The Tribune. The new Grand opera house will be a model of comfort and beauty. Already the lessee, John H. ...

Heretofore the patrons of the theater have had to sit on benches or on the floor of the auditorium. This is to be done away with and the theater will be fitted up in a most luxurious and comfortable manner. The new theater will be a model of comfort and beauty. Already the lessee, John H. ...

Theodore Keuchler, a brother of Rudolph Keuchler, Republican State committee man from Weber county, was seriously hurt about 9 o'clock tonight near the corner of Adams avenue and Twenty-second street. Mr. Keuchler, while attempting to dismount from a street car, was struck by a telephone pole and rendered unconscious for some time. Dr. Wherry was called in and attended to Mr. Keuchler's injuries. He says that the skull was fractured and that while his injuries are serious, it is impossible at this time to determine the outcome.

A man getting the name of E. Andrews from Hopop, Utah, was in the toils of the law for a few moments today and had the County Attorney consented to prosecute the case he would have been compelled to answer to the charge of fraud. Andrews appeared at the County Clerk's office with the pelts of seventy coyotes, three mountain lions and four weasels and demanded the bounty. Deputy Clerk Swan inspected the pelts and his eagle eye detected the fact that forty-eight of the coyotes and the three lions had already been sold for. He refused to issue warrants for the same and the matter was reported to the Sheriff, who took the man into custody, but the County Attorney declined to prosecute. It appears that the pelts had been cancelled, probably in Box Elder county, as the ears had been cut off.

Arthur L. Moleman, manager of the Boiler-makers' Mining company, came to town today with glowing reports of that promising district. Mr. Moleman says they are now down 250 feet and the ore is rapidly increasing in value and he brings some samples that appear to carry out his statement. These samples are to be sent to Salt Lake at once to be analyzed, and if the expectations are fulfilled, shipment is made to the smelter in a short time.

CHRONIC SORES

Whealing, W. Va., May 28, 1903. Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short time for the medicine to entirely cure my sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. Some 12 years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier. JOHN W. FUNDIS.

Care Schmulback Brewing Co.

Chronic sores start often from a pimple, scratch, bruise or boil, and while salves, washes and powders are beneficial, the unhealthy matter in the blood must be driven out or the sore will continue to eat and spread. S. S. S. reaches these old sores through the blood, removes all impurities and poisons, builds up the entire system and strengthens the circulation. S. S. S. is a blood purifier and tonic combined. Contains no mineral whatever but is guaranteed purely vegetable. If you have an old sore write us and our physicians will advise without charge. Book on diseases of the Blood free.

FIRE DESTROYS 300 TONS OF HAY AT BOUNTIFUL

Special to The Tribune. BOUNTIFUL, Sept. 8.—About 300 tons of hay were destroyed by fire at this place today. The fire is still burning at nightfall, and should a wind arise it is feared that great damage may be done. The fire started about 11 o'clock this morning, in one of the hay stacks of the Clark farm, east of this place. The flames spread quickly and, notwithstanding the valiant work of the townspeople, who were out with buckets, the hay was consumed.

The origin of the fire is thought to have been a spark from a passing train, either the Great Salt Lake or the Utah and Pacific, which passed soon after. They are still fighting the flames and have the fire under control unless a wind should come up from the west. The owners are Joseph, Eugene and Edward B. Clark.
