VILLA PREPARING TO RENEW ATTACK ON OBREGON FORCES

Carranza Agent Reports He Is Making Valuable Efforts to Reorganize Army. WASHINGTON, April 18.—Reports to the State Department to-day from Irapuato said General Villa was preparing to renew his attack on General Obregon's Carranza forces at Celaya.

The Carranza agency here to-night announced the receipt of a cablegram from Vera Cruz saying that Villa was reported to have fled through Irapuato yesterday with the remainder of his army.

Withdrawal Continues. BROWNSVILLE, TEX., April 18.—The withdrawal of Villa troops from the vicinity of Matamoros continued yesterday with seven troop trains leaving Reynosa during the night for Monterey.

Proposals will be issued in the near future for more hydroplanes. Meanwhile naval aeronautical experts are watching closely the developments in aircraft growing out of the European war.

MUST WAIT OVER YEAR TO GET ON ACTIVE LIST

Retired Army Officers Who Seek Reinstatement Will Have to Take Examinations. WASHINGTON, April 18.—It is not probable that any of the retired army officers who have filed application for restoration to the active list under the recent act of Congress will be ordered up for examination before a year from next July, as the department will not be ready before that time, and it is doubtful whether the candidates will be ready before then to be examined.

It is understood that the Secretary of War does not think that an officer should be eligible for examination who would not be ready to enter the service four years after he has been restored. He will in all probability disapprove applications from others. It is understood that majors, lieutenant-colonels and captains will be required to take the professional examination required for the promotion of captains on the active list to the grade of major.

There are a great many retired officers who have not had opportunities to take the examination. It is argued that they should have time to get into condition for the test. Most of them will be kept rather busy preparing for the examination, which is postponed until next year. Officers on the active list and those who have been on duty at a desk for six months or a year it takes them considerable time to get in condition for the test rides unless they are able to keep a horse and take frequent rides.

TERRE HAUTE OFFICIALS BEGIN TRIP TO PRISON

Mayor Roberts Heads Party of Fifteen Now En Route to Leavenworth Penitentiary. TRAVELING ON SPECIAL CAR

[Special to The Times-Dispatch.] INDIANAPOLIS, April 18.—Headed by Mayor Donn M. Roberts, fifteen prisoners convicted in the Terre Haute election conspiracy, started on their trip to Leavenworth today. They are due at Leavenworth early on Monday.

The time for the departure was not made public here, and only a small crowd was at the station as the prisoners, each accompanied by a special United States marshal, boarded a special car attached to a passenger train. While the men were being placed in line in the jail yard to march to the railway station, the eighty-two men were given sentences for their part in the conspiracy, the longest being ten years in passing jests back and forth. None of the wives or relatives of the prisoners was permitted to accompany them from the jail to the station.

Six men convicted had promised Judge Anderson to start for prison later than noon today. They had been at liberty at their home in Terre Haute. The six are Arthur (Gills), John Masceline, Joseph O'Meara, George S. O'Brien, Joseph Strauss and Maurice Walsh, all of whom had received sentences of a year and a day in prison. The fifteen taken to prison and the sentence of the others are: Mayor Roberts, six years and a fine of \$2,000; Dennis Shea, former sheriff of Vigo County, five years and \$1,000 fine; James D. Duffell, assistant city engineer, three years, fine \$500; George Ehrenhardt, member board of works, three years, fine \$500; Harry Montgomery, president board of works, three years, fine \$500; Thomas Smith, city judge, three years, fine \$500; William Crockett, superintendent city crematory, two years, fine \$100; Hilton Redman, son of Judge Redman, two years, fine \$100; Elmer E. Talbot, city comptroller, two years, fine \$100; John E. Green, merchant, two years, fine \$100; Lewis Nunly, assistant city engineer, two years, fine \$100; Alexander Aczel, street inspector, year and a day, fine \$100; Charles Houghton, city hall custodian, year and a day, fine \$100; Edward Holler, former chief of police, year and a day, fine \$100.

It is understood that Mayor Roberts' wife will continue her efforts to obtain an appeal bond for her husband. Judge Anderson has set the rate of \$10,000 for each year's sentence. TERRE HAUTE STATION CROWDED WHEN TRAIN PASSES. TERRE HAUTE, IND., April 18.—The Terre Haute station was crowded when the train bearing Mayor Donn M. Roberts and fifteen other convicted prisoners, convicted in the election fraud cases arrived late today. The curbs of the prison car were drawn, but just before the train departed Roberts leaped from the window and announced the appointment of Frank R. Striley as treasurer of the Democratic County committee to succeed Maurice Walsh, who with five others left here today to begin serving their sentences in prison.

TEACHING CAVALRYMEN PROPER USE OF SABER

Army Officers Paying More Attention to Swordsmanship Than Ever. WASHINGTON, April 18.—During the last two or three years the War Department has been paying more attention to the use of the saber by the cavalry regiments than ever before. To that end, an officer of the Fifteenth Cavalry, Second Lieutenant George S. Patton, was sent abroad for a special course of instruction in fencing, and on his return was assigned to duty as instructor in swordsmanship at the Mounted Service School, at Fort Riley, Kan. Last summer the War Department detailed to this school a commissioned officer from as many regiments of cavalry to report at Fort Riley for a six-months' course of instruction in swordsmanship, beginning October 1.

