

ROANOKE COLLEGE READY FOR BIG REGISTRATION

Largest Freshman Class in History Forecast for Opening Wednesday.

SALEM, Va., Sept. 10.—With the addition of several departments, with corresponding increase in the faculty, and with more than \$14,000 spent in improving and renovating buildings, Roanoke College has practically completed preparations for receiving one of the largest freshman classes of its history, a registration of more than 100, on September 14. When the college opens its sixty-ninth session, an attendance of more than 200 students is expected.

The formal college opening will take place at 11 o'clock Wednesday morning of next week, when the Rev. E. M. Carter, D. D., presiding elder of this district, will address the student body assembled in the college auditorium. Regular classes will begin at 8 o'clock on the following day. The faculty committee on registration will sit throughout Tuesday and Wednesday of the opening week, and it is expected that all classifications of entering students will have taken place prior to the beginning of class work on Thursday.

The most important change in the curriculum of the college for the coming session will be the inauguration of the new department of business administration and commerce. The work in this department will consist of a four-year course leading to the B. S. degree in commerce and a two-year course leading to a certificate in business administration. Students will also be admitted to special courses in accounting, principles of economics, office management, business finance, commercial industries, business organization and other subjects covered by the newly created department of the college.

Dr. Andrew J. Newman, formerly of the school of business administration of the University of Kansas, will have charge of the new department of Roanoke College. He will be assisted by Dr. Chapman, formerly of the school of business administration of the University of Kansas, who will have charge of branches of the new department.

A department of journalism also has been added this year. Newspaper mechanics, newspaper writing and newspaper editing will be taught in the courses of the department. The department will be in charge of H. Powell Chapman, editor of the Roanoke Times.

Dr. Newman and Mr. Chapman are both additions to the college faculty. Other new members of the faculty for the year are: J. E. B. Smith, of Christiansburg schools, who will be in charge of the department of public school administration; Guy H. Spruhan, professor of physical education; Edwin A. Byers, formerly of Davidson College, professor of Spanish; Clarence P. Smith, H. D. Kinsey and Julius P. Prufer, instructors in chemistry and physics.

During the summer the dormitories

Sports Clothes Influence New "Top Coats"

NEW YORK, Sept. 10.—Sometimes the line between sports styles and dress styles seems to vanish completely.

The adoption and adaptation of a sport idea into the dressier realm is shown in this latest Joseph importation. It is a "top coat" of gray suede with a monkey-fur collar. Its smart lines, loose box coat effect with the perforated seams, and belt make it one of the smartest fall novelties. The hat worn by the chic young woman is a gray velvet Continental modification.

A late summer and early fall suit, to be worn before the tang comes in the air, is a Joseph model of blue tricotine with vest and high collar of green and white, fine-striped duvetyne, with red and blue running through the border. The costume shows the director's influence in the loose-fitting back and suggested high waist line. The sleeves are slightly bell-shaped and are trimmed in large crystal buttons. The smart little hat is of black heckle with the novel painted points in white.

of the college have been equipped with all modern dormitory furnishings and the administration building has been remodeled so that there are now new offices for the president and secretary, the treasurer, the registrar and the dean.

CREWE

About Better Homes

We would like to have you feel that you can get exactly what you want at this store. We seek your good-will every bit as much as your patronage.

You want new things for your home this Fall—you want to save money—you want square treatment and obliging service in all things.

With us, satisfying the customer is the first consideration. It has always been our rigid rule.

This Furniture Store is for the people who want every dollar to buy its utmost. We earnestly strive to contribute to the beauty and happiness of the homes in this community.

Here you can always be sure of courteous treatment and whole-souled interest in your wants.

We Have Never Shown a Larger Line of Fine Furniture

—And Prices Were Never So Reasonable

For the Dining-Room, Chamber, Parlor and Library—every room in the house—there's a splendid display of the finest Furniture and Rugs obtainable.

Just come and stroll through our magnificent showrooms and see the beauty of it all. And a glance at the price tags, now and then, will convince you that the "LOW PROFIT POLICY" means an actual saving in dollars and cents.

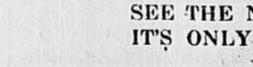

Let Us Demonstrate the Direct Action Gas Range

EQUIPPED WITH THE

'Lorraine' Oven Heat Regulator

It'll prove a revelation to you. The Direct Action saves gas because of the principle of applying gas direct to the baking without intervening walls to waste the heat. You light the burners and almost immediately the oven is HOT.

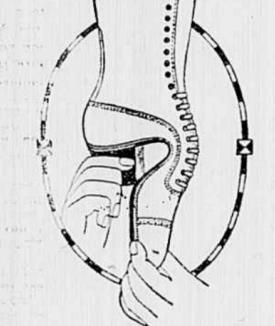

With the "Lorraine" attachment you can save hours of kitchen work for rest and recreation. Let us show you.

SEE THE NEW HOOSIER KITCHEN CABINET
IT'S ONLY \$37.50—\$1.00 DOWN DELIVERS IT

The "Arch" Enemy of the Foot

Metal appliances are the "Arch" enemy of the foot. Your arch was made to be propped up stiffly by a piece of unyielding metal. It was provided by Nature with a set of muscles fully capable of supporting it. If these muscles have become weak, an artificial prop may afford a temporary support, but since it is merely a "crutch," it will finally tend to make the arch weaker.

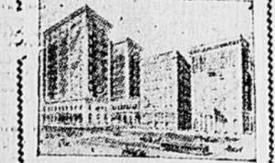

Like the human foot, the Cantilever Shoe has a built-in arch. The foot muscles, having full freedom to exercise, grow strong from use.

Buy a pair of Cantilevers and see how really delightful a walk can be. How sturdy, comfortable, your feet feel. How almost unnoticeably you straighten up and hold your head high. And don't be surprised if the first friend you meet exclaims about the pep in your step and the smile in your eyes.

Cantilever Shoes correct and prevent fallen arches. Well made, trim lines, fine leathers. Widths AAAA to 4E.

You will be fitted conscientiously at our store.
