

GERMAN CRUISER MOEWE IS REPORTED CAPTURED

Intercepted Wireless Messages Tell of Success of British Cruisers. VESSEL'S IDENTITY IN DOUBT Another Version Is That Ship Taken Is Cruiser Room—Captured Raider Said to Have Been Taken to Island of Trinidad.

BUENOS AIRES, March 2.—Press dispatches from Montevideo say that a British vessel, the Moeve, was captured near the entrance to the bay. The vessel was reported to have been captured. Another version of the account is that the vessel in question is the German cruiser Room.

The American steamer Santa Barbara has arrived at Montevideo, her captain making the announcement that a French cruiser which put out from Dakar, on the west coast of Africa, encountered a German raider, named Moeve, and captured her on her return cover of darkness. The German ship was taken away, she was, however, damaged on her upper works by the French fire.

It is said the captured raider was taken to the island of Trinidad. The news relative to the Moeve was communicated to the Argentinian newspaper men by the commanders of the American steamer Santa Barbara, and the Swedish steamer Axel-Johnson, under a promise that the news should not be published. The commanders of the steamers declared also that the French and British warships which were exercising a surveillance in the Atlantic had been increased with the purpose of running down suspected warships. The commanders declined to give any further details.

NOTHING IS KNOWN IN PORT OF SPAIN PORT OF SPAIN, TRINIDAD, March 2.—Nothing is known here concerning the reported capture of the German raider Moeve.

and tunneled, until by the pressure of a button, entire divisions could be blown to pieces.

HERLIN INSISTS GERMAN LOSSES NOT SEVERE

The Berlin reports, however, state that the German campaign plans have been directed especially to evading the possibility of great human losses. All arms of the service have collaborated, with the result that the entire advance has been marked by tidal waves surges of men only after the artillery had effectively silenced the French batteries for the moment at least.

THE MOEVE HILLS EAST OF VERDUN ARE SO STRONGLY FORTIFIED AND DEFENDED WITH BIG GUNS AND MACHINE GUNS THAT THEY CAN NOT BE PIERCED, NO MATTER HOW MANY MEN THEY MAY SEND AGAINST THEM.

GERMANS RESUME ATTACKS TO NORTH OF VERDUN

PARIS, March 2.—German attacks of great violence by artillery and infantry have been resumed to the north of Verdun. The official statement issued by the French War Office tonight says that furious infantry assaults have been repulsed by the French troops, "whose fire demoralized the ranks of the enemy."

BRITISH DESTROYER LOST; ALL OF CREW PERISHED

NEW YORK, March 2.—The British destroyer Viking was blown up by a mine on or about January 29 and all of her officers and crew, numbering about seventy, were lost, according to word which reached here today in a letter to relatives of the commander, Thomas Christopher Williams. No previous intimation that the Viking had been destroyed has come from the war zone.

INTERMITTENT BOMBARDMENT OF VERDUN AND WOEVRIN FRONT

PARIS, March 2.—The War Office announcement of this afternoon says that there was intermittent bombardment of the Verdun and Woivre front during the night, but that there were no developments of importance.

Bids Farewell to Red Cross Workers

Reports from the Meuse region indicate that the German Red Cross will have its hands full, caring for the wounded, injured in the section about Verdun. The photograph shows the Crown Princess Cecile seated in the midst of a group of Red Cross doctors and nurses.

of the road running from Neuville to La Folle, we caused the explosion of a mine located under an old crater which was occupied by the enemy. We took possession of the new crater. "In the region of Verdun, the enemy bombarded violently last night Le Mort Homme (the dead man) at the Cote-de-Loie (between Malancourt and Forges, as well as the principal crossings of the River Meuse. There was little activity on the part of the artillery to the east of the Meuse.

In the Woivre district, after an intense retaliatory fire from the artillery, the enemy yesterday evening delivered a spirited attack on our positions at Fresnes. They were at once driven back by our counterattacks from the few positions which they had succeeded in penetrating.

In the Lorraine district, a bombardment of several hours duration against the St. Marie farm to the west of Bezaize, was followed by an attack on the part of the enemy, which resulted in complete failure. "In Alsace, certain tentative movements undertaken by strong German patrols against our outposts in the Valley of the Lauch were repulsed by the use of hand grenades."

SUMMARY OF GERMAN GAINS AROUND VERDUN

BERLIN, March 2 (by wireless to Sayville).—The Overseas News Agency said today: "Summarizing the present situation on the western front around Verdun, correspondents at the front declare that between February 21 and March 1 a total of 170 square kilometers of terrain was gained by the Germans, this being four times as much as the French won in their entire offensive in the Champagne last fall.

"The taking of this ground north and east of Verdun has shortened the German radius of action from the north to the southeast by several kilometers.

"The German tactics are consistently to evade the possibilities of great loss of human life and, therefore, to avoid direct storming and place it by the constant collaboration of all arms. The consequence is that the entire advance consisted of a series of tidal waves, each of which during the past few days was productive of gains.

