

MACK TRADES M'INNIS

SENDS LAST OF HIS STARS TO RED SOX FOR PLAYERS

Manager of Athletics Realizes More Than \$100,000 for Famous Quartet of Infielders on Champion Team.

PHILADELPHIA, January 10.—John (Stuffy) McInnis, first baseman and the last of the Boston Red Sox's world's champions, goes to the Boston Americans in a straight trade for players. The names of the players and how many will come to Philadelphia in the trade was not announced.

Word that McInnis was to go to the Red Sox was received here to-night in a telegram from Connie Mack, who is at Jacksonville, Fla., arranging for the spring training trip. No one in authority at club headquarters here has any information as to the details of the trade. It was said that Mack will pick the players he wants later, and that the number will depend upon the men he selects.

Before leaving for the South, Mack said that McInnis and other players would have to stand a reduction in salary. "Stuffy" McInnis has been a star on the athletic team almost from the day he arrived in 1900. He was twenty-seven years old in September. McInnis succeeded captain Harry W. Davis as first baseman and once fitted in with Mack's star infield, the others being Eddie Collins, Jack Barry and Frank Baker. In his first year with the team he batted .237 and in every succeeding season, with the exception of 1915, when his average was .235, he hit for more than .300.

With the sale of Stuffy McInnis goes the last of Connie Mack's famous "100,000 infield." Mack got \$50,000 from Chicago for Eddie Collins. New York gave \$27,500 for Frank Baker. Boston is said to have paid \$12,500 for Jack Barry and the Red Sox undoubtedly will give players valued at more than \$25,000 for McInnis. Which more than justifies the \$100,000 value placed on the four stars of the Athletics when they worked together.

THE RED SOX INFIELD WAS SHOT TO PIECES THROUGH THE LOSS OF BARRY, JANVRIE, SCOTT AND GAINER, WHO ENLISTED OR WERE KILLED. HOBBS, THE ONLY REMAINING MEMBER OF THE CINCINNATI REDS, REMAINS, AND IT IS BELIEVED THAT HE WILL GO TO THE ATHLETICS, ALTHOUGH HE STOOD A GOOD CHANCE OF BEING MADE MANAGER OF THE SOX. LARRY LAJOIE ALSO HAS BEEN MENTIONED FOR THE PLACE.

Hugh G. Whitehead and P. A. Otis will play the men's doubles against Christian Mack and Thomas Hall.

Browns Want Pipp for Pratt. NEW YORK, January 10.—Manager Higginson was to-day offered a suggestion from a major leaguer which seems to open the way for him to secure Derrell Pratt for the Yankees. To get Pratt from the St. Louis Browns the big leaguer would trade First Baseman Walter Pipp. He apparently had inside information that such an agreement would meet the approval of the Browns.

STOCK DIVIDENDS TAXED

They Will Be Included by Revenue Bureau, Despite Court's Decision.

[By Associated Press.] WASHINGTON, January 10.—Stock dividends will be included in taxable income, the Internal Revenue Bureau announced to-day, despite the Supreme Court's decision that dividends are not taxable under the 1913 income tax law.

"The act of September 8, 1913," said a Bureau official, "contains an express provision taxing stock dividends declared and paid out of earnings accrued since March 1, 1913. In the absence of a decision as to the legal effect of these express provisions contained in the later act, the Bureau of Internal Revenue naturally will continue to be governed by the express provisions of the latter act in reference to stock dividends."

NUXATED IRON

100 CENTS FORFEIT

EXPLAINS COAL SHORTAGE

Witnesses Tell Investigating Committee System of Distribution is Much to Blame.

WASHINGTON, January 10.—New York wholesale coal dealers testifying before the Senate investigating committee to-day attributed much of the coal shortage in New York and other places to disregard of regular channels of distribution by the fuel administration in its efforts to get fuel to certain communities.

W. A. Marshall was on the stand most of the day. His diagnosis was concurred in by C. C. Harris. Both discussed the situation generally and focused only lightly upon the acute shortage in their own territory.

Mr. Marshall spoke of the labor problem as a factor in the production shortage, and predicted a scarcity of coal for several years. He praised the work of J. J. Storow, New England fuel administrator, saying Storow had "raised the devil" for others but had made good for New England.

Prices fixed by the government for coal at the mines were too low in many instances, the witness thought, and had resulted in reduced production, notwithstanding statistics showing an increase this year.

Are You Ready

Your 1917 Income and Profit Taxes Are Due and Payable to the United States Government on June 15, 1918.

If in the operation of your business during the first five and a half months of 1918 you should lose the profits you made in 1917, you will pay your taxes due the Government out of your capital.

GET BUSY NOW. DO MORE BUSINESS AND THEN MORE BUSINESS. MAKE MORE PROFITS AND MORE PROFITS EACH MONTH.

The President of the United States took over the Railroads not only to assure the stockholders the safety of their investment and the income thereon, but for the great big broad purpose of making it possible that the railroads be operated in such a way that no legitimate business be hampered for lack of transportation, either over the railroads themselves, or over waterways and highways as adjuncts.

The railroads under the direction of the United States Government must be so efficiently operated as to eliminate embargoes and priorities affecting business.

The United States must assist in winning this War. WAR IS OUR BUSINESS NOW AND BUSINESS IS OUR CHIEF WEAPON.

No legitimate business is a non-essential if it can make money because money is the most important munition of War.

Business must make more money this year than last year. The Government is going to need more money and still more money until this War has been won.

For ten years we have manufactured and sold motor trucks. During 1917 we sold more Autocars than in any previous year---this year we are going to manufacture and sell even more. Our business has steadily increased because Autocars have been profitable to the 6,000 American business houses that use them.

If you are interested in any concern that needs additional motor truck equipment to enable it to earn more money; in order to pay taxes out of profits instead of principal; you should investigate the merits of
