LOOKS LIKE BLOCK 40
FOR POSTOFFICE SITEWILLIAM HENRY EUSTIS HAS OP-
TIONS ON MOST OF BLOCK.

Total Cost Is Not Far Above the Federal Appropriation, and Guarantors Will Undertake to Cover the Difference—Officials Now Lean to This as Preferable Site.

Officials of the United States treasury department in Washington spent much of their time yesterday listening to the representations of friends of block 40 and the Pence opera-house block as suitable sites for the new Minneapolis postoffice. William Henry Eustis talked about block 40, and A. E. Merrill advocated the selection of the Pence block.

Block 40 is a square bounded by Second and Third avenues, Second street and Washington avenue S.

Since Mr. Eustis' last visit to Washington he has been busy interviewing owners of property in block 40, getting options on as much property as he could at prices reduced as much as he could persuade the owners to drop from those fixed when Supervising Architect Taylor was in Minneapolis. The best information obtainable is that as a result of Mr. Eustis' activities, the total cost of the block will not exceed \$370,000. The difference between this and the appropriation of \$350,000 made by congress will be met by subscriptions of which Mr. Eustis has reported that about \$16,000 is pledged, with the assurance that the remaining \$4,000 will be forthcoming when the government wants it, in the event of the departments deciding to buy that block.

Mr. Eustis' Options.
Mr. Eustis' options cover 77 per cent of the area of the block, and a larger percentage of the valuation. He has secured agreements for the sale of three of the four corners and of the more valuable tracts on all four sides. Should Secretary Shaw decide to buy block 40, condemnation proceedings will be instituted to obtain these parcels not covered by options. If the prices fixed by condemnation bring the total cost of the block above the amount appropriated, the government will pay for the condemned pieces, and will leave to Mr. Eustis and his fellow guarantors the task of adjusting the

difference between the owners of property on which prices have been fixed. Washington dispatch to The Journal says that A. E. Merrill called yesterday on J. C. Plant of Minneapolis, who is chief of the computing division of the supervising architect's office, and he was presented to Mr. Taylor. He spent an hour or more advocating the purchase of the Pence block, but not as a representative of any organization in Minneapolis. He simply urged it as a resident of the city and as being the best available site for a postoffice. During the conference Mr. Taylor gave his reasons for recommending a site south of Hennepin avenue, and stated that no evidence had been produced up to date to cause him to change his mind.

"Secretary Shaw has received a telegram from the Minneapolis real estate board, asking the department to delay action on the site, pending the result of an effort to secure an increased appropriation. The secretary replied that if an approximately suitable site could be procured within the appropriation, it would be bought immediately."

CHILDREN TAMPER
WITH ALARM BOXES

School children have caused much annoyance to the fire department by plugging the keyholes of the fire alarm boxes with clay. While testing the boxes recently the firemen found upwards of a score of boxes which had been rendered practically useless. It was discovered that the clay is the same as is used in the public schools in the industrial work and the inference was that the children have been up to some pranks which, the amusing them, might have serious consequences. The boxes were out of commission until the clay had been dug out, and in the event of a fire of considerable proportions the delay in turning in an alarm would mean serious consequences. The matter has been the subject of one correspondence between Fire Chief J. R. Canterbury and Dr. C. M. Jordan, superintendent of schools. Dr. Jordan has sent a circular letter to the principals of all the schools to impress upon the children the danger of tampering with the fire alarm boxes. The boxes which have been tampered with in this manner are located in the Everett, Sheridan, Prescott and Van Cleve districts in Northeast Minneapolis, and the Douglas and Calhoun districts on the West Side. Thus far the game has been confined to the two localities indicated. It is a more serious matter than the children realize, and if the prank is repeated the police will be called in. If the guilty ones can be discovered an example will be made of them.

FRANK DAY QUIT JOB?
NOT IN A THOUSANDDEMOCRATIC STATE CENTRAL
COMMITTEE HONORS HERO.

Man Who Secured 72,000 for Governor Johnson Urged to Keep His Kingly Crown and He Modestly Consents—All Is Love Harmony and Big Fat Cigars.

FRANK A. DAY.
Who Does Not Resign Democratic State Central Committee Chairmanship.

There was joy great bunches of it, for Frank A. Day at the meeting of the democratic state central committee held yesterday at the Merchants' hotel, St. Paul. It was caused by the harmony which prevailed, old enemies of the governor's private secretary burying the hatchet and, joining with his friends in unanimous refusal to accept Mr. Day's resignation as chairman of the committee.

