

FORTUNES IN JUST STAMPS

Hobby That Sometimes Pays Well.

Salt Laker Has One of the Finest Collections in United States.

D. A. Callahan Can Show You About Every Stamp That Was Ever Issued Anywhere.

Most children are born collectors, as an examination of Johnny's pockets after his retirement at night will attest.

our own city for anything of note, but there are few private collections in the United States which rank with that of Mr. Callahan.

All of the American Stamps.

This collection contains all of the American stamps ever issued from the first, up to the present day.

Complete collection of the following are in Mr. Callahan's book: The Confederate stamps; Baden, absorbed in the German empire in '68; the Bahamas; the triangular wood-block stamps of the Cape of Good Hope; Egypt; Great Britain and Ireland; Hamburg and Hanover; Hawaiian Islands, complete with the exception of the first four numerals, which are worth each from a hundred dollars up.

What the Collection Contains. Complete collection of the following are in Mr. Callahan's book: The Confederate stamps; Baden, absorbed in the German empire in '68; the Bahamas; the triangular wood-block stamps of the Cape of Good Hope; Egypt; Great Britain and Ireland; Hamburg and Hanover; Hawaiian Islands, complete with the exception of the first four numerals, which are worth each from a hundred dollars up.

apiece. A surcharge, explained to the uninitiated, means a stamp over which the Government has stamped some different value in lack of more stamps of the value desired.

Mr. Callahan has all the stamps of Germany before her entrance to the empire; all the Greeks from '61; Guatemala; Hongkong; Italy; the Ionian Islands; which there were only three issued; Jamaica; Mexico from '62, practically complete; the Netherlands; New South Wales, with the views of Sidney upon their face in one and divided into their wonderful colors, which remain unburnt by water; early Philippine Islands from '51 to our own surcharges; Porto Rico; Russia's stamps, which are purposely arranged whose color is destroyed by water, two quantities which make them difficult for the collector to take care of, but which prevent the second use of the stamps; the richly colored stamp from the island of Napoleon, which is the occasion of the famous stamps of Shanghai, Swiss, and so many other stamps, but which prevent the second use of the stamps; the richly colored stamp from the island of Napoleon, which is the occasion of the famous stamps of Shanghai, Swiss, and so many other stamps, but which prevent the second use of the stamps.

Carries Many With Him.

The most valuable and rare of his possessions in stamps, Mr. Callahan carries always with him, in his wonderful collection, a few stamps of the most interesting kind.

Some Stamp History. The first stamp to be used in the world was that of Great Britain in 1840. It was not a regular paper stamp, but an imprint of the whole envelope of an unopened letter upon a different material, represented by an elephant and the polar bear.

Governor Lost His Head. The old colonies of Great Britain adopted one die, that of Queen Victoria. The only difference between the stamps of one colony and those of another was the printed name of the Governor.

Woman Snipped Away a Fortune. One of the most striking stories is that of a woman who unwittingly lost her fortune by attempting to imitate the Creator in making a huge snipe-out of stamps.

CAPT. GRIDLEY'S LOVELY MOTHER

Notable Character of Washington Life.

Nearly Eighty and an Active Clerk in Department.

Pen Sketch of Mother of Famous Man - Has Relatives and Friends in Salt Lake.

One of the unique and altogether lovely characters of Washington life is Mrs. Anne Elizabeth Gridley, mother of Capt. Charles V. Gridley, the man who piloted the Olympia, Dewey's flagship, through Manila bay, on the occasion of the famous battle. Mrs. Gridley, although nearly 80 years old, is yet an active clerk in the Pension department.

BLOOD POVERTY

The Greatest of All Afflictions, Breaks Down the Health and Invites Disease.

Blood poverty, or Anæmia, is due to a lack of health-giving properties in the blood. Instead of being rich, strong and pure, it has become infected with some poison or germ which has destroyed the rich, red corpuscles that furnish nutriment and strength to the body.

Every part of the body is dependent on the blood for nourishment and strength, and when this vital stream of life becomes impoverished and run-down, the effect is quickly shown.

