SENATE MOST CORDIAL TO JAPANESE MISSION

Visitors Received With More Than the Ceremony With Which Five Others Were Greeted—President Pro Tempore Saulsbury Expresses Welcome.

WASHINGTON, August 30.—Japan's mission, headed by Viscount Ishii, was received to-day by the Senate at a ceremony in which Senator Saulsbury, president pro tempore, welcomed the visitors, and Viscount Ishii made an address bearing a message of friendship and good will between the nations.

Applause by Senators and spectators frequently interrupted Viscount Ishii as he read his address in English from the Vice-President's rostrum. The visitors were received with more than the ceremony with which five other foreign missions were greeted.

After the addresses, Senators and many Representatives shook hands with members of the mission. SYMBOLIZES COMPLETE INTERNATIONAL FRATERNITY

In presenting Viscount Ishii to the Senate to-day, Senator Saulsbury, of Delaware, president pro tempore of the Senate, and acting in the absence of Vice-President Marshall, declared the occasion "symbolizes complete international fraternity which common consciousness of international honor has brought about."

Referring to German propaganda, Senator Saulsbury said evil attempts had been made to breed distrust and hatred among friends of the United States. "Japan," he continued, "joins your great young nation in pledging anew a continuance of our old friendship which the troublemaker of the earth has tried hard to interrupt."

"We know how industriously insidious attempts have been made by the Prussian masters of the German empire to bring about distrust and hatred in the world. We know what evil attempts they have made to breed hatred and distrust among our friends, and we welcome this opportunity to heartily congratulate our old friends who honor us to-day that by the capture of Tsingtau and the German islands in the Pacific, Japan has completely removed from the Far Eastern world the great threat, as we believe, to peace and prosperity, the only threat to lasting peace in Eastern Asia."

MADE IN GERMANY

"The yellow peril was made in Germany, and Shanghai was seized; the Slav peril was made in Germany, and Serbia was overwhelmed and Russia was invaded; but the thick-witted, self-centered supermen of Germany, entering their last attempt at conquest, have reared a real peril—a real peril to themselves—and the free nations, who believe in international honor, in the binding force of treaties, and in the pledged word are grimly though sorrowfully engaged in creating, perfecting, and bringing to successful issue an alliance for the benefit of all earth's people, which will protect the rights of nations, small and great, and enable them to lead their lives in peace, and lead them unafraid."

"This alliance threatens only rapacity, greed, hypocrisy, and nationalized brutality. Our alliance is indeed a peril, but only to the new pirates of the seas, to the assassins of the air; to those who violate international decency and fair dealing, who misuse the forces of developed science, and distort the teachings of philosophy, who would destroy civilization itself in the effort to accomplish world domination."

"Let us never permit hereafter that evil tongues or wicked propaganda shall cause even the simplest minded among our people to forget the ancient friendship of our nations, or weaken the ties of mutual respect and regard in which we hold each other."

PROFOUND APPRECIATION EXPRESSED BY ISHII

Viscount Ishii addressed the Senate as follows: "No words at my command can give adequate expression to the profound appreciation I have of this honor you confer upon us. We know full well the exalted dignity and the proud traditions of this illustrious branch of the great legislature of the United States, and in the name of my country, my mission and myself I thank you most sincerely."

Price of Milk Adjusted

Years of experience and investigation prove that it costs 3c more to furnish 2 pints of milk to the retail trade than it does to furnish 1 quart. It is, therefore, unfair to both consumer and dealer that they should be furnished at the same price. Half-pints are much more expensive than pints. But for those people who have absolutely no use for more than a half-pint it seems necessary to keep half-pints on the market, in spite of the large expense. The fact is, we advise our customers against the use of half-pints. On account of the expense and trouble of entering half-pints on our books, we shall in the future be compelled to sell half-pints for cash only. On and after September 1 our retail prices will be as follows: B-Milk, 12c per quart; 7c per pint; 4c per half-pint. A-Milk, 13c per quart; 7 1/2c per pint; 5c per half-pint. The half-pints in both grades will be sold for cash only. From this it will be seen that there is really no increased price on the milk, but simply on the service, as quarts are sold at the same price as formerly.
