

### CAMP LEE SOLDIERS WILL VOTE TUESDAY

Large Majority of Deserters From Army Found to Be of Low Intelligence.

ONE MORE INFLUENZA FATALITY

Three Hundred Graduates of Non-commissioned Officers' School Depart for Camp McClellan—Mrs. Christine Miller Clemson Delights.

CAMP LEE, November 2.—Soldiers at this camp will on Tuesday participate in the election to be held in the various States of the Union. Many of the States, including West Virginia, which has furnished a large number of soldiers to this camp, require that the ballots be cast by mail. However, other States, including Pennsylvania, Kansas, Delaware and Iowa, all of whom have voters in this camp, allow the soldiers to cast their ballots on election day at polls to be established within the cantonment. New York voters will cast their ballots Monday afternoon from 1 until 5 o'clock. It is thought that there are several hundred in the camp from that State. They will elect four inspectors from among their electorate to conduct the election. The ninety-six Kansas voters will also appoint their own election inspectors.

Delaware has sent two commissioners from that State to conduct the election here. Next State in the Union is represented at the camp, and the camp authorities are giving the soldier electorate ample opportunity to vote. Voting booths for all of the States but Pennsylvania had been ordered established at the naturalization office at Twenty-seventh Street. The election will be conducted under the laws of the respective States.

The chief interest centers in the Pennsylvania election. Virginia, West Virginia and Pennsylvania have furnished the majority of the men to this camp. Virginia has no real election this year. The West Virginians have voted by mail. A recent census taken showed that there were 13,512 Pennsylvania voters in camp. Since that time, however, a number have been transferred.

The details incident to the voting of the Pennsylvanians had not been arranged this afternoon, due to the fact that the nine commissioners who had been ordered here by the Pennsylvania State authorities had not arrived at camp to arrange with the commanding general as to the details. On account of the large number of voters from that State it is probable that voting booths will be established in various Y. M. C. A. buildings, as they were last year. The commissioners will arrive in Petersburg Sunday night and will report to camp Monday morning at which time final arrangements will be made. Pennsylvania soldiers are now located in 22 different camps and posts in this country. One hundred and thirty-five commissioners have been sent to camps where there were a large number of voters.

**PENNSYLVANIANS WILL RE-ELECT COMPLETE STATE TICKET**

Pennsylvanians will elect a complete State ticket at this time. The Republican candidate for Governor is William C. Sproul, of Delaware County, and Eugene C. Bountwell, of Philadelphia, is the Democratic nominee. They will also vote on two constitutional amendments, one of which is to allow the State to issue bonds for the construction of public roads. At present the State has no bonded debt.

Eight enlisted men left camp today for Camp Greencastle, Ga., where they will attend the psychological school which is conducted for officers and enlisted men at that camp. Included in the number were Lieut. G. Rhawn, of Catawissa, Pa., who at the time of his induction into the service was a reporter for the Richmond Times-Dispatch. These men will be taught how to conduct the psychological examinations which are given to every man in the United States Army.

These examinations are made to gauge the mental qualifications of every man in the service. They were begun

at Camp Lee when this cantonment was first established and the results obtained were so successful that they have been extended to every camp in the country. Questions are asked the men which sound very simple, but by the answers given in the time allowed the examiners are able to place a correct analysis on the mental standard of the person examined.

**ONE-THIRD OF COOKS OF LOW MENTALITY**

It is a significant fact that 30 per cent of the men who have deserted from the American army had previously been classed as below average intelligence from their psychological examination. Seventy-seven per cent of the men who were absent without leave from their commands were drawn from the same low classes of mentality. Sixty-one per cent of the guard-house

cases, 87 per cent of the special duty men and 33 per cent of the men promoted to the job of cook made the same grades. On the other hand 33 per cent of the men promoted to first-class private, 87 per cent of those made corporals, 89 per cent of the sergeant appointees and 93 per cent of the men recommended for officers' training camps had been graded as above high average intelligence.

The grades made by the men at the examination are placed on their classification cards and are consulted when promotions are to be made.

**FOUR NEW CASES OF SPANISH INFLUENZA**

Influenza claimed another victim today, bringing the total number who have succumbed to the disease to 471. There were but four new cases reported which shows that as an epidemic the disease no longer prevails in camp.

Three hundred noncommissioned officers, graduates of the noncommissioned officers' school from the infantry training and replacement camp, left today for Camp McClellan, Ala., where they will be appointed non-coms in the division to be formed at that camp. There have been 1,200 graduates of this school who have been forwarded to divisions which were being organized at other camps.

Mrs. Christine Miller Clemson delighted a number of different sections of the camp today. In the afternoon she sang to 10,000 men at the open-air theater of the infantry replacement camp. To-night she sang for the officers at the Y. M. C. A. building that serves the training school and also sang for members of the Depot Brigade, who will give a sacred concert to-morrow night at 7:30 in the big Y hut.