Blood poverty is often an inheritance, parents transmitting it to their children, and those so afflicted live a life of suffering and disease. They do not possess the natural energies that belong to their more fortunate companions who are blessed with a healthy, strong blood supply; they have weak bodies, soft, flabby muscles, brittle bones, often weak eyes and scrofulous affections of various kinds.

Long continued sickness is another cause of blood poverty. The blood becomes infected with the germs of disease, and when the body begins its work of recuperation and building back to health, the blood, because of its impoverished condition, is unable to furnish the system with the nourishment and strength necessary, and Old Sores or Ulcers, Skin diseases or some other blood disorder follows.

When the system is suffering from blood poverty it is in a very weakened condition and should be treated with a remedy that is not only thorough, but very gentle in its action.

This is one of the qualities possessed by S. S. S.; it is made entirely from roots, herbs and barks, and contains no strong minerals or harmful drugs to further derange or damage the health.

It carries to the blood the health-giving qualities it needs, and by its use it is made rich, pure and strong, and all evidences of blood poverty pass away.

Every lost property is restored and health is firmly established. The full, round face, glowing with healthy color, returns, the constitution is strengthened and the entire body reinvigorated by this great vegetable medicine.

ing equals it in the treatment of blood poverty. Write for our book on the blood, and if you are suffering from any blood trouble our physicians will give you any special medical advice you wish.

Nine Nations

Now Use Ligozone. Won't You Try It---Free?

Millions of people, of nine different nations, are constant users of Ligozone. Some are using it to get wealthy, some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed.

We Paid \$100,000 For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving in thousands of difficult cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time.

It is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1000 for a disease germ that it cannot kill.

Those who suffer from blood poverty, or Anæmia, are urged to use Ligozone. It is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Those who suffer from blood poverty, or Anæmia, are urged to use Ligozone. It is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

RAW BLEEDING SCALY ECZEMA

Looked More Like a Piece of Raw Beef Than a Human Being. Doctors Useless.

CURED BY CUTICURA

Blessed Relief After First Application and First Real Sleep in Weeks—Facts of This Wonderful Cure by Cuticura Vouched for by Mrs. Hunt's Neighbors.

"Words cannot describe the terrible Eczema I suffered with. It broke out on my head and kept spreading, until it covered my whole body. I was almost a solid mass of sores from head to foot. I looked more like a piece of raw beef than a human being.

"Blood and pus oozed from the great sore on my scalp, from under my finger nails, and nearly all over my body. My ears were so erusted and swollen I was afraid they would break off. Every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out from the pain.

"My family doctor did all he could, but I got worse and worse. My condition was awful. I did not think I could live, and wanted death to come and end my frightful sufferings.

"In this condition my mother-in-law begged me to try the Cuticura Remedies. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh and brought me the first real sleep I had had in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely. I also took the Resolvent for the blood. In a short time the sores stopped running, the flesh began to heal, and I knew I was to get well again. Then the hair on my head began to grow, and in a short time I was completely cured. But I kept on taking the Cuticura Remedies, as they did me so much good I did not want to stop them.

"My cure was so wonderful I thought I would write you about it. I cannot praise Cuticura enough. I wish I could tell everybody who has Eczema to use Cuticura. My condition was so terrible that what cured me cannot fail to cure anybody of this awful disease. If any one doubts the truth of this letter, tell them to write to me.

"135 Thomas St., Newark, N. J. MRS. WM. HUNT." The undersigned are acquainted with and neighbors of Mrs. Wm. Hunt, 135 Thomas St., and have knowledge of her wonderful cure of eczema by the Cuticura Remedies, as stated by Mrs. Hunt in her letter.

"Cuticura Soap, Ointment and Pills, complete external and internal treatment for every humor of the skin. Really and Truly, from Infancy to Age, price the Set One Dollar, sent by mail. A single set is often sufficient to cure the most obstinate itching, burning and scaly humors, rashes and irritations, when all other remedies and even the best physicians fail. Cutter Drug & Chem. Corp., Sole Mfrs., Boston, 125 Columbus Ave., Boston 1, U. S. A. Mailed Free. "All About the Cuticura Dollar Humor Cure."

