

however, it is believed in other quarters that the German staff would hesitate at such a tremendous undertaking. SERIES OF ATTACKS IN WEST REPULSE

Along the western front the Germans have made a series of attacks, but all of them, according to the French report, were repulsed. In diplomatic circles great interest attaches to the negotiations that are going on in the capitals of Balkan states. The ministers of the quadruple entente powers at Nish, Serbia, following the example of their colleagues in Athens, have had a conference with the Serbian government. Simultaneously, Sofia has denied the repeated reports that an agreement had been reached between Bulgaria and Turkey.

PORTS OF WARSAW VIRTUALLY UNDAUNED

BERLIN, August 6.—(via London, August 7, 2:45 P. M.)—The port of Warsaw has fallen virtually undamaged into the hands of the Germans, according to information reaching here. The defenses of Ivangorod, however, were destroyed by the Russians in their retreat. The destruction of the two fortresses appear to have completed the evacuation without material loss, and to have carried away a large part of the stores and munitions of war accumulated in Warsaw for the armies in Poland.

Some disappointment is expressed among the German people at the failure of the Teutonic forces to make an imposing capture of prisoners and guns in Warsaw, but military experts here do not share this feeling. They point out as the real significance of the capture of the two fortresses that the Russians thereby have lost their fortified base of operations. Such a loss, they believe, will give them such immense advantage in the earlier movements in Poland and that this advantage now has been transferred to the Germans.

If prisoners and guns are desired there is still a chance of making a considerable capture, the military writers say, for the Russians, crowded within the long salient running out to the fortress of Novogeorgievsk are in a precarious position. No doubt an evacuation of Novogeorgievsk by the Russians have been received here, and Grand Duke Nicholas, commander-in-chief of the Russian army, perhaps may intend to leave the garrison in this fortress, which is really stronger and more important than Warsaw, to stand a siege.

The Russians still hold the eastern bank of the Vistula at Warsaw and command the crossing here, which is important in facilitating the retreat by roads which converge at this point. No details of the capture of Warsaw beyond the meager official reports have been received here.

RIGA BEING EVACUATED BY CIVIL POPULATION

LONDON, August 6.—The British consulate at Riga, the Russian seaport which is being evacuated by the civil population, has been placed under American protection, says a Reuter dispatch from Petrograd. The correspondent adds that women are replacing the sailors on Volga River steamers.

REJOICING IN VIENNA OVER FALL OF WARSAW

ZURICH, SWITZERLAND, August 6.—(via London).—Dispatches from Vienna state that the public manifestations of joy over the fall of Warsaw, which were intensified by the later news of the occupation of Ivangorod by the Teutons far exceeded any jubilation on the outbreak of the war. The Ring-races, in front of the Ministry of War, was blocked by people cheering the armies of the central allies. The demonstrations continued until the early hours this morning.

SITUATION AROUND RIGA NOT ENTIRELY CLEARED UP

LONDON, August 7.—The situation around Riga, capital of the government of Livonia, Russia, is not entirely cleared up by the dispatches from Petrograd appearing in this morning's newspapers. The German force which has been driven from the Miesal, says the Daily Telegraph, correspondents, "was not aiming directly at Riga, but to force a passage of the Dvina higher up the river."

CONDITIONS CRITICIZED Administration of Blackwell's Island Prison Too Harsh.

ALBANY, N. Y., August 6.—Conditions at the Blackwell's Island Prison were severely criticized, and blame for them placed directly on the New York City department of corrections, of which Katherine B. Davis is the head. In a majority report on an investigation of the institution made public by the State Commission on Prisons today, the report recommends the dismissal of Warden Patrick Hayes. Among the findings of the commission were that the administration of the penitentiary is too severe, harsh and oppressive.

EIGHT-HOUR DAY IF DESIRED Locomobile Company Gives Employees Privilege of Deciding.

BRIDGEPORT, CONN., August 6.—The Locomobile Company of America announced today that it would institute the eight-hour workday in its plant if the employees desired that instead of the profit-sharing plan recently proposed. In labor union circles this week, it is said, efforts were being directed to a general strike in the Locomobile Company's plant to secure the eight-hour day. The conditions most desired not being embraced in the company's bonus plan.

