the growers in the State of Washing-
ton will harvest between 30,000,000 and
35,000,000 bushels. This is a big gain
over the season of 1906. All the wheat
will either find a market on the Pacific
coast or will go to the mills in the in-
terior, the price starting at 70 cents.

The labor question threatens to be a
serious one unless there is a large in-
flux of farm laborers within the next
two or three weeks, and while combined
harvesters will be used in the big dis-
tricts, thus cutting down the number
of men, it is estimated that 10,000 men
will be required in addition to the Pacific
coast. Wages will range from \$2.50 to \$3.25 for ordinary labor
and from \$5 to \$7 a day for experi-
enced machinists.

Governor Albert E. Mead has ad-
vised the Department of Commerce and
Labor at Washington, D. C., that while
all classes of workmen are needed in
all parts of the State, the greatest de-
mand is in the agricultural districts in
eastern Washington. This has become
so pronounced that Japanese and In-
dians will be employed to man the ma-
chines if the employment agencies find
themselves unable to supply the de-
mand for white men. It is also ex-
pected that many women will don over-
alls and jumpers and go into the fields.

Women in Harvest Fields.
Several hundred women were at work
in the Big Bend and the Palouse last
fall season, for the reason the ranchers
found it impossible to secure the re-
quisite number of men from the Middle
West and East. In some instances as
high as \$5 a day was offered. This
included board and comfortable quar-
ters, but the supply of men was no-
where equal to the demand. The mines,
railroad construction and lumber camps
have literally snatched up every man
who wants to work, hence the shortage
of farm hands will be greater than ever
this season.

Preparations for cutting and thresh-
ing the big crop are under way and the
beginning of the coming week will see
a full line of machines, equipped
with 32-horse teams or traction
engines, under way. Machines, which
head, cut, thresh and sack the grain,
go over from fifty-five to seventy-five
acres of land in a day, and it is only
the question of three days to clear a
quarter section, but in the Big Bend
and Palouse countries, where 5000 and
10,000-acre ranches are no uncommon
sight, it requires more machines, hun-
dreds of men and longer time.

Many of the wheat growers, oper-
ating on a small scale in this part of
the country, are at a loss to know how
they are going to make their crops,
as the buying up of all the combined
harvesters by the big producers has
put most of the thrasher outfits out
of business. The thrashermen are now
forming a combination to force new
price up to 14 cents a hundred pounds,
against 7 cents a bushel last year.

Agents for Eastern and Middle West-
ern manufacturing concerns say they
are unable to supply the demand for
machinery, the cause assigned being
that the country is growing too rapid-
ly and that their plants are unable
to fill orders. This becomes apparent
when it is understood that 1100 cars
of farming machinery and appliances
were shipped into the Inland Empire
last season, and yet this was not half
enough to fill the orders placed early
in the season.

Will Be Heavy Yield.
Growers say the yields will be from
thirty to thirty-five bushels the acre
in the Palouse country, south of Spo-
kane, while in the Big Bend district
will be from thirty-seven to forty-five
bushels. In the Snake River district
forty bushels the acre is looked for.
The Walla Walla district should cut
50,000 bushels, while the other districts
will harvest between 4,000,000 and 10,
000,000 bushels. The Rattlesnake and
Horse Heaven countries, southwest of
Spokane, will also contribute their
quotas to making up the grand total.

There has never been a similar pe-
riod in the history of the Inland Em-
pire when the crop outlook was so
promising.
Whitman county, directly south of
Spokane, and adjoining Spokane coun-
ty, will make the record crop this
season, conservative estimates placing it
at 1,000,000 bushels. This is the
prediction of Seymour Manning, gen-
eral agent for the Northwestern Ware-
house company, which confines all its
operations to the Inland Empire. He
believes that the western part of Whit-
man county will gather the largest
crop in its history, also that prices
will be higher than a year ago. This
year is shared by Samuel Glasgow, sec-
retary and general manager of the Cen-
tenial Mills company of Spokane, who
has just returned from an automobile
trip, occupying three weeks, through
the districts west and south of Spo-
kane. He said:

"Not only will the wheat crop be
the heaviest that has ever been gath-
ered in this part of the Pacific North-
west, but alfalfa, oats, barley, and hops
will make bumper yields. The country
has just enough rain to bring the best
crops, and I am sure that the benefit
will be correspondingly as great in the
irrigated fruit districts, where the or-
chardists do not depend upon the rain-
fall. With good weather until the crops
are gathered our farmers will be hap-
py."

