BELA KUN'S GOVERNMENT YIELDS TO ALLIES' DEMAND

Orders Suspension of Hostilities and Asks Meeting With View to Ending Conflict.

PARIS, June 21.—A Budapest dispatch received here by way of Basle gives the text of the ultimatum sent by President Clemenceau of the peace conference, in the name of the allied and associated governments, to Bela Kun, the foreign minister of the Hungarian Soviet government.

It confirms dispatches of June 7, expressing the determination of the allies to put an end to "useless bloodshed" and demanding that the Hungarian army fighting on Czechoslovakian territory retire immediately behind the frontier line of Hungary.

The Hungarians were given four days from June 14 to obey the telegram to Bela Kun, saying that the allies "will consider themselves free to take any proper measures to assure justice if the ultimatum is not complied with."

Bela Kun, replying under date of June 16, says, according to the dispatch, that the Hungarian government has suspended hostilities as requested, but that in view of the present situation on the Czechoslovakian front it is impossible to recall detachments of Hungarian troops and evacuate the territory in the time fixed by M. Clemenceau.

In order to satisfy the entente, however, Bela Kun has asked the telegrams to the Czechoslovakian government to send military delegates to discuss regulations for the evacuation of Hungarian headquarters or elsewhere. The reply of the Soviet foreign minister concludes with a request that the entente take steps with the Roumanian and Czechoslovakians to stop bloodshed and end the conflict on the frontier.

ARMISTICE SAVED HUNS FROM BELGIAN REVENGE

Cessation of Fighting Kept German Army From Being Hammered to Smulterers.

WOULD HAVE MEANT ANARCHY

Invasion of Fetherland by Allies Would Have Been Followed by Bloody Revolt of Under Strata of Teutons Against Junkerdom.

AMSTERDAM, June 21.—The German forces would have been beaten to their knees on German soil in a few weeks had for the timely intervention of the armistice, according to a pamphlet issued by Herr Karl Vetter, editor of the Berliner Volks-Zeitung. Under the headlines "Judendorff is Responsible" and "An Indictment by the Men in Gray," Herr Vetter wrote: "Even in July, 1918, the army began to break up after it was found that, as a result of the superior force of the enemy, the position could no longer be held. If the armistice had not come in the nick of time in November worse would have befallen us. In four or five weeks' time the remnants of the army would have been beaten on German soil. The Rhine lands, Baden and Westphalia, would have been reduced to ruins. Western Germany would have gone up in flames. Devastated Belgium would have demanded the revange, and in the German hinterland an anarchy would have been unleashed more terrible and destructive than the present."

"The terms of the Thirty Years' War would have been a trifle as compared with what would have happened. Germany would have become the second European Bolshevik Soviet Republic. A struggle would have been waged by the lowest strata of the proletariat against all those who held any property."

"The anarchy, the immorality, all the terrible results of the professional killing of four years, would have been a thousand times worse than they were in the present revolutionary triumph. Terrorism would have triumphed."

"We should have starved to death, but one injustice would not have been done. The defeated and deceived millions. The one who is responsible would not have been punished. The end of the war would have been a simple matter, saying with a smile 'I am not guilty.' You alone are responsible. No, this injustice would have been done to the poor, defeated and deceived people in another Germany."

Rupture Kills 7,000 Annually

Seven thousand persons each year are laid low by this terrible disease, being marked "Rupture." Why? Because the rupture rate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to do more than a mere mechanical support. The healing power rests blood circulation, thus robbing the weakened muscles of that which they need most—nourishment. But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAIN when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—any truss is simply—irritative. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended so the rupture CAN'T come down again. Write today to PLAPAO CO., Block 655, St. Louis, Mo. for a free trial Plapao and the information necessary.—Adv.

SAY LENINE IS ANTI-CHRIST

Strong Religious Movement Develops in Russia Against Bolshevik Troops.

PARIS, June 21.—The Soviet government in Russia is combating a religious movement, mystical in character, which has spread through the provinces of Moscow, Novgorod and Vladimir.

One of the features of the movement, which is said to be strong among the peasants, according to advices received here, is that Premier Lenine is called the anti-Christ foretold in the Scriptures. The Bolsheviks, it is said, are opposing the movement by means of an active propaganda.

ECZEMA. Also called Tetter, Salt Rheum, Pruritus, Milk Crust, Water Poison, Weeping Skin, etc. For fifteen years I have been treating one disease alone, ECZEMA. I have handled over one million cases. I do not pretend to know it all, but I am convinced the disease is due to an excess of acid in the blood, and closely related to rheumatism and cancer. This acid must be removed. ECZEMA is called by some people Itch, Tetter, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc. I am fully convinced ECZEMA is a curable disease, and when I say it can be cured, I mean just what I say—CURED, and not merely patched up for a while to return worse than before. It makes no difference what other doctors have told you, or what all you have tried, all I ask is just a chance to prove to you that this vast experience has taught me a great deal that I or anyone else could in a month's preaching. It's all up to you. If you suffer any more with eczema and refuse to merely write to me for free trial, just blame yourself. No matter where you live, I have treated your neighbors. Merely dropping me a postal today is likely to give you more real comfort in a week than you ever expected to enjoy again. Do it right now, your very life may be at stake. J. E. CANNADAY, M.
