### NOTES OF "U"

The juniors at the University met Wednesday and elected Roy Groesbeck vice-president for the coming year. The president is Alfred A. Anderson, who is at present in Mexico, but will return to school some time next week. No vice-president was elected last year, but on account of Mr. Anderson's late return it seemed advisable to select one. Robert Goodwin was made treasurer of the class to take the place of Vester Laubly, who will not resume his studies this year. Glen Keop was chosen to fill Harry Alley's place as chairman of the executive committee. Alley is manager of the Chronicle, and will not have time to take care of the work as he feels he should.

Francis M. Shepperson, professor of history in the University of Chicago, was a visitor at school Tuesday afternoon. Mr. Shepperson was secretary to President Harper for several years, and stands very high in educational circles throughout the country. During the afternoon he was shown about school by the president, and had nothing but words of praise for the institution. At 4 p. m. Mr. Shepperson left at noon Wednesday for the East.

At a joint meeting of the freshmen and sophomore classes it was decided to devote Thursday morning to the work connected with the completion of the P. J. Moran walk. While the day has not been officially set aside as a holiday, all absences will be excused, providing the man is at work on the walk. In order that there shall be no confusion a timekeeper has been selected to keep careful account of the men who are actually engaged in mixing the concrete. These men also will come in for a lunch at the University's expense, to be served in the lunchroom in the gymnasium annex. Two professional finishers will be on hand to assist the boys, and if present plans do not fail, the project should be pushed to completion.

The Educational Review made its appearance Tuesday. The paper is larger than last year, and Editor Fred Reynolds is looking forward to a most successful period in the life of the publication. This is the only magazine of its kind in the State, and educators in general are beginning to appreciate its value.

Educational dignity received a severe shock Wednesday morning, when some practical jokers from among the lower classes introduced a strange visitor into the mysterious of mechanical drawing and the fumes of "chem lab." It was not until half a dozen classes had been broken up and interest in several others badly demoralized that threats from the discipline committee persuaded the students to take the cause of the disturbance out on the campus. Here he and his friends continued to cause all kinds of merriment with their foolish and lively antics. "The thing" was nothing more than an innocent gray jackass, who seemed, strangely, to show a particular attachment for some of the students. They decided that a taste of higher education would be for his mental betterment. Accordingly, they toggled him out in a canvas bag bearing the numerals of the '11 and '12 classes and introduced him to the school. This visit is by long odds the most sensational since the "Court King of Korea" invaded school some years ago.

### JUDGE KING TO TALK ON DES MOINES PLAN

Judge William H. King will deliver an address tonight on "The Des Moines Plan of Municipal Government." In the town room of Judge Armstrong, in the city and county building at 10 o'clock. The address is given under the auspices of the Sons of Utah, a recently formed, but strong organization.

Judge King will give the result of his personal observation of the subject matter of his address, and it is to be a treat to all those interested in civic improvement.

### TWO BOYS COMMITTED TO INDUSTRIAL SCHOOL

Judge E. G. Gowans of the Juvenile court heard seven cases, ranging from truancy to robbery, Wednesday, but let two of the offenders off with a reprimand except LeGrand Wilcox and William Teuscher. These boys were sent to the Utah industrial school for truancy and using tobacco. Wilcox is only 10 years old, while Teuscher is 12.

### AUSTRIANS APPEAL TO DISTRICT COURT

The cases of Mike Papich, Joe Miller, Joe Ostch, Joe Zillich, Steve Zorich, Joe Puzelo and Mike Zockovich, Austrians, charged with disturbing the peace in connection with the religious riots of warring Greek Catholic and Roman Catholic Austrians at Garfield, have reached the district court on appeal from Justice Holm's and Justice Lundberg's courts.

### SIX CHILDREN IN ONE FAMILY ARE AFFLICTED

J. S. Scheib's family, at 955 Euclid avenue, is sorely afflicted with whooping cough, which has been prevalent in Salt Lake City for several weeks. All six of the children, ranging in ages from six weeks to six years, are afflicted with the disease. The children are: Ashton, 6 weeks old; Emma, 1 year old; Edith, 2; Agnes, 3; Mattie, 4; and Leona, 5. The cases were reported to the board of health by C. T. Sandberg.

### Best Medicine Says a Doubting Thomas

"I Am Convinced That Duffy's Pure Malt Whiskey Is the Best Medicine I Have Ever Taken. I Say This With Due Deliberation After the Use of Two Bottles."—Chas. E. Getchell, Webbs Mills, Maine.

Mr. Getchell, Like Thousands of Others Who Have Been Greatly Benefited by the Use of Duffy's Pure Malt Whiskey, Cannot Say Too Much in Praise of This, the World's Greatest Medicine. On November 18, 1907, Mr. Getchell wrote as follows:

"After due deliberation, having used two bottles of Duffy's Malt Whiskey, I am convinced that it is the best medicine that I have ever taken. At first I was doubtful, but I doubt no more, for I can truly say to you and to the world that its use has improved my health so much I feel like a new man. For the past five years I have been able to work but little, with pains in my kidneys and bladder. I suffered continually, and until I began to take your Malt Whiskey I got no relief, but since then I have been growing better every day. You cannot imagine how happy I am to be able once more to walk three or four miles without any of the old trouble, and I sincerely thank you for calling my attention to your valuable medicine, and be assured I shall always keep it in the house. If any one wishes to write me concerning it I shall be glad to answer."

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a pre-digested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water. Duffy's Pure Malt Whiskey is sold throughout the world by druggists, grocers and dealers, or shipped direct for \$1.00 a large bottle. If in need of advice, write Consulting Physician, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctors will send you advice free, together with a handsome illustrated medical booklet containing some of the many thousands of gratifying letters received from men and women in all walks of life, both old and young, who have been cured and benefited by the use of the world's greatest medicine.

## THREE DAYS THIS WEEK TO WORK ON CLUBS OF THREE

There are three days yet that candidates may receive extra votes on clubs of three. Saturday night at 8 p. m. this offer will be withdrawn, and will not again be extended. This is the time to lead a strenuous life and hustle from morning until night, as the votes you add to what you already have may be the means of adding 1000 shining dollars to your bank account. Keep busy every minute. Miss Louise Broberg, of Salt Lake City, advances to first place today.

TEMPERATURE GETS UP ONE DEGREE HIGHER

Weather Prophet Gets Little Off in Predicting a Drop.

WEDNESDAY TEMPERATURES.  
Maximum.....51 degrees  
Minimum.....54 degrees  
Forecast—Thursday, fair.

The fact that Dr. Hyatt predicted a fall in the temperature Wednesday morning reached a maximum of 51 degrees higher than it did the day previous. The sky was more or less overcast with light clouds, but the doctor's prediction is not indicative that there will be a change in the weather. Wednesday's forecast described the prevailing conditions as follows:

Barometric depressions prevail over the south and middle plateau of the upper lake region this morning. The North Pacific and Atlantic barometer is high. These conditions have caused showers or thunderstorms in portions of southern California, Missouri, Minnesota, Louisiana, and South Carolina, and New Orleans 1.40 inches of rain. Temperature changes are generally a fall of 10 degrees to 20 degrees in portions of Oregon, Idaho, Dakota, Minnesota, Kansas, and Salt Lake City and vicinity, fair.

A meteorological record at Salt Lake of the United States for the twenty-four hours ending at 4 p. m. is as follows:
