PERJUE-SURPRISE MINE GROUP RESUME WORK

Special to The Tribune. RICHFIELD May 19.-Work has resumed at the Perjue-Surprise group of promising prospects in Ohlo district, near Marysvale. This property continued opthe snow, and now avails itself of the first

the snow, and now actual rest of the macciportunity to begin again.

To begin this year's campaign the management has awarded Anthony Soyka a
500-foot contract. Aiready the group has
had the beneft of 800 feet of development
work, and this contract will run the total
up to 1100 feet. Tunnels and a winze are
on the ground to show for past achievements.

on the ground to show to past and two ments.

The main veins on the group are three, one trending east and west and two of them, parallel, crosscutting the first mentioned. The east and west ledge is twently-five feet wide. It shows low-grade ore in abundance. In the face of a 200-foot tunnel Contractor Soyka will continue to drive toward this lode, which he expects to tap within twenty feet. Then he will drift on the vein about fifty feet to a point where it is intersected by the so-called Wedge vein, upon which a sensational strike of shipping ore was made last year.

tional strike of shipping ore was made last year.

The north and south vein is twenty feet wide. Six feet of it averages \$5 in gold and sliver and the balance from \$2 to \$2.50. A 160-foot drift, crosscut and winze constitute the 200 feet of work done on this ledge.

Enomide ore was found at the intersection of the lust-named vein and the main east and west zone. Of six assays the lowest was \$100 and the largest \$250, gold, copper and silver. This was at the junction and 150 feet from the grass roots.

This year there will be 200 feet of work done on the Monument group, belonging to the Perjue-Surprise. The entire holdings of the company are two patented claims and ten unpatented, a dozen all told.

OVER POSSIBLE EPIDEMIC

Special to The Tribune. MT, PLEASANT, Utah, May 19.-Smallpox is rather a serious thing in this city get at the present time. A family named Everett had the disease two weeks or more without calling a physician. The

children went to school, to the postoffice and all over town, exposing hundreds of persons, a number of whom are now lit and several more quarantined.

The Board of Health has caused the schools to be closed and has forbidden any public gatherings. The closing falls rather hard on the schools, as many were prepared for graduation exercises.

Six families are now under close quarantine and several others are watched closely. Every effort possible will be made to prevent the further spread of the disease, but so many persons, especially children, have been exposed that it is hard to suggest where the trouble
