RACING NEWS FROM ALL PARTS OF WORLD

Veteran Trainer and Driver Under Suspicion of American Trotting Association.

ANOTHER TURF SCANDAL IS BROUGHT TO LIGHT

Evidence Is Secured by Secretary Knight; Havana Jockey Club's Good Start.

Tribune Special Sporting Service.

CHICAGO, March 10.—For some time there has been a rumor current among Western trotting horsemen and frequent hints made by the turf press that "Dad" Whitney, the veteran trainer and driver, of Des Moines, Ia., was under suspicion of the American Trotting association for having been complicated in another ring case.

He will be remembered as the man who raced the once New York speedway trotter Cuprum under the name of Maxstone, and for which he was expelled, with a good chance of serving a term in the Iowa State penitentiary.

This suspicion is now verified by Secretary Knight of the American Trotting association, who believes he has evidence enough to prove that Whitney raced the brown mare, Lady Knapp, 2:09 1/4, by Panic, Jr., under the name of Mildred.

A. C. Bennock of Cleveland, who made the identification of the ringer, started to trace Mildred last summer, and for this purpose he traveled to different parts of the country, besides inserting some advertisements in several papers.

During the first week in October, 1904, a brown mare named Mildred was entered in the 2:15 class at Johnstown, Pa., and her breeding given as by Moquette. She won her race in straight heats, pacing the last two heats in 2:35.

On October 13, at the same place, she won the first heat and third money in the 2:17 class. At Kamm's, O., on October 19, driven by W. Frwin,

she won the first heat and second money in the 2:17 class.

At Cleveland the following week she started in the same class, won the opening heat and again third money, she being entered as by Milwood. On November 1, same place, she closed her season by winning a six-heat race and making a record of 2:15 1/4 in the last heat.

She is recorded in the year book as "Said to be by Milwood." The race summaries show that her managers made a big haul by her and got away with it, as well as with the winnings, undisturbed.

Like the majority of the ring cases reported lately this, too, is one of the boldest brought to light. The mare was allowed to race and win without any further inquiry or investigation, and even the official year book records her breeding by three different sires, Moquette, Milwood and Nutwood, the latter perhaps being a misprint.

Fast Horses "Stop in Fine Style."

Tribune Special Sporting Service.

NEW YORK, March 10.—William Kelly of this city who recently purchased the fast Western trotting Oro, 2:10 1/4, for racing purposes, is planning to bring him to the city next fall and drive as a team with his famous trotter, Norman B., 2:05 1/4.

Both horses are black and the same size, and it goes without saying that they will make one of the fastest trotting pairs in the country. Knap McCarthy is teaming them together at Terra Haute, and writes that they step in fine style.

McRoberts a Star Horse.

Tribune Special Sporting Service.

NEW YORK, March 10.—H. H. Smith of Armour, S. D., owner of the Running Mead stock farm, and one of the best known trotting horse breeders in the Northwest, is in the city on a pleasure and business trip.

The premier stallion of Mr. Smith's farm is McRoberts, sire of the fast race horse Robert Mac, 2:08 1/4, one of the new 2:14 trotters of last season, also Black Robert, 2:13 1/4, and the new pacer, McRoy, 2:13 1/4.

Havana Jockey Club Starts Off.

Tribune Special Sporting Service.

HAVANA, Cuba, March 10.—The Havana Jockey club is making a pretentious start in racing. It is planned to have a \$50,000 race for the inaugural meeting next winter, and there is a good chance that the plans will be carried through. That the officials of the club have taken a businesslike view of the situation is attested by arrangements already under way looking toward easy shipment of horses from New York.

Secretary A. E. Hernandez said this week: "Our affairs have taken a de-

edly favorable aspect. Our stock has been practically subscribed at par, our land has been bought on one of the prettiest roads near Havana, and our concession for betting has been secured in the proper manner.

"Both the national and municipal bodies in Cuba have taken cognizance of our enterprise in the most favorable manner. Besides Congressional action, which will be undoubtedly taken, there is now before the City Council the proposition, fathered by the same members who influenced the appropriation of the \$5000 for the automobile races, to give the donation of \$25,000 for an initial purse on December 6, the day of the opening of our race track. If this becomes an ordinance we are willing to add \$15,000 from the association, and we have the assurance of the Havana merchants of \$10,000 more, making a total of \$50,000 for an initial purse."

"The Ward line, the Munson line and Mr. Flagler's new project of bringing through trains from Jersey City to the wharf at Havana assure owners that their horses will have the very best of care, and the facilities for transportation are absolutely unequalled."

STEEPLECHASE AT AQUEDUCT.

Tribune Special Sporting Service.

NEW YORK, March 10.—The request of the Queens County Jockey club to give steeplechasing at Aqueduct this spring has been granted by the stewards of the National Steeplechase and Hunt association. The course, which was built in 1894, will, therefore, be thrown open for the first time, and means an added opportunity for owners of cross-country stables. The Aqueduct course will, it is believed, prove to be one of the best in the country. It is laid out inside a track one mile and a quarter in circumference, with wide turns, and nothing has been left undone to make the course perfect.

