

**WOULD REVIVE SPEED AUTO RACE**

Automobile Club of Great Britain Desires to Resuscitate Gordon Bennett Race.

**CHANGE IN ATTITUDE CAUSES SOME COMMENT**

General Opinion Is That Big Racing Monsters Waste Time and Money.

**Special Sporting Service.**

PARIS, July 28.—It seems somewhat logical that the Automobile Club of Great Britain and Ireland should desire to resuscitate the Gordon Bennett when but a few months ago it was in agreement with other foreign automobile bodies that its discontinuance was desirable; in fact, it was most emphatic in its belief that this classic race, like other high speed events, fulfilled the purpose for which it was established, and it assisted in that was considered to be the burial of the race, the selfish attitude of France, desired to have preponderating weight in the race, was the immediate cause of the defection, but, notwithstanding, it was generally understood that the A. C. G. B. and I. was influenced in its decision by other motives. It was given out—the decision was welcomed by all the motorists and other right-minded sportsmen—that the club had reached the conclusion that the continuance of the race could no longer be a useful purpose, inasmuch as its object was only pandering to automobilism by creating an unwholesome racing for dangerous motor car speeds, and it was in no way of assistance to the race.

**Race Once of Great Value.**

It was, of course, when races of Gordon Bennett type were of inestimable value; they brought out the best of car construction, and in many ways played a part in the evolution of the automobile; while more important, perhaps, by attracting public attention by such exciting contests, the race was made acquainted with the possible efficiency and possibilities of a self-propelled vehicle. That was the days when the now ubiquitous motor car had not caught the popular imagination, and when the design of automobiles had not settled down upon standard lines.

**Change in Attitude Remarkable.**

The old order has given place to a new, for the motor car is now part and parcel of the every-day world, and one with a glimmering of intelligence is acquainted—more or less fully—with its wonderful capabilities. It is, therefore, remarkable that the Automobile club should veer right around

THOSE INDISTING FRIENDS.

again and seek to revive an event which met with their condemnation but a short time since. A proposal to this effect was put before a meeting of the National Automobile club held in Paris previous to the Grand Prix, but France objected to organizing another Gordon Bennett race—because of the expense, it was stated.

**Not the Real Reason.**

While no one believes this to be the real reason of the objection, the decision must be accepted, and France's offer to hand over the cup either to Britain or America for the promotion of the next race will not be looked upon by the people in the know as either sporting or a generous act. The offer has not been accepted right off, but it will be brought up for final discussion at a meeting to be held in France during the Paris salon in December next. Perhaps by that time the wire-pullers exciting the A. C. G. B. and I. circles will have come to a wiser judgment. The great majority of those engaged in the motor industry are wholeheartedly opposed to the suggested revival, and the mass of the motoring public have not the slightest interest in the matter. Then, again, the building of huge racing monsters is a waste of time and a waste of capital, for their sphere of usefulness is practically restricted to the sensational events for which they are specially built.

**MADE FIRST UNASSISTED TRIPLE.**

Records Show That Honor Belongs to Third Baseman Hinds.

TRIBUNE Special Sporting Service.  
MARION, O., July 28.—The records show that Third Baseman Hinds of the Cincinnati Reds of 1876 made the first triple play, unassisted. Many ball fans have always claimed that the first play of the kind in the history of baseball was made by Second Baseman John Darnody of the Marion Stars, in 1874, two years before. The original score book has been located in the possession of

E. G. Allen, a retired banker of this place, and a great ball fan. It shows that the play was made in this city in a game with Delaware. In the second inning Delaware had three men on bases and no one out. The Delaware batter hit a liner over second. No one hoped to see it caught, as it was easily three feet above an average man's reach. Darnody, however, hurled his seventy-four inches of bone and sinew into the air and caught the ball. He touched his base and overtook and tabbed the base-runner from first to second before he could recover the initial bag. Darnody is the owner of one of the leading hotels and a retired capitalist.

**COLLEGE TWIRLER MAKES GOOD.**

Bergman Considered One of Steadiest Pitchers in Pacific Coast League.

TRIBUNE Special Sporting Service.  
LOS ANGELES, Cal., July 28.—When Pitcher Bergman blew into Los Angeles at the start of the season there were many who were from Missouri when he announced that he could pitch some. He insisted that he ought to get a trial anyhow. Captain Dillon, who is willing to be shown at any stage of the game, put him on as an experiment.

The young fellow opened his eyes some right from the jump. He turned out to be the luckiest experiment that Captain Dillon has made for some time. In fact, there are many fans who declare that Bergman is one of the most consistent and steadiest twirlers in the league.  
Like Overall, he is a college man. He graduated from the University of Wisconsin. He is comparatively only a short time in the game, and if he continues to improve has a great future in store for him.