WANTS BODY FOR BOARD BILL Philadelphia Coroner Refuses Request of Boarding-House Mistress.

PHILADELPHIA, August 6.—The coroner of Philadelphia today refused the request of a boarding-house mistress that she be given the body of her former boarder. The woman said she could sell it to the highest bidder, and thus get back money she had advanced the man. The body was that of William Guttenmiller, who had committed suicide. He had been on his right side and other organs were not in their natural position. Physicians had discovered his strange physical makeup, and worry over his peculiar construction, it is believed, caused him to end his life. The woman said she had seen the body and had borrowed the money from her from time to time, telling her that when he died she could get money for his body from a medical college.

MORE MACHINISTS QUIT Strikers Demand Eight-Hour Day Without Reduction of Pay.

BOSTON, August 6.—The number of machinists on strike here was augmented today when most of the workers at the factory of the National Machine Tool Company, in the South Boston district, walked out. The strikers demand an eight-hour day without reduction of pay. About 200 men are involved.

Russian Forces Evacuating Kovno

LONDON, August 7.—A dispatch to the Daily Mail from Copenhagen says: "The Russians are evacuating Kovno. The Governor and his staff and the banks have gone. The population has been leaving for the past week."

Kovno, a fortress of the first class, is the capital of the government of the same name in North-west Russia. It has been stated that Kovno was to form the northern head of the new Russian line of Kovno, Grodno and Brest-Litovsk. The city has a population of between 75,000 and 100,000.

PEACE CONFEREE IN ACCORD WITH PRESIDENT'S PLAN

(Continued from First Page.)

Conclusion of a session lasting three hours, Secretary Lansing said there was nothing to be announced, except that the conference would be continued in New York. He will notify the diplomats when he is ready to resume. New York, he said, was selected for the convenience of the diplomats, many of whom have summer places near there.

There was no change in the first step to send final representations to the military leaders, and to General Carranza in particular, demanding, for the sake of the millions of noncombatants, that they form a new government that can be recognized and supported by the American nations and the world.

SELECTION OF STRONG MAN IS ALTERNATIVE

An alternative proposal of the selection of a strong man for President, whom a majority of the people would support. One who has not been engaged in the civil war would be insisted upon.

Involved in such a plan are many obstacles, but it was agreed that they are surmountable. That the plan might necessitate an embargo on munitions of war to any faction which refuses to recognize the new government is probable.

Rumors that a breach had occurred over personalities were emphatically denied, and it was said the discussion did not yet reach the stage where the presidency was being considered.

The status of General Carranza and General Villa was freely considered and debated. The fact that Carranza has refused to confer with his adversaries whom he considers conquered was discussed.

Questions of international law, various provisions of the Mexican Constitution, and the probability that many of Carranza's adherents might not follow him into defiance of a genuine Pan-American effort to restore peace and government in their country, are being carefully studied before the final program is determined.

VILLA DELAYS DEPARTURE SO AS TO MEET SCOTT

EL PASO, TEX., August 6.—Private cables from Washington said to-night that Major-General Hugh L. Scott, chief of staff of the United States Army, is en route for El Paso to present to General Villa the State Department's attitude toward the northern chief and his associates in dealing with foreign property at Chihuahua City and Juarez, and in connection with Villa's recent summoning of the mining corporations' representatives to a meeting at Chihuahua National Guard. As a result of the announcement that General Scott was on his way, General Villa postponed his departure for Chihuahua City.

CAVALRYMEN AND RANGERS SEEK MEXICAN RAIDERS

BROWNSVILLE, TEX., August 6.—United States cavalrymen, Texas rangers and posses of citizens to-night are searching for twelve Mexican ranch raiders who, today, after several weeks of outlawry, raided the small town of Sebastian, thirty-seven miles north of Brownsville, and killed A. Austin, president of the Sebastian law-abiding League, and his son, Charles, Adjutant-General Henry Hutchings, and personally investigated conditions there, and with it, it is said, recommend force of the Texas National Guard be sent to Cameron County to afford protection against the outlaws.

