

SENATORS WORKING IN DEATH SHADOW

Senate Annex in Which Committees
Meet in Danger of Collapsing
or Burning.

BY A. F. PHILIPS.

Tribune Bureau,
National Hotel,
WASHINGTON, D. C., March 14.
The lives of thirty-four United States Senators are in constant jeopardy from meeting death in a building which, while not only liable to collapse at any time, is a fire trap. This is the opinion of experts who have examined the Senate annex near the Capitol building.

The annex was originally built for a hotel. It is known as the Malby building. It was used as a hotel for a short while and was then purchased by the United States at a cost of \$120,000. The structure, four stories in height, is a handsome one and is built of brick. It is subdivided into rooms separated by wood partitions. Its floors were never intended to carry the weight now placed on them. The result is the walls are settling and great cracks are seen and the occupants are becoming alarmed.

Recently the architect of the Capitol and a committee of the Senate inspected the building, with the result that it was reported unsafe.

Recently the chief of the Fire department and fire marshals made an investigation and pronounced it a fire trap. They found the attic filled with inflammable stuff.

It is in this building where many Western Senators, chairman of committees have their committee rooms and where they and their secretaries are always to be found. Among those housed in the building are the two Utah Senators, Kearns and Smoot. Idaho's junior Senator is domiciled here, as also the Senators from Washington and one from California.

Congress will no doubt take some action looking to repair of and strengthening of the building. Meanwhile no additional furniture or documents will be moved into the building and when the recess of Congress takes place steps will be taken no doubt to make the building habitable.

Senator Clark, Montana, was in the Senate today, having returned from Bermuda. His health is good and he shows no effect from the severe operation he underwent in New York for mastoiditis.

Senator Smoot and Congressman Howell were at the Land office today urging the Bureau to prevent a postponement of the opening of the Utah reserve. The delegation was assured that if the Surveyor-General of Utah compels the contractor to finish the surveys and be ready with the field notes as soon after as possible the Land office will do all in its power to open the reserve at the time prescribed by law.

Senator Smoot will have a special sitting of the Committee on Indian Affairs tomorrow to consider an amendment to the supply bill changing the time of opening the reserve to October of next year. It is believed that this will be stricken out or modified so as to permit of opening the reserve at an earlier date.

Prof. McClellan of Salt Lake was here today en route to New York.

Mr. and Mrs. Critchlow will start for home tomorrow via New York.

Many requests have been received at Senator Kearns's office for copies of the report on the Federation of Miners presented to the Senate by Senator Patterson. The edition is now exhausted, but when a new edition is issued the requests will be complied with.

The Senate Committee on Pensions has ordered a favorable report on the Kearns bill to pension James L. Porter of Ogden at \$24 per month.

Congressman French has secured a pension of \$24 per month for Nelson Hart of Moscow, Ida.

O. O. Haga of Boise is here to press Mullin's canal scheme.

BRITISH STEAMER LOST
AND 78 ARE MISSING

BRISBANE, Queensland, March 14.—The British steamer "Armadale" was wrecked on the breakers off Queensland Sunday. Six boats were launched and two were safely landed with sixty exhausted passengers and members of the crew.

Four other boats are still missing, containing seventy-eight persons. It is believed that these boats were not provisioned. The weather is bad and steamers sent in search of the boats have found no trace of them.

HALIFAX, N. S., March 14.—There was still no news today from the overdue French line steamer "Pro Patria" which has been out from St. Pierre bound for this port for two weeks with about sixty persons on board.

CHICAGO MAKES A
NEW STORM RECORD

CHICAGO, March 14.—All records for snow in Chicago have been broken by the storm which began Sunday night and still continued at midnight.

The total snowfall from the commencement of the storm until 8 o'clock tonight when the weather bureau closed was eight inches, which brought the total for the season to 54.4 inches.

It is estimated that the precipitation from 8 o'clock until midnight was at least two inches, carrying the total beyond the mark of 56 inches, which was the record of the winter of 1892-93.

The storm badly delayed traffic in the downtown streets, and the railroads comparatively few trains from the north and west arrived on schedule time.

GERMANY'S LITTLE WAR
WITH THE HEREROS

BERLIN, March 14.—In the Reichstag today before the order of the day was taken up Dr. Stuebel, director of the Colonial office, announced the receipt of a cable message from Col. Leutwein, Governor of German Southwest Africa, saying that 800 cavalry with two mounted batteries were indispensable for subduing the Hereros, of whom 6000 were under arms and still occupying strong positions on the end of the railroad.

The Lokal Anzeiger says Emperor William has ordered reinforcements to the number of 1000 men with 1200 horses to be sent to Southwest Africa. The troops will sail as soon as possible.

"A Japanese cavalry patrol fell into an ambush prepared by our patrol and were dispersed, losing one killed. The Japanese left behind them a quantity of gun cotton and some swords and blankets."