Because of the condition of the turf, or rather for the almost absolute lack of turf, it was not deemed advisable to

MALACHY HOGAN ON BOXING SITUATION

Thinks Tenny's Death Puts Ukase on San Francisco Fight Promoters.

ABE ATTELL GOING AFTER ENGLISH CHAMPION

Marvin Hart Down and Out, While Tommy Burns Is Under Cover.

Harry Tenny's death after his defeat by Frankie Neil at San Francisco Wednesday night was one of the tragedies of the sport of boxing that do not come often, although it is greatly to be regretted that they come at all. Invariably the death of a principal in a bout puts a damper on the sport in the particular section in which it occurs, and without doubt it will do so in this case.

How serious this will be remains to be shown, but whether or not city officials stop boxing for a time, the public, which supports the shows, will prove in decreased interest the dampening effect of the death of the boy.

There is no prominent sport, just as there is hardly any business or trade, that does not have its fatalities. Baseball has several a month in the greatest degree, and yet it is hard to figure out how these can be avoided. In the case of Tenny the bout might have been stopped by a referee, but he received the final installment of blows, but even the referee might not have known how severely Tenny had been punished or that his condition was before he entered the ring.

Condition Prime Factor. Probably the question of condition had more to do with the death than anything else. With some physical failings which could not be detected, Tenny layed long, but he could not stand up to many boxers would. Probably the most important lesson learned is that referees should be very careful about letting a bout go any further than it appears that a victory has been won. Experience has to teach this lesson, as it does the elimination as far as possible of brutality in football and the safeguarding of theater patrons by proper inspection and enforcement of ordinances looking to the safety of playgoers.

Neil proved himself to be still the American bantam-weight champion. There has not arisen a boy of his weight in America who could give him an argument, and the only person who has received a decision over him since he became champion is Jim Bowker of England, who is holder of the world's title.

Jem Bowker to Get Match.

Speaking of Bowker, it appears that he will have to step into the ring again to defend his title against an American. Abe AtteU feather-weight champion of America, has practically made up his mind to go to England to meet Bowker in a fifteen-round bout before the National Sporting club. He has declared that the purse and expenses offered are suitable, and that he undoubtedly will make the trip.

A great deal of interest would attach to this battle, for, besides being an international one, it would bring together two of the cleverest boys in the world. AtteU would probably do better under the English interpretation of Queensbury rules than Neil did, for the Californian has a style that is frowned on in England, his rough fighting arousing the animosity of the British public. Bowker and AtteU would put up more of a sparring match, with the chance that the American would outfoot the Englishman.

AtteU had intended to take on the winner of the Neil-Tenny match, but the death of the latter probably will interfere with his plans. He has been looking for a match with Neil for a long time, and wanted to leave New York for San Francisco last week. The fatality intervened with his plans, and it is doubtful if he will even talk of a match before he goes to England. Gus Ruhlin and Jimmy Gardner also have had their plans interfered with to some extent. They were preparing to invade the Pacific coast.

Ruhlin After Al Kaufman.

Ruhlin wants a match with Al Kaufman or Tommy Burns, and probably would have little trouble in getting on with the former. He would be a good man for the ambitious youngster to meet, as he is experienced and would teach him a lot about ring generalship. DeLaney, without doubt, intends to pit Kaufman against such men as Bobbin for while before he trots him out as a star again. If Burns is wise he will wait until he can get on with O'Brien, as this match would be worth ten times

as much to him as on with Ruhlin or any of the others of that class.

Gardner Matched With Fitzgerald.

Gardner, according to reports, is matched to go forty-five rounds at Los Angeles with Willie Fitzgerald, but there is some doubt about this match going through. For one thing, the town is not big enough to support properly a bout of this character, as it would be about as good a ring attraction as could be had at the present time. Both of the boys are about at their best, but Gardner would be a favorite, as he has an advantage in his weight. His recent poor showing against Willie Lewis had many to believe, however, that Fitzgerald has a good chance to beat him.

Marvin Hart a Dead One.

How completely Marvin Hart was overthrown by Tommy Burns was shown last week by the Kentuckian's attempts to explain his defeat while he was in Chicago. Neither Hart's explanation nor those of his managers proved anything except that Marvin put up a poor fight and that Gardner would be a favorite, as he has an advantage in his weight. His recent poor showing against Willie Lewis had many to believe, however, that Fitzgerald has a good chance to beat him.

OF INTEREST TO OAR

Big Meet This Year Will

Worcester.

Tribune Special Sporting Service. NEW YORK, March 10.—The meeting of the executive committee of the National Association of England will be held at the Athletic club on March 17, which of importance to amateur oarsmen will be settled. It is learned that Worcester and the Lake Quinsigamond regatta will be held at Worcester for the championship of the world. It looked as if Mass. would be presented to Miltee for consideration, but a conference it was agreed that it is not a good year for expert view of the general disgust over the management of the races at last season. A definite proposition to be submitted to the National Association of England will be Worcester for the championship of the world. It looked as if Mass. would be presented to Miltee for consideration, but a conference it was agreed that it is not a good year for expert view of the general disgust over the management of the races at last season. A definite proposition to be submitted to the National Association of England will be Worcester for the championship of the world.
