## OGDEN'S PURCHASE OF ITS WATERWORKS

### Mayor and City Attorney Address Labor Organizations in Behalf of Project.

Special to The Tribune.

OGDEN, Aug. 25.—Mayor A. L. Brewer and City Attorney J. M. Devine addressed the members of the Trades and Labor assembly at its regular meeting Monday evening on the subject of the city's purchase of the waterworks system.

A number of the members of the several labor organizations of the city have expressed themselves as being in favor of the system and promised to use their efforts to secure the support of the other labor organizations in the project.

Since the statement of Samuel Fortier, the engineer who constructed the waterworks system, that he had never expressed a hope that the city would purchase the waterworks, the city has been unable to purchase the system. The city has expressed its opinion on the subject of the waterworks question some time ago, but the investigation has not been completed. The purchase by the city of the present plant is a good investment, and it will be a good thing for the city.

## TAFT RECEIVES ENCOURAGING MESSAGES FROM HIS CALLERS

HOT SPRINGS, Va., Aug. 25.—While the announcement cannot be definitely made, Mr. Taft today gave it as his belief that Wade H. Ellis, attorney-general of Ohio, will accept the position of attorney-general in the party here, to succeed Milton D. Purdy, who has been promoted to a federal judgeship in Minnesota.

Mr. Taft was expressed after a conference between Mr. Ellis and Mr. Taft here today. Mr. Ellis preferred not to make a statement at this time. He came here after a conference with Attorney-General Bonaparte at Lenox, Mass., and said that he had entirely recovered his health. He was offered the position shortly after the Chicago convention.

## Receives Good News.

Optimistic political information was brought to Mr. Taft from several sources today. Though he participated in several conferences, none of them, he said, was of his nature. Senator Albert J. Hopkins of Illinois, who has been in Washington to attend the meeting of the bureau's committee on the tariff commission, said that Mr. Taft to be present September 9 at the Republican state convention at Springfield, Ill. A platform is to be adopted at this convention and trustees of the State university nominated. If Mr. Taft would attend, Mr. Hopkins said arrangements would be made to open the state campaign at that time. The senator also said that Mr. Taft would be impossible for him to accept the invitation, but if a speech-making tour for Mr. Taft is decided upon, Illinois will be included.

Senator Mr. McKim of North Dakota, bringing with him James Kennedy, Republican national committeeman from that state, were unannounced visitors. Mr. Taft was informed that North Dakota wanted to be included in the speech-making itinerary that might be arranged for him. Speaking for his own state as well as for Minnesota,

Montana and South Dakota, Mr. McKim predicted that a very little, if any, change would be found in the electoral votes. It had been demonstrated, therefore, he said, that state issues and local differences in the party here situation if any, effect on the national situation.

Hopkins Talks Tariff.

Senator Hopkins, who is chairman of a subcommittee of the tariff commission, having to do with the scheduled articles of import which come in competition with American manufacturers, said he should call his committee into action soon.

The tariff, he believed, would develop into the chief issues of the campaign. It was also his opinion that the revision of Congress would result in the reduction of many schedules, and the adoption of a maximum and minimum tariff which would include in the latter case a sufficient number of articles to make a tariff much more effective than is the present Dingley tariff.

Mr. Hopkins believes the Republican platform is limited to the extent of 100,000 majority, although he concedes that Mr. Gompers may turn some labor votes to Bryan.

"But," added Senator Hopkins, "my opinion is that Bryan's record as a free trader will more than offset the votes he will get from Gompers. Bryan's record is limited to the extent of 100,000 majority, although he concedes that Mr. Gompers may turn some labor votes to Bryan.

## NEW ORGANIZATION TO CONSERVE OUR RESOURCES

CINCINNATI, Aug. 25.—Congressman Joseph E. Bland of Louisiana, president of the National Rivers and Harbors congress, was in this city today to confer with Capt. J. F. Ellison, secretary to the congress, regarding the Conservation League of America, a new organization which was recently formed through the initiative of the Rivers and Harbors congress.

The purpose of the league is to develop and preserve the natural resources of the nation, and to secure proper legislation, both State and Federal, for the conservation, use and improvement of our vast resources of earth, water, forests and minerals.

The league is national in scope and non-political in character, its sole object being to secure proper legislation, both State and Federal, for the conservation, use and improvement of our vast resources of earth, water, forests and minerals.

## LOYAL REPUBLICANISM

What is it? Where is it to be found? Is it on guard upon the great issues now obtaining in the political arena of the Republic? Is it in the ranks of the Inter-Mountain Republican of this city in an article Tuesday attacked the loyalty of the undersigned as an exponent of Republican doctrine. True Republicanism will live through eternity, for their cardinal virtues are truth and good will to all mankind.