The tremendous success of the democratic campaign, of which Mr. Day was the head, was the cause of the blessed harmony which prevailed. Enemies of Day during the campaign were at odds with him in great part because they thought someone else might better steer the democracy, but the result vindicated Mr. Day. J. M. Bennett of Stearns, Bert Fessler of Duluth, and H. L. Buck, those who previous to the day when the ballots were practically all cast for John A. Johnson, were loudest in their opposition to Mr. Day, but because of their opposition Mr. Day agreed to resign as chairman of the election. But yesterday they were among the most insistent in command. He continues in command.

Compelled to Hold Job.

The tendering of his resignation by Mr. Day was the first business of the committee following the roll call. Then came a series of brief addresses. Everybody agreed that as the campaign was over and they were the victors, they could afford to be generous and brush aside past differences. H. L. Buck of Winona made a motion requesting Mr. Day to withdraw his resignation. This was unanimously carried. A rising vote was called for, and not a single man remained in his seat.

Mr. Day took the floor. He thanked all present for their kindness. He greatly appreciated their whole-hearted action. He would accept to their unanimous wish with much pleasure. Big fat cigars, such as a democratic state committee might be expected to indulge in at this stage of the game, were then passed around.

Education Work.

Two more resolutions were passed before adjournment. One called for a special committee of five, to be appointed by the chair, on "Education and Organization." This committee is to act with the state executive committee. The other resolution gives Chairman Day an authority to give some of his former "knockers" desirable appointments, and he will probably take advantage of the opportunity to cement their friendship. The following resolution, offered by J. B. Galbraith of Aitkin, was passed: "Resolved, by the Minnesota Democratic State Central committee, that we congratulate the people of Minnesota on the grand victory achieved in the recent election."

Among Those Present.

The following members of the committee were present: J. B. Galbraith, Aitkin; L. W. Siewierski, Foley; W. R. Hodge, Sleepy Eye; C. C. Brunius, Carver; John M. Dalrymple, Moorhead; M. J. Hynes, Rosemount; D. D. Murphy, Blue Earth; H. T. Tolmie, Spring Valley; H. G. Day, Albert Lea; Ed A. Stevens, Richland; J. A. L. Sorter, Jr., Minneapolis; A. J. Clair, Grand Rapids; John L. King, Jackson; C. C. Kolars, Le Sueur Center; George Graff, Ivanhoe; H. E. Matthews, Marshall; R. H. McCallister, Glencoe; F. Sasse, Fairmont; Charles G. Hunsinger, Litchfield; Adolph M. Anderson, Milaca; C. F. Cook, Austin; J. P. Coughlin, Perham; Otto Bremer, James A. Nowell, E. L. Murphy, F. B. Lynch, St. Paul; Jay Le Due, Laverne; Bert Fessler, Duluth; Getchell Kingston, Duluth; John E. Casey, Jordan; J. R. Bennett, Jr., St. Cloud; N. M. Guthrie, Blooming Prairie; Leslie Matthews, Benson; John Costello, Kellogg; Charles G. Hunsinger, Wadena; J. G. Armon, Stillwater; H. L. Buck, Winona; J. A. McDermott, Canby; representing forty counties and six congressional districts and the following members at large: John E. Burchard, St. Paul; C. A. Quist, Minneapolis; Dan Aberle, St. Paul; and O. d'Autremont, Duluth.

SOCIETY NEEDS BIG FUND

Dovre Singers Plan to Go Abroad on Pleasure Tour.

A meeting of the general committee on arrangements for the Norwegian tour of the Dovre Singing society will be held this afternoon at Odd Fellows' hall, 421 Central avenue. Reports will be presented by the chairman of the sub-committees. It is understood that the singers have received much encouragement for their venture and also it will be a big task to carry out the leaders in the movement are confident of success. It has been estimated that it will require fully \$10,000 to carry the society thru the proposed tour. It is the purpose to give a series of concerts in this country and in Norway and the profits will reduce the expense bill in proportion. To be on the safe side, however, the funds must be in sight before the start is made. All committee members and other persons interested are requested to meet promptly at 3 o'clock.

ATTORNEY GENERAL TO
ASK NEW ASSISTANT

Young Would Have One Attorney to Look After Railroad and Public Utility Cases.

In his report to the legislature of 1907, Edward T. Young, attorney general of Minnesota, will recommend that provision be made for one more attorney to be connected with the state's legal department, and that this attorney devote all his time to cases in connection with railroads and public service corporations.

"The expenditures by the state of money for the salary of such a man, if he were efficient," said Mr. Young to The Journal, "would be an investment that would return itself to the state many times over every year, as well as help to keep the public service corporations in line and operated more in the interests of the people."

PREPARE SPECIAL PROGRAM

Men's Sunday Evening Club Takes Charge of Church Service.

