Canning Lessons. Carrots Large as a Dime Are Best for Preserving. When thinning carrot beds be careful not to throw away vegetables as large as a dime, for this size is the best for canning, says a bulletin from the National Emergency Food Garden Commission.

Wash carrots thoroughly with a stiff vegetable brush, blanch for four to six minutes, then plunge into cold water for an instant and remove outer skin with the stiff brush. The carrots may be cut into strips or cross-sections or used whole. After packing the jars add a level teaspoonful of salt per quart of vegetables and fill jars with hot water. Adjust tops and partially tighten them, and sterilize for an hour and a half. (If using tin cans seal completely before sterilization). Remove jars from boiling water, tighten tops and invert out of a draught to cool.

For storing, wrap jars in dark paper to prevent bleaching. In her list of canned vegetables the careful housewife will include Swiss chard and French endive. These greens should be used only when fresh and crisp. Pick them over carefully and wash thoroughly, and then blanch in a steam for fifteen minutes. Don't throw away stale bread. Madam Housewife. It can be used in many ways in preparing your family's meals. Here is one use suggested by the United States Department of Agriculture.

Breakfast Toasts. Dry or slightly toast slices of bread and ends of loaves on the back of a stove or in a slow oven. Dish with rolling pin and serve the fragments with milk or cream and sugar, and fruit, if desired, as a breakfast food. This product closely resembles some commercially prepared breakfast foods, and is obviously less expensive.

F. Heath; Mrs. E. C. Kent; Mrs. W. Pryor Jones; Mrs. John O. Barham; Mrs. E. W. Finch and Mrs. M. J. Rahilly; secretary-treasurer, Mrs. John Moyler; food conservation and home economies, Mrs. W. F. Drewry; food production, Mrs. W. H. Mann; registration for service, Mrs. Edward Eigenbrun; women in industry, Miss Hibernia Friend; child welfare, Mrs. E. R. Bowman; maintenance of existing social agencies, Mrs. E. C. Kent; safeguarding of moral and spiritual forces, Mrs. T. F. Heath; education, Miss Maude Hobbs; home and foreign relief, Mrs. H. G. M. and noon on July 10, at which time every household in the city is requested to be at home. The colored people will be listed by their own societies. Injured in Auto Accident. In an auto accident on Sunday afternoon near Blackstone some young women of that town—Misses Ruth Lucie and Lois Johnson—were more or less painfully, though fortunately not seriously, injured. They were guests of Richard Clay and William Harville, of this city. The gear of the car got out of order and the machine turned over. The young men were thrown out, but escaped unhurt. The young women were caught under the car and all suffered injuries. Lost \$42. Mrs. E. T. Whitmore, of Crewe, came to the city this afternoon on a brief business visit. She left her mesh bag containing \$42 and a return ticket to Crewe in the toilet room at the Union Station, but did not miss it until she came uptown to make some purchases. When she returned to the station the bag was gone, and it has not been recovered. Railroad to Camp. After rushing work the Norfolk and Western Company has now completed two and one-half miles of railway to the cantonment grounds, and freight is being shipped over it. The new branch runs out from the Hopewell station, and will connect with the Petersburg-Norfolk division at Poe, where the belt line runs into the main road. The cantonment will soon have the best of railway facilities. Notes of Interest. For every 5,000 men in the "South Virginia Camp" or cantonment there will be a fully equipped Young Men's Christian Association building, with workers in charge. There has been no confirmation of recent reports of a contemplated enlargement of the Du Pont plant at Hopewell, and of an addition for the manufacture of uniforms for the government. Nearly all the merchants in the city have signed an agreement to close
