Metropolitan Music Co. Edward R. Dyer, Prop. & Mgr. Sixth St., near Nicollet.

Viscolized Soles and High Top Shoes for winter wear are now being shown here. You save at least \$1.50 on every pair and still get the value. SORENSON'S, 314 Nicollet Ave.

## City News

### TOWN TALK

#### EVENTS OF TONIGHT

Metropolitan Theater—Walker Whitehead in "The Magic Melody." Bijou Theater—"Sunday." Orpheum Theater—Modern vaudeville. Lyceum Theater—"Secret Service." Unique Theater—Vaudeville. Dewey Theater—Campbell's Nightingales in "A Trip to Jupiter." First Baptist Church—Lecture, "The Merchant of Venice," Father Vaughan.

#### TOMORROW'S CALENDAR

T. B. Walker Art Gallery—Northwestern hospital bazaar, all day and evening.

Four per cent interest on your savings if deposited with the State Institution for Savings, 517 First Avenue S. Father Vaughan will give his second dramatic lecture under the auspices of the Teachers' club this evening at the First Baptist church. His subject will be "The Merchant of Venice."

Mr. J. P. Keipp, manager of the Grand hotel and sanatorium at Colfax, Iowa, is in the city promoting the interests of the Colfax mineral water. Mr. Keipp may be seen at the Nicollet hotel.

Ray Twin City Golffield Leasing Co. stock, 15 cents. Will advance soon. Have the only lease on Combination Co.'s property, who have paid 15 per cent per month for 25 months. McAllister & McAllister, Boston Block.

Women rank first in attendance at the immaculate conception church, men second and children third. To ascertain the proportion, a census was taken yesterday, including the five services. The results showed 1,540 women, 1,003 men and 672 children.

Police Superintendent Doyle has been asked to find W. H. Dearborn, a civil engineer employed on the new Minneapolis and St. Louis line to Aberdeen, S. D. Dearborn left Aberdeen June 2 to come to Minneapolis, but was not heard of after that. His mother died in New York Oct. 2 and the relatives are trying to find him first.

C. E. DuLaine of B company was elected president of the Minneapolis National Guard association formed yesterday at the new armory. R. F. Bausman, Battery B, is secretary, and A. E. Berglund, B company, is treasurer. A committee was appointed to arrange the series of indoor baseball games for the league, which is to be formed first.

There will be a musical tomorrow evening in the Thirteenth Avenue M. E. church for the benefit of the general fund of that church. Included on the program are vocal or instrumental numbers by the Misses Nellie Odegard, Rose Monahan, Anna Crandall, Augusta Koller and Jane Webster and Messrs. Percy Long and F. R. Wilson.

The Plymouth Rogers-Foot-Clothing, Knox Hats, Hannon Shoes. For men who value correct dress.

## THIEF GETS 80 & 1 BILLS BUT LEAVES 20

A burglar who needed \$80 but could not use \$100 was the man who robbed the Model Hat Store on Nicollet avenue some time last night.

The store sells hats for \$1 each, no more, no less, and the thief, in the fact, the store windows are filled with hats, each bearing a crisp, new \$1 bill, green and tempting.

The temptation was too great for the thief, and as he looked at the money, open, and it was large enough to admit him easily, he crawled thru and helped himself to eighty of those bills. He left twenty and all the hats.

### PREPARING A FEAST

Volunteers of America Will Distribute Good Cheer for Thanksgiving.

Arrangements are being made by the Volunteers of America for the annual distribution of Thanksgiving dinners among the poor of the city. Baskets filled with everything which is considered necessary for the traditional Thanksgiving feast will be distributed by the Volunteers, together with a number of new testaments. Provisions for the filling of the baskets are being stored in the mission hall.

In the work of distributing the baskets to the needy poor the Volunteers will be assisted by the associated charities. The latter organization is making up a list of the most needy families in the city, and the co-operation of the latter will be avoided. The Volunteers of America are also planning to distribute clothing on Thanksgiving morning, and all clothing turned in to the organization will be given to the needy poor.

### INTEREST IS GROWING

Meetings at First Baptist Fill the Great Church.

"Heaven and Hell" was the subject of Dr. W. B. Riley's sermon at the First Baptist church last evening. His portrayal of the sorrows of the latter, which he described as a condition rather than a location, was vivid, as were his descriptions of the joys of the former.

The great church was filled at both the morning and evening services, even the gallery being almost fully occupied. The chorus choir of 100 voices, under the Rev. M. C. Martin, rendered most effective service.

The Sunday school room was filled at the aftermeeting, many testifying and many others asking prayers. The interest in the meetings seems to grow with each service. There will be no preaching service tonight, but there will be on every other evening of the week.