The first thing the authorities found was that it was impossible to make good horseback fencers unless the men had well trained horses, and were good riders, though the soldiers were experts with the foil, broadsword and saber on foot. The first thing that the commandant of the Mounted Service School did was to purchase a number of good horses for these student-soldiers in equitation, to make it entirely thorough. The men were started at the beginning of the training of green colts, and each man during the course of the year was required to break and train a mount, which the government had purchased from a farmer in the fall of 1914. In the meantime, the instructors in swordsmanship, as well as on the drill ground, these selected troopers were kept at it, dismounted and on foot, until they were as good as the men who were breaking and training the horses. As the men progressed in the riding camp they were put on the schooled horses of the school and started on the jumpers, and were required to make the animals do almost everything that a horse is able to do. The troopers were made to jump the horses over obstacles, brush, hurdles, post-and-rail fences, embankments, and the like. In many cases the men had to draw saber and run an excruciating manikin through to the hit while the horse was actually in the air jumping the obstacle.

The men worked hard for seven hours a day, and took a keen interest in it. They were selected by their regimental commanders for the course, and felt it an honor to be members of the first class. The first class was made up of the Mounted Service School, No. 1, and the directors of the Citizens' National Bank and representatives of other organizations with which Colonel Andrews had been intimately connected. The casket will be borne by colored men who had been servants of Colonel Andrews for many years. The honorary pallbearers will be limited to four officials of the Southern Railway Company and four Raleigh citizens with whom Colonel Andrews was especially intimate. The railroad officials are President Fairfax Harrison, of the Southern; Vice-President J. M. Culp, General Counsel Alfred P. Thom, and Assistant General Counsel Hamilton McWhorter, of Athens, Ga. All trains on the Southern and all wheels in the shops of the road will be stopped for five minutes, beginning at the hour of the funeral, it was announced to-night.

HUERTA SAYS AMERICA SHOULD NOT INTERVENE

His Adviser Declares All Factions Would Unite Against Any Foreign Country. STRONG MAN IS NATION'S NEED

[Special to The Times-Dispatch.] NEW YORK, April 18.—General Huerta's belief that the United States should not intervene in Mexico for the purpose of restoring order out of the present chaos, was voiced today by Abram Z. Ratner, his financial adviser. "If the American government went into Mexico it would not come out," said Ratner. "You could not handle Mexico the way you did Cuba. You would not give up control of Mexico once you got it."

General Huerta attended the Federal League ball game in Newark today. He said he enjoyed it, although much less than a bullfight. "Too much," was the Huerta characterization of the national game. On returning to the Ansonia, the former dictator of Mexico gave out a formal statement concerning the attack upon him by Pedro Lascurain, Rafael L. Hernandez and Ernesto Madero, and then let his secretary do the rest of the talking. "I will not engage in private controversies," Huerta declared. "American readers must judge for themselves between the sincerity and truthfulness of my statements and the attacks directed against me."

Ratner's statements were regarded as especially important because of his intimate knowledge of General Huerta's personal affairs. In speaking further of chaotic conditions in Mexico, he said: "The Mexicans may quarrel among themselves like husband and wife, but they regard these quarrels as their own. All factions alike would resent any interference by a foreign country. The United States, furthermore, would have tremendous difficulty in subjugating Mexico. The very topography of the country would militate against success by an American army. The Mexicans recently have learned how to use dynamite in warfare, and in a country where tunnels and bridges are of such strategic importance, a little dynamite would go a long way. WOULD COST 50,000 MEN TO REACH MEXICO CITY

"To reach Mexico City would mean the loss of 50,000 men, and after the Americans had obtained possession of the Mexican capital, they would find their lines of communication cut off. Dynamite could accomplish that. "It is true that the United States intervened in Cuba and then turned the government of the island over to the Cubans. But in that war you were fighting Spain, not the Cubans. "What Mexico needs is a strong man, a man who can hit the lawbreakers over the hand. Three weeks of good strong rule would bring such Mexicans to their senses. Diaz was that kind of a man. So is Huerta. "It is not true that Huerta is here to start a revolution. He wants to see your country. He will stay here a few weeks and then visit Niagara Falls, Washington and other places. It is not certain when he will return to Spain, where his three sons and five daughters are."