U. S. AIRMEN WITH ALLIES William Thaw Leaves Paris for Front With New Aeroplane.

[Special Cable to The Times-Dispatch.] PARIS, August 6.—William Thaw, pilot in the French aviation corps, left yesterday for the front, after several days in Paris. He took with him a new aeroplane. On an observation flight over the German lines recently the motor of Thaw's machine went wrong, and he was forced to descend twenty-five miles inside the German lines. A German patrol sighted him, and before the motor could be repaired, attacked Thaw and the observer. While the latter held the German at bay with a machine gun of the airship, Thaw repaired his motor, and the pair flew back into the French lines. The wing of the aeroplane was riddled with bullets.

FOUR EXECUTED IN ALABAMA Governor Refuses to Grant Reprieves in All Cases.

MONTGOMERY, ALA., August 6.—Four persons were legally executed in Alabama to-day, Governor Henderson refusing to grant reprieves in all cases. At Evergreen, Robert Watkins and John Salter, negroes, were hanged, while a squad of militiamen stood guard. The negroes murdered Mrs. Mary Lasseter, a white woman, left Wiley House, a planter, for dead, and burned the farmhouse. At Canton, George James, white, was hanged for murder in December. George Clayburn, James shot Clayburn through an open window while the latter was reading his Bible at night. Millard Carpenter, a negro, was hanged at Birmingham for the murder two years ago of John T. Camp, a transfer man.

TOO LATE TO CLASSIFY. LOST, a child's white coat on bench overlooking Chimborazo Park. Reward if returned to 701 West Gate.

REAL CLEARING-UP WORK IN PROGRESS IN ERIE

Hundreds Join in Task of Removing Debris Along Path of Tuesday's Disaster.

NUMBER OF KNOWN DEAD, 29

Little Looting and Few Arrests Made in Flood Zone—Huge Fund to Be Raised to Aid Sufferers—Many Bodies May Never Be Recovered.

ERIE, PA., August 6.—With every property owner and tenant in the flooded district and hundreds of volunteer workers and paid employees of the city clearing away the debris along the path of Tuesday's disaster, the ruins are now being pulled apart, and a real start has been made towards clearing this up. About \$20,000 has been raised by the citizens to meet the first expense.

On Monday a committee of 100 business men will begin a canvass of the city to raise a huge fund from which those who have lost their all in the disaster will be given a new start in life.

The State health authorities are getting in their work, and while hundreds of decaying bodies are still in the ruins—animals from slaughter-houses and humans—the health officers say to-night that they believe an epidemic will be averted.

There was little looting to-day, and few arrests were made in the flood zone compared with yesterday and the day previous.

Three bodies were recovered to-day, and all were identified.

This brings the number of known dead to twenty-nine, with many others unaccounted for.

The general opinion is that many bodies were washed out into the bay and may never be recovered.

Tons of clothing were collected by the women to-day, and to-night is being distributed to the sufferers.

FOR CLOSER CO-OPERATION IN EMPLOYMENT PROBLEM

Advisory Board, Representing Federal, State and Municipal Governments, Appointed.

SAN FRANCISCO, August 6.—An advisory board of twelve, representing equally the Federal, State and municipal governments of the country to-day about closer co-operation between the three branches in dealing with problems of employment and unemployment, was named to-day at the closing session of the United States department of Labor conference on employment.

Secretary of Labor Wilson, chairman of the conference, in his concluding remarks said the meeting had accomplished considerable good, and that he felt the co-operation toward which it aimed would do much to alleviate the evils from which the laborer suffers.

The need of public labor exchanges, he said, might never have been realized had it not been for the abuses of the private exchanges, among which he named the furnishing of strike breakers and wage breakers.

The chances of any abuses creeping into publicly-controlled exchanges, he felt, would be negligible, since the source of power was the working people themselves.

As a possible solution of "the landless man and the landless land problems," Secretary Wilson suggested creating a "rotary fund" of \$10,000,000 which the Federal government gets annually from the immigration tax.

This, he said, was never intended as a source of income to the government, but as a protection to the immigrant himself, and he would like to see it used to get him established on the land. The money could be paid back and used in helping other immigrants, he suggested.

