*A Virginia Historical Pageant Feature!
Migel's Silks in a Wonderful Exhibition*

Virginia's Earliest Settlers hoped to establish the Culture of Silk in the New World! As this led to the first English Settlement in America; so the Quest for Finer Silks has inspired the Matchless Weaves of Migel Silks on Exhibition Here.

Through the co-operation of J. A. Migel, manufacturer of the famous "Migel Silks," we have secured copies of Colonial records, made over two hundred years ago, that prove beyond a doubt that the most important industry of the old Jamestown Colony was the development of Silk Culture.

Six of our windows have been given to the finest display of Migel Silks ever brought to Richmond. Authentic and replete with human interest, this exhibit will appeal to all, and has a tendency to sustain our pride in knowing that America's first Silk Industry was founded in Virginia.

Visitors will find Cohen's Silk Department complete with all the Best Quality of Standard Silks made, at prices that are most attractive. We invite you to this most interesting Silk Exhibition.