The Men's Sunday Evening club of the First Congregational church will have charge of the service at the church this evening. A program of great excellence has been arranged, the music in particular being of high grade. The regular choir will be assisted by Spencer Adkins, trombone soloist, and Mrs. John Kimbrough, soprano.

As a prelude "Inflammatus," from Rossini's "Stabat Mater," will be rendered by trombone and organ, and as an offertory the same instruments will give "Song of the Evening Star" from Tannhauser. Mrs. Kimbrough will sing as a response to the prayer, "The Lord Is My Shepherd," by Liddle, and as a solo after the sermon, "The Sweet Story of Old." The sermon by the Rev. Clement G. Clarke, the pastor, will be the second of a series of three, "The Eaten Fruit; or, Paradise Lost." The special feature of the program next Sunday evening will be the quartet of the university Y. M. C. A.

Dying from
Excess of Fat

Scientists and Physicians Now Declare that Rengo Fruit Mixture is Nature's Way of Curing Obesity and Freeing Sufferers from Its Dangers.

A TRIAL BOX FREE.
"Rengo Fruit Mixture is certainly one of the greatest discoveries of the century," said a prominent physician yesterday.

"I will have to admit this, though it will rob us of our reputation as physicians, as well as the respectable ones, of a great deal of well-paying business, for fat people will not have any use for drug preparations after they have tried Rengo Fruit Mixture. Our efforts in the past to relieve sufferers from excess fat have been honest efforts, but of very little avail. The one real remedy had not been discovered. I am prescribing Rengo Fruit Mixture now."

Rengo Fruit Mixture is Nature's own way of curing obesity, and it does it in that perfectly harmless way in which Nature does all things. It reduces the weight to a normal point, builds up the general physical condition, replaces the

This Illustration Plainly Shows How Rengo Fruit Mixture Acts.

slabby fat with strong muscle and gives the patient a new lease on life. It is pleasant to take and its beneficial effects are felt from the very beginning.

There is nothing "just as good" as Rengo Fruit Mixture. For sale by all druggists at \$1.00 per full-sized box, or, if you prefer, address The Rengo Fruit Co., 3039 Main St., Augusta, Mich., and they will gladly send you a trial package free by mail.

For sale and recommended in Minneapolis by Yowell Bros. Drug Co., 100 Wash. & Hennepin Aves. cor. 7th St. & Nicollet Ave. Cor. 4th Ave. S. & 22d St. Cor. Lyndale and 20th Ave. N.

"77"
Humphreys' Seventy-
Seven Cures Grip and
COLDS

"Some one walked over my grave" is a common remark that follows a shudder. The shudder may be the first sign of a cold, and is caused by the checked circulation of the blood. The use of "Seventy-seven" restores the circulation, starts the blood coursing through the veins and breaks up the cold.

"77" is for Grip, Colds, Influenza, Catarrh, Pain, and soreness in the Head and Chest, Hoarseness, Sore Throat and prevention of Pneumonia.

At Druggists, 25 cents or mailed. Humphreys' Home, Medicine Co., Cor. William and John Streets, New York.

MOTOR BOATS DARTING
ABOUT AT MINNETONKA

Gallant Gasoline Tars Laugh at Ice Yachtsmen Who Impatiently Wait for a Freeze.

Motor boating as a winter sport has been introduced at Lake Minnetonka, and the man on the street who wears a natty Minnetonka Yacht Club "cap,"

with earflaps attached may be put down as a devotee of a new outdoor amusement. The man who owns a launch is buying gasoline and taking moonlight spins over the waters of the lake while the ice-boating friend is warming his toes in front of the sitting-room fire and contemplating moving to a climate where winter sports are possible on Dec. 1.

Bundled up in furs, with the thermometer hovering about the zero mark, several Minnetonka residents boarded the steamer Acte at Excelsior yesterday and took a jaunt around the lower lake. The members of the party en-

joyed an experience which has not been duplicated during recent years. Steamboat tours of a Minnesota lake on Dec. 1 are not common. According to the seers and prophets who have watched the waves beat on Minnetonka shores for a decade or more, the lake is getting decidedly chilly, and it was confidently predicted last night that the most famous of Minnesota lakes would don her winter garments by today. Followers of the ice-boating game are praying for little wind and no snow, for the iceboating prospects of the year depend in a large measure on the first freeze.

WARNER HARDWARE CO.
Selling out Entire Stock at CUT PRICES

PREVIOUS TO REMOVAL TO THEIR NEW QUARTERS, THIS BIGGEST OF CUT PRICE SALES NOW GOING ON AT 11 FOURTH ST. SO.

This reduction and removal sale affords a real opportunity to all carpenters, builders and mechanics, as well as to the public at large, to buy any and everything in the hardware line at prices greatly reduced—honestly reduced.