U. S. AIRMEN WITH ALLIES

William Thaw Leaves Paris for Front With New Aeroplane.

[Special Cable to The Times-Dispatch.] PARIS, August 6.—William Thaw, pilot in the French aviation corps, left yesterday for the front, after several days in Paris. He took with him a new aeroplane. On an observation flight over the German lines recently the motor of Thaw's machine went wrong, and he was forced to descend twenty-five miles inside the German lines. A German patrol sighted him, and before the motor could be repaired, attacked Thaw and the observer.

While the latter held the German at bay with a machine gun of the airship, Thaw repaired his motor, and the pair flew back into the French lines. The wing of the aeroplane was riddled with bullets.

Other American pilots in the corps are Norman Prince, New York; Bert Hall, Kentucky, and James Bach, Chicago, who will leave shortly for the front.

FOUR EXECUTED IN ALABAMA

Governor Refuses to Grant Reprieves in All Cases.

MONTGOMERY, ALA., August 6.—Four persons were legally executed in Alabama to-day, Governor Henderson refusing to grant reprieves in all cases. At Evergreen, Robert Watkins and John Salter, negroes, were hanged, while a squad of militiamen stood guard. The negroes murdered Mrs. Mary Lasseter, a white woman, left Wiley House, a planter, for dead, and burned the farmhouse. At Canton, George James, white, was hanged for murder in December. POPE IS ABOUT TO MAKE NEW EFFORTS FOR PEACE

His First Words to Be Followed by More Energetic and Efficient Action.

[Special Cable to The Times-Dispatch.] ROME, August 6.—The Pope is about to take a new step in favor of cessation of hostilities. The Corriere d'Italia says to-day: "The Pope continues to work for peace that shall be just and shall respect the rights of nations. He does not speak as an advocate of this or that people, or even as an advocate of the Italian people; his voice should be heard as a solemn admonition to all who seek to impose a peace without having regard for the rights and just aspirations of opposed peoples."

It is pointed out that a clause was explicitly consecrated to this matter in the Pope's recent letter, and should be more carefully considered by the Germans and every other nation which has remorse of conscience.

Private information enables me to say that the coming rapid document will be more definite than the former one. The Pope will address himself specially to the neutral countries, involving their co-operation. He is in consultation now as formerly, with all the members of the sacred college on this question.

Telegrams and letters have been dispatched from the Vatican to the Xerxes and foreign cardinals. Certain monarchs have already replied. Some of the recent replies by letters are to be published in the Observatore Romano.

A high ecclesiastic personage said to-day: "The intervention of the Pope will not be premature. Everywhere the war is languishing. The German advance in Poland is inconclusive. The Belgians are victorious, especially those who appear victorious. Thus the Pope has chosen well the moment to utter the first word of peace, which will be followed by words more energetic and efficacious."

KENTUCKY PRIMARY TO-DAY

Democrats, Republicans and Progressives to Name Candidates.

LOUISVILLE, KY., August 6.—Kentucky Democrats, Republicans and Progressives will choose candidates for all State offices except one-half of the State Senate in a general primary to-morrow. Chief interest centers in the Democratic nomination for Governor.

The liquor question has been made the issue within the Democratic party, and three aspirants have waged a warm fight for the nomination. Except in a few instances, the Republican and Progressive candidates for the various offices are unopposed.

No platform has been adopted by the Democrats, but two of the candidates for the gubernatorial nomination, present Lieutenant-Governor Edward J. McDermott, of Louisville, and former Congressman A. O. Stanley, of Henderson, have declared for the county unit law, or local option; while S. V. Chesney, of Frankfort, announced in favor of State-wide prohibition.

E. P. Morrow, of Somerset, and Latt McArthur, of Madisonville, seek the Republican nomination on a platform favoring the county unit law and woman suffrage.

IDEAL WOMAN OF FUTURE TO BE PLUMP, BUT NOT FAT

Dr. Read Says Her Complexion Will Be Ruddy or Brown—Pale Skin a Badge of Disease.

SAN FRANCISCO, August 6.—Taller, darker women, clothed in more sensible dress, will typify the "eugenic woman" of the future, Dr. A. J. Read, professor of hygiene in the Normal School of Physical Education at Battle Creek, Mich., told the international conference on race betterment at the Panama-Pacific Exposition.