## ROW IN HENNEPIN OVER SPEAKERSHIP

### OPPONENTS OF HOME CANDIDATE SCORED IN CAUCUS.

Out-Maneuvered the Johnson Forces in Election of Chairman and Steering Committee Report Seems Certain to Be Adverse—Majority of Members Friendly to Johnson, However.

Hennepin's delegation in the house is once more a house divided against itself. As a result of the caucus held Saturday night, it does not seem likely that the present caucus will be brought to take united action on the speakership. With the support of Hennepin's fourteen, Lawrence H. Johnson would have an excellent prospect of election to make over the house, but as usual, his hardest fighting is within the delegation. Another caucus will be held Wednesday evening, when the matter will probably come to a head. Delegations from other congressional districts are waiting for the action of Hennepin. If this delegation presents a candidate for speaker, he will get a strong outside support right from the start. If Hennepin remains divided, outside members will throw their support elsewhere.

The session Saturday night was executive, but enough has leaked out to show that it was a squally three hours. As it was an organization caucus, it was attended by not only the republicans, but by a few democrats, a socialist, a prohibitionist, and the only absentee was Alex McNeil, the country member. The first trouble occurred over the right of Sullivan and Higgins to vote. After a long argument, it was decided that they could vote, since the session and order of members of the delegation. Mr. Sullivan declined to vote, however, so only fourteen votes were cast. W. L. Nolan received seven and E. H. Timberlake seven.

Timberlake is friendly to Lawrence Johnson's candidacy for speaker, while Nolan is sponsor for John T. Jones, candidate for chief clerk, and believed to be favored by the order. More than sixty members of the delegation were present for speaker. In fact, the Johnson claim that before the meeting three of the delegation, Nolan, John G. Lennon and Frank E. Nimoeks, had a conference with the speaker and agreed on a plan of action. It is also claimed that two or three of the delegation friendly to Johnson for speaker had promised to vote for him, but they were not counted. The vote stood a tie for some time, till Judge H. G. Hicks changed to Nolan and elected him, 8 to 6.

### Named Hostile Committee.

No vote was taken on the speakership, but a motion was passed unanimously to name a committee to appoint a committee of five, himself to be one, which should canvass the situation and recommend a course of action at the meeting Wednesday night. Mr. Nolan appointed as members of the committee Lawrence H. Johnson, C. L. Sawyer and his allies, Messrs. Lennon and Nimoeks. The majority of the committee are friendly to Hugo, and it is expected to report adversely to Lawrence Johnson's candidacy, but it is not likely that the majority of the delegation will accept the report. Harrie R. Pierce, who voted for Nolan Saturday night, are favorable to Johnson for speaker.

Mr. Hugo is laboring to get the city delegation in line for his candidacy, some active work among country members is being done in the interests of A. J. Rockne of Zumbrota, Dr. J. A. Gray, and another member of the Goodhue county delegation, was in the cities Saturday, and says Rockne is accumulating strength that will make the city candidates take notice.

Efforts are being made today to bring the Hennepin members together on a harmony program. The steering committee met today, but took no action beyond discussing the speakership. The majority of the delegation is firmly pledged to support Johnson, and the outlook is that he will be indorsed at the delegation meeting Wednesday night, with at least ten votes out of the fourteen, and there is a prospect that it will be made unanimous. Some of the delegation want to know how much outside strength Johnson can control, and are in communication with members from other districts. According to general report, they will give quite a showing for the Hennepin man outside.

### THE NIGHTINGALES

They Dispense Music and Laughter at the Dewey This Week.

Burlesque and vaudeville are so thoroughly mixed in the show given by Campbell's Nightingales at the Dewey theater this week that the audience is kept guessing from start to finish. This combination is the result of an effort by Harrie R. Pierce to get out of the old path and start something in extravaganzas. He has been successful in his venture and there is scarcely a dull moment in the production.

There are two short burlesques, with just enough plot to carry the specialties and beautiful lighting effects. The first act is called "A Trip to Jupiter," and the second is a comedy in one act, scenic apparatus. The dance of the fire queen, which occurs in this act, is the best specialty of its kind that has been given with a burlesque show this year. The music is mostly new, and in this, as in the specialties, the company avoids the songs that have been heard here before. Pauline De Vere and Dorothy Blodgett make instantaneous hits in their singing numbers, and Miss De Vere's dancing is far above the average. She has a clear, sweet soprano voice that has not yet been spoiled by overwork; there is little room for comment, but what is of it is new and clean. Richy W. Craig and Dan Graey, two old favorites, make the most of the time given them.

