### SYSTEMATIZING ROADS.

County Commissioners Adopt a Regular Plan of Construction.

The Board of County Commissioners Saturday adopted County Surveyor Swenson's plan for the establishment of a definite and permanent system of grades and road building in Salt Lake county. Hereafter all road construction in the county must be conducted according to the approved profile of cross sections. The entire system is based on very exhaustive research and experiment work carried on by the national Government. The work has been of a most thorough nature, and every kind of a county road has been pro-

Actual test work has been going on under the direction of the board for the past two years. The State street road about two miles south of Murray, was tested under the new system last year. The road was first turnpiked and then graded, after which a new covering of siag was supplied. Although the work was not very expensive, it has proven effective, being both durable and well adapted for travel during the muddy season. It is claimed that by this method a better road can be made than by the use of asphalt, although the cost

is only one-fourth as great.

The cross sections approved Saturday give a two-rod lane, with twenty-five feet roadway and two four-foot sidewalks; a four-rod street, with fifty feet roadway and two eight-foot side-walks, and five, six, seven and eight-rod streets, with sidewalks ranging up to sixteen feet and roadways ranging to sixteen feet and roadways ranging up to 100 feet. Each cross-section plat shows the fence line, the tree space. the line for telegraph, telephone and electric light poles, the ditch space of three and one-half feet outside each curb line, the hitching post and mail-box post line four feet from the carb, the water mains line five feet from the curb, the sewer line eight feet from the curb, with locations for street rail-way tracks and all other street conve-

From now on builders of public roads in Salt Lake county will have some definite basis for operation and will put in sidewalks for pedestrians as well as roads for teams. The adoption of the new plan marks a change from haphazard, unsystematized work to syste-

Waneta council No. 1 met in regular union Saturday evening, transacting considerable routine business. Consideration was had of the proposed new beneficiary feature to be adopted, and other matters looking toward improvements in the council were discussed. The meeting night was changed from Saturday to Wednesday, and the next council fire will be kindled Wednesday evening, September 14, in I. O. O. F. hall.

# DYSPEPSIA.

"Take Mi-o-na Tablet After Each Meal," Says F. C. Schramm.

SIMPLE WAY TO CURE

With Mi-o-na there is no bother of guessing at the dose or using so many spoonsful or anything of that kind. This valuable remedy for the cure of dyepepsia is in valuet form, and is the simplest way to cure the disease "Just take one Mi-o-na tablet after

each meal," says Druggist F. C. Schramm, "and in a few days you will find digestion improved, health returning, and good, solid flesh added." 'remarkable remedy is not a mere gestive; it mingles with the food and is readily assimilated by the system. It aids digestion and regulates and strengthens the whole digestive tract. so that after its use for a short time healthy and natural action is restored to the stomach and bowels.

No one runs the slightest risk in pur-chasing it, for F. C. Schramm will give his personal guarantee with every 50c box he sells to refund the money if it
