ADEQUATE EQUIPMENT

Each department of the school is fully equipped for the most modern methods of instruction. The Automobile Department is the most complete in the South, with fourteen instructors, each of which is a specialist in the unit for which he is engaged.

All textbooks, stationery and other supplies are furnished by the school.

EFFICIENT FACULTY

Each member of the faculty has been selected because of his special fitness for the subject which he is to teach. Consequently, the faculty consists of the best teaching talent available in the city.

SPECIAL FEATURES

The school purposes to arrange for social gatherings of the students from time to time during the year. Prominent speakers will address the school at intervals on subjects of general interest.

A physical director has been engaged, whose duties will be to organize, train and coach the students in various athletic sports, such as basketball, track, wrestling, boxing, etc.

THE SCHOOL OFFERS THE MOST DIRECT AND CONVENIENT MEANS

For those who are employed in the day to obtain instruction that may be put to immediate use in their daily employment.

For those who desire to prepare themselves for some occupation other than the one in which they are now engaged.

For those who wish to add to their general education along Academic, Commercial, Technical or Industrial lines.