### ENGINEERS TO MEET

Officers of International Union Will Explain Labor Conditions.

An open meeting of the international union of steam engineers will be held Tuesday evening in Alexander's hall, 36 Sixth street S. Officers of the international union who are in Minneapolis attending the convention of the American Federation of Labor will address the meeting and explain the conditions which confront members of the craft. The meeting will be open to all steam engineers, union or non-union.

Glove—the original rubber shoe—Foot-Schulze on soles of genuine.

## ASKS A \$600 MINIMUM

### REV. JOHN A. RYAN PLEADS FOR BETTER PAY FOR MEN WHO SUPPORT FAMILIES.

Contending that \$600 is a necessary income for the man who must support a family, the Rev. John A. Ryan of St. Paul seminary discussed the relation of the church and the labor question in the church at the immaculate conception yesterday morning. A number of representatives of organized labor were in the audience and listened to an able and impartial discussion of the labor problem.

Union labor, asserted Father Ryan, is justified in demanding a fair living wage, and he asserted that 60 per cent of the present city workers received an annual income of less than \$600. He defended the methods of the unions to a certain extent in their attempts to secure for their members a living wage and asserted that the laboring man needs the church, for the church first sanctified labor guilds in the fifteenth century; and a relation between the church and labor unions is necessary and advantageous.

## PARALYTIC DIES FROM ASPHYXIATION BY GAS

Iver Mattson, 485 Collins street, St. Paul, was found dead in his bed at 8 a.m. Sunday from asphyxiation. Mattson was an invalid, one side of his body being paralyzed. It has been the custom of his mother to turn out his light and close his window every night. Saturday night Mattson told her she need not turn out the light, but she insisted on closing the window for fear he would catch cold. In the morning the members of the family noticed a strong smell of gas thru the house, and on investigating found Mattson dead in bed, his room full of gas. His door had been locked and no one there. It is believed that in his crippled condition, in attempting to turn out the gas he afterward turned it part way on, thus causing his accidental death. The coroner is making an investigation.

## SAMARITANS ORGANIZE

Grand Council for Minnesota, with Minneapolis Man at Head.

A grand council for Minnesota of the Modern Samaritans has been organized at St. Paul, by the first state assembly ever held. It was composed of sixty subordinate councils with a membership of about 7,300 were represented. The principal benefit of the action taken is to give the members voice in the selection of members of the family, notice in this body and it is expected that other states will follow the initiative taken by this state.

The officers of the grand council are as follows: Good Samaritan, Don E. McLennan, Minneapolis; vice Good Samaritan, Walter T. Lemon, St. Paul; scribe, J. C. Schnacke, St. Paul; treasurer, Ed. Mattison, Cannon Falls; high priest, S. P. Egan, Minneapolis; Levite, John DeLeo, St. Cloud; chief messenger, Edward Ryan, Staples; junior messenger, E. H. Krelwitz, Aitkin; centurion, Curtis M. Johnson, Rush City; watchman, John Ryan, Wabasha; auditors, Carl Anderson, St. Paul, and C. A. McGuffin, Minneapolis; representatives to imperial council, H. E. Z. Wagoner, Minneapolis, Dr. J. H. Dranes, Stillwater, and C. Bombach, St. Paul.

## LOTS FOR FINE HOUSES

South Shore of Harriet to Be Platted for Exclusive Homes.

A large sale of Lake Harriet property was made last week by P. M. Woodman to Major I. A. Dunsmoor and associates, of the beautiful 40-acre tract on the south shore, known as the Sutherland property, running from Knox to Penn avenues, with 1,500 feet of frontage on the boulevard.

The purchasers will plat that part of the boulevard and Forty-ninth street into lots, 75 to 125 feet fronting on the boulevard, 200 to 300 feet deep, with the view of selling as sites for elegant homes, thereby making that locality of the same character as the residence of the lake district as Lowry hill and Sunnyside are for the central residence part of the city. Building restriction will be required over the entire tract to insure to the persons who build homes a bon ton residence district.

Harriet Heights will be the name for that district, standing from fifteen to thirty feet above the lake. This tract is covered with beautiful forest of oak, elm and basswood trees.

## BLUECOAT WINS FIGHT

Sergeant Rankin Compelled to "Lick" Prisoner Before Arresting Him.

Sergeant Rankin of the South Side police and Henning Swanson gave an exciting exhibition of the many art before a large crowd near Seven Corners last night, the policeman winning after a hard struggle.

Swanson became disorderly on the street and Rankin attempted to take him to the station. Swanson resisted and there was nothing for Rankin to do but have it out. A large crowd gathered with the intention of taking the prisoner away. Patrolman John Bove kept the crowd back and the combatants fought unhampered. Rankin showed the better of the other and Swanson was taken to the station without further trouble.