The Republican party in Utah came into life pledged to perpetuate these truths. That our Republican party in this county and state is divided in its working power and interest at the present time is a truism. But who is responsible for this division and what is the remedy? The answer, the dictators and officeholders of our party alone are responsible. It is a mathematical truth that the whole is greater than one or several of its parts. A house divided

must surely fall. Selfishness is the political dry rot which destroys the usefulness of any party.

Republican Utah, your duty is plain. You in the majority, I know, stand for an honest organization which shall represent and unite every Republican in this state to work for our party's success now. Our standard bearer, William H. Taft, is the plumed knight of the Republican party in the coming national election. Taft clubs should be organized in every hamlet, town and city in the state, having for their flag motto, "All Republicans welcomed." With such a voiced expression in the organization of the Republican party of success now is assured. Unless this majority rule principle is adopted sure defeat awaits us in November. I stand for a united majority rule Republicanism in Utah.

C. S. BUCKWALTER.

## BOYS ARE ARRESTED AS CHICKEN THEVES

Whether William F. Gayler and Joe Smith had not only the chicken business in this city, thought of going into the chicken business is a matter of party's success now. Our standard bearer, William H. Taft, is the plumed knight of the Republican party in the coming national election. Taft clubs should be organized in every hamlet, town and city in the state, having for their flag motto, "All Republicans welcomed." With such a voiced expression in the organization of the Republican party of success now is assured. Unless this majority rule principle is adopted sure defeat awaits us in November. I stand for a united majority rule Republicanism in Utah.

## ANOTHER SUCCESSFUL HOLDUP OF STAGE

Long Bandit Seizes About \$1500 From Passengers on Cody-Meeteetse Line.

ST. PAUL, Minn., Aug. 25.—A special to the Dispatch from Helena, Mont., says:

The stage running between Cody and Meeteetse, Wyo., just across the Carbon county line was held up today and robbed by a single highwayman who received as a reward for his efforts an amount estimated at \$1500. Posses are being organized in Red Lodge, Cody and Meeteetse to take up the bandit's trail.

Because of the rough nature of the country little hope is entertained for his capture. There is a possibility that the man who did this job is the same man who yesterday held up the sixteen coaches in Yellowstone park, but this is doubtful. The same tactics, however, were followed, the passengers and driver being compelled at the muzzle of a rifle to deposit their valuables at a point near the road, and they were afterwards gathered up by the desperado.

The bandit is described as a man of medium size and attired in a typical cowboy outfit.

## TWO CASES TRANSFERRED TO FEDERAL COURT

Two cases were transferred from the Third District court to the Federal court Tuesday morning. The case of the Utah Trust company, in which J. H. Heron acted as bondsman for James Roman, was the first of these two cases.

That of A. Richter, administrator of the estate of Mrs. Richter, was the second case. Mr. Richter is suing for \$25,000 because of the death of Mr. Leigh in an automobile accident. The case was transferred to the Federal court because Mr. Leigh, in company with several others, was inspecting the Boston Con rope works at that time, and the case was started suddenly and Mr. Leigh and Seth Taft, a member of the 1907 Legislature, were killed.

## ARTHUR ADAMS WILL BE BURIED IN WASHINGTON

Special to The Tribune.

WASHINGTON, Aug. 25.—Arthur Adams, the bookbinder from Salt Lake, who committed suicide in Washington late last night by inhaling illuminating gas, will be buried in Washington under the auspices of the Bookbinders' union. He had been despondent since the death of his wife in Salt Lake August 3.

The man was discovered about 7 o'clock last evening in a dazed condition in his boarding house. News of his death was not given out until late last night. He left notes giving directions about the disposition of his personal effects and as to his burial. ## C. O. HARRIS VISITING OLD STAMPING GROUND

C. O. Harris, former secretary of the Manufacturers and Merchants' association of this city, and now located in business at St. Anthony, Idaho, is visiting some of his old friends here. He has been troubled for some time with an affection of the eyes, which has greatly impaired his vision, and he is in the city for a specialist while here. Mr. Harris comments on the changed appearance of the city, and the fact that the projected skyways, which were then hardly to be seen, were now being completed and others were in course of construction that were at that time not even thought of.

## PRINTERS RETURN FROM THE INTERNATIONAL

Burt L. White and Charles M. Hirsch, of the two Salt Lake City delegates to the convention of the International Typographical union recently held at Boston, have returned to the city, and have been pleased with their trip generally. One of the new experiments which the convention has adopted is the payment of a pension of \$4 a week to members of the union fifty years of age and who have been members of the union for twenty years. Many other questions of importance were considered, and from a standpoint of the conference proved a huge success.

The former pastor left a letter to Charles N. Dowd, of this city which in part follows:
