WICE CURED OF SKIN TROUBLES

Stung Case a Rash Which Itched and Stung—Threatened Ten Years Later With Blood-Poison in Leg—But Both Times the Sufferer's

ALIANCE IN CUTICURA PROVED WELL-FOUNDED

About twelve or fifteen years ago, while living in West Virginia, I had a skin-aching, and it itched and stung so severely that I could not have any peace of mind. I saw three doctors and they did not agree on what it was, so I tried medicine, but I called it soda water. I used Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent and began to get better right away. They cured me and I have not been bothered with the itching since, to amount to anything, but two years ago I had a grippe pneumonia which left me with a sore in my side. Treatment ran it into my leg, which then swelled and began to break out. It got in pretty bad, so I went to a doctor. He was sure it would turn to blood-poison, and I sent for another set of the Cuticura medicine, but it did no good. I sent for another set of the Cuticura medicine. I used them three times and cured the breaking-out on my leg. I used Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent. Hennen, R. F. D. 3, Milan, Mo., 13, 1907."

Horse Races.

The Granite stake and Salt Lake Driving club will give three splendid harness races at Waddamere, July 24, TO THE QUALIFIED VOTERS OF SALT LAKE CITY.

Certain large improvements in the water system and the sewer system of this city were begun in 1905. To complete and extend these systems to meet our fast increasing population will require more money than can be secured from current revenue, hence the voters are called upon to authorize a bond issue in the sum of \$500,000.00; \$475,000.00 of which shall be applied to the completion and extension of our water system, and \$25,000.00 of which shall be applied to the completion and extension of our sewer system.

The particular uses for which this money is needed are as follows:

- (1)—For building an aqueduct on North Temple street from Fourth West to Ninth West street, to meet our surplus waters from City creek thus protecting property owners on the west side from damage to their property, and providing the city from expensive damage suits. \$55,000.00
- (2)—For extension of water mains on the west side in the Second and Third wards. \$60,000.00
- (3)—For replacing the three-inch and four-inch water mains in the Fourth ward by mains adequate to supply the rapidly growing section of the city. \$100,000.00
- (4)—For extension of the water mains in the First ward. \$50,000.00
- (5)—For enlarging and increasing the mains of the general water system of the city, securing additional water rights and enlarging and extending the East Jordan canal. \$200,000.00
- (6)—Sewer—For completing and extending the sewer system, including the intercepting sewer, pumping plant and outlet for same, which will drain a large area in the southern and western parts of the city, thus increasing the value of all property in those sections. \$125,000.00

It appears clear to the City Council that, without the expenditures of the above amounts, our citizens will be denied the benefits to which they are entitled from the large sums of money already expended in our water and sewer systems.

The City Council assures the people that, if this bond issue is approved, they will be no need to raise the tax levy for the current year, nor will there be any necessity for increasing the present water rates. The records in the Water Department have shown great gains and will provide for the interest and sinking fund for this department.

It does not seem advisable that permanent improvements of the nature above referred to, should be paid for from current revenues, as it imposes an heavy burden upon the taxpayers. The issuance of bonds and the creation of a sinking fund for their ultimate redemption, distributes and equalizes this burden over a series of years.

The estimates for the above purposes have been made after a careful investigation of the present and future needs of our city by the engineering department. The Mayor and City Council of Salt Lake City do hereby pledge themselves to carrying out the above described improvements at the least possible expense consistent with good results and do hereby further pledge themselves to expend the money only in the manner set forth in the foregoing statement.