CURED OF PILES

After Suffering More Than Twenty-Five Years.

TRIAL PACKAGE MAILED FREE.

"Until about two years ago I had piles for about thirty years, at times bleeding and very painful. I got a fifty-cent box of Pyramid Pile Cure and the drug store and used it and was entirely cured. I got another box in case I needed it, and as the piles did not return, I did not use it. I would like to recommend it to a friend of mine who wanted the doctor to operate to cure him. My friend said he would use the Pyramid Pile Cure, and he has been since using Pyramid Pile Cure. I was Captain in the Civil War." James Adams, Soldiers' Home, Cal.

The majority of people labor under the impression that an operation is necessary in every case of piles, of hemorrhoids, and are very skeptical regarding the remedial virtues of any medicinal compound. Testimony like the above abounds, and there is a tendency to dispel this impression, although it is odd that such a fallacy should prevail, and still more odd that so many people should think an operation effects a permanent cure, whereas the contrary is more often the case.

Send your name and address to Pyramid Drug Co., 152 Main St., Marshall, Mich., and you will receive a trial package in a plain wrapper. Thousands have been cured in this easy, painless and inexpensive way. In the privacy of their homes. No knife and his torture. No doctor and his bills. All druggists, 50 cents. Write today for a free package.

Not content with a brief interview at the executive office, President Roosevelt invited the heroic little mother to the White House for a little talk.

"I was ushered into one of the parlors, and there waiting to meet me was the President," she told me. "We had such a nice little chat; the President is so gentle and so kindly, so inquisitive, and so full of interest in the people."

"Just in the middle of our talk, I looked up to see Mrs. Roosevelt enter the room. She was smiling and gentle as her husband. Then he told her just what I was working for. My great hope was to have the work accomplished during my lifetime, and as I bade the President and Mrs. Roosevelt good-bye, he gave me a good, long, and warm handshake."

"I feel sure, Mrs. Gridley, that your hopes will be accomplished, and in your lifetime, and day by day."

One forgot all about the weather, all about the hour, while the old lady talked. She brought me down her scrap-book if ever a mother gloried in her son's achievements it was the mother of the hero who took up the banner of the first time in twenty years to pay tribute to their Captain.

"I feel sure, Mrs. Gridley, that your hopes will be accomplished, and in your lifetime, and day by day."

tain that we publish on every bottle an offer of \$1000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only remedy known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

For this offer may not appear again. Fill out the blank and mail it to The Ligozone Company, 425-426 Walnut Ave., Chicago.

My disease is ... I have never tried Ligozone, but if you will kindly send me a free bottle free I will take it.

Give full address—write plainly.

Any physician or hospital not yet using Ligozone will be gladly supplied for a fee.

Those who suffer from blood poverty, or Anæmia, are urged to use Ligozone. It is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

HEALTH ALMOST BROKEN DOWN.

Gentlemen:—For several years I was a sick man. I was indeed a sick man and could get nothing that would bring me out. Last winter my trouble was at its worst. I was unable to work for several months, lost in flesh, had no ambition or energy whatever, and was extremely nervous. I really became alarmed about my condition. I asked a friend of mine what I should do. He told me S. S. S. had done him a world of good in some chronic trouble and strongly advised me to begin it. I did so. Imagine my glad surprise to find I was actually improving after using a few bottles of the medicine. Of course I continued with the medicine, with the result that it put me on my feet again and made me a well man. My blood had gotten very poor and weak, and I would have broken down and lost my health entirely had I not taken S. S. S.

Wooster, Ohio. L. Y. McCLURE.

Long continued sickness is another cause of blood poverty. The blood becomes infected with the germs of disease, and when the body begins its work of recuperation and building back to health, the blood, because of its impoverished condition, is unable to furnish the system with the nourishment and strength necessary, and Old Sores or Ulcers, Skin diseases or some other blood disorder follows.
