

McCUMBER DENOUNCES REPORT OF MAJORITY

North Dakotan Declares Nearly All Treaty Amendments Proposed by Lodge and His Supporters "Selfish, Immoral and Dishonorable"

(By Associated Press.)
WASHINGTON, Sept. 15.—Rejection of all proposed amendments to the German peace treaty and modification of the recommended "strong" reservations was urged in an individual minority report filed with the Senate today by Senator McCumber, Republican of North Dakota, next in rank on the Foreign Relations Committee to Chairman Lodge. Senator McCumber did not join in the recent Republican amendment and voted with the Democrats on amendments and several reservations.

Attacking the majority report of Chairman Lodge, Senator McCumber denounced "most of the majority amendments as 'selfish, immoral and dishonorable' and charged that they seek to 'isolate the United States from the rest of the world, and abandon our allies.'"

"The substance of some of the proposed amendments," he said, "is so serious and objectionable that I do most earnestly protest. They are couched in a defiant, discourteous and overbearing manner and intended to express a vindictive spirit that ought to be eliminated from the treaty."

Scoring the committee reservation to Article X, of the league of nations' report, Senator McCumber said that it is an "amendment" pure and simple, and designed to take the United States entirely out of the league.

Special attention was expressed by Senator McCumber to the proposed amendment to the Shantung provision. By this amendment, he said, Japan would be "kicked out of the league by the United States and Shantung possibly lost to China."

Calling attention to what he termed the failure of the committee majority to explain the purposes of the league, Senator McCumber said:

"Not one word is said, not a single

illusion is made concerning either the great purpose of the league of nations or the methods by which those purposes are to be accomplished.

"Strong and sarcasm have been submitted for argument which centers almost wholly against the league itself, and which has been endeavored to subject so important to the world's welfare. It is regrettable that the consideration of a matter so important to the world's welfare should be influenced by hostility towards or subservency to the President."

Analyzing the committee amendments, Senator McCumber said that the amendment to give the United States equal votes in the league with England and the British colonies combined was "unintentional."

The plan of giving each member nation one vote without regard to size or importance was the only possible plan, he said, and he added that to all intents and purposes the British colonies are independent.

Senator McCumber said his only objection to the Lodge reservation on withdrawal from the league was of form.

As to the Lodge reservation to Article X, Senator McCumber said, he had many objections, but the most important was that it was "a reservation of a reservation."

"First, it is an amendment pure and simple," he said, "of the most important article in the league. Its purpose is to take the United States out of the league entirely."

Mr. Tiche would not say whether he would support a move to deter the strike, but said the result of the meeting was "probationary."

He said it might be difficult to convince the national committee, because of conditions surrounding the workers' companies continue to discharge men for organizing or presenting a scale of wages," he asserted.

May Reconsider Decision.
It is said here that President Wilson's telegram asking for a postponement of the strike was received after the national committee had decided to initiate the proposed strike.

Mr. Tiche, president of the Amalgamated Association of Iron and Steel Workers, said today that he had received a letter from Samuel Gompers, president of the American Federation of Labor, enclosing the national committee's decision that the walkout be postponed.

STEEL STRIKE DECISION TO BE MADE WEDNESDAY

Iron and Steel Workers' National Committee Meets in Washington Tomorrow

CONSIDER PRESIDENT'S LETTER

Pending Action, Preparations Are in Progress to Initiate Great Industrial Conflict—Result of Gathering Is Considered Probationary

(By Associated Press.)
PITTSBURGH, Sept. 15.—Whether the strike in the steel industry, called for next Monday, will be deferred until after the industrial conference summoned by President Wilson to be held at Washington Oct. 9, will depend upon the action of the national committee for organizing iron and steel workers' meeting here Wednesday.

Labor leaders here interested in the proposed steel strike said they were not sure that the wishes of President Wilson, who desires the postponement of the strike, will be carried out. It all depends upon reports to be made at the meeting, one of the leaders said.

M. P. Tiche, of Pittsburgh, president of the Amalgamated Association of Iron and Steel Workers, said today that he had received a letter from Samuel Gompers, president of the American Federation of Labor, enclosing the national committee's decision that the walkout be postponed.

INSIDIOUS DECLAMATION POISONS MIND OF PUBLIC

Senator Jones, of New Mexico, Vigorously Raps Those Who Would Defeat Treaty

RESERVATIONS NOT NECESSARY

Rights of Congress Under Article X Readily Safeguarded by Instructions to Representative of United States in Council

(By Associated Press.)
WASHINGTON, Sept. 15.—Denouncing Senators whose "insidious declamation poisons the public mind" against the German peace treaty and the league of nations, Senator Jones, Democrat, New Mexico, speaking in the Senate today, said if the reservations recommended by the Foreign Relations Committee majority were adopted, the treaty, as well as the league covenant, would "fail."

"If we ever have a separate treaty with Germany," he declared, "it will be a negotiated, and not a victorious, treaty. The United States will not participate in restoring and preserving peace and bringing order out of the world's chaos."

Fully Reply Sacrifices.
"The selfish, the ideal, the altruistic motives which have inspired this league are sufficient inducements for all the sacrifices and effort which will be called upon to make it carry out its purposes."

Senator Jones said in his opinion reservations, as proposed by the committee, were unnecessary, as ample protection was afforded by the terms of the treaty.

Article X, he continued, "is a declaration to the world that war for conquest shall end and that this declaration will be supported by the combined power of all the other members of the league."

"In my humble judgment," he added, "if this covenant is entered into, war may possibly occur, but such occurrence will be exceedingly improbable."

No Reservation Required.
If it should be thought advisable to safeguard the rights of Congress as to Article X, he said, it might easily be done by instructions to the representative of the United States in the council, and no reservation is necessary to that end.

Regarding the Monroe Doctrine, the Senator said, its validity was recognized by the treaty, while as to the necessity for the proposed reservations

A Simple Way to Reduce Wrinkles

Remember that wrinkles and blemishes on the face are due to the muscular tissue losing its elasticity and shrinking. The skin is then too large and wrinkles or sag.

To remedy this condition, there is nothing so effective as skin-tightening as a tonic. It is called "Munyon's Paw Paw Pills."

It not only tightens the skin and softens the wrinkles, but it also brings natural color to faded cheeks.