Big Demand for Money.
While the grain crop will be the larg-
est that has yet been gathered in the
Spokane country, officials of the banks
in Spokane say they will not experience
any difficulty in providing all the money
necessary to handle the products. The
demand for money has been unusual in
the last sixty days, because of the large
amount of development work, but de-
posits have increased accordingly, and
as a result the market is easier than in
many of the Eastern centers. However,
rates have advanced from 1 to 2 per
cent over last year, loans now bringing
7 to 8 per cent. In this connection,
Aaron Kuhn, president of the "Traders"
National bank, speaking for the allied
financial institutions of Spokane, made
this statement:

"The banks of Spokane and the In-
land Empire are well prepared to take
care of the increased demand for money,
which is due to the large crop and the
heavy business expected the coming
fall. The only thing which is hamper-
ing our farmers is the lack of labor, the
supply being far below the demand.
Some of our growers are looking for \$1
wheat the coming fall, and if this is
realized, more than \$30,000,000 of new
money will be poured into the Spokane
country for that staple alone, making
the largest distribution yet made to the
farmers in this part of the country."
Reports from inspectors in various
parts of the Inland Empire show also
that this season's fruit crop will aver-
age 85 per cent of the 1906 yield, which
was a record breaker, but that tree,
vine, and bush fruits will be of better
color, size and flavor. F. A. Huntley,
horticultural commissioner for
Washington, and the men associated
with him, have taken extra precaution
in eliminating infected trees, shipped in-
to the State from the outside, and they
say the crop will bring between \$8,
000,000 and \$10,000,000, which is a gain
over the season of 1906. The apple
crop, of course, will be in the lead, be-
ing followed by peaches, cherries, and
prunes in the order named.

BEST TONIC STIMULANT
FOR THE OLD.

Mr. George I. Goodwin, a temper-
ance advocate, who is 82 years
old, has been greatly rejuven-
ated by the use of Duffy's
Pure Malt Whiskey, and
praises it as the great-
est tonic stimulant
for the old.

Mr. Geo. E. Goodwin, his son,
recently wrote: "Writing for my
father, would say that he is now
approaching his eighty-second
year, but owing to loss of sight
is not able to go out much and get
his accustomed exercise, which he
has had for years. He has never
been in the habit of using stimu-
lants in any way, but finding that
he required something of the kind,
has tried several, and prefers Duffy's
Malt Whiskey to any other.
He takes a small dose once a day,
with an equal quantity of water,
as the strength is sufficient, and
considers that he has been much
benefited by its use. As for my-
self, I never use stimulants of any
kind, but heartily approve of your
manufacture, as it has been so
beneficial to my father."

Duffy's Pure Malt Whiskey is
distilled wholly from malted grain,
and its softness, palatability and
freedom from injurious substances
make it acceptable to the most sen-
sitive stomach. There are thou-
sands of men and women in this
country alone who have passed the
hundred year mark, and nearly
every one of them has publicly ac-
knowledged that he or she owes
health, strength, continued use of
all the faculties, and extreme old
age to Duffy's Pure Malt Whis-
key, the great cure and preventive
of disease, the true elixir of life.
It is a gentle and invigorating ton-
ic and stimulant for old and young,
and its medicinal properties make
it invaluable to overworked men,
delicate women and sickly child-
ren. Duffy's Pure Malt Whiskey
has been analyzed many times by
the best chemists during the past
fifty years and has always been
found to be absolutely pure.

Thousands of leading doctors
prescribe it and prominent hospi-
tals use and indorse it exclu-
sively.
All druggists, grocers and deal-
ers or direct, \$1 a bottle. Illus-
trated Medical Booklet containing
some of the many convincing testi-
monials received from grateful
men and women who have been
cured, and doctor's advice sent
free. Duffy Malt Whiskey Co.,
Rochester, N. Y.

ANOTHER WEEK OF Midsummer Clearance Bargains

We rigidly enforce the law of the store not to carry goods from season to season,
offering thousands of dollars worth of merchandise at less than cost to make,
and clearing all broken lines, all odd lots and surplus to the last item.

Our Cloak Room for Monday
and Week Will Present Many
Unusual Bargain Opportunities

A backward spring retarded the selling of our
Summer apparel for women and children and we
have many more than we ought to have, which
must be closed out regardless of cost.

- GREAT SALE OF WASH SUITS,
DRESSES AND SHIRT WAISTS
Every item offered is of high standard, every-
thing is of good style. Now come the prices, less
than the cost of production.
\$1.75—Choice of any wash suit or dress up to
\$3.95.
\$2.75—Choice of any wash suits or dress up to
\$5.25.
\$3.75—Choice of any wash suit or dress up to
\$6.95.
\$4.75—Choice of any wash suit or dress up to
\$7.95.
\$5.75—Choice of any wash suit or dress up to
\$9.50.
\$6.75—Choice of any wash suit or dress up to
\$10.95.
\$7.75—Choice of any wash suit or dress up to
\$15.00.

A GREAT WAIST SALE

Monday morning we add dozens of fresh and clean wash waists to the
large assortments still remaining and offer them at prices that will astonish
the most careful buyer.
20 styles in wash waists. Splendid designs. Plain tailored waists or with
dainty trimmings of val or embroidery. Come in white, sheer \$1.45
lawn. Values up to \$2.95. Choice for Monday only.
Lingerie Waists, fine, sheer lawns, beautifully made, trimmed with fine val-
lace and embroidered fronts, with pretty lace collars and cuffs. Perfect
fit is assured in choosing from this lot. Waists that would
be good values for \$4.50. Monday, low price of \$2.50

Summer Skirt Bargains

\$1.95 for white outing skirts of fine Indian Head linen and pique. Gored
and plaited styles, some with one and others with two folds for trimming.
Perfect hanging skirt. All lengths, reduced for Monday \$1.95
to \$2.50.

Children's White and Colored Cotton Dresses