## PLUMBERS ENTERTAINED

Delegates to A. F. of L. Keep Open House in Rogers Hotel.

Open house was kept by the plumbers' delegates to the American Federation of Labor convention in their room at the Rogers hotel Sunday afternoon. Many of the prominent men in the present assembly were callers. Refreshments and a gramophone, under a management of William Merick of Salem, Mass., served to entertain the guests.

## BURGLARS ARE FOILED

Fuse Fails to Work and St. Paul Butcher Saves Cash.

An imperfect fuse prevented the blowing of a safe Saturday night in the butcher store of J. H. McCormick, 302 Rice street, St. Paul. The dial was knocked off the front of the safe and a hole drilled thru. The explosive was inserted and the fuse lighted. A fuse only burned part way and was found to be evidently fraud. The burglars were evidently afraid to return to investigate the delay in the expected explosion. The proprietor was discovered by the proprietor Sunday. All the robbers secured for their trouble was \$3.50 taken from the cash register.

## PORTO RICO NEEDS AMERICAN METHOD

### ISLAND DELEGATE TELLS ABOUT CONDITIONS.

Low Wages and Generally Poor Conditions Prevail Among 500,000 Inhabitants—Employers Use Police to Quell Laborers Who Attempt to Secure Fair Treatment—Government Intervention Asked.

Porto Rico is represented in the convention of the American Federation of Labor by Senator Sammie Iglesias, a Spaniard by birth, a Porto Rican by residence and an American by preference. At 11 years of age Senator Iglesias left Spain for Cuba. It was there, nineteen years ago, that he joined the carpenters' union. For eleven years he has lived and worked among the laboring men of Porto Rico. The following statement is one he has prepared to show the conditions prevailing among workers of Porto Rico:

Conditions Grow Better. "The invasion of Porto Rico by the American Federation of Labor and the propagation of its methods and ideals into the life of the working people have carried on some transcendental changes in the attitude of the employers toward the workers.

"American principles have tended to strengthen the position of the Porto Rican workmen a little more each year. The position of the workers of Porto Rico at the present time is low, they are making efforts to obtain better economic and social conditions. The laboring men of Porto Rico hold the laboring men in other countries in contempt for their work, and, as yet, the economic and social power and the political influence of the workman in Porto Rico is extremely small.

The relations between the employer and employee is contractual. Employers maintain a benevolent despotism upon the poorer laborers and artisans. Many employers owning sugar plantations pay their workers a wage and often pay the agricultural worker with miserable gifts and grants.

Half Million People Oppressed. "These oppressive and low conditions exist among 500,000 agricultural laborers in Porto Rico, who are held on the island, altho within the last three years, particularly since he help given us by the American Federation of Labor in the agricultural strikes, the unjust attitude of the employer to the workmen is being displaced by somewhat different course in the relations of planters, owners, the trusts, and the workers.

Now the wages of more than 500,000 people, men, women and children are 20 to 55 cents for a twelve-hour workday in the country fields, and I believe the American authorities should recognize that they owe a duty of humanity to the Porto Ricans. They cannot permit the American police to be put into the hands of the sugar planters to terrorize the strikers and to commit brutal attacks against the agricultural workers, breaking up their meetings and doing other awful things. "I believe that, in some way, it is necessary to obtain the intervention of the authorities of the United States in order to stop forever these abuses and to help the great masses of working people of Porto Rico to attain better, more reasonable and more humane conditions."

### LABORERS ARE NEEDED

Government Contractors Hampered by Scarcity of Help.

Irrigation work in North Dakota and Montana is being materially handicapped by the scarcity of labor. This is the statement of D. H. Freeman of St. Cloud, one of the best known government contractors in the west, who is in Minneapolis on business connected with his \$450,000 contract to dig six-mile miles of ditch near Glendive, Mont.

At the Vendome today Mr. Freeman said, "The labor problem is handicapping irrigation work thruout the west and I have just arranged for a shipment of men from St. Cloud. Good wages do not seem to attract the men and the irrigation work is badly hampered. The project upon which I am now working is called the Lower Yellowstone project, and is one of the largest of the government irrigation schemes. Starting at a dam on the Yellowstone river, twenty miles below Glendive, a ditch sixty-five miles long is in process of construction.

"I have contracts for digging the two upper divisions of the ditch, sixteen miles in all. The country which will be irrigated by the construction of the lower Yellowstone project is stock country and the stockmen of the region will be immensely helped by the irrigation of the land along the Yellowstone. Three crops of alfalfa a year can be raised on the land when it is properly irrigated."