"The ideal woman of the eugenic age will be plump and well-rounded, but not fat," said Dr. Read. "Her complexion will be ruddy or brown, not pale as that of present-day women, because the pale skin is a badge of disease rather than of health."

"Present-day fashions are advancing toward health fashions. Women's dress is much more sensible than twenty years ago. The hygienic dress, however, should be suspended from the shoulders, leaving the waist free."

TRIBUTES TO MRS WILSON

Flowers Placed on Grave on First Anniversary of Her Death.

ROME, GA., August 6.—Observance of the first anniversary of Mrs. Woodrow Wilson's death was marked here to-day by scores of children and adults placing flowers on her grave and by the holding of memorial services under the auspices of the Ellen Axson Wilson Memorial Association.

In addition to flowers from local residents, many individuals and organizations throughout the country sent tributes. A wreath of palms was received from President Wilson and a large box of flowers came from the White House conservatories. The hour from 9 to 10 o'clock, this morning was given over to children, and many came with only a single blossom and placed it among the mass that covered the grave.

ODD HOTEL TO BE CLOSED

Ship Jacob A. Stumler Was Home for Many Working Girls.

NEW YORK, August 6.—Warning that the address hotel in New York will be closed on August 28, when more than fifty working girls are to be sent ashore from the ship Jacob A. Stumler, to-day caused much unhappiness among the occupants of the floating hotel. A notice posted on the bulletin board of the Stumler's deck read that Arbuckle's Deep Sea Hotel Company has decided to retire, and will serve no meals after August 28.

For years the Stumler has been a home for girls employed in shops and stores, at a cost to them varying from \$2.50 to \$2.50 a week.

The city fire department had ordered changes to be made in the Stumler, and it was said that the company did not wish to go to the expense of making them. The old ship, built in 1867, was purchased by John Arbuckle in 1901.

HUNDREDS OF REFUGEES ALREADY IN MOSCOW

Most of Them Without Sustenance and Seeking Aid at American Consulate.

NO PANIC DURING EXODUS

Retirement So Systematically Executed That It Goes Off Like Clockwork—Only About 15 Per Cent of Population Quits City.

MOSCOW, August 6 (via Petrograd and London).—Hundreds of refugees from Warsaw are arriving here daily. Most of them are without money or means of sustenance, and are seeking aid at the American consulate, where an enlarged staff is attempting to supply temporary assistance pending the organization of a Russian relief commission.

The Russian refugees state that, although the presence of the Polish capital was convinced that the Germans ultimately would occupy the city, a majority of the citizens remained, only approximately 15 per cent to date having left the city.

This accounts for the absence of panic which accompanied the exodus. The refugees compare the orderly and systematic abandonment of the city with the panic caused by the first German approach last October.

The retirement of the time it went on systematically executed that it went off like clockwork. Sufficient extra trains had been provided, so that traveling conditions on the whole differed little from normal.

An unusual feature of the present abandonment of the city was the fact that provision tickets were made unnecessary.

The bulk of the refugees traveled on foot or with their wagons. Most of the refugees were forced to take the line to the east, temporarily crowding Moscow, Vlodava and Brest-Litovsk. Many of these lost their homes in the outlying portions of Warsaw, the destruction of which became a military necessity.

All the territory immediately to the west of Warsaw, containing large factories, Polish estates and peasant dwellings, presents blackened and uninhabitable areas.

Care had been taken that no suburban factories should fall into the hands of the Germans and be converted to their uses. Chief among those destroyed was a \$1,000,000 sugar factory, with more than 2,000 tons of sugar.

The factories in the city itself, although abandoned, had not been destroyed when the refugees left the capital.

TRIBUTES TO MRS WILSON

Flowers Placed on Grave on First Anniversary of Her Death.

ROME, GA., August 6.—Observance of the first anniversary of Mrs. Woodrow Wilson's death was marked here to-day by scores of children and adults placing flowers on her grave and by the holding of memorial services under the auspices of the Ellen Axson Wilson Memorial Association.