**BARNEY OLDFIELD IS MAKING GOOD MONEY**

His Earnings Now Compare Favorably With President Roosevelt's Salary.

**Tribune Special Sporting Service.**

DETROIT, Mich., July 28.—From a bare living salary of \$500 per year to figures which compare with the salary of the President of the United States, Barney Oldfield has certainly made a great jump in financial earnings.

The intrepid chauffeur, who has been in Detroit for the past few days, admits that he was only making \$500 a year in 1901. At that time he was doing odd jobs and there were times when he was short the necessary cash for meals.  
"There were times when I was nearly starved," said Oldfield, "and there were times when a dime looked as big as a barn to me." This was in 1901.

**Adept at Auto Game.**  
Since then Oldfield has become an adept at the auto game. Getting a start here with Tom Cooper and Henry Ford, Oldfield, year after year, has increased his earning capacity. It was

in 1901 that Oldfield was working for Cooper at mere living expenses. Today Cooper is working for Oldfield, watching the chauffeur's interests in the "Vanderbilt Cup Race," which proved such a big success down East.

**Barney Likes the Coin.**  
For this year, and the season is a little more than half over, Oldfield has made over \$30,000. He expects to see his earnings reach the \$50,000 mark before the snow flies.

Barney has been saving some of this. He owns a big farm near Toledo and several houses. At the same time he squanders his money freely and is a lavish entertainer. With the money coming as easily as it does, Barney has no intention of quitting the sport which requires him to face death—almost—a half dozen times a day.

**AMATEUR BOXING TABOOED.**

Pacific Coast Clubs Have Washed Their Hands of the Sport.

LOS ANGELES, July 28.—That a death blow to amateur boxing has been delivered at last is the opinion of those in touch with the situation.

Now that the Pacific Athletic association and the Olympic club property have washed their hands of the sport, there seems little chance for it to continue. It is believed the supervisors will refuse to grant any more amateur permits. The regular professional fights seem to be the only ones in sight. The amateur promoters are talking of forming an association of their own. Whether the supervisors will recognize this body remains to be seen.  
About two years ago, when the Pacific Athletic association threw out the amateur

boxers, the promoters took this action, but the difficulty was patched up before the attention of the supervisors was brought to the matter.

**VICTORY WAS DOUBLY SWEET.**

Winner of Brighton Handicap Vindicated Capt. Jim Williams's Judgment.

TRIBUNE Special Sporting Service.  
NEW ORLEANS, La., July 28.—Victory in the Brighton handicap was doubly sweet for Capt. Jim Williams, the Western horseman. Not alone was the first money of \$20,000 a welcome prize for him, but the winning of the

The summer cottage can be made as inviting as the town house if you use the right things to make it so. Muresco on the walls and ceilings brightens it up wonderfully.

Morrison, Merrill & Co.  
28 Main St.

rich race vindicated him as a clever judge of horses, for all along the captain has maintained that Ram's Horn is one of the best horses in training and the race he ran in the Brighton bears out the statement.

Ram's Horn recent race in the Bay Ridge handicap showed him to be back to the form expected of him, but it was not thought that he was capable of running a mile and a quarter in 2:16 2-5. In fact, the performance of the son of Bute-Ann-Tessa was a revelation to nearly everybody but the horse's stable connections.

A year ago this spring in New Orleans Ram's Horn was the kingpin three-year-old. Capt. Williams thought so well of him that he put a price of \$50,000 on him. At that time he was for sale and several Eastern owners wanted him. One offered \$25,000 for the horse, but Capt. Williams held to his price. This spring it looked as if he had lost a golden opportunity by refusing, but the Brighton handicap amply makes amends for his camerous in holding the horse.

Sam Berger of California, who got the best of Jack O'Brien.

**NOTHING SUCCEEDS LIKE SUCCESS!**

It is needless to state that I have made a wonderful success in curing my patients, as this is a fact that is well known to every one in this section of the country. My success was not made in a week, in a month or in a year, but it came gradually through hard work and long experience in the field of medicine and surgery. My diplomas clearly show that I was well prepared for beginning my work and working out my great ambition in life. I am proud of the great success I have made, and I am glad to know that my patients have not been lacking in appreciation for what I did for them, but by speaking well of my ability they have greatly helped me in building up, as you will find by inves-

tigation, the largest practice of any physician or specialist in the State. If you are in need of treatment, why waste valuable time dilly-dallying along with incompetent, unskilled physicians; why not in the very beginning consult a specialist whom you yourself KNOW from his permanently established reputation to be the best one who is able to cure you quickly?  
**REMEMBER--** That in treating with me you cannot lose anything, because I do not charge for failures, but only for permanent cures. Therefore, you should certainly, in duty to yourself, INVESTIGATE MY METHODS, which are totally different from those of any other specialist, before you place your case elsewhere.