"The correspondents again emphasize the fact that all the gains were obtained with losses which were comparatively insignificant.

tion," said Dr. A. C. Hutchins, who attended at his birth. "The parents noted its condition when it was born and spoke about the uselessness of its living, but I refused to let it die."

Dr. Hutchins said one operation had been performed in an effort to correct the deformities, and the mother had taken the child away before other operations could follow. Unless the child's brain or spinal system are impaired, the doctor added, it could be made into nearly a normal child, though its face would never have a natural appearance.

Dr. Guy Cliff, city physician, will pass on the fate of the child. He proposes to recommend that it be placed in a charitable institution, if one can be found willing to receive it.

LONDON, March 2.—The Russian steamer Alexandre Wentzel has been sunk. Eighteen of the crew were drowned and eleven rescued.

NOT OF ACCIDENTAL ORIGIN

Fire, Accompanied by Explosion, Damages Plant of Providence Journal.

PROVIDENCE, R. I., March 2.—A fire of uncertain origin, accompanied by an explosion, caused damage of \$2,000 in the office of the Providence Journal tonight. The blaze started in the office of the managing editor, among some newspaper files and spread to one of the editorial rooms.

A statement by the Journal said the explosion which occurred just after the fire started, filled the room with flames which shot through the editorial room adjoining the room in which the fire originated had been unoccupied for two hours," says the statement, "and there were no electric wires that could be the spark which began to operate, the water seemed to add to the intensity of the flames.

After investigation the police department tonight arrived at the conclusion that the fire could not have been of accidental origin."

HOPEWELL AND PETERSBURG BASEBALL CLUBS ORGANIZE

Each Elects Officers, and They Hold Joint Meeting to Discuss Plans for Season.

PETERSBURG, Va., March 2.—The stockholders of the newly organized Hopewell and Petersburg clubs in the Virginia League elected officers at meetings held here tonight, and later jointly discussed matters of mutual interest to both.

Plans for the coming season, and arrangements for the erection of a ball park at Hopewell and the improvement of the one at Petersburg were discussed.

The Petersburg club elected A. A. Slagle, president; J. J. Nelms, vice-president; and L. L. Kidd, secretary and treasurer. The Petersburg team also elected Winn Clark, formerly manager of the Portsmouth team, manager for the coming season. The Hopewell club appointed J. L. Vaughan, J. N. England, and M. Neustatter as a committee to arrange for a park. The committee announced shortly after its appointment that it would at once begin work on the Hopewell park, in order to get it in shape for the opening of the season.

A schedule which will not conflict will be arranged for the two teams, and with a car line in operation between the cities, an exceptionally large attendance at all of the games is expected.

SCALP TROUBLE FOR EIGHT YEARS

Could Not Sleep. Hair Fell Out By Handfuls. Could Not Bear Weight of Hand on Scalp.

HEALED BY CUTICURA SOAP AND OINTMENT

"I have been bothered with scalp trouble about eight years. I could not sleep at night. It began to itch and burn and my scalp would get sore and my hair fell out by handfuls. I could not bear the weight of my hand upon my scalp. I tried several remedies without relief. I began using Cuticura Soap and Ointment and I could see, after I had used one application, my scalp was getting better. I used four cakes of Cuticura Soap and two boxes of Ointment and now I am entirely well. I used them one month and they healed me and my hair is smooth and glossy." (Signed) John M. Seay, R. F. D. WORTH THE PRICE TEN TIMES OVER

Mr. H. C. Parham, a Well-Known Drug Store Man of This City Makes Interesting Statement.

Can't Praise the Premier Preparation Too Highly, as it Certainly Accomplished Results.

Here is a man who tells us that he cannot praise the Premier Preparation on Taniae, too highly. He gives us carte blanche to elaborate as we see fit upon the statement he has made. He allows us this privilege, he tells us, because he doesn't feel as if he were causing a doubt of justice to this greatest of all medicines. However, we will not elaborate upon his testimonial—we cannot publish all he has said. In fact, for lack of space—but below we will make public a few extracts taken from the outline of his case. Mr. Parham says: "I was an intense sufferer from bladder and kidney trouble and indigestion and I had been in this condition for years. Gas formed on my stomach; I had severe attacks of constipation, headache and nervousness. I rarely ever got a good night's sleep, and hardly ever finished a meal without a great deal of pain and discomfort. I have been employed for years by various drug firms, and have tried out a huge variety of medicines which I hoped might help me, but I never knew what real relief meant until I began to take Taniae. I have taken but one bottle so far, and I am no longer troubled with my old-time ailments. I sleep fine, digest everything I eat and feel as if I could run five miles—instead of being so short of breath that a walk of a few blocks tired me out. I want others to benefit from this medicine as I have done. I know that it will help them as it has me, and I am glad to say—Taniae's favor—that I consider the medicine worth TEN times the price that is asked for a single bottle."

The Premier Preparation that has created such a favorable impression with Mr. Parham is now on sale in Richmond at only \$1 a bottle, and a representative always present to courteously explain Taniae.—Advertisement.
