The Wonderful Blood of Man

Dies and Is Born Again With Every Breath of the Lungs.
Human blood contains red and white corpuscles. The little red soldiers carry food, strength and vitality to all parts of the body and the little white warriors fight the battles of the body.
When through poor eating, wrong digestion, disease or whatever the cause may be, the blood becomes filled with poisons and impurities the little red and white soldiers cannot do their work properly and hence they become a menace rather than an aid to the rest of the body.
20,000,000 corpuscles die with every breath of the lungs. To rid their ranks of enemies they throw them into the cells of the skin or down deep in the tissues and man has to suffer pimples, boils, blackheads and eruptions.
Stuart's Calcium Wafers are scientifically prepared under the highest of expert supervision and give to the blood through its regular nourishing channels—the stomach and digestive canal—a purifying food and invigorator.
Calcium Sulphide is one ingredient—the greatest blood purifier known to chemistry. Quassia, Golden Seal and Eucalyptus are other component parts, each having a particular office for the elimination of impurity and the rebuilding of the blood.
The remarkable feature about Stuart's Calcium Wafers is that they act so speedily and so efficiently that they tone up the whole system from the point of perfect blood almost beyond conception.
Their peculiar charm lies in the method of manufacture which insures the fullest strength of the ingredients beyond all other manner of preparation. One does not purchase an untried blood cleanser in Stuart's Calcium Wafers, but a blood builder and purifier backed by thousands of men and women whose use of it is its greatest testimonial tribute. Ask your druggist. He sells them for 50c, or send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

GROWING CHILDREN

Need a Strength Building Tonic.
Daughter of Mrs. Simmons of Lakewood, N. J., was RESTORED TO HEALTH BY VINOL.
"Our daughter, who is twelve years of age, was in a very run-down condition from fast growing. We were advised to try Vinol to build her up, and after using four bottles she has a good healthy color, is free from nervousness and has gained eight pounds. She is now full of life and ready for out-door exercise, where previously she moped in the house. I can cheerfully recommend Vinol as a first-class tonic reconstructer and one that will do rapidly growing children a world of good." Mrs. T. Simmons, 250 Main st., Lakewood, N. J.
This is because Vinol is the best cod liver and iron tonic in the world, does not taste of oil, and has no equal to create strength and build up health for delicate children, feeble old people, weak run-down persons, and after sickness, and is a remarkable cure for chronic coughs, colds and bronchitis.
Try Vinol. If it does no good, your money will be returned on demand. That's your guarantee, but we know it will benefit any such case. Druel & Frankel, also Smith Drug Co., Salt Lake City.

Fat Is An Offense.

"The female form being capable of expressing a supreme degree of grace, should be an inspiration in our daily lives and lead up to higher ideals of beauty."—said the lecturer.
"Therefore the fat woman is an enemy to the artistic uplift, for she is entirely too heavy for any wings of fancy to raise.
I can't understand how any woman will remain fat when it is so easy to reduce one's flesh. In the Latin quarter of Paris one never sees a gross figure. Although the art models take things easy, sit around a great deal and eat just whatever they please, yet they keep their flesh firm and their figures beautiful. They have a simple fat reducer that takes the place of starving and gymnastics. It consists of a teaspoonful after meals and at bedtime of this simple receipt: 1/2 ounce Marmola, 1/2 ounce Fluid Extract Cascara Aromatic and 2/4 ounces Peppermint Water. That's all. Why don't fat pudgy American women try that? It's harmless—nay, very good for them—and will, I understand, take off as much as a pound of fat a day. Any one with a little small change and a drug store handy can have a decent figure."