**I Cure These Diseases After All Remedies and Specialists Have Failed Even to Benefit:**

**VARICOCELE**  
I cure Varicocele without cutting, pain or loss of time. My treatment overcomes the wormy condition, establishes a perfect circulation in the parts, and restores them to their normal size, strength and firmness, stops pain in the groins, also drains, loss of power, etc. I cure when all others fail. Come for treatment.

**NERVOUS DEBILITY**  
Results of ignorance in youth or later excesses, causing impairment or loss of vital power, nervousness, weakness of will power, sleeplessness, twitching of eyelids and muscles, palpitation of heart, pain across the back, constipation. If you ever doctored for this trouble and failed to get cured, remember you never treated with the Master Specialist of the Cook Medical Co. Cure guaranteed or no pay. Come for treatment.

**BLOOD POISON**  
You who suffer from little ulcers in the mouth or on the tongue, copper-colored spots, falling hair, sore throat, or decay of the bones and flesh, I can drive the poison from your blood forever. I invite you to call at my office at once and I will explain how I can drive the poison from your blood forever. You must master this disease or it will master you. Call to investi-

gate without further delay. No pay unless cured. Come for treatment.

**STRICTURE**  
No cutting, no pain, no stretching. It is usually due to strong injections, strains, blows, early abuse, excesses, sounds used improperly, etc. If suffering from burning or painful urination, lack of force, twisted stream, retention of urine, call and investigate my system of treatment for Stricture. It has cured others. It will cure you. No pay unless cured. Come for treatment.

**HYDROCELE**  
Is an accumulation of serous fluid in the scrotum and involves the cords to which the testicles are suspended and deprives the sexual organs of all vitality. It results from injury and is sometimes difficult to distinguish from Rupture or Varicocele. The remedy I use for curing Hydrocele completely obliterates the tumor at once, and by use of a preparation for a few days not a sign or symptom of the disease ever reappears.

**RUPTURE**  
We don't care how long you have had your rupture or who has failed to cure you. We want you to come and see us. We can cure almost every case, without operation, by our own pain-

less method. We will cure you and you can continue with your work the same as ever. With our new treatment you can throw away your truss forever in a very short time. Consultation and advice are free. Write if you cannot call. No pay unless cured. Come for treatment.

**MEN ABOUT TO MARRY**  
Should call for an examination first to see if they are fit or qualified for the marriage contract. If you are guilty of some weakness, caused by secret vice, don't try to cover it up by getting married. Marriage in this state only makes the disease worse. If you are going to get married, first be a man. Go to the Cook Medical Co. and be examined and learn if you are fit for marriage. Consultation and advice are absolutely free and confidential. Come for treatment.

**FALLEN MEN--YOUNG MEN**  
If by your own acts, through the folly of youth, you have violated a single law of nature, against body or mind, by omission or commission, especially by any habit, by constantly repeating the same, then there is no escaping the punishment made and provided for every transgression, which is Sickness, Decay and Death. The immutable laws of nature, governing and regu-

lating the universe, are so nicely adjusted, both in the animal and vegetable kingdom, that for every violation of any law there is a fixed penalty of Sickness, Decay or Death. This is as certain as night follows day. And you, young man, may pay the penalty right here on this earth, in this life, sooner or later. Escape this punishment. Take courage and go to the Cook Medical Co. and be cured.

**MIDDLE-AGED MEN**  
The springtime of youth with you has passed. Life is a sober reality. You see, feel and understand differently now. You know more. Looking back over your life you can point out the mistakes you have made. For some of the violations of nature's laws in your youth you have no doubt paid the penalty, for punishment in these transgressions is swift. But written upon nature's calendar there are other and graver charges for which you are now probably suffering for excesses indulged in not very long ago, and which you are still practicing. Nature will make no compromise in your case; you must suffer the penalty of Sickness, Decay or Death in this life, and not in the life hereafter. Now is the time to act. Be a man and ask for help. Go to the Cook Medical Co. They will lend you a helping hand and make you well and happy.

CONSULTATION FREE, CONFIDENTIAL AND INVITED, both at the office and by correspondence. Successful treatment by mail. Terms are always made to suit the convenience of anyone applying for treatment, and very reasonable charges. Do not treat elsewhere until you have investigated my methods and terms. Office hours during the week, 9 a. m. to 8 p. m. Sunday, 10 to 12:30.

**COOK MEDICAL CO. 116 SOUTH MAIN STREET**
