made a gain of 170 and cut the combined loss down to 102 cars. Chicago had 34 compared with 38, Winnipeg 293 against 418 and the winter wheat market comparisons were 99,000 bu and 106,000 at Karses City and 34 000 and 58 000 for St. Louis ket comparisons were 99,000 bu and 106,000 at Kansas City and 34,000 and 58,000 for St. Louis. Minneapolis elevator stocks, altho not falling off at so great a rate, are still decreasing, and for four days there is a loss of 225,000 bu, Broombail cabled: "Wheat was easy at the opening, with values ½d lower, being influenced by the weakness of American cables, the Bradstreet report and cheaper, Manitoba offerings. There was some support, however, on the decline and values gained ½@¼d. Buying was mostly by speculators prompted by the strength of cargoes both off coast and on passage, and the scarcity of La Plata offerings. Corn was easy at the opening with values ½@¾d lower. The market was neglected and weakness being attributed entirely to the lower American cables." off at so great a rate, are still decreasing, and

cables."

Muuling of New York confirmed 25 loads wheat for export.

The market firmed up on good clearances, \$32,000 bu appearing without New Orleans, which was late in reporting. In the total there were 59,000 brls flour. Near the close December sold up to 741/4 @ 741/3c on report that the seaboard business to-day ran to 100 loads wheat.

In Minneapolis cars today there were 86 cars winter and 44 cars durum. They seem to be able to obtain cars to get winter wheat to the markets.

Piper's Chicago wire said: "Valentine made a play in wheat yesterday that will keep the trade guessing for a few days. He bought 3,000,000 bu December and May, getting it all at one price. Monday he bought 1,000,000 bu. Part of the purchases were put down to the Armour Grain company at first, but later transferred upon request of that company to J. W. Wrenn & Co. and Requa. The request of the Armour company that the trade should be given to other houses was made with a desire to prevent the impression going around that the Armour interests were speculating in wheat in a large way. The Armour buse having ceased speculating, and knowing the effect that the buying of such a large line might have on the market if put down to them, they decided not to be a party to it. There is no unfriendly feeling between the Armour interest and Valentine, but Armour is not in the speculative market, the house does not care to be mixed up." Piper's Chicago wire said: "Valentine made but Armour is not in the speculative market, the house does not care to be mixed up."

Thruout Manitoba the weather has been fine and warm. A few scattered showers have occurred in northern Saskatchewan; otherwise the weather in the western provinces has been fine and for the most part moderately warm. The forecast is: Fresh to westerly winds, fair to day and Thursday, but a few local showers, Saskatchewan and Alberta, fresh, strong winds, a few light scattered showers, but mostly fair

The forecast on our side is for showers in outhern and extreme northwest portions of states by Friday morning. Continued moderat The London Statist estimates the world wheat crop at 3,512,000,000 bu. European r quirements are 529,000,000 bu, or 36,000,000 less than last year.

PROFIT-TAKING BY LONGS CAUSED WEAK

NESS IN WHEAT.

Chicago, Oct. 3.—Renewed profit-taking by local longs caused moderate weakness today in the wheat market here. News of the day was favorable to the bears, cables being lower and receipts in the northwest fairly liberal. Excellent weather for the movement in the northwest also tended to weaken the market. December opened &c lower at 75%c, and, after selling at 75%c, the price declined to 75c, Minneapolis, Duluth and Chicago reported receipts of 83i cars against 548 cars last week and 436 cars a year ago.

During the last hour the market became strong on active buying by pit traders, who were actuated by reports of liberal sales for export account at the seaboard and at guif points. The December delivery advanced to 75%c. The market closed strong, with prices at the top, final quotations on December ber being up ¼ 4%c, at 75%c. 75%c. 75%c.

OTHER GRAIN MARKETS

DULUTH GRAIN, Oct. S.—Lower cables and weaker opening in Minneapolis induced an opening decline in Duluth wheat prices and during the early part of the session the prices worked down to 74½c for December, but finished up toward the close and closed strong at 75c, high price for the day, No. 1 northern to arrive bringing 1½c over December. Durum offerings were large and the price opened ¼c lower, closing the same. Flax was strong all day, opening ¼c higher and closing a cent higher for October and ¾c up for the other futures. Crushing interests were in the market all day long and there was a steady absorption of all offerings. Cables were higher, but nothing was doing for export, all the bids were very close.

The market wavered for some time after the Atchison was a feature, with opening sales of 6,000 shares at 108% and 108 compared with 107 last night. Colorado Fuel advanced 1¼.

The market wavered for some time after the opening owing to the realizing in Atchison and some of the other grain carriers. Atchison eventually sold under yesterday's close, but the general market gathered strength and rose strongly. Speculation was wide, a number of low-priced railroad stocks figuring in the dealings. Great Northern preferred improved 2%, Colorado Fuel 2½, Rock Island preferred, Kansas City Southern preferred and Colorado Southern and the second preferred 1½@1½, and Union Pacific, Southern Pacific, Missouri Pacific, Rock Island, St. Louis & San Francisco second preferred, Lackawanna, Cleveland, Cincinnati, Chicago & St. Louis, Brooklyn Transit, Sloss-Sheffield Steel and Distillers' Securities 1@1½.

Atchison was marked up to 108, but the announcement of a 2½ per cent half-yearly dividend brought out a flood of stock from holders who had hoped for 3 per cent. Price raw off abruptly to 104½, carrying the general list with it to a fraction under last night. Northern Pacific ost 2½, United States Rubber 1½, Americal 165 2½, United States Rubber 1½, Americal 165 2½, United States Rubber 1½, Americal 165 2½, United States Rubber 1½, Americal preferred and Minneapolis, St. Paul & Sault Ste. Marie 1½@1½. Determined support railled the market, but Atchison continued to move feverishly. Bonds were firm.

Reading was marked up to 154½ as an offset to the liquidation in Atchisos. Canadian Pacific jumped 3% on the declaration of an extra dividend of 1 per cent. The rest of the list did not raily with energy in the face of the weakness in Atchison, which had sold down to 103% by 1 o'clock.

After noon operations on the stock market were in the main uninteresting. The general list continued to ignore the special movements that were designed to stimulate trading. The Harriman stocks were bid up strongly, Southern Pacific on the main uninteresting. The general list continued to i

After the adjustment parity Americans met wish steady support early in the day and the majority of the active issues under the lead of Atchison advanced to over parity. Grand Trunk eased on disappointing traffic returns. Canadian Facific hesitated pending the outcome of the coming stockholders' meeting. On the receipt of the New York onening prices the market became erratic and at the close prices were irregular. On the curb quotations cased. Atchison fell to 100½ on the dividend announcement.

ARIZONA COPPERS.

The market opened with a rush this morning, with Calumet & Arisona and Superior & Pittsburg the leaders, Cananea Central being a close follower.

This market seems to be getting in the same condition that it was three weeks ago; that is, one stock goes up with a jump one day and the following day another stock takes the same kind of an advance.

There is no news of special importance from any of the properties.

MIDWAY HORSE MARKET, Minnesota Transfer, St. Paul, Oct. 3.—Barrett & Zimmerman's report: Liberal receipts of the heavy commercial classes a feature of the week's opening, and the absence of the usual corps of outside operators dulis the market. The offerings of desirable heavy drafters are liberal and the narrow inquiry makes a slow clearance. The demand from the government for a large supply of the lighter grades of horses for army use has made a shortage in this class. The well-known horseman.