FOREIGN CAPITALISTS SUPPORTING VENIZELLOS

He Will Attempt to Raise "Sacred Legion" of 50,000 Men to Fight for Greece in Asia Minor. [Special Cable to The Times-Dispatch.] PARIS, April 18.—Within three weeks, it is learned here, the foremost statesman of Greece, Eleutheros Venizelos, will sail for New York for the purpose of raising a "Sacred Legion" to fight for Greece in Asia Minor. "Forced from office by a quarrel with King Constantine, Mr. Venizelos is unable at the present moment to bring about official intervention by Greece against Turkey. He does not intend to retire from active life, however, as first stated. His "Sacred Legion" will number 50,000 men, drawn from the refugees from Asia Minor, as well as the Greeks in the United States. Using Cyprus and Egypt as bases, the corps, it is planned, will operate against Smyrna and Brouse (Saklık). Reports add that Greek, English and French capitalists are supporting Venizelos."

THOUSANDS TURNED AWAY FROM SUNDAY'S MEETINGS

More Than 30,000 Persons Hear Evangelist During Three Sunday Sermons. MORE THAN 1,100 HIT TRAIL

[Special to The Times-Dispatch.] PATERSON, N. J., April 18.—More than 30,000 persons heard Billy Sunday preach at his three meetings to-day. Five thousand were turned away from the special meeting for men in the afternoon, the big tabernacle being filled to capacity an hour before the time set for the opening. It was packed again at night. Seven hundred and thirty-three men marched up the "sawdust trail" in the afternoon and pledged themselves to live Christian lives. The number of trail-hitters was swelled by 400 at the night meeting, making the total for the day 1,132. The day's collections broke the record for the Paterson campaign, amounting to more than \$2,500, and bringing the grand total to date above \$15,000. The men's meeting was the banner meeting of the revival. The subject of Sunday's discourse was "When Chickens Come Home to Roost." Fully 12,500 men managed to get within sound of his voice, the overflow standing out of sight under the choir platform or filling the aisles. The sun beat down upon the low wooden side of the barklike structure, and the atmosphere was stifling. But the vast crowd, silk-hatted and plain-capped, rubbing elbows, remained until the last word was spoken. They took off their coats and sat in their shirtsleeves on the hard benches or in the sawdust, while Sunday, collarless, his shirt sleeves rolled up, and his shirt wringing wet with perspiration, hammered home his arguments in favor of decent living.

RENEW YOUR HEALTH AT NATURE'S FOUNTAIN

Without the Expense and Loss of Time Necessary for a Visit to the Spring

THE CRISIS INDIGESTION RHEUMATISM RENAL AND CYSTIC. There comes a time in the life of practically every man and woman when their digestive or eliminative organs, or both, fail to respond to drugs prepared by human skill. In fact drugs seem to do them about as much harm as good for their systems rebel against all drugs. These are the cases which physicians call "stubborn" and "chronic" for the reason that they persist in spite of drug treatment. I do not refer to incurable diseases such as cancer and consumption, but to that larger class of functional disorders which we meet every day, where the organs of digestion and elimination are impaired. For this class of cases our best physicians and our big city specialists send their wealthy patients to the mineral springs where, in the great majority of cases they are permanently restored or decidedly benefited. But what about the poor man who has not the money or the busy man or woman who cannot spare the time to spend several weeks or possibly months at a health resort? Shall circumstances deny them the restoration to health which Nure has provided? Read my answer in the coupon at the bottom of this page. I have the utmost confidence in the Shivar Mineral Spring Water for to I owe my Restoration to Health and probably my Life. It has made me tens of thousands of friends in all parts of America and even in foreign countries, whose faces I have never seen. Yet I count them my friends for the Shivar Spring Water has bound them to me by lasting gratitude. I ask you to read their letters, a few samples of which I publish below for your benefit, and if you find among them any encouragement as to your own health do not hesitate to accept my offer which has no limits or conditions except those shown on the coupon. If you could read the letters that come to me daily, numbering about ten thousand a year, and the vast majority of them similar to those printed below, you would not wonder that I make this offer displaying my absolute confidence in the restorative powers of Shivar Mineral Water.

LEADS, S. C. I have tested your Spring Water for cases of rheumatism, chronic indigestion, kidney and bladder troubles, and in nervous and some eye troubles, but since I have been drinking your Water removed every trace of the enlargement. I am anxious to get more of your Water. I have done me more good than during I have ever tried for rheumatism. MRS. H. C. EDWARDS. Florence, S. C., Dec. 1, 1911. I suffered with rheumatism and kidney trouble, and a year ago was stricken with acute articular rheumatism; was helpless for months, and since using your Spring Water I am now free without any crutch and improving daily. Indigestion much relieved. I wish I could write Shivar Water in four million languages that the world could become acquainted with it. MRS. TILBO, KUKER. Warren, Va., Nov. 21, 1914. I wish to add my testimony to the wonderful curative powers of the Shivar Mineral Water. For a number of years my wife has been a sufferer from indigestion and dyspepsia. After one week's trial of Shivar Water I commenced to improve, and after drinking it for four weeks I was enabled to eat solid food and feel stronger than I have in twenty-five years. I strongly recommend this Water to any one who is afflicted with indigestion and nervous dyspepsia. I am writing this voluntarily and trust it will do good to many who are afflicted with indigestion and nervous dyspepsia. C. V. TRUITT. President Unity Cotton Mills. Johnson, S. C.