All the men who were injured in the explosion of hair brush grenades, which were being used in a gas attack at the central officers' training school two weeks ago, are now being treated in the hospital and are steadily improving. All have passed any danger.

**KING BORIS OF BULGARIA SURRENDERS HIS CROWN**

Peasant Government Reported Established. Handed by M. Stambuliski.

COPENHAGEN, November 2.—King Boris, of Bulgaria, who ascended the throne on October 2, has abdicated. A peasant government has been established at Tirnova under the leadership of M. Stambuliski, who has been the chief of the peasants and agrarians of Bulgaria for some time. M. Stambuliski is said to be in Danube and on the railroad from command of a republican army of 40,000 men, according to a Zurich dispatch.

Tirnova is in Bulgaria, situated on the Vanya River, a tributary of the Sofia to Varna, in the Middle Ages Tirnova was the capital of Bulgaria. It is a city of considerable commercial importance and has a population of about 12,000.

Stambuliski, the new leader of the Bulgarian government, was only recently released from prison. When Bulgaria entered the war Stambuliski was sentenced to imprisonment for life as a conviction on a charge of anti-militarism. He remained in prison until September 30, when he was paroled by King Ferdinand prior to that King's abdication.

War Relief Association Arranges to Send Materials to Belgrade via Geneva.

The War Relief Association of Virginia is in receipt of a letter from the secretary of the Serbian Air Fund, in New York City, Miss Mary T. Conklin, to the effect that a cablegram had been received from Bern as follows: "The country freed from the invaders, will open up unlimited opportunities for help of all kinds for that devastated country, and we hope in the comparatively near future to be able to ship directly to Salonika also.

As you may have heard, Madame Grouitch's husband has been appointed minister to Washington, and we expect that they will arrive in December. She has just cabled me that she is bringing data concerning hundreds of destitute Serbian children for whom we shall need funds. In fact, the needs will be so acute in all directions that it will be impossible for us to cover everything; but all the supplies that we can collect and have ready when shipping is secured will be most useful."

## BIG VICTORY SALE

### Young Women's Coats, Suits and Dresses, All Brand New

With this sudden nip of cold weather a sale that brings, among other things, 1500 fine new Coats for young women is a most fortunate sale.

And when it is added, these Coats all come at reduced prices (\$5 to \$20 saving on every one);

And that every Coat is warmly lined and interlined;

And that every Coat is fine in fabric;

And every Coat up to the newest minute in fashion—

Well, that makes more than a fortunate sale; it makes a sale that is wonderful.

**Nobody's Bad Luck**

Many a sale is offered to you because manufacturers could not get rid of their goods; had to make a sacrifice. That does often happen when goods are not the kind that people wanted. Then you get the benefit of somebody's bad luck.

But this is not that sort of left-over sale.

These are new goods and fine that certain manufacturers were mighty glad to take a big order for at special prices when warm weather and influenza interruption made things slack for them. It was a fine thing for them to get business in a big way and keep their workshops going.

And the goods are fine! There are wool velours and burellas, and crystal cords and bolivias, and silvertones and duotones, all rich and thick and warm and beautifully made, beautifully trimmed!

They are delightful and they are opportune, and they are in great variety.

But there are only 1500 of the Coats!

But there are only 1500 of the Coats!

**Music and "Smokes"**

An old lady who has lived for a long time in her own charming home in Richmond, recently—to the astonishment of her friends—broke up housekeeping and went to live at one of the hotels.

"I like music served with my meals," she gave as her excuse. "I have been lonely in my home for years and you can't think what pleasure it gives me to sit down to luncheon or dinner and hear that delightful, cheering, companionable music. It makes me forget my loneliness."

The young women workers at the Whitlock Branch do not get lonely. There are too many of them for that. But they do thoughtfully enjoy the music that is "served" at their luncheon hour each day, and the little dance they have after luncheon is over and before they go back to the day's work again. It relaxes them, relieves the tension of work, exercises their muscles and gives them pleasant, healthful recreation.

Our men at the front couldn't get along without some recreation, relaxation and music. As one young soldier put it, "Anybody who can play even a Jewharp is a mascot in our command. He puts new life into us with his tunes."

The young women who are busy making "smokes" at the Whitlock Branch for the men at the front are pretty much the same way about it. Only their "mascots" is a three-piece band, which plays three times a week.

"We get so much enjoyment out of it that it makes us feel almost selfish when we know how much the men over there would appreciate the music we have during lunch hour," said one young woman, "but as we cannot send our band over and as we can't send our 'smokes' to content ourselves with believing that the boys enjoy the smokes almost as much as we enjoy the band."
