Chamberlain's Cough Remedy the Best Made. "In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker of Porterville, Cal. There is no doubt about it's being the best. No other will cure a cold so quickly. No other is so sure a preventive of pneumonia. No other is so pleasant and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used this remedy. For sale by all leading druggists.

Piles Are Caused by Some Physics

Physics—usually salts, tablets and pills—cause piles more often than any other cause. Such remedies produce gripping, which is the direct cause of piles.

A proper physic will not cause gripping, but will produce an easy and satisfying bowel action.

FOUND DEAD WITH HIS THROAT CUT

Prominent Citizen of Levan Takes His Own Life in His Home.

Special to The Tribune. LEVAN, Utah, Jan. 10.—Charles Hansen of this place was found dead in his home here this morning by the constable. He was lying on the floor with his throat cut and a razor lying by his side.

Mr. Hansen was an unmarried man about 50 years of age and lived alone. He was Postmaster at Levan for several years, and had a very good reputation in this community. Of late years he has drunk a great deal and this is believed to have caused his tragedy, which ended in suicide. No inquest will be held.

ROW IN MEETING. Free-for-All at Conference of Water Company Directors.

BOUNTIFUL, Jan. 10.—Peaceful as this thriving little town usually is, it was not so Monday of a free-for-all fight in which half a dozen prominent citizens participated and which resulted in complications that are not yet straightened out. It might be noted in passing that three of the belligerents were Mormon dignitaries, including a high priest, a patriarch and a stake counselor.

Trouble Over Water. It was at the annual meeting of the Stone Creek Irrigation company that the fracas started. High Priest Joseph Barlow, a director in that corporation, gave his water, it is alleged, by tapping the springs which feed the creek, and despite the ecclesiastical office, the fact that the citizens along the creek are much of the time short of water, has stirred up considerable bitterness toward him.

Wants the Whole Creek. Patriarch John Tolman, also a director of the company, but without his ambitions in the water line. He sought to make the filings on the creek a veal acre, but was forced by public indignation to withdraw them. Now he has corralled the entire creek in order to feed his ice pond, and the result is that the farmers below are practically without water.

Action Is Taken. Two matters came up at Monday's meeting and the air was soon intense with the feeling manifest. Finally High Counselor Cooker got into the game and called another director a liar. Then the scene changed from words to blows and in thirty seconds or less all the directors were mixing things without regard to zoning regulations. One of those present, who after he cooled down, recovered his sense of humor, declared that it was funnier than a vaudeville show to see these aged men giving battle.

After the smoke had cleared away and quiet was restored, six of the seven directors voted to levy \$1 per share on the 1000 shares of the stock for improvements. The board was unanimously sustained and also decided to turn the water from Tolman's pond back into the creek. This action was taken today.

ERIC SODERMAN DEAD. Passes Away Alone in His Room of Heart Disease.

PARK CITY, Jan. 10.—The lifeless body of Erik Soderman in a room over the saloon of John Adams. How long the man had been dead is not known, but he apparently died suddenly while undressing to retire last night. He was found in the saloon until about 9 o'clock, when he went upstairs to go to bed. No sound was heard throughout the night, and today when the chambermaid failed to gain admittance to the room she notified the proprietor, who forced the door and found the man dead upon the floor of a room. Dr. Barstley was summoned, and after examining the body, gave his opinion that the man had died of heart failure. Soderman was a well-known miner. He had been ill since Christmas, and part of the time was under a doctor's care. He leaves a wife and daughter, who reside in Bingham.

John D. Hanley, a Daly-West miner, died last night at the hospital, of typhoid pneumonia. He was 23 years of age, and leaves an aged mother living in Ireland. He has other relatives in Butte, and no arrangements for the funeral will be made until these are heard from.

John Malvey, who was killed in Eureka yesterday, has a brother, James Malvey, and sister, Mrs. Jerry Driscoll, residing in this city. Mr. Malvey and Mrs. Driscoll will leave for Eureka this afternoon. The camp has taken on a lively appearance today as a result of the distribution of the monthly payroll from the mines. Special to The Tribune. PROVO, Jan. 10.—The appointments made by Mayor Frisby and submitted to the Council on Monday night, have precipitated a political fight, the dimensions of which time alone can tell, but it is a sure thing the appointments will not be confirmed. The Council stands five Democrats and five Republicans and unless a division of the appointive offices is conceded by the Mayor, a deadlock on the scene Monday of a free-for-all fight in which half a dozen prominent citizens participated and which resulted in complications that are not yet straightened out. It might be noted in passing that three of the belligerents were Mormon dignitaries, including a high priest, a patriarch and a stake counselor.

NOT BADLY DAMAGED

Unnecessary to Place the Kentucky in Dry Dock. NEW YORK, Jan. 10.—The battleship Kentucky will not be placed in the dry dock at the navy yard as a result of her collision with the Alabama on Sunday. This was decided upon yesterday, after a consultation of Capt. J. N. Hemphill, former commander Naval Constructor Nutting and other officials. The only injuries to the ship are found to be above the water line. Damage to the landing and the breaking of some plates on the starboard quarter.

Two small pieces of the blades of the Kentucky's starboard propeller have been chipped off, but they are so small, the divers report, that their loss will not interfere with the speed of the ship. The chief engineer declares the report that the shaft was bent to be untrue.

It was also decided yesterday that the work of repairing the damage to the Kentucky should proceed night and day. This, it is thought, will release the ship in less than two weeks, so that she will be able, sooner than expected, to join the other vessels of the North Atlantic squadron now in Hampton Roads.

BRITISH CAMPAIGN GROWS IN INTENSITY

Disorderly Meetings, Where Speakers Are Howled Down, Not Uncommon. LONDON, Jan. 11.—The election campaign is daily growing in intensity and the party leaders, with the aid of motor cars, are displaying the greatest energy in addressing meetings at different places on the same day.

The Premier, Sir Henry Campbell-Bannerman, who spoke at Shrewsbury tonight, was howled down by a Chamberlainian minority and was compelled to shorten his speech. Disorderly meetings of this kind are not uncommon.

Burns Beats Chamberlain.

John Burns, president of the local government board, made a successful tilt against Joseph Chamberlain, compelling him publicly to retract his statement that a million able-bodied men were supported in the workhouses of Great Britain. Mr. Burns produced statistics that proved that the workhouses were at present supporting only 214,304 persons, the majority of whom were either sick or disabled.

Churchill Is Energetic.

One of the most striking personalities in the campaign is Winston Spencer Churchill, whose restless energy, it is admitted by friends and foes, is dominating the struggle in Manchester, where he is being attacked devotedly by his mother, Mrs. George Cornwallis-West. Mr. Churchill receives deputations, attends committee meetings and addresses gatherings several times daily.
